The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, JANUARY 6, 1906.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 17th November 1905.

From the 25th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 18th November all Notifications and other matter intended for publication in the Gazette should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

J. J. MEIKLE,
Offg. Publisher, Gazette of India.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not " designs " within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.

H. G. GRAVES,

Secretary under the Inventions
and Designs Act, V of 1888.

UNCOVENANTED SERVICE FAMILY PENSION FUND.

NOTICE.

The sixty-eighth Annual General Meeting of subscribers to the above Fund will be held in the Town Hall on Saturday, the 27th January 1906, at 3 P. M., to receive the Report of the Directors, to lay before the Meeting the Books of the Fund together with an abstract statement of the accounts and a list of subscribers and incumbents in accordance with the Fund Rule 58, and to fill by election under Rule 5 the three vacancies caused by the retirement by rotation of three Directors, also to elect Auditors for the ensuing year, as required by Rule 8.

By order of Directors,
RIVERS HOWE,
Secretary.

SUPPLEMENT TO

The Gazette of India.

No. 1.} CALCUTTA, SATURDAY, JANUARY 6, 1906.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 28th December 1905, based on the India Daily Weather Reports of the period.

During the week under review the weather has been feebly unsettled in two areas, *vis.*, the Assam Valley and the neighbouring parts of Upper Burma and Bengal and over the north-west Himalayas and Baluchistan. In neither area was there any distinct storm, but scattered showers were received on most days of the week. The principal falls (exceeding 1" in 24 hours) were :—1·61" at Chittagong on the 24th, 1·08" at Sonemarg on the 25th, and 1·60" at Sonemarg on the 26th.

The rainfall table shows that the week's fall more or less exceeded the normal in Upper Burma, East Bengal, the Assam Valley, the Dinajpur sub-division and in Baluchistan.

Except over the two areas mentioned above the weather was dry throughout the week. Over the greater part of the country the anticipated fall for the week under review is small, but over the south of the Peninsula moderate rain is ordinarily received and this was absent during the period under review. At the close of the week conditions were unsettled over the Persian area, Baluchistan and north-west India, and rain on the plains, and snow on the hills appeared probable.

W. L. DALLAS,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,

Secretary to the Government of India.

SIMLA;

The 28th December 1905.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs., on Thursday,
the 4th January 1906, based on the India Daily Weather
Reports of the period.**

During the week under review a shallow storm of the cold weather type passed from upper India east-south-eastward to the head of the Bay. It occasioned rain and snow over the Himalayas, and rain over the Submontane districts of northern India and over Bengal. The principal amounts registered were :—0·57" at Sonemarg, 0·50" at Murree, 0·48" at Ranikhet, 0·35" at Bahraich, 0·32" at Cherat and 0·28" at Roorkee on the 29th December; 2·17" at Sonemarg, 1·04" at Dras, 0·57" at Sialkot, 0·56" at Burdwan, 0·50 at Simla and Narayanganj, and 0·48" at Berhampore on the 30th; and 0·82" at Chakrata, 0·48" at Dehra, 0·46" at Saugor Island and 0·42" at Barisal on the 31st. By the first January the storm had disappeared, and from that date till the 4th, when the week closed, the weather was quiet, and the only rainfall reported was a few trifling showers over north-east India and Upper Burma.

The rainfall table shows that slight rain was received during the week over most districts of northern India, but that the weather over the central divisions and the Peninsula was practically rainless throughout the period. In Bengal, the Simla hills and Orissa the small normal fall of the week was exceeded, while on the Madras coast there was a considerable deficiency.

At the close of the week ordinary cold weather conditions prevailed over the Indian region, and over the Persian area whence rain ordinarily advances at this season, the weather was quiet and settled, so that the existing conditions favour dry and fine weather over India for the present.

Punjab.—All districts except Rohtak, Ferozepore, Lahore and Multan received slight rain during the week. The price of wheat is rising in Gurgaon, Ambala and Amritsar and falling in Jullundur; the prices of other staples are fluctuating slightly. Cotton picking is practically finished. Sugarcane pressing continues, also the harvesting of *toria* (*Brassica campestris*) and the sowing of spring crops in Ferozepore, Sialkot, and Mianwali. The condition of the standing irrigated crops is good to fair and that of unirrigated crops below average to bad. Rain is badly wanted in most districts. The outturn of the autumn crops is average to poor; that of *toria* average in Amritsar, Sialkot, Shahpur and Lyallpur. Unirrigated wheat has been damaged by white ants in Gurgaon and turnips by the *hadda* disease in Multan, where locusts have also damaged turnips and wheat. Cattle are weak for want of sufficient and proper nourishment in Rohtak, Gurgaon, Delhi, and Amritsar; improvement is noticeable in Shahpur as turnips are increasing the fodder-supply. Fodder is still very scarce. The canal supply is insufficient in Rohtak and Delhi and tanks have nearly dried up in Ambala. The condition of opium is good in Lahore.

North-West Frontier Province.—There were slight showers all over the province during the week: the rain has been opportune and has much benefited the standing crops and facilitated further spring sowings which are likely to be much above the normal. The weather is bright but exceptionally cold. The water-supply is sufficient. Fodder is sufficient except in the Daman tract of Dera Ismail Khan. Prices are slightly falling. Prices:—wheat 12 to 16, gram 15 to 22, maize 18 to 21 and bajra 15 to 16 seers per rupee.

Jammu.—There was slight rain during the week. Prices are fluctuating. Wheat sells from 13 to 24 seers and maize 14 to 34 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient.

Kashmir.—The weather is snowy and extremely cold. Prices are stationary.

Rajputana.—The rainfall of the week was as follows:—in one district of Bikaner 43 cents and slight showers in two other districts; in one district of Bharatpur 15 cents; and slight showers in the western districts of Jaipur, average fall in Alwar 6 cents. The spring crops are being watered or weeded; the cultivated area is generally restricted especially in North Mewar, Jaipur, Kishangarh, Alwar, Karauli, Bharatpur, and Ajmer-Merwara, where prospects are very poor. The standing crops in North and Central Kotah are withering for want of rain; elsewhere their condition is fair to good. Some damage from locusts is reported from parts of Marwar and Mewar. The condition of cattle is poor in North Mewar, Jaipur, Kishangarh, Alwar, Karauli and Bharatpur. In these tracts and in Tonk, Dholpur, Ajmer-Merwara, parts of Marwar, and of Kotah, pasturage and fodder are very insufficient. Prices have risen considerably in Bundi and Jhalawar; slightly in Bharatpur and Dholpur; and are steady or nearly steady elsewhere. Prices are generally much above the normal particularly in Bikaner, Shahpura Bundi, Kotah, Alwar, Karauli, Bharatpur, and Dholpur. The water-supply is failing in parts of Kotah and Jhalawar. Numbers on famine relief were as follows:—Ajmer 18,799; Merwara 16,801; Marwar 3,696; Dholpur 1,823; Kishangarh 3,597. On test works:—Mewar 1,658; Shahpura 976; Tonk 77; Jaipur—on special works 3,812; Alwar 722; Karauli 3,436; Bharatpur, including special works, 7,747; on gratuitous relief:—Mewar 490; grand total 63,634 or an increase of 2,383.

The special report for the week ending the 30th December is as follows:—Ajmer-Merwara:—on works—Ajmer 12,772; Merwara 11,005; on gratuitous relief—Ajmer 6,027; Merwara 5,796; total 35,600; decrease of 237. Prices are high and are nearly steady. Prices—Ajmer 12½ and Merwara 13½ seers per rupee. A few cases of emaciation are noticeable in Ajmer. There is no wandering or large influx of foreigners. Relief measures are adequate and liberal suspensions of land revenue have been granted. The public health is good. A charitable committee is arranging to issue clothing. Native States:—Marwar:—on works 2,570; on gratuitous relief 1,120; total 3,696; Dholpur—on works 1,303; on gratuitous relief 520, total 1,823; Kishangarh—on works 1,581; on gratuitous relief including special relief 2,016; total 3,597. Prices:—Marwar 13½, Dholpur 11½ and Kishangarh 14 to 16 seers per rupee. Prices are much above the normal. Relief arrangements are adequate. A charitable committee is working at Jodhpur. There is no epidemic prevalent.

Central India.—Rainfall:—36 cents in Bundelkhand but none elsewhere. The irrigation of spring crops is in progress in Gwalior, Indore and Bundelkhand. Harvesting of autumn crops is in progress in Bhopal, Baghelkhand and Malwa. The condition of the standing crops is good in parts of Gwalior, and Indore; fair in Bhopal and Bhopawar and in parts of Malwa; average in Bundelkhand; and indifferent in Baghelkhand. The prospects of irrigated spring crops are normal in parts of Gwalior. The probable outturn is good in parts of Indore; fair in Bhopal; average in Bundelkhand; below average in Baghelkhand and Malwa. Winter rains are needed for spring crops in Bhopawar. Agricultural stock is good in parts of Gwalior, Malwa, and Bhopawar; fair in Bhopal and in Bundelkhand. Pasturage is good in parts of Gwalior, Baghelkhand, Malwa, and Bhopawar; sufficient in Indore; fair in Bhopal; and scarce in north of Bundelkhand. Prices are steady in Gwalior, Indore, and in parts of Malwa;

normal in Bhopal; continue high in Baghelkhand; are rising in Bundelkhand; and fluctuating in Bhopawar. Opium is good in two pergunas of Gwalior; and fair in Bhopal and Bhopawar. Conditions are unaltered in Northern Gwalior where famine and scarcity prevails.

Central Provinces.—With the exception of very light showers in Saugor, Damoh, and Jubbulpore, the weather has been clear and cold. The standing spring crops are generally in fair to good condition, but those on light soils are not thriving well for want of moisture. Rain would improve prospects throughout the Provinces. The harvesting of juar, still continues in a few districts. Threshing of autumn crops, and picking of cotton are in full swing. Prices show a tendency to rise in the Northern and Nerbudda Valley districts; elsewhere they are steady or fluctuate slightly.

Baroda.—For week ending 23rd December. The numbers on relief were as follows :—on works 2,817; on gratuitous relief 186; total 3,003.

Bombay.—There was very slight rain during the week in parts of Sukkur. The standing crops are withering in parts of Broach, the Deccan, the Karnatak, Batoda, and Kolhapur. Harvesting of autumn crops is nearly completed in parts of Kolhapur and continues in parts of the Karnatak, Kanara, Cutch, and Mahi Kantha. Threshing is in progress in parts of Sukkur Larkana, the Upper Sind Frontier, the Konkan, the Deccan, Palanpur, and Mahi Kantha. Sowing of spring crops is in progress in parts of Sind, Kaira, Kanara, and Baroda. Picking of cotton continues in parts of Hyderabad, Thar and Parkar, Kaira, Broach, Surat, Khandesh, Nasik, Bijapur, and Rewa Kantha. The fodder-supply is sufficient except in parts of Karachi, Larkana, Hyderabad, the Deccan, the Karnatak, Kathiawar, Baroda, Cutch, and Kolhapur. Agricultural stock is sufficient and in good condition except in parts of Karachi, Sholapur, Satara, the Karnatak, and Kolhapur. The water-supply is adequate except in parts of Surat, the Deccan, the Karnatak, Kathiawar, Kolhapur, and Baroda. Prices have risen in four districts; have fallen in one district; and are stationary elsewhere. The numbers on relief for the week ending 23rd December were as follows :—on test works—Belgaum 563; the daily averages on gratuitous relief were as follows :—Ahmednagar 945; Poona 363; Bijapur 1,187; Belgaum 1,772; total 4,267. Large numbers have emigrated from British territory into Berar for harvesting, but it is stated that employment for still further numbers will not long be available, the season not being very good. The following information about the Sholapur district has been received since last week's report :—Labourers have largely emigrated; cultivators are taking or sending away superfluous cattle; the dry crops are good in one-fifth of Sholapur taluka, in a few villages of Pandharpur, and in most of Barsi. Well irrigation will give good crops of fodder and provides employment for many. People in Central and Eastern Sholapur are getting sufficient work and there are no signs of distress. Good stores of fodder are available in many places and surplus is coming into the market for sale. Labourers on the Railway and Public Works Department works are getting 3 annas daily; the few people who ask for work are unwilling to take famine wage.

Hyderabad.—There was no rain during the week. The early rice harvest is nearly completed. The spring crops have suffered more or less in thirty-one taluks; in a few others the estimated outturn will be under eight annas in the rupee. Late rice is being generally sown but the area is limited owing to the insufficient water-supply. Fodder scarcity is reported from nineteen taluks and water scarcity from eleven taluks. The price of jowar has risen from $\frac{1}{2}$ to 5 seers per rupee in seventeen taluks and has fallen from $\frac{1}{2}$ to 2 seers in three. Prices :—wheat $10\frac{1}{2}$; coarse rice $7\frac{1}{2}$; and jowar 17 seers per rupee.

Mysore.—Prices are generally steady. Crops are being harvested and prospects are fair except in parts of Tumkur and Chitaldrug. Cattle are healthy except in parts of Tumkur. The fodder-supply is limited in Chitaldrug and in parts of Shimoga.

Coorg.—Picking of coffee and reaping of rice continue. The prices of food-grains are normal. Water and fodder are sufficient.

Madras.—There was no rain during the week. Irrigation supplies are generally sufficient except in parts of the Circars, Bellary, Anantapur, South Arcot, Salem, Trichinopoly, Tanjore, and Madura. Ploughing, sowing, weeding and transplanting are in progress. The standing crops are generally fair but require more rain in parts of Ganjam, Bellary, Chingleput, Salem, Coimbatore, Tinnevely, and Malabar, while some in parts of Kurnool, Cuddapah, Tanjore, and Madura are withering. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient everywhere except in parts of Ganjam, Kistna, Bellary, and Coimbatore. Fodder is scanty in parts of Godavari, Kistna, Chingleput, South Arcot, the Central districts and Tanjore. The condition of cattle is generally good. The price of rice is stationary in five districts; has fallen in eight; and has slightly risen in nine. The prices of millets have fluctuated as follows :—Ragi is stationary in five districts;

has fallen in five; and has slightly risen in ten. Cholan is stationary in one district; has fallen in five; and has slightly risen in seven. Cumbh is stationary in two districts; has fallen in two; and has slightly risen in ten.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, JANUARY 13, 1906.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 17th November 1905.

From the 25th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 18th November all Notifications and other matter intended for publication in the Gazette should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

- No. 187 of 1898.—The Linotype Company, Limited. *Improvements in and connected with linotype machines.* (From 28 December 1905 to 28 December 1906.)
- No. 199 of 1898.—The Linotype Company, Limited. *Improvements in the distributing mechanism of linotype and analogous machines.* (From 7 January 1906 to 7 January 1907.)
- No. 200 of 1898.—The Linotype Company, Limited. *Improvements in the ejector mechanism of linotype and analogous machines.* (From 7 January 1906 to 7 January 1907.)
- No. 207 of 1898.—The Linotype Company, Limited. *Improvements in the trimming mechanism of linotype machines.* (From 7 January 1906 to 7 January 1907.)

- No. 208 of 1898.—The Linotype Company, Limited. *Improvements in the mould wheel controlling mechanism of linotype machines.* (From 7 January 1906 to 7 January 1907.)
- No. 209 of 1898.—The Linotype Company, Limited. *Improvements in the pump stops of linotype machines.* (From 7 January 1906 to 7 January 1907.)
- No. 212 of 1898.—The Linotype Company, Limited. *Improvements in linotype matrices.* (From 7 January 1906 to 7 January 1907.)
- No. 192 of 1899.—Guglielmo Marconi, and The Wireless Telegraph and Signal Company, Limited. *Improvements in apparatus employed in wireless telegraphy.* (From 29 December 1905 to 29 December 1906.)
- No. 370 of 1899.—Isaac Shone and Edwin Ault. *Improvements in and relating to ejectors for raising sewage and other liquids.* (From 23 March 1906 to 23 March 1907.)
- No. 387 of 1899.—Fatchmahomed Imamsaheb. *Improvements in fibre extracting machines.* (From 26 February 1906 to 26 February 1907.)
- No. 224 of 1900.—N. Futehally & Co. *A machine for a speedy decortication of aloë fibre and other fibrous plants.* (From 22 January 1906 to 22 January 1907.)
- No. 436 of 1900.—William Walter Lean. *A new or improved clasp or fastening.* (From 6 March 1906 to 6 March 1907.)
- No. 5 of 1901.—John King Macdonald. *Improvements in sewing machines.* (From 18 February 1906 to 18 February 1907.)
- No. 356 of 1901.—William John Osborn. *Improvements in apparatus for filling vessels with petroleum.* (From 7 April 1906 to 7 April 1907.)
- No. 448 of 1901.—Percy Hulburd. *Improvements in cocks or valves.* (From 6 January 1906 to 6 January 1907.)
- No. 449 of 1901.—Percy Hulburd. *Improvements in joint rings or washers for steam and other pipes.* (From 6 January 1906 to 6 January 1907.)
- No. 450 of 1901.—Thomas Henry Pearse. *Improvements in rollers for cotton gins and the like.* (From 20 February 1906 to 20 February 1907.)
- No. 452 of 1901.—Percy Hulburd. *Improvements in or connected with the mounting or fixing of the glass tubes of sight feed lubricators, water gauges, and the like.* (From 6 January 1906 to 6 January 1907.)
- No. 459 of 1902.—Horace Gabriel Heimann. *Improvements in punkah pulling machines.* (From 21 January 1907 to 21 January 1908.)

No. 77 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling and using the said inventions in British India, and of authorising others so to do, has ceased:—

- No. 66 of 1901.—Benjamin Garver Lammé. *Improvements in systems of electrical distribution.* (Specification filed 24 September 1901.)
- No. 72 of 1901.—Hugh Fitzalis Kirkpatrick-Picard. *Improvements in or relating to the treatment of complex sulphide ores.* (Specification filed 30 September 1901.)
- No. 74 of 1901.—Henriette Auguste Strauss. *A portable mosquito and fly guard.* (Specification filed 30 September 1901.)
- No. 82 of 1901.—William James Potter and Nawab Syed Abdur Rasheed Khan, *Improvements in typewriters.* (Specification filed 1 October 1901.)
- No. 91 of 1901.—William Alfred Lambert. *An improved system of punkah working.* (Specification filed 2 October 1901.)
- No. 104 of 1901.—Thomas Henry Lewis. *Improvements in devices for producing acetylene light more especially intended for use in cycles, carriage and hand lamps.* (Specification filed 30 September 1901.)
- No. 261 of 1901.—William Allen Pendry. *Improvements in button-making machines.* (Specification filed 2 October 1901.)
- No. 270 of 1901.—Nathan Barney. *Covers for cases.* (Specification filed 2 October 1901.)

No. 304 of 1901.—George Archibald Lowry. *Process of and apparatus for ginning cotton and similar material.* (Specification filed 2 October 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of ₹50 for each of the above inventions.

No. 392 of 1899.—Cornelius Vanderbilt. *Improvements in locomotive boilers.* (Specification filed 28 September 1900.)

Fee in respect of the continuance of an exclusive privilege—

4 (b) After the expiration of the fourth year and before the expiration of the fifth year from the date of filing of the specification—

The sum of ₹50 for the above invention.

No. 38 of 1899.—Henri Jules Caillet. *Improvements in the rolling stock and permanent-way of single rail railways.* (Specification filed 25 September 1899.)

No. 119 of 1899.—Handel Beech. *Improvements in apparatus for automatically causing a flow of water or other fluid by the fusion of a suitable joint or connection for fire extinguishing and like purposes.* (Specification filed 25 September 1899.)

Fee in respect of the continuance of an exclusive privilege—

4 (c) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of ₹50 for each of the above inventions.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2 Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2 Bankshall Street, Calcutta.

H. G. GRAVES,
Secretary under the Inventions
and Designs Act, V of 1888.

NOTIFICATION.

MISCELLANEOUS.

Dated Allahabad, the 5th January 1906.

No. 53—1-1046-1905.—In exercise of the powers conferred by sections 5 and 5A, of the Scheduled Districts Act, 1874 (XIV of 1874), and with the previous sanction of the Governor General in Council, the Lieutenant-Governor of the United Provinces of Agra and Oudh is pleased to declare that Notifications Nos. 632—VII-281 and 634—VII-281,

of 27th June 1894, and Schedule D are hereby cancelled and to extend the United Provinces Land Revenue Act, 1901 (United Provinces Act, III of 1901), to the districts of Almora, Garhwal and Naini Tal (exclusive of the settled tracts of the Tarai sub-division), and to direct that the said Act, as so extended, shall be subject to the following restrictions and modifications, namely :—

1. The following portions of the said Act shall be deemed to have been omitted :—

Section 1, sub-sections (2) and (3) ; section 4, clauses (6), (12), (13), (14), and (15) ; in section 23, the words "as hereinafter provided" and the whole of sub-section (2) except the first eleven words ; sections 24 and 32 ; section 34, sub-section (5) ; sections 36, 42, 43, 55, and 63 ; in section 68, the proviso ; sections 69 and 70 ; in section 72, the words and figures "The co-sharers accepting the transfer shall pay to the proprietor any annual allowances to which he is entitled under section 74 ;" sections 74, 79 to 83, 87 to 91, 100, 101, 104, 106 to 140, 184 to 187, 189, and 191 to 207 ; in section 208, the words "A Revenue Court shall have power, subject to any special provisions in this Act, to give and apportion costs due under this Act in any proceedings before it in such manner as it thinks fit ;" sections 209 to 219 and 227 to 229 ; section 231, clauses (1), (7) and (9) ; section 233, clauses (i) and (k) ; in section 234, clause (l), the words "and in" to the end of the clause ; section 234, clauses (f), (m), (n), (t) and (u) ; and the first schedule.

2. The following modifications shall be deemed to have been made in the said Act :—

(a) to section 4, for clause (3) substitute—

"(3) 'Malguzar' means a person appointed under rule 49, clause (1), of the Kumaun Rules, 1894, to represent all or any of the co-sharers in a mahal."

(b) Read every reference to a lambardar as referring to a malguzar, or to a padhan or sirgoroh where a malguzar is known by either of these names.

(c) In section 8, for the words and figures "on a reference under section 218, or in a revision under section 219" substitute "or on a reference, or in revision, under rule 26 of the Kumaun Rules, 1894."

(d) In section 25, for the word "annual" substitute "prescribed."

(e) For section 33 substitute—

"The Collector shall maintain a record-of-rights and registers in accordance with the rules in force in Kumaun. No change or transaction affecting the registers prescribed by such rules shall be recorded without the order of the Collector."

(f) In section 34, sub-section (1), for the words "to the tahsildar" substitute "to the tahsildar or peshkar," and for the words and figures "prescribed by clauses (a) to (d) of section 32" substitute "maintained under section 33."

(g) For section 35 substitute—

"The tahsildar or peshkar, on receiving such report or upon the facts coming otherwise to his knowledge, shall make such enquiry as appears necessary, and shall refer the case to the Collector, who shall dispose of it after deciding in accordance with the provisions of section 40 any dispute that may have arisen."

(h) In section 39, sub-section (3), for the words "shall, subject to the provisions of" to the end substitute "shall pass orders in accordance with the customs regulating tenures in Kumaun, and, if necessary, cause the prescribed registers to be amended."

(i) In section 40, for the word "annual" substitute "prescribed."

(j) For section 44 substitute—

"44. All entries in the prescribed registers made under section 33 shall be presumed to be true until the contrary is proved."

(k) In section 45, for the words "he shall issue" to the end of the section substitute "he shall make such appointment in accordance with the rules and customs in force in Kumaun."

(l) In section 53, for the words "the registers enumerated in section 32 or such of them" substitute "such registers."

(m) In section 54, for the words "in accordance with the provisions of sections 40, 41, 42, and 43" substitute "in accordance with sections 40 and 41, and the rules in force in Kumaun."

(n) In section 57, for the words "any interest in land" to the end substitute "any proprietary right in land which requires to be recorded in the registers which the Collector is required to maintain under the rules in force in Kumaun."

(o) In section 61, for the words "annual registers" substitute "record-of-rights and registers maintained by the Collector under section 33."

(p) In section 76, for sub-sections (2) and (3) substitute—

"(a) If the inferior proprietor refuses to agree to the sub-settlement, the mahal shall be made over to the superior proprietor for the term of settlement, and the superior proprietor shall pay the inferior proprietor an annual allowance, which shall not be less

than 5, and not more than 15 per cent. of the profits allowed to the inferior proprietor under section 75."

(7) In section 94, sub-section (3), for the figures "79" substitute "78."

(7) In section 159, for the figures "74" substitute "73."

(5) In section 233, clause (g), for the figures "83" substitute "78."

By order, etc.,

E. F. L. WINTER,

Chief Secretary to Government, United Provinces.

TREASURE TROVE.

NOTICE.

It is hereby notified under Section 5 of the Indian Treasure Trove Act, VI of 1878, that the treasure consisting of 98 old rupees described in the margin and valued at Rs 98 was found on the 4th June 1905 by two boys named Khajabhoy and Mohadin, aged 6 and 5 years, and sons of Kattam Hussain Sab and Jangli Hussain Sab, respectively, near a corner of Chakkamalla Zimma Reddi's house in the old Neta of the Pattikondur village, Kurnool District, in the Madras Presidency, while digging pits for playing marbles. The treasure was found in a brass chembu buried in the place referred to.

2. All persons claiming the said treasure or any part thereof are hereby required to appear personally or by agents before the Collector of Kurnool at his office on 6th June 1905 in regard to the matter being enquired into and determined in accordance with the provisions of the Act.

J. W. HUGHES,

Acting Collector.

Hafekine, C.I.E., and various officers of the Plague Research Laboratory, Bom-
bay, Edited with an introduction by Lieutenant-Colonel W. B. Bannerman, M.D.,
B.Sc., F.R.S.E., I.M.S. New series, No. 20. Super Royal 4-to. Board. 14s. or
1s. 4d. (3s.)

List of the more important Libraries in India. Foolsap. Stitched. 8s. or 9d. (1s.)

COMMERCIAL INTELLIGENCE DEPARTMENT.

Accounts of the Trade carried by rail and river in India in the official year 1904-05.
and the four preceding years, 17th issue. Foolsap. Board. R1 or 1s. 4. (6s.)

Accounts of the Trade of the Portuguese Possessions in India in the year 1903-04 and the four preceding years. Foolscap. Paper cover. 2s. or 3d. (1s.)

LIST OF BOOKS PUBLISHED FROM SEPTEMBER TO DECEMBER 1905.

LEGISLATIVE DEPARTMENT.

- The Indian Railways Act, 1890 (Act IX of 1890), as modified up to 1st June 1905. R1-2s. (2s.)
- The Central Provinces Land Revenue Act, 1881 (XVIII of 1881), as modified up to the 1st March 1905. R1-2s. (2s.)
- Act No. XIII of 1859 (an Act to provide for the punishment of breaches of contract by Artificers, Workmen and Labourers in certain cases), as affected by Act No. XVI of 1874. Anna 1-9. (1s.)
- The Excise Act, 1806 (XII of 1806), as modified up to 1st August 1905. 8s. (1s.)
- The Whipping Act, 1864 (Act No. VI of 1864), as modified up to the 1st August 1905. 3s. 6p. (1s.)
- The Indian Registration Act, 1877 (Act III of 1877), as modified up to the 1st August 1905. 11s. or 1s. (2s.)
- The Indian Evidence Act, 1872 (Act No. 1 of 1872), as modified up to the 1st September 1905. R1 or 1s. 6d. (2s.)
- The Indian Stamp Act, 1899 (II of 1899) as modified up to 31st August 1905. As. 15 or 1s. 4d. (2s.)

HOME DEPARTMENT.

- Imperial Library List of Additions, Third Series, with subject index. Nos 10, 11, 12, 13. Super Royal 4to. Paper cover. 8s. or 9d. (2s.) each.
- Scientific Memoirs by Officers of the Medical and Sanitary Departments of the Government of India.—Snake Venoms in Relation to Hæmolytic by Captain George Lamb, M.D., I.M.S. New Series No. 17. Super Royal 4to. Limp cover. 6s. or 7d. (2s.)
- Scientific Memoirs by Officers of the Medical and Sanitary Departments of the Government of India.—Hæmoglobina Gerbilli by Lieutenant S. R. Christophers, M.B., I.M.S. New Series. No. 18. Super Royal 4to. Limp cover. 10s. or 1s. (2s.)
- Report on the Administration of Civil Justice in Assam during the year 1904. Foolscap. Paper cover. 8s. or 9d. (1s.)
- Report on the Administration of Criminal Justice in Assam during the year 1904. Foolscap. Paper cover. 8s. or 9d. (1s.)
- Quarterly List of Officers in the departments of the Government of India. July to September 1905. Foolscap. Paper cover. 4s. or 5d. (1s.)
- The Languages of India, being a reprint of the Chapter on Languages by Dr. G. A. Grierson, C.I.E., Ph.D., D.Litt., C.S., to the report on the Census of India, 1901, together with the Census Statistics of Language. Foolscap. Paper cover. R2 or 3s. (3s.)
- Scientific Memoirs by Officers of the Medical and Sanitary Departments of the Government of India on Kala Azar, Malaria and Malarial Cachexia by Captain S. P. James, M.B., I.M.S. New series, No. 19. Super Royal. 4to. Limp cover. R1 4s. or 1s. 11d. (3s.)

DEPARTMENT OF REVENUE AND AGRICULTURE.

- Records of the Botanical Survey of India. Vol. IV. No. 2. An Epitome of the British Indian Species of Impatiens by Sir J. D. Hooker, G.C.S.I., C.B., F.R.S., Part II. Royal 8vo Paper cover. 3s. or 4s. (1s.)
- Report of the Chief Inspector of Mines in India for the year ending 31st December 1904. Foolscap Limp. 12s. or 1s. 2d. (2s.)

- Flora of the Upper Gangetic Plain and of the Adjacent Siwalik and Sub-Himalayan Tracts by J. F. Duthie, Esq., B.A., F.L.S. (Caprifoliaceæ to Campanulaceæ). Vol. I, Part II. Royal 16mo. Paper cover. R1-8s. or 2s. 3d. (1s.)
- A Note upon the "Bee-hole Borer of Teak in Burma" by E. P. Stebbing, F.L.S., F.Z.S., F.E.S. Super Royal 8vo. Paper cover. 4s. or 5d. (1s.)

FOREIGN DEPARTMENT.

- Administration Report of the North-West Frontier Province for 1904-1905. Foolscap. Board. 13s. or 1s. 1d. (3s.)

FINANCE DEPARTMENT.

- List of Officers appointed by the Government of India in the Finance Department. Corrected to May, June and August 1905. Royal 8vo. Paper cover. 4s. or 5d. (1s.) each.
- History of Services of Officers holding appointments in offices under the control of the Government of India, Finance Department. Corrected 1st July 1905. Royal 8vo. Board. 12s. or 1s. (2s.)
- List of Officers appointed by the Government of India in the Finance Department corrected to September, October 1905.
- Report of the Administration of the Mint at Bombay and Calcutta for the year 1904-1905. Foolscap. Paper cover. R1 or 1s. 6d. (2s.)

COMPTROLLER GENERAL.

- Civil Estimates, 1905-1906, Vols. I and II. Foolscap. Board. R3 or 4s. 6d. (13s.) each.

COMMERCIAL INTELLIGENCE DEPARTMENT.

- Accounts relating to the Trade carried by rail and river in India in the quarter and in six months ending December 1904, compared with the corresponding periods of the years 1902 and 1903. No. 3 of 1904-05. Foolscap. Paper cover. 8s. or 9d. (3s.)
- Sea-borne Trade and Navigation Accounts of British India for the months of May, June, and July 1905. Nos. 2, 3 and 4. Royal 8vo. Stitched. 8s. or 9d. (2s.) each.
- Accounts of the External Land Trade of British India for the months of March and April 1905. No. 12 of 1904-05. Nos. 1 and 2 of 1905-06. Royal 8vo. Stitched. 8s. or 9d. (2s.) each.
- Statistics of Cotton Spinning and Weaving in the Indian Mills in April and May 1905, and in the corresponding month of 1903-04. Royal 8vo. Stitched. 2s. or 2d. (1s.) each.
- Review of the Trade of India in 1904-05. Foolscap. Paper cover. 8s. or 9d. (2s.)
- Area and Yield of certain Crops in India, 7th issue. Foolscap. Paper cover. 5s. or 6d. (2s.)
- Prices and Wages in India, 22nd issue. Super Royal. 4to Board. R1-8 or 2s. (9s.)
- Accounts relating to the Trade carried by rail and river in India in the quarter and in the twelve months ending March 1905, compared with the corresponding periods of the years 1903 and 1904. No. 4 of 1904-05. Foolscap. Paper cover. 8s. or 9d. (3s.)
- Judicial and Administrative Statistics of British India for 1903-1904 and preceding years. Foolscap. Board. R2 or 3s. (10s.)
- Sea-borne Trade and Navigation Accounts of British India for the month of August 1905. No. 5 of 1905-1906. Royal 8vo. Stitched. 8s. or 9d. (2s.)

Statistics of Cotton Spinning and Weaving in the Indian Mills in June 1905 and in the three months April to June 1905, compared with the corresponding period of 1903 and 1904. Royal 8vo. Stitched. 2s. or 2d. (1s.)

Accounts of the External Trade of British India for the month of June 1905. No. 3 of 1905-1906. Royal 8vo. Stitched. 8s. or 9d. (2s.)

Accounts relating to the Trade carried by rail and river in India in the quarter ending June 1905, compared with the corresponding periods of the years 1903 and 1904. No. 1 of 1905-1906. Foolscap. Paper cover. 8s. or 9d. (1s.)

Sea-borne Trade and Navigation of British India for the months of September and October 1905. No. 6 and 7 of 1905-1906. Royal 8vo. Stitched. 8s. or 9d. (2s.)

Accounts of the External Trade of British India for the month of July 1905. No. 4 of 1905-1906. Royal 8vo. Stitched. 8s. or 9d. (2s.)

Statistics of Cotton Spinning and Weaving in the Indian Mills in July, August and September 1905. Royal 8vo. Stitched. 2s. or 2d. (1s.) each.

Accounts of the Trade of the French Possessions in India in the year ending 31st March 1905 and the four preceding years. 2s. or 3d. (2s.)

Agricultural Statistics of India for the years 1899-1900 to 1903-1904 in 2 Volumes. R3 8s. or 5s. 3d. (12s.)

COMMERCE AND INDUSTRY.

Administration Report of the Indian Telegraph Department for 1904-1905. Foolscap. Limp cover. 8s. or 5d. (2s.)

ACCOUNTANT GENERAL.

History of Services of Gazetted and other Officers serving under the Government of Bengal corrected to 1st July 1905 in 2 parts. Royal 8vo. Board. Part I. R3 or 4s. 6d. (7s.) Part II. R2 or 3s. (5s.) Complete. R5 or (2s.)

MILITARY DEPARTMENT.

The Quarterly Indian Army List for July 1, 1905. Royal 8vo. Paper cover. R2-12s. or 3s. 3d. (6s.)

A Book for the Army—"The Services of the Bengal Native Army," an historical sketch from 1599 to 1895. 586 pages, with two coloured plates, obtainable from all the principal book-sellers, and from the Superintendent of Government Printing, India, Calcutta. Demy 8vo. Cloth. R2-8 or 3s. 9d. (7s.)

Classified List and Distribution Return of Establishment of the Military Works Services corrected up to 30th June 1905. Super Royal 4to. Paper cover. 4s. or 5d. (1s.)

History of the Hyderabad Contingent by Major R. G. Burton, 1905. Royal 8vo. Cloth. R3 or 4s. 6d. (6s.)

Return of Wrecks and Casualties in Indian Waters for the year 1904. R1 or 1s. 6d. (3s.)

RAILWAY BOARD.

Administration Report on the Railways in India for the Calendar year 1904. Foolscap. Limp. R2 or 2s. 8d. (7s.)

Classified List of the Subordinate Establishment corrected up to 30th June 1905. Royal 8vo. Paper cover. 4s. or 5d. (1s.)

Railway Board Classified List of State Railway Establishment and Distribution Return of Establishment of all Railways. Corrected up to 30th June 1905. R1 or 1s. 6d. (2s.)

Histories of Railway Projects including Tramways, corrected up to 30th June 1905. Foolscap. Paper cover. R2 or 2s. 8d. (3s.)

PUBLIC WORKS DEPARTMENT.

Public Works Department Classified List and Distribution Return of Establishment. Corrected up to 30th June 1905. R1 or 1s. 6d. (2s.)

Administration Report of the Telegraph Department for 1903-04. Foolscap. Paper cover. 8s. or 6d. (2s.)

Public Works Department Classified List of the Subordinate Establishment corrected to 30th June 1904. Royal 8vo. Paper cover. 4s. or 5d. (1s.)

LIST OF NEW BOOKS FOR SALE AT THOMASON COLLEGE, ROORKEE, WHICH WERE NOT ADVERTISED BEFORE.

Roorkee Treatise on "Railways," 4th Edition, revised by F. Wolly Dod, F.C.H. Price R3 per copy.

Roorkee Treatise on "Irrigation Work." By Lieutenant-Colonel J. Clibborn, I.S.C., B.A., L.C.E., C.I.E. Price R9 per copy.

Roorkee Treatise on "Sanitary Engineering." Compiled by Lieutenant-Colonel J. Clibborn, I.S.C., B.A., L.C.E., C.I.E. Price R4-8 per copy.

Roorkee Manual of "Applied Mechanics," Volume II. The stability of structures mostly by graphic methods, by Lieutenant-Colonel J. H. C. Harrison, R.E. Price R8-2 per copy.

Roorkee Manual of Hydraulics. Price per copy R4. (No. XIX Elementary Treatise.) By E. F. Tipple, Esq., B.A.

Designs for Wooden Bridges, together with rules for calculating the area of water-way, etc., and Plates. By late Rai Bahadur Kunhya Lall. Price per set R4-2.

Pamphlet on Examination for Acid Radicals: Tables giving Analysis of Acids. Price per copy 8s.

Pamphlet on Examination for Acid Bases: Tables giving Analysis of Metallic Bases. Price 8s. per copy.

LIST OF NEW BOOKS AVAILABLE FOR SALE IN THE COLLEGE BOOK DEPÔT.

Roorkee Treatise on Civil Engineering, Section XIII. Drawing for Engineer students Part I. By Major E. H. deV. Atkinson, R.E., Principal, Thomason College, Roorkee. Price per copy R3-2, including packing, postage, etc.

Hand-Book of the Thomason Engineering College, Roorkee, Illustrated. Price Rs-12 per copy, including packing, postage, etc.

**LIST OF BOOKS PUBLISHED BY THE METEOROLOGICAL DEPARTMENT
FROM 1ST July TO 31st December 1905.**

Monthly Weather Review, January to June 1905. (Illustrated by 8 plates) Quarto.
Paper cover. Rs 1 per month.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, JANUARY 13, 1906.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTES.

DESTROYED.

The Government Promissory Note No. 078147 of the 3½ per cent. of 1842-43 for Rs 500 (five hundred) originally standing in the name of Bromhomoyee Dasi, the proprietress, by whom it was never endorsed to any other person, having been destroyed, notice is hereby given that payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, Calcutta, and that application is about to be made for the issue of Duplicate in favour of the proprietress. The public are cautioned against purchasing or otherwise dealing with the abovementioned security.

Name of the advertiser—BROMHOMOYEE DASİ,
Residence—28, Guru Prosad Chowdry's Lane, Calcutta.

UNCOVENANTED SERVICE FAMILY PENSION FUND.

NOTICE.

The sixty-eighth Annual General Meeting of subscribers to the above Fund will be held in the Town Hall on Saturday, the 27th January 1906, at 3 P. M., to receive the Report of the Directors, to lay before the Meeting the Books of the Fund together with an abstract statement of the accounts and a list of subscribers and incumbents in accordance with the Fund Rule 58, and to fill by election under Rule 5 the three vacancies caused by the retirement by rotation of three Directors, also to elect Auditors for the ensuing year, as required by Rule 8.

By order of Directors,

RIVERS HOWE,
Secretary.

SUPPLEMENT TO
The Gazette of India.

No. 2. } CALCUTTA, SATURDAY, JANUARY 13, 1906.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

FORESTS.

Circular No. 25-F., dated Simla, the 21st December 1905.

REGULATIONS FOR THE APPOINTMENT OF PROBATIONERS TO THE
INDIAN FOREST SERVICE, 1906.

1. **Appointments.**—The Secretary of State for India in Council will, in the summer of 1906, make not less than ten appointments of Probationers for the Indian Forest Service, provided that so many candidates are in all respects qualified under the conditions hereinafter set forth, upon the results of a competitive examination to be held in London on the 28th August 1906, by the Civil Service Commissioners.

2. **Admission to Examination.**—Applications for admission to the examination must be made on a printed form to be obtained from the Secretary, Judicial and Public Department, India Office, Whitehall, London, S. W., and to be returned to him not later than Saturday, the 30th June 1906.

No applications received after that date will be considered.

3. **Age Limits.**—Candidates must have attained the age of 18, and not attained the age of 21, years on the 1st January 1906.

4. **Nationality, etc.**—Every candidate must be a natural-born British subject. He must be unmarried, and if he marries before reaching India, he will forfeit his appointment.

5. **Qualifying Examinations.**—A candidate must have passed, or must undertake to pass before October 1906 (failing which his selection would be cancelled), the examination of the University of Oxford known as Responsions or the Previous Examination of the University of Cambridge, or some one of the other examinations held (1) by these Universities or (2) by the Universities of London or Dublin or (3) by the Joint Board of Examiners for the Scottish Universities or the Scotch Education Department or (4) by the College Entrance Examination Board of the United States of America, and recognised by the Universities of Oxford or Cambridge as equivalent to the Examination in Responsions or to the Previous Examination, or must have passed an examination at some Foreign University which, in the opinion of the Secretary of State in Council, is at least equivalent to any one of the examinations above mentioned.

6. **Subjects of Examination.**—The subjects of the competitive examination mentioned in paragraph 1 are as follows :—

- (1) Mechanics and Physics.
- (2) Chemistry.
- (3) Botany.

Equal weight will be attached to each of these subjects, and candidates must qualify in each.

Candidates must also pass a qualifying examination in German to be conducted by the Civil Service Commissioners simultaneously with the competitive examination.

The Syllabus of the Competitive Examination and of the Examination in German forms Appendix I.

7. **Fee, etc.**—A fee of 2*l.* is required from every candidate, and instructions as to the manner of payment of this fee, the time and place of the examination, and any other necessary information, will be sent to candidates, on application, by the Civil Service Commissioners.

8. **Medical Examination.**—Those candidates who are provisionally successful in the competitive examination will be required, shortly after the result of the examination is declared, to undergo a strict examination by a Medical Board at the India Office, at which particular stress will be laid on good vision and hearing.

On passing this medical examination candidates will be deemed to be Probationers for the Indian Forest Service.

9. **Period of Probation.**—The period of probation will extend over about three years. For the first two years the Probationers will be required to undergo a special course of study at Oxford and to become members of the University if not so already. During the third year of their probation they will receive practical instruction, visiting under suitable supervision such Continental forests as may be selected for the purpose. Excursions may also be made for purposes of study during the first two years, both in term-time and in the vacations.

10. **Charges.**—The probationers will be required to defray all expenses for lodging, board, tuition, and excursions which they may incur during period of their probation at Oxford. During the third year of practical instruction on the Continent, which will consist of three terms, each Probationer will be required to pay in advance a charge of 60*l.* a term, for which the Secretary of State for India will provide (1) board, lodging, and washing; (2) travelling expenses; and (3) fees to local forest officers, etc.

11. **Course of Study.**—The prescribed course of study for the Probationers comprises the following subjects:—

I.—SUBJECTS AUXILIARY TO FORESTRY.

- (1.) Elementry Organic Chemistry and the Chemistry of soils.
- (2.) Geology.
- (3.) Elements of Zoology and Forest Entomology.
- (4.) Forest Botany.
- (5.) Geometrical Drawing, Mathematics up to and including Plane Trigonometry and Surveying.
- (6.) German.
- (7.) Engineering (elementary).
- (8.) Book-keeping, in reference to Indian Forest Accounts.

II.—FORESTRY, THEORETICLL AND PRACTICAL, IN ALL ITS BRANCHES.

12. **Conduct and Medical requirements.**—Every Probationer will be required to conduct himself during the period of probation in a manner staisfatory to the Secretary of State, and to give evidence of satisfactory progress in his studies in such manner as

may be required, failing which, or in the event of serious misconduct, he will be liable to have his name removed from the list of the Probationers.

A Probationer may also, at the discretion of the Secretary of State, be required from time to time to appear before the Medical Board, and, should the result be unsatisfactory, he will be liable to have his name removed from the list of Probationers.

13. Diploma of Forestry, etc.—During the period of probation, the proficiency of the Probationers will be tested by periodical examinations.

The Probationers who satisfy the examiners in all these examinations, and complete satisfactorily the practical course in Forestry on the Continent, will receive the Diploma of Forestry of the University of Oxford. It is desirable that they should, if possible, also obtain a degree in the Honour School of Natural Science at the University.

14. Appointment and Seniority.—Probationers who obtain the Diploma of Forestry and are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service will be appointed Assistant Conservators in the Indian Forest Department. Their seniority will be determined by the results of the examinations held during their two years' residence as Probationers at Oxford and the manner in which they have completed the practical course on the Continent.

They will be allowed at the end of the period of probation to state their preference in respect to the Provinces to which they desire to be allotted; but the distribution will be made to the several Provinces according to the needs of the public service, at the discretion of the Secretary of State for India. Officers are, however, at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

15. Riding.—Every Probationer, before proceeding to India, will be required to satisfy the Secretary of State, in such manner as may be determined, of his ability to ride. It is desirable that this evidence should be forthcoming before the Probationer proceeds to the Continent for his final period of study.

16. Articles of Agreement, etc.—Within a month of his nomination as Assistant Conservator, each nominee must sign articles of agreement describing the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State, and must engage his own passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

17. Allowance.—An allowance will be granted to each Probationer on signature of his agreement, varying from 50% to 100%, according to the degree of proficiency and diligence shown by him during his practical course upon the Continent.

18. Salary.—An Assistant Conservator of Forests will draw pay at the rate of Rs 350 a month from the date of his reporting his arrival in India.

19. Promotion, Leave, Pension, and Provident Fund.—Promotion, leave, and pension will be governed by the Regulations laid down by the Government of India, and made applicable to Forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government. A copy of the existing regulations can be seen on application at the India Office.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service will be found in Appendix II.; a summary of information regarding Leave is contained in Appendix III., regarding Pensions and Provident Fund in Appendix IV.

INDIA OFFICE,
4th October 1905.

APPENDIX I.

(Referred to in paragraph 6.)

A.—SYLLABUS OF THE COMPETITIVE EXAMINATION.

I.—MECHANICS AND PHYSICS.

MECHANICS.

The principles of the lever, the inclined plane, the composition of forces, and virtual work, their experimental investigation and application to machines and other simple cases of equilibrium. Centre of gravity, couple, torque, velocity ratio, mechanical advantage, efficiency. Application to liquids and gases. Density. Boyle's law. Pump, siphon, barometer, manometer. Body moving in a straight line so that its velocity changes

proportionally with time. Body moving uniformly in a circle. Motion of pendulum-bob. Momentum, force, impulse of a force, energy, conservation of energy.

HEAT.

Simple thermometry. Simple methods of determining latent heats; specific heats; expansion of gases, liquids and solids; vapour pressures. Change of state. Simple experiments on conduction, convection and radiation. Mechanical equivalent of heat.

SOUND.

Direct determination of the velocity of sound in air and in water; the effect of change of temperature on the velocity of sound in air; mode of propagation of sound in air. Simple methods of determining the pitch of a note. Characteristics of musical sounds.

LIGHT.

Laws of reflection and refraction. Simple methods of determining refractive indices and the focal lengths of mirrors and lenses. The simplest form of the compound microscope and of the astronomical telescope. Dispersion, the spectroscope, spectra of different kinds. Simple photometry. Elementary notions of the determination of the velocity of light.

ELECTRICITY AND MAGNETISM.

Properties of electrified bodies. Methods of electrification. Electric induction. The gold leaf electroscope. Elementary quantitative notions of electrical quantity, capacity, potential and specific inductive capacity. Condensers, properties of magnets. Methods of magnetization. Magnetic induction. Simple methods of determining the declination and dip at a place and of comparing magnetic fields and moments. The construction of the batteries of Volta, Daniell and Leclanché, and their theory. The secondary battery. The physical and chemical action due to a current. Simple galvanometers, ammeters and voltmeters. Measurement of current strength, electromotive force and resistance. The production of currents by electro-magnetic induction. The broad principles of the induction coil and dynamo.

PRACTICAL EXAMINATION.

Simple experiments illustrating the principles stated above.

II.—CHEMISTRY.

The simpler chemical and physical properties of common substances, such as lime, salt, sugar, water, air.

The preparation (excluding details of technical processes) and properties of the following substances:—

The metals, tin, lead, iron, copper, zinc, magnesium, calcium, potassium, sodium; their simpler and more important compounds, especially such as occur naturally, and such compounds and alloys as are used in the Arts.

Hydrogen, oxygen, water, ozone, hydrogen-peroxide.

Nitrogen, ammonia, ammonium salts, nitrous oxide, nitric oxide, nitrogen peroxide nitrates.

Carbon, carbon dioxide, carbonates, carbon monoxide.

Chlorine, bromine, iodine, chlorides, bromides, iodides, chlorates, hypochlorites.

Sulphur, sulphuretted hydrogen, sulphides, sulphur dioxide, sulphur trioxide, sulphites, sulphates.

Phosphorus, phosphoretted hydrogen, phosphorus trioxide, phosphorus pentoxide, orthophosphates, phosphorus trichloride, phosphorus pentachloride.

Silica.

The principles of chemical change; oxidation and reduction; combustion; flame. Allotropy. Methods of purifying bodies. Methods of determining the composition of air and of water. Laws of chemical combination. Diffusion of gases. The atomic and molecular hypotheses. The simpler methods of determining equivalents. General considerations used in determining molecular weights and atomic weights. Chemical notation.

Alcohol, ethane, and the simpler ethylic compounds, considered in detail as typical bodies. Methylic alcohol and methane, and benzylic alcohol and toluene, considered briefly as analogues of alcohol and ethane. Characters of primary normal alcohols in general, and of their corresponding hydrocarbons.

Acetic acid, aldehyd and the simpler acetic compounds, considered in detail as typical bodies. Benzoic acid and benz-aldehyd, and formic acid and form aldehyd, considered briefly as analogues of acetic acid and aldehyd. Characters of normal mon-acids in general and of their corresponding aldehyds.

Oxalic acid and the simpler oxalic compounds. Characters of normal di-acids in general.

Processes (i) for the detection of carbon, hydrogen, nitrogen, sulphur in organic compounds; (ii) for the estimation of carbon, hydrogen, nitrogen in organic compounds. (iii) for the production and analysis of the silver-salts of organic acids and the platinum-salts of organic bases: (iv) for the determination of vapour densities by the V. Meyer method.

The determination of the formula of an organic compound.

PRACTICAL EXAMINATION.

The practical examination may include:—

Simple experiments and preparations illustrating the properties of the inorganic substances named above.

Simple quantitative experiments, such as the determination of the loss of weight on heating a body, the determination of the volume of gas evolved on the solution of zinc in acid. The volumetric estimation of acids and alkalies.

The qualitative analysis of simple salts containing not more than one of the following metals, and one of the following acid radicals:—Sodium, potassium, ammonium, calcium, magnesium, zinc, copper, iron, lead, tin, oxide, carbonate, chloride, sulphate, nitrate, sulphide.

III.—BOTANY.

The following plants as exhibiting the life-history of plants; the relation of the plant to external conditions; the processes and mechanisms of nutrition, growth and reproduction; the structure and functions of the parts of the plant:—

Angiosperms: helianthus, tilia, zea. Gymnosperms: pinus. Pteridophyta: aspidium, equisetum. Bryophyta: funaria, pellia. Algæ: vaucheria, chlorococcus. Fungi, bacterium, a lichen, a parasitic fungus.

PRACTICAL EXAMINATION.

Candidates will be expected to show an adequate acquaintance with the microscopical examination of the chief plant tissues, and to describe typical specimens and preparations.

B.—SYLLABUS OF THE QUALIFYING EXAMINATION IN GERMAN.

Translation from and into German, Composition, and Conversation.

APPENDIX II.

LIST OF APPOINTMENTS IN THE UPPER CONTROLLING STAFF OF THE INDIAN FOREST SERVICE.

NOTE.—These lists show only the existing sanctioned scale, which is liable to alteration at any time. Forty-three of the appointments shown below in the various grades of Deputy and Assistant Conservators are being gradually transferred to the Provincial Forest Services, which are recruited in India. The rest of the appointments named are held by members of the Imperial Forest Service, which is recruited under these regulations. The lowest grade here mentioned, namely, Assistant Conservator, 2nd grade, on Rs350 a month, is that to which probationers are ordinarily appointed if they have acquitted themselves creditably during their course of instruction.

Number according to existing sanctioned scale.	Appointments.	Salary.
INDIA.		
1	Inspector-General of Forests	Rs2,000 a month, rising by annual increments of Rs100 a month to Rs2,500 a month.
1	Assistant Inspector-General of Forests	Pay of grade.

4	" " 2nd "	

* It is in contemplation to increase the cadre in Burma by five appointments.

APPENDIX III.

LEAVE.

1. The following is a summary of the principal regulations relating to the leave admissible to officers appointed to the Indian Forest Service by the Secretary of State from the United Kingdom.

Long Leave.

2. Furlough is admissible to an aggregate amount of six years during the service. The amount "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

3. Furlough without medical certificate can, if due, be generally taken after eight years' active service, and again after three years' continuous service. It is limited to two years at a time.

4. Furlough with medical certificate is limited to one year if an officer has not served three years continuously; otherwise he may have leave up to two years, and it may be extended to a third year.

5. The allowances admissible during furlough are:—

- (1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be "due,"—half average salary, subject to certain maximum and minimum limits.
- (2) After the expiration of the period for which the foregoing allowances are admissible,—one quarter of average salary, subject to certain maximum and minimum limits.

Short Leave.

6. Privilege Leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to three months, earned by 33 months' service. During privilege leave the officer retains a lien on his appointment, and receives the salary which he would have received if on duty. An interval of not less than six months must elapse between two periods of absence on privilege leave.

Privilege leave may be prefixed to furlough, special leave, or extraordinary leave without allowances. The whole period of leave thus taken in combination is known as combined leave. Combined leave (except when consisting of privilege leave and extraordinary leave without allowances) may not be of less duration than six months, nor, except on medical certificate, may it be extended beyond two years.

7. Special Leave may be granted at any time for not more than six months, with intervals of six years' service; allowances, calculated as during furlough, are given during the first six months only, whether taken in one or more instalments. This leave is included in the aggregate of six years' furlough admissible.

8. Extraordinary Leave without allowances may be granted in case of necessity, and except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

9. Subsidiary Leave in India for a minimum of 10 days, usually with half average salary, is granted to an officer proceeding on or returning from leave out of India, or on retirement, to enable him to reach the port of embarkation or to rejoin his appointment. It is admissible only at the end and not at the beginning of combined leave.

10. Short Leave is also granted to enable officers to appear at examinations, etc.

General Rules.

11. Leave of absence, whether on furlough or on privilege leave, can never be claimed as of right, and is given or refused at the discretion of Government.

12. After five years' continuous absence from duty, an officer is considered to be out of the employment of Government.

13. When leave allowances are paid at the Home Treasury, or in a Colony where the standard of currency is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and Indian Treasuries, unless any other rate has been exceptionally authorised. But for the present the rate of conversion is subject to a minimum of 1s. 6d. to the rupee.

APPENDIX IV.

PENSIONS AND PROVIDENT FUND.

1. The following is a summary of the principal pension rules applicable to officers of the Indian Forest Service appointed by the Secretary of State from the United Kingdom.

An officer of the Indian Forest Service is eligible for a pension on voluntary retirement after completing 20 years' qualifying service or attaining the age of 55 years. If at an earlier date he is compelled to retire from the service through ill-health not occasioned by irregular or intemperate habits, he becomes eligible for an invalid pension or a gratuity according to the length of his service.

The amount of pension or gratuity is regulated as follows :—

After a service of less than 10 years, an invalid gratuity not exceeding one month's emoluments for each completed year of service.

After a service of not less than 10 years an invalid pension not exceeding the following amounts :—

Years of Completed Service.	Scale of Pension. Sixtieths of Average Emoluments.	Maximum Limit of Pension.
10	20	Rs. 1,000 a year or Rs. 83½ a month.
11	21	1,400 " " 116½ "
12	22	1,800 " " 150 "
13	23	2,200 " " 183½ "
14	24	2,600 " " 216½ "
15	25	} 3,000 " " 250 "
16	26	
17	27	
18	28	
19	29	

After a service of not less than 20 years, a retiring pension not exceeding the following amounts ;—

Years of Completed Service.	Scale of Pension. Sixtieths of Average Emoluments.	Maximum Limit of Pension.
20 to 24 } 25 and above }	30	{ Rs. 4,000 a year or Rs. 333½ a month. 5,000 " " 416½ "

Officers who have shown special energy and efficiency during an effective service of three years as Inspector-General of Forests or Conservator (First Grade) may, at the discretion of the Government of India, be allowed an additional pension of Rs. 1,000 a year.

Subject to certain prescribed conditions, rupee pensions are now issued to pensioners residing in gold standard countries at the rate of exchange of 1s. 9d. the rupee.

2. A Provident Fund has also been established on the following basis :—

- The contribution is compulsory up to 5 per cent. on salaries, with voluntary contributions of a further 5 per cent. ; while on leave, an officer may subscribe any sum he pleases, subject to a minimum of 5 per cent. on his leave allowances and a maximum of 10 per cent. on his salary.
- Compound interest on such payments is annually credited by Government to each officer subscribing, the rate being at present 4 per cent. per annum.
- Receipts and payments are made in rupees only.
- The sum which will thus accumulate to the credit of an officer to be his absolute property, to be handed over to him unconditionally on quitting the service ; or, in the event of his death before retirement, to his legal representatives.

FORM OF APPLICATION TO COMPETE AT EXAMINATION, 1906.

This Form must be completed by the Candidate in his own handwriting and returned, with the necessary documents, to the Secretary, Judicial and Public Department, India Office, Whitehall, London, S. W., not later than Saturday, the 30th June 1906.

No application received after that date can be considered.

ORDERED that a copy of the foregoing Regulations be forwarded, for information, to the Governments of Madras and Bombay, the Local Governments and Administrations noted in the margin, the Inspector General of Forests, and the Comptroller, India Treasuries. Also that the Regulations be published in the *Supplement to the Gazette of India*.

J. WILSON,
Secretary to the Government of India

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 11th January 1906, based on the India Daily Weather Reports of the period.

On the 5th the weather over India was rainless, except in the extreme south, where Pamban reported 1·05" and Negapatam 0·22" of rain, but on the 6th unsettled weather, due to disturbed conditions advancing from the westward, appeared over north-west India, and between the 7th and 8th a well-marked storm passed through the Punjab. Snow fell on the hills between the 7th and 9th and a little rain at their foot, but the weather generally over the plains remained rainless. In the meantime on the 8th a feeble depression developed over the United Provinces and drifting eastward gave some scattered rain to parts of Bengal and Assam, the principal falls having been 0·25" at Burdwan and 0·20" at Gauhati. A third feeble depression appeared over Sind on the 9th and occasioned light falls of rain—generally less than one-tenth of an inch in amount—over Gujarat on the 10th. On the last day of the week the weather was dry generally, but was inclined to become unsettled over the north-west Himalayas. The rainfall table shows that an average fall of over 1" of rain was received over the Simla sub-division of the west Himalayas and about half an inch in the Bay Islands and East Coast (South) divisions, but that elsewhere, even where rain had been received, the amounts were unimportant.

RAINFALL DIVISION WITH REPRESENTATIVE STATION.	Rainfall sub-division named after representative station.	RAINFALL DATA FOR WEEK ENDING ON 11TH JANUARY 1906.			RAINFALL DATA FROM 1ST DECEMBER 1905 TO 11TH JANUARY 1906.			SEASONAL PERCENTAGE DEPARTURE FROM NORMAL.

W. L. DALLAS,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,

Secretary to the Government of India.

SIMLA:

The 11th January 1906.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 6th January 1906.

Burma.—There was no rain during the week except about one-fourth of an inch in Upper Chindwin. Reaping of early wet weather paddy is completed in Thayetmyo and Shwebo and that of late wet weather paddy has commenced in Minbu, is completed in Upper Chindwin and is progressing in other districts. Ploughing for dry weather paddy has commenced in Katha. Reaping of jowar and sessamum has commenced in Myingyan and in parts of Pakokku. Sowing of miscellaneous crops has been completed in Mandalay and Sagaing and sowing of wheat is completed in the Yinnabin sub-division of Lower Chindwin. Plucking of cotton is completed in Myingyan. Sowing of onions and tobacco has commenced in Pakokku. The condition of the standing crops is generally good. The price of paddy has fallen in Akyab, Promc, Thaton, Mergui, and Katha and risen in Minbu; elsewhere it is stationary.

Eastern Bengal and Assam.—There was slight rain in Bogra, the Khasi and Garo Hills and in parts of the Assam Valley during the week. Plucking and manufacture of tea are finished and pruning has commenced in all districts except Sylhet; the outturn of tea is fair. Harvesting of winter rice is in progress; the crop is being damaged by insects in parts of Mymensingh, Sylhet, and Cachar. Sowing of spring crops continues. The outturn of winter rice and the prospects of other crops are generally fair. Insects are causing damage to the mustard crop in Tippera and Sylhet. Fodder is insufficient in Netrokona, in parts of Sylhet and the Jaintia Hills, and in Tezpur. Prices:—common rice—Tezpur 14; Gauhati and Sibsagar 12; Malda 11½; Dinajpur, Rampur Boalia, Noakhali and Dibrugarh 11; Rangpur, Pubna, and Barisal 10½; Jalpaiguri, Bogra, Chittagong, Silchar, Dhubri, Nowgong and Tura 10; Faridpur 9 to 10; Sylhet 9½; Comilla 9½; Dacca and Rangamati 9; and Mymensingh 8 seers per rupee.

Bengal.—There were very light and scattered showers in the Province except in the Patna Division, where some want of rain is felt for the standing spring crops. Harvesting of *aman* paddy is approaching completion. Sugarcane-pressing continues. Spring crops are doing well; some damage to the crops by an insect-pest is reported from Gaya. Prospects are otherwise good. Fodder is sufficient except in parts of the Darbhanga district, where it is reported to be insufficient. The water-supply is sufficient. The price of common rice has risen in twelve and has fallen in four districts.

United Provinces.—Light rain has fallen in six districts accompanied by falls of snow in Garhwal and Almora. Rain is urgently required everywhere as crops on unirrigated tracts are suffering. In Allahabad the absence of rain is causing anxiety. Wells are being dug in Shahjahanpur and irrigation is carried on where practicable. Weeding is in progress and the pressing of sugarcane continues. Injury to crops by frost is reported from twenty-two districts but the damage is apparently slight. White-ants have attacked the crops in Bareilly, Mainpuri, and Hamirpur. Fodder continues scarce and the condition of cattle in Jalaun is reported to be very bad. Markets are well supplied but prices are high and have risen in fifteen districts. In Jalaun the number of workers has risen considerably, 24,151 are on relief work and 14,599 are being gratuitously relieved. The test works in Muttra, Jhansi, and Hamirpur registered 3,615, 3,513, and 1,293 workers respectively and in Cawnpore a similar work opened on the 5th instant has drawn 246 labourers.

The weekly report on the famine and scarcity in the United Provinces is as follows:—During the week Jalaun was the only famine district. The crops are in bad condition and gram has been slightly damaged by frost. There was some mortality among cattle. The condition of the people is fair but some emaciation among children is apparent. The numbers on relief are increasing rapidly; numbers:—workers 24,100, on gratuitous relief 14,600; total 38,700. The task has been raised. The numbers on test works in Jhansi amount to nearly 4,000. Distress is increasing and famine has been declared in this district with effect from the 10th instant.

Punjab.—There was slight rain in the sadr tahsils of Sialkot and Rawalpindi during the week. The prices of food grains generally again show a tendency to rise. The price of wheat is rising in Gurgaon, Ambala, Jullundur, Lahore, Amritsar, Sialkot, Shahpur, and Lyallpur and falling in Rawalpindi. Pressing of sugarcane and harvesting of *toria* (*brassica campestris*) continue. Melons are being sown in Delhi and ploughings for extra spring crops have commenced in Gurgaon. Sowings of spring crops are still going on in Sialkot, Rawalpindi,

and Mianwali. The irrigated standing crops are generally in good condition; unirrigated crops are below average to bad in the Delhi Division and elsewhere average. Rain is urgently wanted in many districts and on it depends the prospects and outturn of unirrigated spring crops. The outturn of *toria* is average and of sugarcane below average. Frost has slightly damaged rape and gram crops in Delhi, Ambala, and Ferozepur, and also sugarcane in Delhi. In Multan the *hadda* disease is damaging turnips, and locusts the wheat and turnip crops. Cattle are subsisting on leaves of trees, shrubs, and also on sugarcane heads; they are weak from want of proper nourishment in Rohtak, Gurgaon, Delhi, Mianwali, and in parts of Amritsar. Improvement is noticeable in Shahpur. Fodder is still scarce in many districts. The canal water-supply is sufficient in Ambala but poor in Delhi.

North-West Frontier Province.—There were slight showers during the week in Hazara and Bannu which have benefited the standing spring crops. More rain is wanted for further spring sowings in Dera Ismail Khan. The condition of the standing crops is average in Dera Ismail Khan and elsewhere promising. The standing sugarcane is being affected injuriously by heavy frosts in Bannu. The water-supply is sufficient, but there is no hill torrent irrigation in Dera Ismail Khan. Fodder is procurable except in the Daman tract of Dera Ismail Khan. Prices:—wheat 12 to 16; gram 14 to 22; maize 17 to 21; and bajra 14 to 16 seers per rupee. The exports by rail are considerable.

Jammu.—There was slight rain in some parts of the Province during the week. Prices are rising. Wheat sells from 13 to 21 and maize 14 to 33 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient.

Kashmir.—The weather is snowy and bitterly cold. Prices are stationary.

Rajputana.—There were slight showers of rain during the week in parts of Bikaner. The spring crops are being watered or weeded, but the cultivated area is generally restricted especially in North Mewar, Jaipur, Kishangarh, Alwar, Karauli, Bharatpur, and Ajmer-Merwara where prospects are very poor. The standing crops in North and Central Kotah are withering for want of rain; elsewhere their condition is fair to good. Damage from frost is reported from parts of Mewar. The condition of cattle is poor in North Mewar, Jaipur, Kishangarh, Alwar, Karauli, Bharatpur, and parts of Marwar; in these tracts and in Tonk, Dholpur, Ajmer-Merwara, and parts of Kotah pasturage and fodder are very insufficient. Prices have risen in Jaisalmer, Mewar, Tonk and Dholpur; have fallen in Bundi and Bharatpur; and are steady or nearly steady elsewhere. Prices are generally much above normal particularly in Bikaner, Mewar, Shahpura, Bundi, Kotah, Alwar, Karauli, Bharatpur, and Dholpur. The highest price is 11 seers 4 chattaks per rupee in Karauli. The water-supply is failing in parts of Kotah and Jhalawar. The test works in Karauli have been converted into famine relief works. The numbers on famine relief were as follows:—Ajmer 18,847; Merwara 16,714; Marwar 3,999; Dholpur 1,814; Kishangarh 3,982; Karauli 4,896. On test works:—Mewar 1,576; Shahpura 969; Tonk 140; Jaipur special works 3,812; Alwar 594; Bharatpur 7,582. On gratuitous relief:—Mewar 507; grand total 65,292 or an increase of 1,658. Generally the numbers are not increasing probably owing to the people finding employment on spring cultivation.

The special report on the famine and scarcity for the week ending 6th January is as follows:—Numbers—on works Ajmer 12,936; Merwara 10,988; on gratuitous relief Ajmer 5,811; Merwara 5,826; total 35,561. Prices are high but are nearly steady. Prices:—Ajmer 12½ seers and Merwara 13½ seers per rupee. A few cases of emaciation are noticeable. There is no wandering or large influx of foreigners. Relief measures are adequate and liberal suspensions of land revenue have been granted. The public health is good. Charitable funds are sufficient for the present. Native States:—Famine has been officially declared in Karauli; the numbers on relief were as follows:—Marwar on works 2,895; on gratuitous relief 1,104; total 3,999; Dholpur on works 1,303; on gratuitous relief 571; total 1,814; Kishangarh on works 1,474; on gratuitous relief 2,508; total 3,982; Karauli on works 4,208; on gratuitous relief 688; total 4,896. Prices:—Marwar 13½ seers; Dholpur 11½ seers; Kishangarh 14 to 16 seers; and Karauli 11½ seers per rupee. Prices are much above the normal. Some cases of emaciation are reported from Dholpur and Karauli. In the latter State the people are reluctant to travel to works and arrangements are being made for expansion of works. A charitable committee is working at Jodhpur and one has been organised at Karauli. There is no epidemic prevalent.

Central India.—There was no rain during the week. Irrigation of spring crops is in progress in Gwalior and Indore. Harvesting of autumn crops is in progress in Bhopal, Baghelkhand, and Malwa. The standing crops are good in parts of Gwalior and Indore; fair in Bhopal, Malwa, and Bhopawar; indifferent in Baghelkhand; and average in Bundelkhand; but rain is badly wanted for them. The probable outturn is good in parts of Gwalior and Indore; fair in Bhopal; average in Bundelkhand; and below average in Baghelkhand and Malwa. Winter rains are needed for spring crops in Bhopawar. The crops

have been damaged in parts of Indore for want of moisture and by frost in parts of Baghelkhand, Malwa, and Bhopawar. Agricultural stock is bad in Bundelkhand. Pasturage is scarce in the north of Bundelkhand. Prices are steady in Gwalior, Indore, and in parts of Malwa; are rising in Bhopal, Bundelkhand, and Bhopawar; and continue high in Baghelkhand. Opium is good in Malwa, in parts of Gwalior and fair in Bhopal and Bhopawar.

The general position is unaltered in Gwalior. The numbers on relief were as follows:—on works 17,000; on gratuitous relief 1,000; total 18,000.

Central Provinces.—The weather has been cold and occasionally cloudy. The harvesting and threshing of autumn crops and picking of cotton still continue in some districts. The outturns range as follows:—rice 75 to 105; juar 85 to 90; cotton 60 to 90; and til 52 to 120. The spring crops are at present in fair to good condition. Wheat, gram, and linseed promise a normal outturn, but a shower or two would greatly improve the prospects. Slight damage by frost to spring crops is reported from Saugor and parts of Damoh. The price of wheat has risen by two seers in the rupee in Mandla, Hoshangabad, Chanda and Raipur; that of gram by three seers in Mandla; and that of juar by four seers in Chanda; otherwise prices are steady or fluctuate slightly. They are still generally higher than those ruling at this time last year.

Baroda.—For week ending 30th December 1905. The numbers on relief were as follows:—on works 2,887; on gratuitous relief 186; total 3,073.

Bombay.—There was no rain during the week. The standing crops have been damaged by locusts in parts of Upper Sind Frontier; by frost in parts of Panch Mahals, Kaira, Baroda, and Mahi Kantha; and are withering in parts of the Deccan, the Karnatak, and Kolhapur. Harvesting of autumn crops is completed in Bijapur; is nearly completed in Dharwar and Kolhapur; and continues in parts of Sukkur, Larkana, Belgaum, Kanara, and Mahi Kantha. Threshing is in progress in parts of Larkana, Upper Sind Frontier, the Konkan, Khandesh, Poona, Mahi Kantha, and Nasik. Sowing of spring crops is completed in Upper Sind Frontier; is nearly over in Larkana and Thar and Parkar; and continues in parts of Belgaum and Kanara. Cotton is withering in parts of Belgaum and Baroda and has been slightly damaged by frost in parts of Hyderabad, Thar and Parkar, Panch Mahals, and Mahi Kantha. Picking is nearly completed in Khandesh and continues in parts of Hyderabad, Thar and Parkar, Gujarat, Bijapur, and Kathiawar. The fodder supply is sufficient except in parts of Karachi, Larkana, Hyderabad, Poona, Satara, the Karnatak, Cutch, and Kolhapur. Agricultural stock is sufficient and in good condition except in parts of Karachi, Sholapur, Satara, the Karnatak, and Kolhapur. The water-supply is adequate except in parts of Surat, the Deccan, the Karnatak, Kathiawar, Baroda, Cutch, and Kolhapur. Prices have risen in eight districts; have fallen in one district; and are stationary elsewhere. The numbers on relief for the week ending the 30th ultimo were as follows:—on test works—Ahmednagar, 378; Belgaum, 1,132; Bijapur, 1,009; Jath, 174; total 2,693. The daily averages on gratuitous relief were:—Ahmednagar 947; Poona 534; Bijapur 1,640; Belgaum 2,097; total 5,218.

Hyderabad.—There was no rain during the week. The early rice harvest is still in progress in three talukas. The spring harvest has commenced in three talukas; the crops are in an indifferent state in thirty-one talukas; in nine the outturn is estimated at under eight annas in the rupee. Late rice is being sown, but the area is limited. Land revenue is being suspended in nine affected talukas and advances are being given for agricultural wells. Relief works which have been started under the Public Works Department as contract works have been attended by 1,328 persons. Fodder scarcity exists in thirteen talukas. The price of jowar has risen from one to five seers in twenty talukas and fallen from one to three seers per rupee in three. Prices:—wheat 10; rice $7\frac{1}{2}$; and jowar $16\frac{1}{2}$ seers per rupee.

Mysore.—Prices are steady. The crops are in need of rain except in parts of Kolar, Tumkur and Mysore. Prospects are generally fair except in parts of Tumkur. Cattle are healthy. The water-supply is insufficient in parts of Mysore and Shimoga. Fodder is scanty in Chitaldroog and in parts of Hassan and Shimoga.

Coorg.—Picking of coffee and reaping of rice continue. Prices of food grains are normal. Water and fodder are sufficient.

Madras.—There was light rain during the week in Tanjore, Tinnevely, Ganjam, Madura, and the Vizagapatam littoral, but none elsewhere. Irrigation supplies are generally sufficient except in parts of the Circars, Bellary, Anantapur, South Arcot, the Central districts, Tanjore, and Madura. Ploughing, sowing, weeding, and transplanting are in progress. The standing crops are generally fair, but some require more rain in parts of Guntur, Bellary, Cuddapah, the Central districts, Tanjore and Malabar, and some in parts of Kurnool, Madura, and Tinnevely are withering. Harvests continue with outturn poor

to normal and bumper. Pasture is sufficient everywhere except in parts of the Circars Bellary, Anantapur, Coimbatore, and Madura. Fodder is scanty in parts of Godavari, Nellore, Chingleput, South Arcot, Central districts, and Tanjore. The condition of cattle is generally good. The price of rice is stationary in six districts, has fallen in nine, and has slightly risen in eight. The prices of millets have fluctuated as follows :—Ragi is stationary in five districts ; has fallen in two ; and has slightly risen in fourteen. Cholan is stationary in one district ; has fallen in seven ; and has slightly risen in six. Cumbu is stationary in three districts ; and has slightly risen in twelve.

J. WILSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF COMMERCE AND INDUSTRY.

Telegraphs.

ADMINISTRATION REPORT OF THE INDO-EUROPEAN TELEGRAPH DEPARTMENT
FOR 1904-05.

Nos. 182-187—113, dated Calcutta, the 10th January 1906.

RESOLUTION.

READ—

The Administration Report of the Indo-European Telegraph Department for the year 1904-05.

ORDER.—Ordered that copies of the Report be forwarded to the Home, Finance, and Public Works Departments, the Government of Bombay and the Director General of Telegraphs, for information.

Ordered also that the Report be published in the Supplement to the *Gazette of India*.

W. L. HARVEY,
Secretary to the Government of India.

ADMINISTRATION REPORT
OF THE
INDO-EUROPEAN TELEGRAPH DEPARTMENT
FOR
1904-1905.

CAPITAL AND REVENUE ACCOUNT.

1. *Capital*.—The net outlay during the year under this head was Rs 2,71,783, which raised the expenditure on capital account to end of the year to Rs 1,39,71,578. On the construction of the Central Persian line a sum of Rs 1,70,791 was expended during the year, of which amount Rs 1,21,748 were on account of cash and Rs 49,043 Stores expenditure. Capital Account has been debited during the year with Rs 36,517 on account of making the cable diversion to Henjam, this amount representing the actual cost of extra cable laid, establishment, etc., employed and the hire of the *Patrick Stewart* while engaged in making the diversion. In the Persian Gulf Section, Rs 21,674 have been expended on the construction of buildings. In the Persian section the cost of constructing buildings during the year was Rs 20,918, of which Rs 19,148 were expended against the Budget provision for constructing telegraph offices and quarters for staff on the Central Persia line, the balance being expended on other petty works in the section. The balance of the increase on Capital account is made up of Rs 5,750 on equipment of the Henjam office and Rs 16,133 increase in the Suspense balance.

The following statement shows how the above increase is made up :—

	Increase.	Decrease.	Total.
	<i>R</i>	<i>R</i>	<i>R</i>
Works	2,55,650	—	2,55,650
Suspense :			
Stores	19,903	—	19,903
Other heads	—	3,770	—3,770
TOTAL .	2,75,553	3,770	2,71,783

A summary of the year's transactions on Capital account is given in Appendix A.

2. *Revenue*.—A summary of the earnings and expenditure* for the year 1904-05 will be found in Appendix B. The earnings of the year were ₹16,93,603, or an increase of ₹86,003 over those for 1903-04, *viz.*, ₹16,07,600. The expenditure during the year was ₹10,77,679, as compared with ₹9,26,233 during 1903-04, or an increase of ₹1,51,446. The net result is a profit of ₹6,15,924 for the year, as compared with the profit of 1903-04, ₹6,81,367.

3. The following statements show the chief differences between the earnings and expenditure of the current and previous years, details being found in Appendix B :—

EARNINGS.

Head of Account.	1903-1904.	1904-1905.	Increase.	Decrease.
	<i>R</i>	<i>R</i>	<i>R</i>	<i>R</i>
Traffic Earnings	10,91,223	11,75,903	84,680	—
Common Purse	6,19,143	6,19,815	672	—
Australasian Message Fund	—1,62,661	—1,25,053	37,608	—
Profit and Loss	—257	30	287	—
Total Message Revenue	15,47,448	16,70,695	1,23,247	—
Miscellaneous Revenue	60,152	22,908	—	37,244
TOTAL .	16,07,600	16,93,603	1,23,247	37,244
Net Increase .	—	—	86,003	—

EXPENDITURE.

Head of Account.	1903-1904.	1904-1905.	Increase.	Decrease.
	<i>R</i>	<i>R</i>	<i>R</i>	<i>R</i>
Persian Gulf Section :—				
General charges	1,22,716	1,25,014	2,298	—
Line maintenance	50,192	46,888	—	3,304
Signalling	2,03,999	2,11,649	7,650	—
Cable maintenance	2,99,391	2,95,100	—	4,291
Persian Section :—				
General charges	88,055	1,20,451	32,396	—
Line maintenance	62,424	1,40,822	84,398	—
Signalling	91,561	1,24,062	32,501	—
Expenditure by other Departments	7,895	7,693	—	202
TOTAL .	9,26,233	10,77,679	1,59,243	7,797
Net Increase .	—	—	1,51,446	—

The increase in expenditure in the Persian Gulf Section is small and calls for no special remark. In the Persian Section the apparently large increase of expenditure during the year 1904-05, as compared with the previous year, is largely due to the adjustment in 1903-04 of ₹80,063, cost of establishment employed on construction of the Central Persia

* Excluding the cost of the London Office Establishment (19,381*l.*), which is included as part of the Establishment of the Secretary of State.

line, written back from Revenue to Capital. Expenditure on Repairs and Renewals of Lines during the year is responsible for an increase of ₹48,839 over the expenditure on this head during the year 1903-04; this increase of expenditure was principally due to the expenditure, ₹54,691, on the diversion of the line from Ispahan to Kashan to the Ardistan route. The increase under Signalling is partly due to another sub-section and office of the Central Persia line being opened during the year.

NET REVENUE.

4. On a total Capital expenditure of ₹1,39,71,578 a net profit of ₹6,15,924 was earned, which gives a dividend of 4.408 per cent. (Appendix D). The dividends earned during the past five years are as follows :—

Year.													Interest on Capital.
													₹
1900-1901	7.85
1901-1902	7.89
1902-1903	4.50
1903-1904	4.97
1904-1905	4.408

CIS-INDIAN JOINT PURSE.

5. Appendix C deals with the transactions in connection with this Agreement, which was entered into in 1878.

													£ s. d.
The Department's share of the whole Purse shows an increase of . . .													5,976 0 0
Which is explained as follows—													
Increase on Indian traffic													3,177 0 0
Increase on Trans-Indian traffic													2,799 0 0
•													5,976 0 0

6. *Interruptions affecting Joint Purse Traffic.*—There were three interruptions stopping traffic between Karachi and Teheran, one in the Gulf section lasting for 3 hours and 40 minutes, in July 1904, and two in the Persian section lasting for one day, 2 hours and 10 minutes, in December 1904 and March 1905. Between Teheran and London the Indo-European Company's lines were totally interrupted for an aggregate of 2 days, 4 hours, and 2 minutes.

7. On the Turkish route interruptions occurred between Fao and Constantinople lasting 65 days, 1 hour, 55 minutes. The working of this route continues to be unsatisfactory. The Fao-Bushire cable was not interrupted during the year.

During the last five years the Turkish route west of Fao has been interrupted as follows :—

1900-01.			1901-02.			1902-03.			1903-04.			1904-05.		
Days.	H.	M.	Days.	H.	M.	Days.	H.	M.	Days.	H.	M.	Days.	H.	M.
37	6	37	40	3	40	42	9	37	23	17	50	65	1	55

The Department was liable to the Joint Purse for 31 days' interruptions between Constantinople and Fao at Fcs. 50 per diem.

AUSTRALASIAN MESSAGE FUND.

8. The Departmental receipts for this year show a decrease of £900 on the receipts in 1889, on which the original Australasian Message Fund was based. See Appendix C (1).

TRAFFIC.

9. The following table gives the amounts paid into the Joint Purse by the Department as compared with its independent traffic revenue :—*

	FOR JOINT PURSE, ETC.				Independent Revenue.	TOTAL.
	Indian.		Trans-Indian.			
	Fcs.	cts.	Fcs.	cts.	Fcs.	cts.
Persian Gulf Section	1,573,258	87 ¹ / ₂	117,170	2254	31,535	02133
Persian Section	220,848	10 ³ / ₄	15,484	0181	1,374	39833 ¹ / ₂
TOTAL FRANCS	1,794,106	98 ¹ / ₄	132,654	2435	48,909	41966 ¹ / ₂
						1,975,670
						64566 ¹ / ₂

10. Appendix E gives the number of messages and words carried under the different classes:—1, State; 2, Commercial and Private; 3, Press, during the past five years.

11. The average length of "private and commercial" messages was 11.49 words in 1904-05 as compared with 11.79 words in the previous year. The average length, calculated from the averages of the past seven years, is 12.59 words.

12. *Check of Errors.*—The accuracy of transmission over the lines of the Department for the past two years is shown below, and is satisfactory. The percentage of errors against words examined was as follows :—

For 1903-04	0.129 per cent.
„ 1904-05	0.126 „

13. *Complaints and Errors.*—The number received for investigation amounted to 183, being 15 less than the total for the year 1903-1904. Of this number 97 were from Europe and 86 from India; 57 related to messages *via* Turkey.

Of the above, 76 were not admitted by the Administrations concerned, or are still being investigated by them, and of the remaining 107 this Department is responsible for 20.

OFFICES.

14. The number of offices open to the public throughout the year, excluding those on the Teheran-Meshed (Persian Government) line, was, in the Persian Gulf Section 11, and in the Persian Section 15, including 7 offices on the Central Persia line.

PERSIAN GULF SECTION.

CABLES.

15. The total length of the various cables on 31st March 1905 was 1950.757 knots, as against 1938.164 knots in the former year, the increase being due to a diversion in order to re-open a Telegraph Office on the Island of Henjam, and to repairs and renewals of the Bushire-Jask cable.

Four faults occurred during the year, and one continued into this from the previous year, making a total of five faults. Three were due to corrosion of guards.

There were six interruptions on the Bushire-Manora cables, aggregating 24 days, 11 hours, 22 minutes, and including one of 2 days, 18 hours, and 17 minutes when the cable was cut for the Henjam diversion. As an alternative cable to the Mekran Coast land line was available, through communication was only interrupted for 3 hours and 40 minutes. The Fao-Bushire and Jask-Muscat cables were not interrupted.

The expenditure of cable for repairs and renewals amounted to 82.853 knots, the lengths recovered at sea being 56.714 knots, but most of this was only fit for stripping for core.

Manora Cable Factory.

16. The expenditure of cable during the year and cable in stock at the end of the year was as follows :—

	Knots.
Cable in stock on 1st April 1903	60.652
Manufactured at Manora	77.222
Recovered at sea	10.108
	<hr/>
Deduct cable expended, 1904-05	147.982
	86.586
Balance, 31st March 1905	<hr/>
	61.396

The amount of cable stripped for core was 32.335 knots.

* The independent traffic revenue is that obtained from traffic dealt with by this Department and not touching India such as for telegrams between the stations of Jask and Bushire.

Cable Steamer "Patrick Stewart."

17. The cable steamer "Patrick Stewart" steamed 10,123 knots, and the engineering staff either wholly or in part was absent from headquarters on cabling work for 103 days during the year. The actual earnings of the ship were ₹4,901-5-3.

MEKRAN COAST LAND LINE.

18. The total lengths on the 31st March 1905 were the same as last year, *vis.*, 697'96 miles of line and 1,393'42 miles of wire.

The total interruptions (*i.e.*, simultaneous interruptions to both wires) during the year lasted for 183 hours, 49 minutes. Partial interruptions (*i.e.*, those not affecting communication) amounted to 285 hours.

The causes of the faults are summarised as follows :—

Definitely traced to preventable causes :—

	Number.	Duration. Hours.
Corroded wires	6	85

Unpreventable causes :—

Cyclones and floods	5	308½
Animals and birds	2	51
Malice	4	23½

General Remarks.

19. Nothing of particular interest occurred during the year; the districts along the line remained quiet and the people friendly.

PERSIAN SECTION.

TEHERAN-BUSHIRE LINE.

20. It was decided to dismantle the section of line between Ispahan and Kashan which passed over the Kohrud Pass, and to establish telegraphic communication between these two stations *via* Ardistan. This work was nearing completion when the year closed. The faults from all causes, including contacts between the wires during the past three years, have been—

Year.	1 Wire. Hours.	2 Wires. Hours.	3 Wires. Hours.
1902-1903	172	6	Nil
1903-1904	123	4	Nil
1904-1905	298	43	15

The causes of the faults may be summarised as follows :—

Definitely traced to preventable causes :—

	Number.	Duration. Hours.
Faulty maintenance	1	12
Unpreventable causes :—		
Cyclones and exceptional storms	4	159
Floods	1	15
Lightning	2	10
Animals, birds, and dead snakes	6	59
Malice	8	74
Other unpreventable causes	1	18
Unknown causes	1	6
Faults in offices	1	3

21. *Wilful Damage.*—536 acts of wilful damage were reported during the year, being 177 less than last year. They were distributed along the line as follows :—

Sub-section.	Locality.	No. of Miles.	No. of Acts, 1903-1904.	No. of Acts, 1904-1905.
1st	Teheran to Soh (68 miles north of Ispahan) 1st April 1904 to 3rd February 1905.	194	228	} 106
	Teheran to Ardistan, 4th February 1905 to 31st March 1905.	221	—	
2nd	Soh to Abadeh, 1st April 1904 to 3rd February 1905.	186	49	} 66
	Ardistan to Abadeh, 4th February 1905 to 31st March 1905.	194	—	
3rd	Abadeh to Shiraz	157	324	245
4th	Shiraz to Bushire	156	112	119

The amount claimed from the Persian Government for damages was Krans 10,863.75.* Of this sum Krans 265 were collected locally; the balance, Krans 10,598.75 has been deducted from the Jask Royalty.

General Remarks.

22. During the summer of 1904, owing to an epidemic of cholera, the Telegraph Offices at Teheran and Shiraz were temporarily moved into quarters outside these cities.

TEHERAN-MESHED LINE.

23. This line is the property of the Persian Government, but maintained by the Indo-European Telegraph Department. It is 568 miles in length. It worked satisfactorily during the year and was interrupted only for 173 hours.

No events of a political nature affected this line during the year, though there was a serious riot at Meshed.

CENTRAL PERSIA LINE.

24. The line from Kashan to the Eastern Frontier of Persia, which was commenced on the 2nd December 1902, has been completed through Yezd, Anar, Kerman and Bam, to a point 25 miles beyond Bam, and 596 miles distant from Kashan. Beyond this a single wire line has been constructed to form a connection with the Indian line from Quetta to Robat. It was completed on 9th May 1904 and is 211 miles long.

INDO-EUROPEAN TELEGRAPH DEPARTMENT.

STORES.

25. The principal items of expenditure under this head have been as follows :—

	R
Stores purchased in India	5,669
London stores, including freight, landing charges and exchange	2,65,114
Stores from other Departments	7,541

The following were the principal issues of stores, including adjustments to the end of March 1905 :—

	R
For repairs to cable	1,12,632
For cable steamer	17,295

The issues for repairs and renewals of land line and offices in the Persian Gulf section amounted to R28,645, and in the Persian Section to R62,938.

H. A. KIRK,
Director-in-Chief.

India Office,
24th October 1905.

* 4 Krans = 1 Rupee approximately.

APPENDICES.

The sums shown in these columns represent the gross receipts of the Indo-Indian Joint Purse. These receipts are, however, subject to reductions in respect of payments as follows:—(1) to the Eastern Extension Company (a) on account of Australian Traffic, (b) on account of Straits Settlements and Java Traffic, for period 1st April 1902 to 30th June 1904, (c) on account of China, Japan, and Philippines Traffic from 15th July 1903, to 31st March 1904, (d) French Indo-China and Siam Traffic from 15th January 1904 to 30th June 1904; (2) to Indo-European Telegraph Company (a) on account of Indo-European Traffic, from 1st March 1902 to 31st December 1904, (b) on account of Indo-European Telegraph Company's guarantee to Germany on Australian Traffic from 1st January 1901 to 31st December 1904. See Appendix B.

Table B.—Division of Traffic as actually carried for past Five Years.

NOTE.—Under the columns headed "Gulf" are shown messages and words accounted for in Gulf Traffic Accounts.
 Under the columns headed "Persia" are shown messages and words originating or terminating in Persia to or from Indo-European Company's line, which consequently do not appear in the Gulf Traffic Accounts.
 * The "Times" agreement lapsed on 31st December 1901. From January 1902 messages to "Times," London, have been put under "Press" messages.

GOVERNMENT OF INDIA.
DEPARTMENT OF COMMERCE AND INDUSTRY.
CUSTOMS.

FORMATION OF AN IMPERIAL SERVICE FOR THE ADMINISTRATION OF THE
CUSTOMS IN INDIA.

No. 154—161-57, dated, Calcutta, the 9th January 1906.

RESOLUTION.

The Government of India have for some time past had under consideration the question of the formation of an Imperial Service for the administration of the Customs in India. The point was first raised by a representation made in February 1903 by the Bengal Chamber of Commerce. The Chamber explained that it had been in communication with similar associations throughout India regarding the matter, and had ascertained that there was a strong feeling among the mercantile community that a change in the existing system of Customs administration was called for. It was represented that the best results could not be obtained by placing members of the Indian Civil Service, however able, at the head of a department for which they had no previous training, and it was further pointed out that the constant changes of officials, which are almost inseparable from working the Customs as a department of the Civil Service, are not only harassing to merchants generally, but also prejudicial to trade. The Bengal Chamber accordingly recommended the formation of an Imperial Customs Service. The Karachi Chamber of Commerce intimated its concurrence in these views and expressed the opinion that the institution of an Imperial Customs Service would be of the greatest advantage to the commercial Community. A communication was also received from the Manchester Chamber, in which unsatisfactory nature of the existing arrangements was dwelt on, and the hope was expressed that a system would speedily be devised under which the Collectors of Customs would retain their appointments for lengthened periods. The Government of Bengal was consulted regarding the recommendations made by the Bengal Chamber; and, simultaneously with the receipt of its reply, letters were received from the Governments of Madras and Bombay, in which they expressed the opinion on a similar proposal submitted for the consideration by the local Chambers.

2. The criticism to which the proposal was subjected by the Local Governments did not seriously affect the main contentions urged by the Chambers; and the defects of the present system were freely admitted. It was shown that the complaints regarding the frequent changes in the Collectorships had been somewhat exaggerated, but it was evident that they were on the whole well founded. The Government of India had for some time been conscious of the defects of the present system of localisation in Customs administration, one result of which is, as was pointed out by the Chambers of Commerce, that officers are taken from the general ranks of the Indian Civil Service to fill the important post of Collector of Customs without having the least knowledge or experience of Customs procedure. They must inevitably be dependent on their subordinates for a considerable length of time while they are learning their work, and meanwhile the administration suffers. When they have learnt their work, and become efficient Collectors, they are frequently called away to other duties, and new and inexperienced men are brought in in their place. The effect must be, as the Chambers represented, prejudicial to trade. Reforms cannot be introduced because Collectors may be removed just when they become competent to introduce them. On the one hand, there is a lack of continuity in the administration due to frequent changes of the head of the office: on the other, there is an undesirable perpetuation of practices, frequently incorrect, which are based on traditions maintained by assistants and subordinates.

3. There is a further defect in the present system which has frequently been pressed on the notice of the Government of India of late years. Traders complain that various practices to which they have become accustomed at one Indian port are objected to at another; and that facilities which are accorded without question by one Collector are withheld by another. This result is also inevitable from the present system of localization. The Collector may rise above the traditions of his own port and effect improvements in procedure, but he can never carry the benefit of his experience to another province. The Government of India have frequently insisted on the desirability of uniformity of practice at different ports, but it is almost impossible to secure it in practice, unless Customs officers can be transferred from port to port and unless the experience gained in one province can be utilized in another.

4. The only effective remedy for these defects appeared to the Government of India to be the formation of a service comprising both Collectors and Assistant Collectors,

the *personnel* of which would be directly under their control and liable to be transferred from one province to another. Accordingly, in December 1903, the outlines of a scheme, formulated with the object of removing these defects were laid before the Maritime Local Governments and the Chambers of Commerce, and a free expression of their views on the subject was invited. The scheme met with a most favourable reception, and was welcomed by the Chambers of Commerce as a satisfactory solution of the difficulties to which they had directed attention. It was subsequently submitted to the Right Honourable the Secretary of State for India in December 1904; and after some further correspondence regarding details of minor importance, has been finally sanctioned by him.

5. The new Imperial Customs Service will include the appointments of Collector of Customs at Calcutta, Bombay, Madras, Rangoon, Karachi and Chittagong, the Assistant Collectorships at these ports, and the posts of Superintendent of the Preventive Service at Calcutta and Bombay. Its cadre will not at present provide for the administration of the Customs at the minor ports; but arrangements will be made for securing more efficient supervision over the subordinate officers stationed at these ports by inspections conducted by the members of the Imperial Service. Three probationers will also be attached to the service, in order to provide a sufficient margin for leave vacancies, and to maintain a reserve of officers under training. All these officers will be liable to transfer from port to port; and such transfers will be made at reasonable intervals in order to assimilate, as far as possible, the Customs administration throughout India. The service will be under the direct control of the Government of India; and all questions affecting the appointment, promotion, leave, transfer, and punishment of officers will be dealt with by them. The following table shows the grading of the service, and the scale of pay and allowances which has been sanctioned for the various appointments:—

Appointments.	Number.	Pay <i>per mensem</i> (without exchange compensation allowance).	Maximum local allow- ance admissible to officers stationed at Calcutta, Bombay, and Rangoon.
		R	R
COLLECTORS—			
Class I	1	2,500	250
„ II	2	2,250	250
„ III	2	2,050	200
ASSISTANT COLLECTORS—			
Class I	3	1,400	75
„ II	3	1,150	75
„ III	3	1,000	75
„ IV	4	650	75
„ V	4	450	75
PROBATIONERS	3	300	...

6. Three of the Collectorships will be reserved for members of the Indian Civil Service, and the remaining two appointments will ordinarily be held by other members of the Customs Service, if suitable incumbents are forthcoming. Of the Assistant Collectorships, one appointment in each of the first three classes will be reserved for members of the Indian Civil Service. The Government of India consider that, even if equally competent officers could be recruited elsewhere, it would still be desirable to employ members of the Civil Service on Customs work, in order that that service may continue to include a certain number of men who have been brought into close official relations with the mercantile community. Collectors of Customs appointed from this service will be permitted subject to the approval of the Government of India, to revert to their own Provinces at any time; but such permission will be withheld in cases where it would cause too rapid a change in the Customs *personnel*. Subject to this condition, permission to revert will be accorded in cases where the experience acquired by the officer in the Imperial Service is likely to be of special assistance to the Local Government under which he will serve on reversion; and, under an arrangement of this nature, members of the Civil Service who have acquired a technical knowledge of Customs procedure in the Imperial Service will probably be regarded as best qualified for the more important revenue appointments, which under the law involve the control of Customs within a Province, such as those of Member of the Board of Revenue in Madras and Bengal, or Commissioner of Customs in Bombay. Members of the Civil Service of four or five years' standing will ordinarily be selected for the three reserved appointments of Assistant Collector, and they will be required to remain in the department for at least four years. At the end of that time they will be permitted, if they should so wish, to revert to their own Provinces. Officers so trained, whether they have reverted for a time or not, will be eligible for subsequent appointment as Collector; and no officer will ordinarily be appointed Collector of Customs unless he has served as an Assistant.

7. The Assistant Collectors, other than members of the Civil Service, will ordinarily be recruited in England in the same manner as officers of the Enrolled List of the Finance

Department. On arrival in India, they will ordinarily be posted as probationers to Calcutta or Bombay; and, after the expiry of a year, they will be required to undergo a departmental examination in the Vernacular, in Customs work, and in law and procedure. On passing this examination, they will be invested with certain minor powers, and finally, if their work is approved, with full powers.

8. The present Assistant Collectors who do not belong to the Indian Civil Service will not be absolutely debarred from the prospect of promotion to the Imperial Customs Service; but, having regard to the history and qualifications of the majority of the officers now employed, the Government of India consider that such promotions should only be sanctioned in very exceptional cases, and on the special recommendation of a Local Government in favour of individual officers serving under it. The officers now in the Department will, however, retain all their existing rights, and they will receive promotion in their present cadres, on the existing scales of pay.

9. It will be apparent that the scheme for the formation of the new Imperial Service can only be brought into effect as vacancies occur in the existing establishments. The Government of India propose, however, to form the nucleus of the Imperial Service by filling up immediately the six appointments reserved for members of the Indian Civil Service, and by appointing officers to certain of the Assistant Collectorships for which suitable candidates, other than Civilians, are forthcoming. Arrangements have also been made for the selection of two probationers. The Local Governments have been addressed on this subject, and they have been asked to nominate officers of the Civil Service for the reserved appointments, which will, for the present, be the four Collectorships at Calcutta, Bombay, Madras and Rangoon, and the Assistant Collectorships at Calcutta and Bombay. Separate arrangements are also being made for the performance of the miscellaneous duties, other than purely Customs work, which are at present undertaken by the Collector of Customs at Madras, and by the Collector of Customs at Bombay, aided by his two Civilian Assistants.

ORDER.—Ordered that a copy of this Resolution be forwarded to the
 Madras, Revenue Department,
 Bombay, Revenue Department,
 Government of Bengal, Financial Department,
 Burma, Revenue Department,
 Eastern Bengal and Assam, Financial Department,
 6731-6732-57-5,

NOTIFICATIONS.

ACCOUNTS.

PUBLIC DEBT.

Calcutta, the 19th January 1906.

No. 354-A.—The following draft of a notification which it is proposed to make in exercise of the power conferred by Section 14 of the Indian Securities Act, 1886 (XIII of 1886), is published, as required by Section 15, Sub-Section (1), of the said Act, for the information of persons likely to be affected thereby, and notice is hereby given as required by the said Section 15, Sub-Section (2), that the draft will be taken into consideration by the Governor General in Council on or after the 20th day of February 1906.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date fixed as aforesaid will be considered by the Governor General in Council.

Draft Notification.

In exercise of the power conferred by Section 14 of the Indian Securities Act, 1886 (XIII of 1886), the Governor General in Council is pleased to direct that the following proviso be added to rule 4 of the rules published with the Resolution of the Government of India in the Finance and Commerce Department No. 96, dated the 7th January 1888, as amended by the Notification of the Government of India in that Department No. 4870-A., dated the 10th September 1902, namely:—

Provided that in the case of receipts for payment of interest on Government Promissory Notes made at a Public Debt Office, the provisions of sub-rules (2) and (3) shall not be enforced unless it is specially so directed by the officer making the payment.

From 1st April 1905 and until further orders, Mr. Calderbank will officiate as Assistant Carriage and Wagon Superintendent, Oudh and Rohilkhand Railway, in class III of the Superior Revenue Establishment.

No. 15.—Mr. H. G. F. Smith, Executive Engineer, 1st grade, State Railways, is permitted to retire from the service of Government under Article 465 of the Civil Service Regulations, with effect from the 22nd December 1905.

NEVILLE PRIESTLEY,
Secretary, Railway Board.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, JANUARY 20, 1906.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 17th November 1905.

From the 25th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 18th November all Notifications and other matter intended for publication in the Gazette should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

No. 512 of 1905.—Sidney Read Bellingham, artist, of Rydal, in the state of New South Wales, commonwealth of Australia. *Improvements in animal feed boxes.* (Specification filed 10 January 1906.)

No. 194 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

- No. 14 of 1893.—Samuel Edward Hasking. *An improved process and apparatus for vulcanizing wood.* (From 1 August 1906 to 1 August 1907.)
- No. 76 of 1893.—William Jackson. *Improvements in air heating stoves, more especially intended for use with machinery or apparatus for drying tea.* (From 22 June 1906 to 22 June 1907.)
- No. 347 of 1893.—William Jackson. *Improvements in apparatus for subjecting materials to the action of hot air or for analogous operations, more especially intended for use in drying tea leaves, coffee, and other produce.* (From 22 December 1906 to 22 December 1907.)
- No. 181 of 1894.—Jean Reuse. *A new or improved machine for the manufacture of cigars.* (From 10 January 1906 to 10 January 1907.)
- No. 292 of 1895.—William R. Aveline. *An improvement in latrines for natives.* (From 11 January 1906 to 11 January 1907.)
- No. 178 of 1896.—Arthur Weinberg. *The production of polyazo-dyestuffs from gamma-amidonaphthol-sulpho acid.* (From 19 January 1906 to 19 January 1907.)
- No. 208 of 1897.—William Thomas Owen and Thomas Thatcher. *An improved composition applied to the permanent-way of railways to destroy vegetation, preserve the timber from decay, and the rails and fastenings from oxidation.* (From 19 January 1906 to 19 January 1907.)
- No. 490 of 1897.—The American Railway Electric Light Company. *Improvements in means for use in lighting railway cars or carriages by electricity and for regulating the current for the same.* (From 10 March 1906 to 10 March 1907.)
- No. 316 of 1898.—Alister MacNab. *Improvements in apparatus for pulverising and purifying salt and other substances.* (From 30 December 1905 to 30 December 1907.)
- No. 370 of 1898.—Auguste Collette Fils and Auguste Boidin. *Improvements in apparatus for the manufacture of alcohol by saccharification and fermentation by means of mucedineæ.* (From 14 April 1906 to 14 April 1907.)
- No. 165 of 1899.—William Jackson. *Improvements in apparatus for sifting, sorting, and classifying tea, or other products, or materials.* (From 17 June 1906 to 17 June 1907.)
- No. 76 of 1900.—William Jackson. *Improvements in apparatus for dividing tea leaves, coffee, and other materials.* (From 24 September 1906 to 24 September 1907.)
- No. 87 of 1900.—Charles Woodbury Stevens. *Processes for the manufacture of artificial stone.* (From 9 January 1906 to 9 January 1907.)
- No. 225 of 1900.—Roland Hayes Gahagan. *An improvement in taps to prevent waste.* (From 18 January 1906 to 18 January 1907.)
- No. 239 of 1900.—Roland Hayes Gahagan. *Improvement of planing machines.* (From 28 January 1906 to 28 January 1907.)
- No. 424 of 1900.—Ernest Rowland Hill. *Improvements in electro-pneumatic controlling apparatus.* (From 10 June 1906 to 10 June 1907.)
- No. 93 of 1901.—The Linotype Company, Limited. *An improved type justifying machine.* (From 15 January 1906 to 15 January 1907.)
- No. 225 of 1901.—The Linotype Company, Limited. *Improvements in machinery for loading type, type matrices, or similar matter into the channels of type or matrix distributing machines.* (From 10 January 1906 to 10 January 1907.)
- No. 226 of 1901.—The Linotype Company, Limited. *Improvements in moulds for casting lines of type.* (From 10 January 1906 to 10 January 1907.)
- No. 259 of 1901.—Arthur Harold Abbott. *A new or improved punkah pulling machine.* (From 18 January 1906 to 18 January 1907.)

- No. 260 of 1901.—Thomas Alva Edison. *Improvements in storage batteries.* (From 22 January 1906 to 22 January 1907.)
- No. 345 of 1901.—Arthur Burden Campbell Rogers. *A process and the manner of producing, preparing, and making compressed "bhusa" into bales of a particular weight.* (From 18 January 1906 to 18 January 1907.)
- No. 398 of 1901.—The Hall Signal Company. *Improvements in signal apparatus.* (From 13 January 1906 to 13 January 1907.)
- No. 367 of 1902.—William Jackson. *Improvements in apparatus for rolling tea-leaf and the like.* (From 28 April 1907 to 28 April 1908.)

No. 195 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased:—

- No. 346 of 1900.—Hjalmar Lange. *Improvements relating to the soldering of aluminium.* (Specification filed 9 October 1901.)
- No. 419 of 1900.—The International Chemical Company. *Improvements in alkaline earth silicides and in a combination of silicon and hydrogen, and process for their manufacture.* (Specification filed 7 October 1901.)
- No. 177 of 1901.—Thomas Hammill Hicks and Samuel Rockwell Alden. *Improvements in apparatus for recovering amalgamable metals and arsenic from ores.* (Specification filed 11 October 1901.)
- No. 207 of 1901.—The Cosmopolitan Power Company. *Improvements in the art of condensing steam or cooling liquids.* (Specification filed 11 October 1901.)
- No. 266 of 1901.—Messrs. Ernsthause, Limited. *Improvement of indigo manufacture.* (Specification filed 10 October 1901.)
- No. 273 of 1901.—James Baker. *Improvements in bicycles driven partly by the rider's weight.* (Specification filed 11 October 1901.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2 Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

* Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2 Bankshall Street, Calcutta.

H. G. GRAVES,

Secretary under the Inventions
and Designs Act, V of 1888.

GOVERNMENT OF BENGAL—REVENUE DEPARTMENT.

Land Revenue Branch.

NOTIFICATION.

The 13th January 1906.

No. 202-L.R.—The following is published for general information, with reference to section 42 of the Land Acquisition Act, I of 1894.

R. W. CARLYLE,

Offg. Chief Secretary to the Government of Bengal.

Whereas the Wesleyan Methodist Missionary Trust Association, Limited, a Company duly registered under the English Companies Acts, 1862 to 1893, as an unlimited Company, having its capital divided into shares and having its registered office at No. 17, Bishopgate, within the City of London, England, has applied to the Local Government for the acquisition of the land measuring, more or less, 119 bighas, known as Mr. Anderson's garden, situated within the town and Municipality of Bankura, for the purpose of an Educational College to be erected thereon. And whereas the Local Government being satisfied by an enquiry held under its order that the said acquisition is needed for the construction of the said College, and such College is likely to prove useful to the public has consented to the said acquisition pursuant to the provisions of the Land Acquisition Act, 1894, on condition of the said Association entering into such agreement as is required by section 41 of the said Act. And whereas the said Association by its attorney has on the 27th November 1905 executed the agreement, a certified copy of which is attached to this deed:

Now these presents witness that it is hereby agreed and declared that the Secretary of State for India in Council accepts the said agreement executed on the 27th November 1905 on behalf of the Wesleyan Methodist Missionary Trust Association.

In witness whereof Kumar Ramendra Krishna Deb, Collector of Bankura, for and on behalf of the Secretary of State for India in Council has hereunto set his hand this day, 6th January one thousand nine hundred and six.

RAMENDRA KRISHNA DEB,

Collector of Bankura, for the Secretary
of State for India in Council.

The 6th January 1906.

A certified copy of the agreement executed on the 27th November 1905 on behalf of the Wesleyan Methodist Missionary Trust Association has been attached to this.

ABINASH CHANDRA GUHA,

Special Sub-Registrar of Bankura.

The 6th January 1906.

 Seal.

This agreement made and entered into the 27th day of November 1905 between the Secretary of State for India in Council (hereinafter referred to as the Secretary of State) of the one part and the Wesleyan Methodist Missionary Trust Association Limited a Company duly registered under the English Companies Acts 1862 to 1893 as an unlimited Company having its capital divided into shares and having its registered office at No. 17 Bishopgate within the City of London, England, who with his successors and assigns is hereinafter referred to as the "said Association" of the other part.

Whereas the said Association has applied to the Local Government for the acquisition of the land measuring more or less 119 bighas known as Mr. Anderson's garden situated within the town and Municipality of Bankura and more particularly described in the schedule hereunder written for the purpose of an Educational College to be erected thereon. And whereas the Local Government being satisfied by an enquiry held under its order that the said acquisition is needed for the construction of the said College and such College is likely to prove useful to the public has consented to the said acquisition pursuant to the provisions of the Land Acquisition Act 1894 on condition of the said Association entering into such agreement as is hereinafter contained,

Now it is hereby agreed as follows :—

1. The said Association shall and will pay and reimburse to Government within such time as may be fixed and notified to the said Association by the Collector of Bankura the entire cost of acquiring the said land in accordance with the provisions of the Land Acquisition Act including all compensation damages and expenses which may have been or may be paid or incurred in respect or on account of such acquisition and all law costs which have been or may be incurred by Government upon or in respect of or incidental to the said acquisition including the costs of any litigation arising thereout either in the Original or Appellate Courts and including also the cost of the establishment and the salary of the Deputy Collector employed or to be employed by Government in connection with or for the purposes of such acquisition.

2. Upon payment by the said Association of all moneys payable by the said Association under the last preceding clause or as soon thereafter as may be practicable, the land forming the subject of the said acquisition shall by the Secretary of State be transferred to and vested in the said Association.

3. The said Association shall not transfer the said land or any portion of it without previous sanction of Government.

4. The said Association shall hold the said land for the purposes of the erection, establishment and maintenance thereon of a college for the education of all male students who have passed the Entrance examination of the Calcutta University irrespective of caste or creed to be called the Bankura Wesleyan Mission College and to be managed and conducted in all respects in accordance with the rules and regulations for the time being in force of the Education Department in Bengal and to be open at all times to the inspection of the Director of Public Instruction in Bengal or any other officers of Government appointed for that purpose.

5. The said Association shall erect and complete the said college upon the said land within 2½ years from the date on which possession of the said land shall be delivered to the said Association and in accordance with plans and specifications thereof to be approved by the Director of Public Instruction in Bengal and shall thereafter maintain and keep the same in substantial order and repair and condition to the satisfaction of the Director of Public Instruction in Bengal.

6. The said college shall be open to all male students who have passed the Entrance examination of the Calcutta University irrespective of caste or creed. Every such person as aforesaid shall on application therefor be entitled to be admitted as a member of the said college and to receive tuition thereat on payment of the fees and in accordance with the rules and regulations to be hereafter from time to time prescribed in that behalf by the said Association with the approval of the Director of Public Instruction in Bengal.

7. The said land shall not, save with the consent of Government, be used for any purpose other than those of and incidental to the said college.

The schedule above referred to.

The entire property known as Mr. Anderson's garden as sold in public auction on 22nd June 1904, measuring about 119 bighas, consisting of two plots, the main property being bounded on the—

East.—Hill house.

North.—Bankura-Raghunathpur Road.

West.—Road leading to Kenduadihi and property of Wesleyan Mission.

South.—Government *patit* land, cantonment land and public road.

And the remaining smaller plot divided from the main property by the Kenduadihi road, being bounded on the—

East.—Kenduadihi Road.

North.—Bankura-Raghunathpur Road.

West.—Property of Wesleyan Mission.

South.—Kenduadihi Road and property of Wesleyan Mission.

As witness the signature of the said Association, the 27th day of November 1905.

For the Wesleyan Methodist Missionary Trust Association,

G. W. OLVER.

Witness to the signature of the abovenamed, the Wesleyan Methodist Missionary Trust Association, Limited, by its attorney.

F. W. AMBERY SMITH.

MANAHAR KARMAKAR,

Bankura.

NORTH-WEST FRONTIER PROVINCE, PUBLIC WORKS DEPARTMENT.

Irrigation Branch.

No. 51 A. I. F.

Resolution by the Hon'ble the Chief Commissioner, North-West Frontier Province.

Lahore, the 6th January 1906.

READ—

Revenue Report by the Chief Engineer, Irrigation Works, of the Canals in the Province for the Triennial period ending 1904-05.

RESOLUTION.—On the Swat River Canal the average net revenue realized was Rs. 4,34,240, the average percentage on Capital outlay was 10'42, the average area irrigated in the kharif was 64,086 acres and the average area irrigated in the rabi was 105,758 acres. All these figures show satisfactory increases over those recorded for the previous triennium.

2. The revenue management of the Kabul River Canal remained in the hands of the Deputy Commissioner, Peshawar, up to the 30th September 1903, when it was transferred to the Irrigation Department. An extension of this canal, named the Hazar Khani Branch, is now being constructed and will add considerably to the prosperity of the district.

The operations on the Kabul River Canal resulted in an average net revenue of Rs. 85,272, or 16'11 per cent. on the Capital expended, and the average areas irrigated both in kharif and rabi exceeded those recorded in the previous triennium.

3. All the schemes for minor extensions of the Swat River Canal have been laid aside in favour of a bold project for irrigating the whole of the remaining irrigable area, lying north of the Kabul River, by a canal to take off from the Swat River at Chakdarah. This project has already been submitted to the Government of India.

4. Immigration and other causes are gradually improving the supply of tenants for the lands under command, but more settlers are still needed.

5. The relief of water-logged lands has received attention by the opening of the Doserah drainage channel on the Swat River Canal and the drainage of the lowlying reh-infected lands around Pabbi on the Kabul River Canal. Further schemes are also under investigation.

6. The Chief Commissioner has pleasure in noting that the Report shows that there has been a steady improvement throughout the triennium in every branch of Canal administration, the credit for which is mainly due to the energy and capable working of the local Executive Officers and to the able supervision of Mr. J. Benton, who held charge of the office of Chief Engineer during nearly the whole period.

By order of the Hon'ble the Chief Commissioner,

J. J. MULLALY,
Joint Secretary for Irrigation,
North-West Frontier Province.

NORTH-WEST FRONTIER PROVINCE—MEDICAL DEPARTMENT.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to amend the Sindh Incumbered Estates Act, 1896, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 19th January, 1906 :—

WE, the undersigned, members of the Select Committee to which the Bill to amend the Sindh Incumbered Estates Act, 1896, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

To Government, Bombay, No. 44, dated 7th January, 1905; from ditto, No. 1403, dated 20th February, 1905; from ditto, No. 4279, dated 25th May, 1905, and enclosure [Papers No. 1].

From Secretary, Muhammadan Zamindars' Association, Sindh, dated 1st December, 1905 [Papers No. 2].

From Government, Bombay, No. 10578, dated 28th December, 1905; telegram to ditto, dated 5th January, 1906; telegram from ditto, No. 169, dated 6th January, 1906 [Papers No. 3].

2. We are of opinion that any compensation which may be awarded by the manager to a lessee under the new sub-section (2), which clause 6 (c) of the Bill proposes to add to section 22 of the Act, should be treated as the first charge on the property after the debts and liabilities due or incurred to Government, and with this object we have suggested the addition of a further sub-section which we have numbered (3), re-numbering sub-section (3) in the Bill as introduced sub-section (4). We have no other alterations in the Bill to suggest.

3. The publication ordered by the Council has been made as follows :—

In English.

<i>Gazette.</i>	<i>Date.</i>
Gazette of India	7th January, 1905.
Bombay Government Gazette	12th January, 1905.

4. We think that the measure has not been so altered as to require re-publication, and we recommend that it be passed as now amended.

DENZIL IBBETSON.

H. ERLE RICHARDS.

G. K. GOKHALE.*

A. C. LOGAN.

The 18th January, 1906.

I am in sympathy with the principle of the Bill. The evil of agricultural indebtedness is one of the most pressing problems of the day, and any attempt to deal with it effectively, on however small a scale, is entitled to the support of all true well-wishers of the country. While, therefore, I am prepared to give a general support to the proposed measure, I regret I must object strongly to one or two of its provisions. Under the existing law the manager is empowered to revise or cancel a lease "dated within the three years immediately preceding the commencement of the management", the Civil Courts being however open to the lessee if he thinks himself aggrieved by the action of the manager. It is now proposed to extend the power of revising or cancelling leases to *all* leases, however old, and it is at the same time proposed to close the Civil Courts against the lessee. The present limit of three years, which has been borrowed from earlier Acts in force elsewhere, such as the Chota Nagpur Encumbered Estates Act, though arbitrary, is obviously based on the presumption that the proprietor of a heavily encumbered estate may have permitted himself, on the eve of the Government taking over the management of the estate, to be coerced by creditors into "hard and unconscionable" bargains for very inadequate consideration. There is no justification for any such presumption in regard to old leases, and if it is thought necessary to empower the manager to revise or cancel even these, the least that the lessee is entitled to demand is that the protection of the Civil Courts be not taken away from him in determining the compensation to be paid to him. The changes proposed by the Bill will in practice place the lessee at the entire mercy of the manager—an interested party, and this is bound to result in oppression and injustice against which even creditors may well claim the protection of Law Courts. I fear that, unless the jurisdiction of Civil Courts is restored in this matter, the Bill will increase the prejudice that already exists in the public mind against Government attempts to deal by means of legislation with agricultural indebtedness.

I also think that, before the holder of an old lease is evicted from the property, whatever compensation the manager thinks proper should be actually paid or at any rate offered to him, he being left to go to a Civil Court if he considers the amount to be inadequate. A lessee may have invested his all in securing his lease, and if he is turned out without any compensation being actually paid to him, it may mean nothing less than starvation to him and his family.

G. K. GOKHALE.

The 18th January, 1906.

* Subject to minute of dissent.

No. II.

[The portions printed in italics denote the alterations suggested by the Select Committee.]

A Bill to amend the Sindh Incumbered Estates Act, 1896.

WHEREAS it is expedient to amend the Sindh Incumbered Estates Act, 1896; It is hereby enacted as follows:—

XX of 1896

1. This Act may be called the Sindh Incumbered Estates (Amendment) Act, 1906.

XX of 1896

2. In section 2 of the Sindh Incumbered Estates Act, 1896, there shall be substituted—

(a) in clause (2), for the words "and to whom, or to whose ancestor, a sanad has been, or hereafter may be, granted confirming such continuance" the words "as a jāgīr," and

(b) in clause (3), for the words "commencement of this Act" the words and figure "making of an application under section 3 by or in respect of or on behalf of such person."

3. Section 5 of the said Act shall be renumbered 5 (1), and the following shall be inserted there-after, namely:—

"(2) Every direction given under sub-section (1) shall be deemed to afford protection to sureties of the debtor as well as to the debtor himself, unless in any case a surety has, by his bond, expressly accepted liability thereunder in the event of an order being made in respect of the debtor's property under section 7, sub-section (2), clause (c)."

4. After clause (2) of section 9 of the said Act the following shall be inserted, namely:—

"(2a) clauses (1) and (2) shall be deemed to afford protection to sureties of the debtor as well as to the debtor himself, unless in any case a surety has, by his bond, expressly accepted liability thereunder in the event of an order being made in respect of the debtor's property under section 7, sub-section (2), clause (c)."

5. In section 10 of the said Act,—

(a) for the words "and profits", in both places where they occur, the words

"profits and other sums" shall be substituted, and

(b) after the word "Government" the words "including the power conferred by section 176 of the Bombay Land-revenue Code, 1879," shall be inserted.

Amendment of section 22.

6. (a) Section 22 of the said Act shall be renumbered 22 (1).

(b) The words "dated within the three years immediately preceding the commencement of the management", in the said section 22 (1), are hereby repealed.

(c) After the said section 22 (1) the following shall be inserted, namely:—

"(2) Whenever the manager sets aside or cancels a lease under sub-section (1), he shall, by written order, award to the lessee such compensation, if any, as may appear to the manager to be equitable in the circumstances; and, subject to the provisions of Chapter VI, no compensation in excess of the amount so awarded shall be recoverable by the lessee in a Civil Court or otherwise.

(3) Any compensation awarded by the manager under sub-section (2) shall be deemed to be a debt mentioned in section 8 and shall rank in priority to all other debts and liabilities other than debts or liabilities due or incurred to Government.

(4) If any lessee whose lease has been so set aside or cancelled refuses or neglects to give up possession when required to do so by the manager, the manager may, without resorting to a Civil Court, enter upon the property and summarily evict therefrom the said lessee and any other person obstructing or resisting on his behalf."

7. The Sindh Incumbered Estates Act, 1881, and the Sindh Incumbered Estates Act, 1884, are hereby repealed.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 19th January, 1906:—

NO. 1 OF 1906.

A Bill further to amend the Indian Stamp Act, 1899.

WHEREAS it is expedient further to amend the Indian Stamp Act, 1899; It is hereby enacted as follows:—

1. This Act may be called the Indian Stamp (Amendment) Act, 1906.
Short title.

2. In section 2, clause (19), of the Indian Stamp Act, 1899 (hereinafter referred to as "the said Act"), sub-clause (c), and the word "and" prefixed thereto, are hereby repealed.

3. In section 11, clause (a), section 32, proviso, clause (c), section 35, sections 11, 32, 35, 40, 41, proviso, clause (a), section 69 and 74, Act II, 1899. 40, section 41, section 69 and section 74, of the said Act, after the words "one anna", wherever they occur, the words "or half an anna" shall be inserted.

4. For section 29, clause (b), of the said Act, the following shall be substituted, namely:—
Substitution of new clause for clause (b) of section 29, Act II, 1899.

"(b) in the case of a policy of insurance other than fire-insurance—by the person effecting the insurance;

(bb) in the case of a policy of fire-insurance—by the person issuing the policy;".

5. To section 30 of the said Act the following paragraph shall be added, namely:—
Addition to section 30, Act II, 1899.

"Any person receiving or taking credit for any premium or consideration for any contract of fire-insurance, or any renewal of such contract, shall, within one month after receiving or taking credit for such premium or consideration, give a duly stamped receipt for the same."

6. In section 51 of the said Act, after the word "instruments" the words "by any banker or", and after the word "said" the word "banker", shall be inserted.
Amendment of section 51, Act II, 1899.

7. In Schedule I of the said Act, the following amendments shall be made, namely:—
Amendments of Schedule I, Act II, 1899.

(1) For clauses (b) and (c) of the exemptions from Article No. 24 the following shall be substituted, namely:—

"(b) copy of, or extract from, any register relating to births, baptisms, marriages or deaths."

(2) In clause (b) of Article No. 41, for the words "one year" the words "eighteen months" shall be substituted.

(3) For divisions A and B of Article No. 4; the following shall be substituted namely:—

	If drawn singly.	If drawn in duplicate, for each part.
"A.—SEA-INSURANCE (see section 7)—		
(A) for or upon any voyage—		
(i) where the premium or consideration does not exceed the rate of two annas or one-eighth per centum of the amount insured by the policy;	One anna.	Half an anna
(ii) in any other case, in respect of every full sum of one thousand rupees and also any fractional part of one thousand rupees insured by the policy;	Two annas.	One anna.
(2) for time—		
(iii) in respect of every full sum of one thousand rupees and also any fractional part of one thousand rupees insured by the policy—		
where the insurance shall be made for any time not exceeding six months;	Two annas.	One anna
where the insurance shall be made for any time exceeding six months and not exceeding twelve months.	Four annas.	Two annas.

"B.—FIRE INSURANCE—

(1) in respect of an original policy—

(i) when the sum insured is less than Rs. 5,000; Four annas.

(ii) in any other case: Eight annas.

and

(2) in respect of each receipt for any payment of a premium on the original policy or any renewal thereof.

The same duty as on the original policy, in addition to the amount, if any, chargeable under No. 53."

(4) To Article No. 53 the following note shall be added, namely:—

"See also POLICY OF INSURANCE [No. 47-B (2)]."

STATEMENT OF OBJECTS AND REASONS.

It has been represented to the Government of India by the Chambers of Commerce of Bengal, Madras, Bombay, Karachi and Rangoon and by various Fire Insurance Associations that the rates of duty on fire insurance policies prescribed by Article No. 47 (B) of Schedule I to the Indian Stamp Act, 1899 (II of 1899), are unequal and in certain cases unduly high, and it was suggested by these bodies that the rates should be reduced to a uniform all-round rate of one anna per policy issued or re-issued. The Government of India have considered this proposal in consultation with Local Governments and Administrations, and although they are not prepared to grant the large reduction asked for, they are of opinion that the present rates of duty on fire insurance policies are unnecessarily high. It is accordingly proposed in the Bill to substitute for the present rates, which vary according to the amount and period of the policy, a uniform duty of four annas in respect of every original fire insurance policy when the sum insured is less than Rs. 5,000, and of eight annas in other cases, and the same duties on every premium payment, in addition to the usual stamp-duty of one anna on receipts. The Government of India are of opinion that under the arrangement proposed it is desirable to impose the liability to stamp the policies and receipts upon the companies which issue them. This condition has not been objected to by the various Fire Insurance Associations who have been consulted by the Local Governments.

2. Secondly, the Bill provides for the legalisation of an existing but at present unauthorised practice of dividing the stamp-duty payable on marine insurance policies between copies drawn in duplicate.

3. The Bill also contains certain other minor amendments of the Stamp Act, 1899. These amendments (to which effect has already been given by means of executive orders) relate (a) to the admission of private banking firms to the benefit allowed by section 51 of the Act in regard to the refund of the value of unused stamped papers, (b) to a general exemption from duty of copies of, or extracts from, certificates relating to births, baptisms, marriages and deaths, and (c) to the reduction of the duty on mortgages of crops when the loan is repayable in more than twelve but not more than eighteen months.

E. N. BAKER.

The 18th January, 1906.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 19th January, 1906:—

NO. 2 OF 1906.

A Bill further to amend the law relating to merchant seamen.

WHEREAS it is expedient further to amend the law relating to merchant seamen; It is hereby enacted as follows:—

1. This Act may be called the Indian Merchant Shipping (Amendment) Act, 1906.
Short title.
2. To section 23 of the Indian Merchant Shipping Act, 1859, the following shall be added, namely:—
Amendment of section 23, Act I, 1859.

"Notwithstanding anything in this section, in the case of any such foreign-going ship as aforesaid, being a ship—

- (a) registered in British India under the Merchant Shipping Act, 1894, or

- (b) registered in the United Kingdom under the said Merchant Shipping Act, 1894, but not employed in trading with any port in the United Kingdom,

a running agreement with the crew may be made to extend over two or more voyages so that it shall terminate either within six months from the date on which it was executed or on the first arrival of the ship at her final port of destination in British India after the expiration of that period, or on the discharge of cargo consequent upon such arrival, whichever of these dates shall be the latest:

"Provided that no such agreement shall continue in force, if, after the expiration of such period of six months as aforesaid, the ship proceeds on a voyage from a port out of British India to any other such port which is not on the direct road or a customary route to her port of destination in British India."

3. In section 24A of the said Indian Merchant Shipping Act, 1859, as amended by section 2 of the Indian Merchant Shipping Law Amendment Act, 1891, after the word "December" the words "or, as the case may be, after the expiration of a period of six months from the date on which it was executed," shall be inserted.
Amendment of section 24A, Act I, 1859.

STATEMENT OF OBJECTS AND REASONS.

It has been represented to the Government of India that considerable practical inconvenience is felt by the requirements of section 23 of the Indian Merchant Shipping Act, 1859 (I of 1859), and that a much more suitable provision on the subject of running agreements in the case of foreign-going ships making short voyages is that which clause 54 of the Indian Merchant Shipping Bill (as amended by the Select Committee when that measure was last before the Legislative Council of the Governor General in 1896) proposed to substitute for the existing enactment. The Bill just referred to has not been proceeded with owing to the disabilities imposed on the Legislature in India by the Merchant Shipping Act, 1894 (57 & 58 Vict., c. 60), and it is impossible to predicate when consideration of it will be resumed. In the meantime it is proposed to enact the particular provision in question; but, by reason of the disabilities already alluded to, it has been found necessary to limit its operation to foreign-going British ships which have been registered in British India in accordance with the provisions of the Statute of 1894, or which have been so registered in the United Kingdom but are not employed in trading with ports in the United Kingdom.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA,
ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS,
UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS,
1861 AND 1892 (24 & 25 VICT., CAP. 67,
AND 55 & 56 VICT., CAP. 14.)

The Council met at Government House, Calcutta, on Friday, the 19th
January, 1906*.

PRESENT :

His Excellency the Earl of Minto, P.C., G.C.M.G., G.M.S.I., G.M.I.E., Viceroy
and Governor General of India, *presiding*.

His Honour Sir A. H. L. Fraser, K.C.S.I., Lieutenant-Governor of Bengal.

His Excellency General Viscount Kitchener of Khartoum, G.C.B., O.M.,
G.C.M.G., Commander-in-Chief in India.

The Hon'ble Sir A. T. Arundel, K.C.S.I.

The Hon'ble Sir Denzil Ibbetson, K.C.S.I.

The Hon'ble Mr. H. Erle Richards, K.C.

The Hon'ble Mr. J. P. Hewett, C.S.I., C.I.E.

The Hon'ble Mr. E. N. Baker, C.S.I.

The Hon'ble Major-General C. H. Scott, C.B., R.A.

The Hon'ble Sir Rameshwara Singh, K.C.I.E., Maharaja Bahadur of Dar-
bhanga.

The Hon'ble Mr. L. A. S. Porter, LL.D.

The Hon'ble Mr. L. Hare, C.S.I., C.I.E.

The Hon'ble Mr. H. A. Sim, C.I.E.

The Hon'ble Nawab Fateh Ali Khan, Kazilbash, C.I.E.

The Hon'ble Mr. Gopal Krishna Gokhale, C.I.E.

The Hon'ble Mr. A. A. Apcar, C.S.I.

The Hon'ble Mr. S. Ismay, C.S.I.

The Hon'ble Mr. W. T. Hall, C.S.I., LL.B.

The Hon'ble Mr. A. C. Logan.

The Hon'ble Nawab Bahadur Khwaja Salimulla of Dacca, C.S.I.

The Hon'ble Nawab Saiyid Muhammad Sahib Bahadur.

* NOTE.—The Meeting of Council which was fixed for the 12th January, 1906, was subsequently postponed to the 19th January, 1906.

QUESTIONS AND ANSWERS.

The Hon'ble MR. GOKHALE asked :—

"(a) Will Government state for what reasons the practice of appointing an Indian gentleman from the Central Provinces to this Council, which had prevailed since the Indian Councils Act of 1892 was passed, has been departed from this year ?

"(b) In view of the fact that the Central Provinces have no Legislative Council of their own, will Government be pleased to restore to the people of those Provinces, at the earliest opportunity, the advantage of being represented in this Council by an Indian member, as hitherto ?"

The Hon'ble MR. RICHARDS replied :—

"(a) Subject to certain provisions which are not material to the present question, the power of appointing any gentleman to be Member of this Council rests entirely with the Governor General. There is no ground for the claim implied by the Hon'ble Member that by right of custom the Central Provinces are entitled to representation by an Indian non-official.

"(b) The views expressed by the Hon'ble Member as to the requirements of the Central Provinces will receive the consideration of the Governor General."

SINDH INCUMBERED ESTATES (AMENDMENT) BILL.

The Hon'ble SIR DENZIL IBBETSON presented the Report of the Select Committee on the Bill to amend the Sindh Incumbered Estates Act, 1895. He said :—"My Lord, I desire, at the special request of my colleague on the Committee, the Hon'ble Mr. Gokhale, to explain briefly why we have decided to retain clause 2 (b) of the Bill, notwithstanding the exception which has been taken to it by the Sindh Hindu Sabha. It had not occurred to me that the matter called for special mention. But I am glad to be able to comply with my Hon'ble Colleague's wishes, at no greater cost than that of occupying the attention of Council for a few moments.

"The original Sindh Incumbered Estates Act, like other Acts of the same class, was intended to apply only to estates which were of some importance ; and, among other limitations, it contained a provision that no ordinary land-holder who had not been assessed to as much as Rs. 300 of land-revenue within a certain period of five years, was entitled to the benefits of the Act. The operation of the Act was limited to a few months, and the five-year period was counted back from the date of its passing.

"When this Act was superseded by the corresponding Act of 1896 which we are now proposing to amend, this provision was retained, and the five-year period was again made to count back from the date of the passing of the new Act.

"But the fact was apparently overlooked, that a period which was perfectly suitable in the case of an Act the operation of which was temporary only, was not suited to the case of an Act which (like that of 1895) was of a permanent character. And this for two reasons. In the first place, as time goes on, it becomes increasingly inconvenient and increasingly difficult to ascertain, by reference to the old records, what revenue a certain estate as now constituted paid between 1891 and 1896. And in the second place, the test, in its present shape, tends more and more to grow away from the existing facts to which it is intended to apply it ; and this is especially the case in a territory like Sindh, where, owing to local conditions and the fluctuating nature of the assessment, the revenue demand upon any given area varies much more widely than in other provinces. The Bill before us proposes therefore to make the five-year period count back, not from the passing of the Act, but from the making an application to be admitted to its benefits.

"The Hindu Sabha dislike the Act ; they regret that it should have been given permanent operation ; and they have persuaded themselves, by a process

of reasoning which I confess myself unable to follow, that the proposed change will operate to 'perpetuate it by making its operation limitless', and to prevent it from 'expiring by efflux of time.'

"This conclusion seems to me a mistaken one. We may safely assume that there will always be in Sindh zamindars who pay, or paid, more than Rs. 300 of revenue, whichever of the two periods we adopt as the test, not to mention jagirdars, to whom also the Act applies; so that the Act will be permanently operative, whether the proposed change be made or not.

"The Sabha further urge that the change will render the Act applicable to a new and indefinite class of landowners. But if it is true that the change will admit to the benefits of the Act certain persons who would have been excluded under the old test, it is no less true that the converse case will also occur. And it must be remembered that the provision in question is negative, not positive, in its operation. It provides that no one who does not pay so much as Rs. 300 of revenue shall be entitled to the benefits of the Act; but it does not provide that every one who does pay so much shall be so entitled. The Commissioner in Sindh has full discretion to reject any application under the Act; and we may be sure that he will not gratuitously add to the burden of work with which his officers are already laden, by imposing upon them the management of estates, the preservation of which in the hands of the family which owns them will serve no public purpose.

"In any case, it seems obvious that the question whether or no a given estate is so insignificant that it should be excluded by law from the operation of the Act, is one which ought to be answered with reference, not to the conditions which existed in the early nineties, but to those which exist at the moment when it is proposed to apply the Act; and that the proposed change is desirable on grounds both of convenience and of practical utility."

INDIAN COINAGE BILL.

The Hon'ble MR. BAKER moved that the Bill to consolidate and amend the law relating to Coinage and the Mint be referred to a Select Committee consisting of the Hon'ble Mr. Richards, the Hon'ble Rai Sri Ram Bahadur, the Hon'ble Mr. Sim, the Hon'ble Mr. Aparcar and the mover.

The motion was put and agreed to.

INDIAN STAMP (AMENDMENT) BILL.

The Hon'ble MR. BAKER moved for leave to introduce a Bill further to amend the Indian Stamp Act, 1899. He said:—"My Lord, the changes which it is the object of the Bill to introduce in the law are three in number, and are all of comparatively small individual importance. The first of them provides for a revision of the rates of stamp-duty payable on fire insurance policies. It has been represented to the Government of India by the principal Chambers of Commerce and by various Fire Insurance Associations that the rates of duty prescribed by Article No. 47 (B) of Schedule I of the Act are unequal and in certain cases unduly high, and it was suggested by these bodies that they should be reduced to a uniform all-round rate of one anna per policy issued or re-issued. The Government of India have considered this proposal in consultation with Local Governments and Administrations, and although they are not prepared to grant so large a reduction as was asked for, they are of opinion that the present rates are unnecessarily high. It is accordingly proposed in the Bill to sweep away the present schedule of rates which vary according to the amount and period of the policy. In their place we substitute, firstly, a fixed duty of four annas in respect of every original policy when the sum insured is less than Rs. 5,000, and of eight annas in every other case; secondly, we impose a duty of equal amount on the payment of every premium. The effect of this arrangement is to tax all original policies of less than Rs. 5,000 to the extent of eight annas, and those of higher amount to the extent of one rupee, while every renewal or re-issue of a policy will

carry a duty of one-half of these rates. The Government of India are of opinion that under the arrangement proposed it is desirable to impose the liability to stamp the policies and receipts upon the Companies which issue them. This condition has not been objected to by the various Fire Insurance Associations who have been consulted by the Local Governments.

"Secondly, the Bill provides for the legalisation of an existing but illegal practice of dividing the stamp-duty payable on marine insurance policies between copies drawn in duplicate. Prior to the passing of Act VI of 1894 the duty on these policies was four annas for each Rs. 1,000 insured, the duty being equally divided between each part when the policies were drawn in duplicate. As a result of representations made to Government by Marine Insurance Associations in Calcutta and Bombay, the Indian rates were in 1894 reduced to bring them into line with the rates chargeable in the United Kingdom on similar policies. The provisions of Act VI of that year, which followed, as far as possible, those of the English Stamp Act of 1891, made no mention of the duties leviable on the separate parts of policies executed in duplicate. At that time the effect of Article 23 of Schedule I of Act I of 1879 (which corresponds to Article 25 in the present Act), which prescribed a duty on the counterpart or duplicates of instruments, appears to have been overlooked. While, therefore, the intention was that the duties then imposed should represent the total duty on each policy whether executed singly or in duplicate, a small additional duty was actually leviable under the law on the duplicates of such policies. The practice, however, of dividing between two forms the stamp-duty payable on one policy of marine insurance appears to have continued till it was recently objected to by the Superintendent of Stamps, Bombay. The Government of India have considered representations on the subject addressed to them by the Chambers of Commerce in Bombay, Karachi and Madras, and it is now proposed to legalise the existing practice and to allow the total stamp-duty prescribed by Act VI of 1894 to be divided between copies of marine insurance executed in duplicate as was provided by Act I of 1879.

"The third object of the Bill is to introduce certain other unimportant amendments to which effect has already been given by executive order. These relate (1) to the admission of private banking firms to the benefit allowed by section 51 of the Act in regard to the refund of the value of unused stamped papers, (2) to a general exemption from duty of copies of, or extracts from, certificates relating to births, baptisms, marriages and deaths, and (3) to the reduction of the duty on mortgages of crops when the loan is repayable in more than twelve but not more than eighteen months."

The motion was put and agreed to.

The Hon'ble MR. BAKER introduced the Bill.

The Hon'ble MR. BAKER moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

INDIAN MERCHANT SHIPPING (AMENDMENT) BILL.

The Hon'ble MR. HEWETT moved for leave to introduce a Bill further to amend the law relating to merchant seamen. He said :—"My Lord, section 23 of the Indian Merchant Shipping Act of 1859 prescribes that in the case of a foreign-going ship making voyages averaging less than six months in duration, running agreements with the crews may be made to extend over two or more voyages, provided that no such agreement shall extend beyond the next following 30th day of June or 31st day of December, or the first arrival of the ship at her port of destination in India after such date.

"The present law, which, I may say, was not strictly enforced in Bombay till a comparatively recent time, occasions much inconvenience to the steamer

companies, particularly at that port. The Government of Bombay and the Bombay Chamber of Commerce are agreed that its enforcement leads to considerable disorganization of labour at the end of each half-year, and that ship-owners experience great difficulty in obtaining efficient crews at or about these dates. The inconvenience is particularly felt in the case of mail vessels which have under contract to leave on fixed dates.

"It is proposed to amend the present law so as to provide that agreements of this nature shall terminate six months after they are entered into. A somewhat similar proposal received the assent of the Secretary of State in 1891, but, for the reason explained in the Statement of Objects and Reasons, it has not hitherto been brought into force. In that year, however, the Government of India made an amendment of section 32 of the Merchant Shipping Act of 1859 in respect of crews for home trade ships, that is, ships plying between ports in India. The Bill has been drafted so as to apply to the crews of foreign-going ships registered in British India under the Merchant Shipping Act of 1894, or registered in the United Kingdom under the same Act but not employed in trading with any port in the United Kingdom, the regulations which already apply to crews on home trade ships plying to ports in India."

The motion was put and agreed to.

The Hon'ble MR. HEWETT introduced the Bill.

The Hon'ble MR. HEWETT moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in English in the Gazette of India and in the Fort St. George Gazette, the Bombay Government Gazette, the Calcutta Gazette, the Burma Gazette and the Eastern Bengal and Assam Gazette.

The motion was put and agreed to.

The Council adjourned to Friday, the 26th January, 1906.

SUPPLEMENT TO

The Gazette of India.

No. 3.} CALCUTTA, SATURDAY, JANUARY 20, 1906.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 18th January 1906, based on the India Daily Weather Reports of the period.

During the week under review strongly marked cold weather conditions have prevailed and barometric pressure has been much above the normal over the whole of northern and central India. Accompanying this condition dry cold weather has prevailed over the above regions, and from the 12th to the 15th frost was reported at night over upper Sind, the North-west Frontier Province, the Punjab and Rajputana. At the close of the week the cold was passing away and the mean temperature in the north-west exceeded the normal. This was markedly the case on the hills, where on the 17th and 18th, both by day and night, the temperature was about 10° higher than usual. The weather became slightly unsettled over the south-east of the Bay on the 13th, and these disturbed conditions passing westward carried rain to the south of the Peninsula on the 16th, 17th and 18th. The principal amounts recorded were: 1·15" at Madras on the 16th; 2·63" at Nellore, 2·33" at Cuddalore, 2·25" at Cochin and 2·04" at Cuddapah on the 17th; and 3·71" at Nellore, 2·83" at Kodaikanal, 2·13" at Wellington and 1·21" at Madras on the 18th.

As a result of the above conditions the rainfall table shows that while the whole of northern and central India and Upper Burma have been rainless throughout the week, the Burma coast, the Bay Islands and the southern half of the Peninsula have received considerably heavier rain than usual—the average actual rainfall of the week amounting to two and three quarters inches over the Madras coast to about one inch in South India and to about three quarters of an inch in Malabar and the Bellary sub-divisions. The figures illustrating the seasonal conditions show that while Burma, parts of north-east India, the Simla hills and the Dry North-West Area have received more than the usual amount of rain this cold weather, the greater part of north-western and central India has received little or no rain. Thus the seasonal fall is generally in large defect in the north-west and the prospects of immediate rain in that area appear very slight at present.

Secretary to the Government of India.

SIMLA;

The 18th January 1906.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 13th January 1906.

Burma.—There was no rain during the week except one-half of an inch in Meigui. Reaping of wet weather paddy is completed in five more districts and is nearing completion in the remainder. Reaping of hill side paddy is completed in the Southern Shan States. Sowing of dry weather paddy has commenced in parts of Lower Chindwin and the Ruby Mines districts. Plucking of old cotton is nearly completed, and that of new cotton is in progress in Thavetmyo. Sowing of miscellaneous crops is completed in Sagaing. The standing crops are generally in good condition. The price of paddy has fallen in Rangoon, Prome, Tavoy, Thavetmyo, and Pakokku, and risen in Pegu and Toungoo; elsewhere it is stationary.

Eastern Bengal and Assam.—The weather is seasonable. Slight rain fell during the week in Rajshahi, Bogra, Dacca, Tippera, and Lakhimpur. Pruning of tea is in progress, the outturn is fair. Harvesting of winter rice is nearly finished. Sowing of spring crops continues. The outturn of winter rice and the prospects of other crops are generally fair. Fodder is insufficient in Netrokona, parts of Sylhet, the Khasi and Jaintia Hills and Tezpur. Prices: common rice:—Tezpur 14; Sibsagar 12; Malda and Chittagong 11½; Dinajpur, Rampur-Boalia, Noakhali, Gauhati, and Dibrugarh 11; Rangpur, Bogra, and Barisal 10½; Jalpaiguri, Rangamati, Silchar, Nowgonj, and Tura 10; Faridpur 9 to 10; Sylhet 9¾; Comilla 9½; Pabna 9½; Dacca and Dhubbri 9; and Mymensingh 8¾ seers per rupee.

Bengal. Rain is reported from the districts of the Burdwan and Presidency Divisions and also from a few other districts of Behar and Chota Nagpur. The fall was for the most part very light. Harvesting of *aman* paddy is almost over. Sugarcane-pressing is going on. Poppy and other spring crops are doing well, but some rain is wanted for the crops in Bihar and Chota Nagpur. Prospects are on the whole good. Fodder is available every where except in parts of Darbhanga, where it is reported to be insufficient. The water supply is sufficient. The price of common rice appears to have a rising tendency; it has risen in twelve and has fallen in five districts. The price is somewhat high in parts of Jessore, Khulna, Muzaffarpur, Darjeeling and Purnea.

United Provinces.—Rain has fallen in seven hill and submontane districts accompanied by falls of snow in Garhwal and Almora; in four districts the falls averaged over ½ an inch. Rain is urgently required almost everywhere. Cawnpore reports that the standing crops on unirrigated tracts are withering. Irrigation continues where possible and the pressing of sugarcane is in progress. Slight damage by frost is reported from twenty-four districts and by insects in Hamirpur. Scarcity of fodder is injuring cattle in Bareilly and Agra. Markets are full but prices are high and are rising in seventeen districts. In Jalaun the numbers on relief works have risen to 26,128 and those gratuitously relieved to 15,808; in Jhansi which was declared a famine district on the tenth instant the total number on relief works was 5,253; in Muttra and Cawnpore the numbers on the test works were 3,900 and 319, respectively. There were no labourers on the Hamirpur test works.

The weekly report on the famine and scarcity in the United Provinces is as follows:—Jalaun and Jhansi are the famine districts but Muttra will be declared a famine district from the 20th instant. The absence of rain and the failure of the canal has seriously affected the spring crops in Jalaun where the numbers on relief are:—on works 26,100, on gratuitous relief 15,800; a sixth work is being opened. The physical condition of the people is good, but cases of emaciation are apparent on new works; workers are also suffering from the cold. In Jhansi test works are being converted into relief works; the numbers amount to 5,000. In Banda there is scarcity, but for the present sufficient work is available on the Ken canal and petty irrigation works. Relief works will shortly be required in Hamirpur. Elsewhere the people have not yet come to the end of their resources. Test works have been opened in Cawnpore and have attracted 534 workers.

Punjab.—Parts of Rawalpindi received rain during the week. The prices of food grains especially of wheat have risen in all districts except Shahpur, Mianwali, and Multan. Pressing of sugarcane and harvesting of *toria* (*brassica campestris*), continue. Sowings of melons in Delhi and ploughings for extra spring crops in Gurgaon continue, also of wheat in Mianwali. Irrigated spring crops are generally in fair condition, but unirrigated crops are bad in the Delhi division and average elsewhere. Rain is badly wanted in the

Province. The outturn of *toria* is average and that of sugarcane below average. Frost and cold winds have damaged rape and gram in the Hissar, Gurgaon, Delhi, Ambala, and Lahore districts; wheat and sinji (*melilotus parviflora*) in Amritsar and also sugarcane slightly in Delhi. Locusts have visited Mianwali and Multan doing slight damage in the latter. Turnips in Multan have been partly damaged by the *hadda* disease. Cattle are weak from want of proper nourishment in Rohtak, Gurgaon, Delhi, Ambala, Amritsar, Sialkot, and Mianwali. Fodder is still very scarce in many districts, and the leaves of trees and sugarcane heads are being used as substitutes for fodder. Canal water is urgently required in Rohtak, while the supply is poor in Delhi and parts of Ambala.

North-West Frontier Province.—There was no rain during the week except a fall of 13 cent. in Hazara. Rain is badly wanted in Dera Ismail Khan. The state of the standing crops is generally promising except in Dera Ismail Khan where the unirrigated crops are poor. The standing sugarcane continues to be affected by frosts in Bannu. The water-supply is sufficient. Fodder is sufficient except in the Daman tract of Dera Ismail Khan. The weather is becoming milder after a period of abnormal cold. Prices: wheat 13 to 16; gram 14 to 21; maize 18 to 20; and bajra 14 to 16 seers per rupee.

Jammu.—There was slight rain during the week at Bhimber, Mirpur, and Ramnagar. Prices are rising. Wheat sells from 13 to 24, and maize 16 to 36 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient.

Kashmir.—The sky was overcast during the week but there was no snowfall. Prices are stationary.

Rajputana.—The spring crops are being watered or weeded; the cultivated area is generally restricted especially in North Mewar, Jaipur, Kishengarh, Alwar, Karauli, Bharatpur and Ajmer-Merwara. The standing crops in north and central Kotah are withering for want of rain. Slight damage from frost is reported from the hill tracts of Mewar, Partabgarh, Kishengarh and parts of Mewar and Kotah. Locusts have appeared in two districts of Karauli but the damage caused is slight. The condition of cattle is poor in North Mewar, Jaipur, Kishengarh, Alwar, Karauli, Bharatpur and in parts of Marwar; in these tracts and in Tonk, Dholpur, Ajmer-Merwara, and parts of Kotah pasturage and fodder are very insufficient. Prices have risen by one and a half seers in the rupee in Kotah and Kishengarh and slightly in the hill tracts of Mewar, Dungapur, Banswara, Partabgarh and Ajmer-Merwara; have fallen in Dholpur; and are steady or nearly steady elsewhere. Prices are generally much above the normal. The highest price is in Karauli, *vis.*:—11½ seers per rupee. The water supply is failing in parts of Kotah, Jhalawar, and Dholpur. The numbers on famine relief were as follows:—Ajmer 18,629; Merwara 16,874; Marwar 4,124; Kishengarh 3,806; Karauli 2,949; Dholpur 1,823; on test works:—Mewar 1,735; Shahpura 969; Tonk 111; Jaipur 4,077; Alwar 678; Bharatpur 7,582. On gratuitous relief:—Mewar 554; grand total 63,881, or a decrease of 1,411.

The weekly report on the famine and scarcity is as follows:—Ajmer-Merwara—on works—Ajmer 13,719; Merwara 11,103. On gratuitous relief:—Ajmer 5,910; Merwara 5,771; total 35,503, or a decrease of 58. Prices are high and have risen in Merwara. Prices:—Ajmer 12½; and Merwara 12½ seers per rupee. A few cases of emaciation are noticeable. There is no wandering or large influx of foreigners. Relief measures are adequate and liberal suspensions of land revenue have been granted. The public health is good. Charitable funds are sufficient for the present. Native States:—Marwar on works 2,379; on gratuitous relief 1,745; total 4,124; Kishengarh on works 1,717; on gratuitous relief 2,289; total 3,806; Karauli on works 2,300; on gratuitous relief 649; total 2,940; Dholpur on works 1,294; on gratuitous relief 529; total 1,823. Prices:—Marwar 13½; Kishengarh 14; Karauli 11½; and Dholpur 13½ seers per rupee. Prices are much above the normal and have risen in Kishengarh and fallen in Dholpur. Some cases of emaciation are reported from Karauli where arrangements are being made for expansion of works. A charitable committee is working at Jodhpur and one has been organised at Karauli. There is no epidemic prevalent.

Central India.—There was no rain during the week. Irrigation of spring crops is in progress in Gwalior and Indore. Harvesting of autumn crops is in progress in Bhopal, Baghelkhand, and Malwa. The standing crops are good in parts of Gwalior and Indore, fair in Bhopal, Malwa, and Bhopawar; indifferent in Baghelkhand; and average in Bundelkhand, but rain is badly wanted. The prospects of irrigated spring crops are normal in parts of Gwalior; outturn will be average in parts of Indore, and Bundelkhand; fair in Bhopal; and below average in Baghelkhand and Malwa. Winter rains are much needed for spring crops in Bhopawar. Crops have been slightly damaged by frost in parts of Gwalior, Indore, Baghelkhand, and Bhopawar. Agricultural stock is bad in parts of Gwalior, and in north of Bundelkhand; and fair in Bhopal. Pasturage is scarce in north of Bundelkhand and bad in parts of Gwalior. Prices are steady in Gwalior and Indore; normal in Bhopal; rising in Bundelkhand and Bhopawar and in parts of Malwa; and continue high in Baghelkhand. Opium is good in Malwa and in parts of Gwalior and fair in Bhopal and Bhopawar.

The special report on the scarcity in Central India is as follows :—The general position in Gwalior is unaltered. The numbers on relief are as follows :—on works 18,000, on gratuitous relief 1,500, total 19,500. In Bundelkhand distress prevails in Datia, Alampur, Samther and less acutely in the rest of the agency north of Jhansi—Manikpur railway line including Baoni, Beri, Dhurwai, Bigna, Torifatehpur, Bankapaliar, Behut, Sarila, and Jigni and also in parts of Orchha and Charkhari, Alipura, Rebai and Garauli. Water and fodder are generally scarce. If the winter rains fail the distress will extend southwards. Labouring classes are being unemployed but the mohwa crop if good will temporarily arrest distress till end of April. Some immigration from north to south continues. Prices are high; prices :—makka 12; jowar 12; gram and barley 11 seers per rupee. The numbers on relief in Datia, Baoni and Charkhari are :—on works 2,000; on gratuitous relief 500, total 2,500.

Central Provinces.—The weather has been cold and occasionally cloudy. Threshing of autumn crops and picking of cotton are nearly completed. The spring crops on light soils are not doing well owing to want of moisture and some rain would greatly improve prospects. Slight damage to crops by frost is reported from Damoh, Jubbulpore, Narsingpur and Hoshangabad. The price of wheat has risen by 2 and 2½ seers per rupee in Wardha and Bhandara, respectively, and that of gram by 2 seers in Nimar; elsewhere prices are steady or fluctuate slightly.

Baroda.—For week ending 6th instant. Numbers on relief :—on works 2,901, on gratuitous relief 190, total 3,091.

Bombay.—During the week there was no rain except an inappreciable quantity in Karachi, Hyderabad, Palanpur and Cutch. Autumn harvesting is practically over in the Deccan and the Karnatak; the outturn has nowhere been normal and in most parts the crop has either failed or was generally poor. The cultivated spring area in the Deccan and the Karnatak is much restricted by failure of rains and the standing crops are generally withering for want of moisture; in Sind, Gujarat and the Konkan the spring crops are generally in good condition and the outturn will probably be normal or little less, but some slight damage has been done by locusts in Sukkur and by frost in Sukkur and Kaira. Cattle are in good condition except in parts of Karachi, Sholapur, Satara, Kolhapur, and the Karnatak. Fodder is scarce in Karachi, Larkana, Hyderabad, Poona, Satara, the Karnatak, Kathiawar, Baroda and Cutch. Grass is being imported into the Deccan and Karnatak by Government agency. The water-supply is running short in parts of Surat, Kathiawar, Baroda City and Kolhapur and is generally scarce in the Deccan and Karnatak where grants for its improvement have been made. The rise in prices of staple grains is general; it is from 15 to 40 per cent. over the normal in the Deccan and Karnatak; there is a considerable increase in Gujarat; but prices are still approximate to the normal in the Konkan. Test works have been opened in Ahmednagar, Sholapur, Satara, Bijapur, Belgaum, and the Jath and Aundh States. The numbers on the last day of the week ending the 6th instant were :—Ahmednagar 342; Satara 143; Bijapur 1,094; Belgaum 1,894; Jath 44; Aundh 48; total 3,565. The daily averages on gratuitous relief during the week were :—Ahmednagar 1,043; Poona 532; Sholapur 132; Bijapur 1,645; Belgaum 2,274; Jath 128; Daphlapur 39; total 5,793. Emigration in search of labour from Ahmednagar, Sholapur, Bijapur, and Jath to Bombay and Moglai is still going on. There is a great dearth of employment as agricultural labourers are in demand only for sugarcane and highly irrigated crops, but so far the demand for employment on test works has not been keen with the exception of one taluka of Belgaum and one of Bijapur, where the numbers have risen recently. The labouring classes are said to have found employment in Bombay where the demand is keen, in Berar, Khandesh and in parts of the Nizam's territory but some are already returning disappointed.

Hyderabad.—There was no rain during the week. The early rice harvest continues in a few villages. The spring harvest is in progress in thirty-one talukas but the condition of the crops is not good; in nine talukas the estimated outturn is under eight annas. Late rice is being sown but the area is limited. In nine affected talukas the land revenue has been suspended in cases in which the autumn crop is less than eight annas. Takavi advances are being distributed among ryots for agricultural wells. The attendance of labourers on road works was 1,418 persons. Fodder scarcity exists in twenty-six talukas and water scarcity in sixteen. The price of jowar has risen by one to six seers per rupee in sixteen talukas and fallen by one to two seers in five. Prices :—wheat 9½; coarse rice 7½ and jowar 16½ seers per rupee, except in the affected talukas where jowar is sold from 14 to 12½ seers per rupee.

Mysore.—Prices are generally steady. The crops are in fairly good condition except in parts of Kolar. Prospects are fair except in Tumkur. Cattle are healthy except in parts of Hassan. The water-supply is insufficient in parts of Shimoga and Tumkur. Fodder is scanty in Chitaldroog and in parts of Tumkur and Hassan.

Coorg.—Picking of coffee and reaping of rice continue. Prices of food grains are normal. Water and fodder are sufficient.

Madras.—There was no rain during the week. Irrigation supplies are insufficient in part of the Circars, the Deccan, Nellore, South Arcot, and the Central and Southern districts. Ploughing, sowing, weeding, and transplanting are in progress. The standing crops are generally in fair condition but some in parts of Guntur, Bellary, Cuddapah, the Central districts and Malabar require more rain and some in parts of Kurnool, Chingleput and the Southern districts are withering. Harvests continue with outturn 1000 to normal and bumper. Pasture is sufficient everywhere except in parts of the Circars, Bellary, Anantapur, and Coimbatore. Fodder is scanty in parts of South Arcot, the Central districts and Tanjore. The condition of cattle is generally good. The price of rice is stationary in eleven districts; has fallen in seven; and has slightly risen in five. The prices of millets have fluctuated as follows:—Ragi is stationary in nine districts; has fallen in five; and has slightly risen in seven. Cholum is stationary in two districts; has fallen in two; and has slightly risen in ten. Cumbu is stationary in five districts; has fallen in four; and has slightly risen in six.

J. WILSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF COMMERCE AND INDUSTRY.

COMMERCIAL EXHIBITIONS.

GENERAL REGULATIONS OF THE MILAN EXHIBITION, 1906.

Nos. 34-358-14, dated Calcutta, the 15th January 1906.

RESOLUTION.

The following papers relative to the Exhibition, which will be held at Milan in the year 1906, are published for general information. The Government of India have decided not to participate in the Exhibition :—

GENERAL REGULATIONS OF THE MILAN EXHIBITION, 1906.

Article 1.

To celebrate the inauguration of the new Simplon Tunnel, Milan is arranging an international Exhibition, which will consist of the following sections :—

- (a) *Transports by Land—Aeronautics—Meteorology ;*
- (b) *Transports by water ;*
- (c) *Providential Institutions ;*
- (d) *Decorative Arts ;*
- (e) *Gallery of Industrial Arts ;*
- (f) *Retrospective Transport Exhibits ;*
- (g) *Pisciculture ;*
- (h) *Agriculture ;*
- (i) *Public Health and Hygiene and Sanitary Assistance in Transportation ;*
- (j) *Fine Arts.*

The mentioned sections are international, excepting the latter of *Fine Arts* which is National.

Article 2.

The distribution of each section in divisions, categories, classes, and groups is determined by the corresponding programmes, which form an essential part of the present regulations.

Article 3.

The Exhibition will be held in the town Park and in the *Piazza d' Armi* ; it will open in April and close in November. It depends on the Executive Committee to prolong or to abbreviate the duration of the Exhibition.

Article 4.

The Exhibition is under the superintendence of the General Committee, which exercises its functions by means of an Executive Committee and according to the Internal Regulations.

LOCAL, NATIONAL AND FOREIGN COMMITTEES.

Article 5.

The Chambers of Commerce of the Kingdom and Fine Arts Institutions, with the concurrence of representatives of the Comune, and of public and private Institutions, are entitled to form themselves into local and national Committees to promote and organize the co-operation of the Exhibitors of their districts and facilitate the visits of schools, associations, workmen, etc.

For the same object special Committees or agencies will be instituted abroad.

The work of the local, national and foreign Committees is specially intended :

- 1st.—To make known within the limits of their districts the rules relative to the Exhibition and distribute the forms requesting admission ;
- 2nd.—To collect applications for admission and send them to the Executive Committee ;

3rd.—To assist Exhibitors in forwarding articles admitted to the Exhibition with due observance of all rules ;

4th.—To communicate to Exhibitors the result of applications for admission, the register number of objects and all arrangements that may interest them.

EXHIBITORS AND APPLICATION FOR ADMISSION.

Article 6.

Exhibitors must subordinate the application for admission of their own products works and objects to the programmes of the separate sections. Exhibitors, in order to have their works admitted to the Exhibition, must apply to the Executive Committee either direct or through the local, national or foreign Committees. Applications to be made in duplicate on the corresponding form, which will be supplied by the Executive Committee or by the local, national or foreign Committees, must contain the indications asked for in the forms and be signed by Exhibitors.

Exhibitors wishing to exhibit objects in more than one class must make a separate application for each class, each application in duplicate copy.

The Entry forms filled out must reach the Executive Committee not later than the 31st July 1905, with exception for *sootechny* of the Agricultural Section, for which the last term has been fixed on December 31st, 1905,—and further what has been disposed in the different special programmes.

Article 7.

The Committee can arrange on special application and previous special agreement for individual firms to exhibit their products in their own buildings or kiosks.

Applications for such separate exhibitions must reach the Committee by February 15th, 1905.

Applications must be accompanied by plans of the kiosks or special buildings to be examined and approved by the Committee.

The Committee reserves the right to provide such structures at the expense of Exhibitors who will otherwise have them built on their own account.

Article 8.

The acceptance of applications is reserved to the Executive Committee on the proposal of the Commissioners charged with the management of each section. If required, the Exhibitors must show that what they wish to exhibit is really their own production.

Exhibitors will receive, either direct or through the local, national and foreign Committees, a certificate of admission.

ADMISSION-FEE AND OCCUPATION OF AREA.

Article 9.

All Exhibitors without exception have to pay an inscription fee of it. lire 10 a fortnight after receipt of the admission, with exception of what is said in the special Programme of the Agriculturing Section. The Exhibitors of the Retrospective Section of Transports do not pay any inscription fee.

Article 10.

For the area occupied Exhibitors will be charged as follows:—

1st Section.—*Transports by Land :*

Horizontal area 5 it. lire per sq. meter

Space on walls 10 " " " " "

Meteorology :

10 it. lire per sq. meter

2nd Section.—*Transports by Water :*

Horizontal area 5 it. lire per sq. meter

Space on walls 10 " " " " "

3rd Section.—*Providential Institutions :*

10 it. lire per sq. meter

4th Section.—*Decorative Arts :*

Horizontal area 10 it. lire per sq. meter up to 20 sq. meters

" " 5 " " " " " for each additional sq. meter

Space on walls 10 " " " " "

5th Section of the *Industrial Gallery*:

Horizontal area 10 it. lire per sq. meter up to 20 sq. meters

" " 5 " " " " " for each additional sq. meter

Space on walls 10 " " " " "

6th Section of *Pisciculture*:

10 it. lire per sq. meter

7th Section of *Agriculture*:

10 it. lire per sq. meter

with exception of that what is explained in the special Programme.

8th Section of the *Public Hygiene and Sanitary Assistance in Transports*:

10 it. lire per sq. meter.

The Exhibitors of the Retrospective Transports will not have to pay for the space.

The Committee can exempt the Exhibitors of the Sections Providence, Agriculture and Hygiene and Sanitary of the price for occupation for those who do not have the intention to speculate. The Committee is also disposed to procure for exhibitors of the providential section glass boxes at it. lire 10 per sq. meter in case the Exhibitors of this section will make a demand during the right time.

No charge will be made for space to Exhibitors of the Section of Fine Arts: but they will have to pay 10% on the proceeds of all sales made.

For area and walls of special construction, the price for occupation will be arranged in each case, between the Committee and the Exhibitors.

Article 11.

For spaces in open galleries the prices will be reduced by 20%; for open air spaces they will be reduced by 40%.

The above mentioned fees for occupation will be subject to the following extras:—

For area having all 4 sides free 50%.

" " " 2 or 3 " " 25%.

Article 12.

Charges for areas intended for the erection of kiosks or pavilions for special exhibits, or sales, will be arranged between the Committee and Exhibitors.

The designs must be submitted to the Committee for acceptance (according to Article 7).

Article 13.

Fractions of a square meter will be charged as a whole.

Payment of one-half of the charges for area must be effected within 30 days of the acceptance of the application, the other half on the 31st December 1905.

For kiosks 1/6th of the tax of area must be paid on the day of the admission, the remainder by taking possession of the space.

In cases of special arrangements Exhibitors must appoint an agent who will be responsible to the Committee for the exact observance of their orders and of the programmes and for all payments.

Article 14.

In cases of error in calculating the area allotted to Exhibitors only the excess paid will be refunded by the Committee. No claim for compensation for damages will be entertained. Where the area occupied exceeds what Exhibitors had applied for, they will be bound to pay the difference.

Article 15.

Half of the specified charges for space must be paid for, should such space not have been occupied by the applicant after due notice. The Committee is entitled to allot such spaces to other applicants; transfers of space from one Exhibitor to another cannot be effected without permission of the Committee.

AGENTS, PASSES AND LEGAL DOMICILE.

Article 16.

Each Exhibitor can appoint an agent, but the Committee has the right to accept or to refuse same, without indicating the reason. The Committee must know his Christian name and surname and must be informed of his authorisation.

Article 17.

Each Exhibitor or his agent has the proper legal domicile at the office of the Committee (Piazza Paolo Ferrari, 4) for all effects and purposes even after the close of the Exhibition.

Article 18.

Passes under observance of the rules of the Committee giving free access to the Exhibition to each Exhibitor or to his agent will be given out by the Committee.

Article 19.

Agents representing more than one Exhibitor will not be entitled to more than one pass.

Application for admission implies Exhibitors and their agents to accept all the present General and all special Rules and Regulations which may be laid down by the Executive Committee before and after the opening of the Exhibition.

Misbehaviour on the part of any Exhibitor or agent will render him liable to forfeit his pass. The Committee will not be held to give any explanation for such forfeiture.

DELIVERY, RECEPTION, LOCATION AND WITHDRAWAL OF EXHIBITS.

Article 20.

Exhibits must be delivered within the precincts of the Exhibition accompanied by certificates of admission between December 15th, 1905, and February 1st, 1906, excepting exhibits of the special programme of the section of Fine Arts for which special rules are laid down or for special shows; the Committee may, however, where the nature and value of an object require it, allow delivery to be effected before or after the above period.

Machinery, heavy and bulky goods requiring motive power, foundations, erection or decorations must be delivered by December 15th, 1905.

Exhibitors not delivering their goods by the stated time will forfeit their rights to the occupation of the space allotted to them; payments made by them will not be paid back.

Article 21.

Exhibitors not residing in Milan must remit to the Executive Committee with their exhibits and certificate of admission a copy duly filled out of the way-bill, a second copy of which must be handed in at the railway station from which the goods are forwarded, and a third copy will be retained by Exhibitors to enable them to withdraw their exhibits after the close of the Exhibition.

The three copies of the way-bill must be signed by the Exhibitor. Each copy must contain a clear description of the exhibit with weight, value, register number of the objects and the Milan address of the Exhibitor or agent.

Article 22

Two addresses must be applied to each package, one on the lid, the other on one of the sides.

Addresses must specify the category, section, division, class and group, register number, the number of packages and the progressive number of each package.

Packages must be in good condition; lids of cases must be screwed, not nailed.

All those objects which could be damaged in contact with other objects must be well packed and protected.

Exhibitors must place inside each package a list of its contents. Each separate article must be provided with a label with a number corresponding to the certificate of admission.

Article 23.

A special receiving office in the Exhibition will receive and check the contents, number and condition of packages, will advise Exhibitors or their agents of their arrival, and will provide for their removal to the space allotted. The charge, according to a special tariff, will be paid by Exhibitors unless they elect to effect the removal themselves.

If cases and packages are not delivered in good condition, the receiving office will take all necessary steps without delay for verifying the same and for all further procedure required by laws and regulations.

Article 24.

Exhibitors or their agents must provide for unpacking and arranging objects intended for exhibition, and must follow the instructions given by the inspectors and attendants in the name of the Executive Committee or of the Commissions.

Should Exhibitors delay unpacking and arranging their exhibits, the Committee will provide at the expense of such Exhibitors without assuming any responsibility and without prejudice to the contents of Article 25.

Article 25.

Exhibitors whose exhibits have not been arranged by March 20th, 1906, will forfeit their right to the space allotted them; their certificates of admission will be cancelled and the payments made for registration and occupation of space will be forfeited to the Committee without prejudice to any compensation to which the Committee may be entitled.

The Committee is authorized to remove on the costs of the Exhibitor every installation which is not finished till the 20th March 1906.

Article 26.

All packing cases and materials must be removed from the Exhibition at least one week before the opening; they will otherwise be removed by the Committee at the Exhibitor's expense.

A note of all charges for reception, carriage, unpacking and arranging all exhibits will be sent in daily by the receiving to the book-keeping offices where all charges will be duly entered.

Article 27.

Unpacking and carriage, both previous to the opening and after the close of the Exhibition, will be charged to Exhibitors who must support all expenses for the arrangement of their exhibits.

Exhibitors must submit to the Committee for approval projects and plans of the arrangement of their exhibits.

Exhibitors of the Working Hall must send during the term, which is fixed on the admission of their demands, the designs relative to installation of their machines according to the general prescription of the Executive Committee.

Article 28.

The Committee, for the convenience of Exhibitors, but without assuming any responsibility, will arrange with special contractors a scale of charges.

1st.—For the reception of packages at the Exhibition railway-station, for their carriage to the receiving office and to the Exhibition buildings and for their unpacking.

2nd.—For the hire or purchase of tables, counters, show-cases, steps, wainscotings, railings, etc.

3rd.—For storing, care-taking and fire insurance of empty cases and for redelivery of same at the close of the Exhibition.

4th.—For repacking and loading at the close of the Exhibition and for carriage and delivery for forwarding at the Railway station.

5th.—For fulfilling all custom-house formalities for temporary importation of objects subject to duty where such formalities can be fulfilled in Milan and for re-exportation at the close of the Exhibition; Exhibitors must, however, attend to all formalities for temporary exportation and for subsequent return to their own country at the close of the Exhibition.

6th.—For fulfilling all formalities for temporary importation and re-exportation dependent on the town-dues.

Article 29.

All exhibits must be arranged, so that no portion projects beyond the space allotted to the Exhibitor.

Decorations, firms advertising boards, prints, etc., must be submitted for the approval of the Committee.

To exhibit or to distribute informations, descriptions, stitched books, publications and so on, a written consent of the Committee is necessary.

Article 30.

All objects must be exhibited in the name of the applicant for admission. Sales are allowed where the selling price has been previously notified to the Committee: no object will however be allowed to be removed until the close of the Exhibition.

The Committee may authorize special exhibits with a charge for entrance, and make other concessions in the interest of the Exhibition.

In each case Exhibitors must follow the regulations issued by the Committee with a view to safety, hygiene, decency and order.

The Committee reserves the right to take a charge of 10 per cent. maximum on all sales effected in the Exhibition, and further to take an extra tax on special expositions for which a charge for entrance is made.

Article 31.

No sketches, drawings, photographs or reproductions of objects exhibited will be allowed without special authority of the Exhibitor.

The Committee may authorize the publication of views of the buildings and of the interior and external views of the Exhibition.

Article 32.

The Committee reserves the right to refuse on arrival all objects which are not considered worthy to be exhibited notwithstanding the certificate of admission having been granted : such objects must be removed at his own expense by the Exhibitor who will have no right to any compensation ; except the admission fee and the tax for occupation which will be paid back.

Article 33.

At any time the Committee will have the right to order the removal of any objects which, owing to their nature or appearance, may be considered detrimental to the scope and decorum of the Exhibition.

In such cases no claim for compensation or damages will be allowed.

Article 34.

A catalogue of the Exhibition will be published by the Committee.

Each object or group of objects, where possible, will be marked with the catalogue number.

Article 35.

No object will be allowed to be removed before the close of the Exhibition without special permission of the Executive Committee.

All objects must be removed from the Exhibition within one month after its close ; before removal all charges due to the Committee must be paid ; Exhibitors will therefore have to procure a pass for the removal of their exhibits.

Objects not removed within one month after the close of the Exhibition will be forwarded by the Committee at the Exhibitor's risk and expense ; should all charges due to the Committee not have been fully paid, the objects will be retained as security until such charges have been paid.

Kiosks and pavilions must be removed within three months of the close of the Exhibition.

After that period they will be removed by the Committee at Exhibitor's risk and expense.

SUPPLY OF MOVING-POWER, LIGHT, ETC.

Article 36.

On application the Committee will supply Exhibitors with power for machinery and apparatus in motion.

Moving-power will be supplied in the shape of steam, electric-current, gas, water and eventually compressed air. Exhibitors will specify in their applications all apparatus to be exhibited in motion and enclose drawings showing the arrangement of such apparatus and the connections with the main conduits of the Exhibition ; the quantity of power required must also be stated.

Foundations for machinery and brickwork for setting boilers, furnaces, gas generators, etc., must be executed by Exhibitors on their own responsibility.

Article 37.

All boilers exhibited at work must fulfil the requirements of the Italian law, and be subject to existing regulations.

Article 38.

The Committee will provide the main conduits for steam, electricity, water, etc., within the precincts of the Exhibition. Exhibitors must connect their machineries at their own expense to the main pipes or lines according to arrangements to be agreed with the Committee.

The Committee is further entitled to excute on account of the Exhibitors the connection of the main conductor with the branchings.

Exhibitors of boilers at work must connect them with the main water feed-pipes in the interior of the Exhibition. The plant must be in accordance with the Italian law and be kept throughout in perfect condition.

Article 39.

Steam will be supplied in the main pipes at a pressure of about 12 atmospheres, and will eventually be superheated.

Special arrangements will be made in each case by the Committee for the nature of electric current, gas and water required by Exhibitors.

Article 40.

The Committee will supply—according to the locality—motive power to Exhibitors on the following terms :—

1.° Power up to 3 H P at	it. Lire 0,40 per hour.
" from 3 to 10 HP	" " 0,30 "
" every further 10 HP	" " 0,25 "
2.° Steam per Kilo	" " 0,03 "
3.° Water for industrial use per cubic meter	" " 0,30 "
4.° Water for drinking purpose per cubic meter	" " 0,40 "
5.° Gas for lighting purpose, and moving-power per cubic meter	" " 0,25 "
6.° Electric current for lighting purposes per Ettowatt per hour	" " 0,10 "
7.° Electric current for moving-power per Kilovatt per hour	" " 0,40 "

All Government and town taxes will be paid by the Committee.

Article 41

Meters will be placed between the main and branch conducts to measure the power consumed by Exhibitors. The meters will be supplied by the Committee. Exhibitors will be charged the usual rates for their use.

The readings of the meters, hours of work and special remarks will be entered in a book by the employes of the Exhibition and by the Exhibitor or his agent. The book will be passed daily to the Book-keeping office where the amounts owing by Exhibitors to the Committee will be entered.

In cases of disagreement on the amount of power supplied, the Committee reserves to itself the right of control by experts whose expenses will be paid in equal shares by the Committee and by the Exhibitor.

Article 42.

Exhibitors wishing to generate their own power must submit their plans, which must be in accordance with the requirements of the law, for approval to the Committee.

Article 43.

Exhibitors will not be allowed to put in activity their engines, where these are not utilised by the Committee, until permission has been granted by the Committee.

Article 44.

Exhibitors will be paid according to a special list in case the Committee is using their boilers, steam engines, dinamos, pumps, cranes, winches, etc.

Article 45.

All dangerous parts of machinery must be properly fenced. The approval by the Committee of the precautions adopted does not free Exhibitors from their liability.

Article 46.

Exhibitors must notify the Committee the men in charge of machinery who alone will be allowed to attend to the working.

Men in charge will not be allowed to leave their machinery unless a duly qualified substitute takes their place. Everybody in charge of machinery must follow the instructions of the Exhibition's agents.

The Committee is entitled to stop any machinery of a dangerous nature or obstructing the circulation of visitors.

Exhibitors will be held responsible for all damage to the floorings and buildings caused by their machines; also for accidents which may occur to the visitors.

The insurance for the machinery attendants must be made by the exhibitor.

CHARGE-TAKING AND LIABILITIES.

Article 47.

The Committee will exercise every precaution in taking charge of and protecting exhibits without assuming any responsibility; Exhibitors are therefore fully aware that they forego all claims for compensation for damages, direct or indirect, to their exhibits for their loss or for any other reason.

Exhibitors will have no right to claim damages for interruptions in the supply of power.

The Committee however accepts full responsibility for objects exhibited in the following sections:—

of Retrospective, Transports by Land and Water, Agriculture according to the value agreed upon with Exhibitors. The value must be inserted in the certificate of admission.

Exhibitors may make special arrangements for the care of their exhibits during the hours in which the Exhibition will be open to the public provided they comply with the rules which will be established by the Committee.

Article 48.

The Executive Committee will insure their buildings against fire; Exhibitors must effect their own insurances giving notice of same to the Committee with the name of the Company and the amount insured.

The Committee is prepared to treat with the principal Insurance Companies for special terms which will be communicated to Exhibitors whose choice will however be left entirely free.

SUNDRY ARRANGEMENTS.

Article 49.

The Executive Committee will publish special regulations, concerning a regular and proper formation of the Exhibition and all services connected with it.

The General Secretary.
Ing. E. STEFINI.

The President of the Executive Committee,
C. MANGILI.

Translation of a letter, dated Milan, the 5th December 1905, received by Mr. A. Serena, Executive Commissioner, Milan International Exhibition, 1906, from the Executive Committee in Milan.

I hasten to bring to your notice that the Ministry of Finance has just communicated to us that whilst the frontier customs dues, in accordance with the tariff, will have to be paid on all eatables and drinkable exhibited, *tea* will be admitted to the privilege of temporary importation and exemption from customs duty, with the accustomed bond of entry.

I feel sure that you will appreciate the concession at its true value as it involves a specially favourable treatment for one of the most important products of the British Colonies. I would remind you that the Italian Government was led to do this through a desire to particularly favour the Indian exhibitors, and I venture to hope that you will be able and willing, under these circumstances, to promote and ensure the participation, in some suitable form of Indian producers.

The Secretary to the Government of Madras.	Bombay.
" " "	Bengal.
" " "	the United Provinces.
" " "	the Punjab.
" " "	Burma.
" " "	Eastern Bengal and Assam.
The Honourable the Chief Commissioner, Central Provinces.	
The Chief Commissioner of Coorg.	

ORDERED that the foregoing papers be published in the Supplement to the *Gazette of India*, for general information, and that copies be forwarded to the Local Governments and Administrations named in the margin, for information, with the request that the papers may be published in the local Gazette.

Ordered, also, that a copy be forwarded to the Honourable the Agent to the Governor General in Rajputana and Chief Commissioner of Ajmer-Merwara, and the Honourable the Chief Commissioner, North-West Frontier Province, for information, and to the Foreign Department for information and communication to Native States.

Ordered, also, that a copy be forwarded to all Chambers of Commerce, for information.

W. L. HARVEY,
Secretary to the Government of India.

PLAGUE.

MEASURES FOR THE PREVENTION OF PLAGUE.

Nos. 79-95, dated Calcutta, the 17th January 1906.

RESOLUTION.

READ—

Home Department letter No. 1121—1135, dated the 6th July 1905, and the replies of local Governments thereto.

More than five years have now passed since the Governor General in Council, when reviewing the report of the Indian Plague Commission, examined in the light of the knowledge then available the various measures which had been proposed or adopted with the object of checking the diffusion of the disease and indicated the considerations of policy which must govern their introduction in India. During this period, while the efforts of Government officers have in no way relaxed, and the people themselves have in many places shown a disposition to acquiesce and even to co-operate in preventive measures which do not conflict with their social and religious usages, plague has gradually spread to almost every part of India, and, subject to certain seasonal fluctuations, tends to recur year after year with undiminished virulence. About a year ago the Government of India, acting in concert with the Royal Society and the Lister Institute, made arrangements for the appointment of a scientific commission which is now investigating the causation of plague in Bombay and the Punjab. Pending the completion of these researches which may extend over a long time and will in any case be directed mainly to the scientific aspects of the problem, the Governor General in Council considered it desirable to place on record in a concise form the results of the practical experience which has been acquired in the last five years of actual plague administration. Local Governments were accordingly asked for reports, based as far as possible on the personal experience of their officers, on the conditions affecting the origin and spread of plague, the character of the measures to be adopted against it, the degree of success attained and the causes upon which success or failure depend. The ample materials thus collected place the Governor General in Council in a position to indicate those preventive measures which appear under present conditions most likely to be successful in the future.

2. The most conspicuous change in the opinion of experts in India regarding plague since the issue of the Resolution of 16th July 1900 is the greatly increased importance now ascribed to the part played by rats in spreading and keeping alive the disease. Rats are exceedingly susceptible to plague, and when once they are infected they usually communicate the infection not only to man, but also to houses which have undergone thorough disinfection. It is therefore as essential to the safety of the community to destroy infected rats as to segregate plague-stricken people. In fact almost all the evidence regarding the causation of plague may be regarded as pointing to the rat as the chief agent in its diffusion. For this reason the importance of destroying rats has been insisted on by the framers of the Paris Convention of 1903, and although European opinion is not unanimous on the point, the Governor General in Council considers that the experience recently acquired in India warrants the belief that the systematic destruction of these animals promises to be one of the most effective measures that can be adopted for preventing the spread of plague.

3. Observation has also shown that plague is most severe where the houses of the people are crowded together, ill built and imperfectly ventilated, while it usually spares those areas in towns where the streets are wide, the houses well-built, the alleys and side-walks paved, and the drains properly constructed. It follows that municipalities and local bodies should be encouraged and assisted to demolish insanitary quarters, to improve the paving of alleys and side-walks, to neglect no opportunities of widening narrow streets, to enforce simple building rules and to perfect their systems of drainage and conservancy. All godowns where grain is stored should be rendered rat-proof and should be liable to periodical inspection.

4. In theory the disinfection of both houses and clothing takes a high place among preventive measures and in cases of pneumonic plague it must be regarded as imperative. But the great difficulty of carrying out the process thoroughly in a house casts some doubt upon its practical utility.

and the Government of India leave it to the local authorities to determine the extent to which it should be enforced with reference to the prevalent structural conditions. In any case the efficacy of house disinfection depends entirely upon the methods employed. The fluids used must be really germicidal, such as solutions of corrosive sublimate, cyllin or izar; they must be intelligently applied under proper supervision, and care must be taken to prevent the reinfection of the building by rats. These observations apply in their full force only to towns where the disease has not fully established itself. In villages the disinfection of houses is seldom of much use, while in towns where plague has become indigenous the difficulty of completely excluding the rats leads to constant reinfection.

5. Of the various measures hitherto adopted with the object of arresting an outbreak of plague none has proved so efficacious as the prompt abandonment of the infected locality for a period that varies with local conditions. In the case of villages, indeed, the evacuation of all the houses, accompanied by systematic destruction of rats, is probably the only means of effectually combating the disease. It is, however, essential that evacuation should be carried out thoroughly: if a portion of the inhabitants remain behind the disease will continue to spread. In all cases where evacuation is feasible the people should be encouraged to resort to it and assisted by the grant of blankets and warm clothing, where necessary, and by the provision of huts or the materials for building them.

6. The evidence which has been collected shows that the inspection of travellers by railway, road and steamship is often successful in averting or delaying the spread of plague, but that the efficacy of this measure depends on the circumstances in which it is applied. It is of most value in protecting limited areas, such as hill stations, and places so situated that the inspection posts command all routes of access. The mere inspection of persons arriving by steamer is, however, of little use, unless the rats on board the vessel are destroyed or are prevented from reaching the shore. A segregation camp for the detention of the sick is a necessary adjunct to every inspection station, but no one need be detained who is not actually suffering from plague. In all other cases it is sufficient to record the travellers' names and addresses and to arrange for their being under surveillance for five days. Experience has shown that mere contact with a case of bubonic plague in a railway carriage involves little danger of infection.

7. The example of prisons proves that quarantine may be relied upon to prevent the spread of plague by human beings, but it can seldom be applied effectually except by the people themselves, who have sometimes combined to prevent persons from infected places from entering their villages and have provided accommodation for them outside the inhabited site. In rural areas the adoption of these measures may properly be encouraged: but they do not admit of application to towns.

8. The removal of the sick to hospital, while it is eminently desirable in their own interests, has always been unpopular, and in cases of bubonic plague the necessity for it may be avoided, provided that the surroundings of the patient can be kept clean and free from rats. That the measure is instrumental, however, in delaying the spread of the disease is undeniable, and even though segregation may be relaxed when indigenous cases become widespread, the first few cases imported into a plague-free town should, whenever possible, be segregated without delay. Cases of pneumonic plague, which is directly infectious from man to man, ought always to be segregated.

9. The segregation of persons who have been in contact with a patient suffering from bubonic plague is often impossible in practice. When it can be carried out with the good-will of the people the measure is no doubt useful, but where coercion has to be employed more harm than good is likely to result. In cases of pneumonic plague, however, the segregation of contacts is necessary as the risk of infection is extreme.

10. Inoculation with the prophylactic fluid now manufactured at the Parel Laboratory is of value not merely for the protection which it affords against plague but also by reason of its effect in mitigating the violence of an attack. The extent to which it may be adopted depends upon the strength of the popular sentiment in its favour or against it and the Government of India hope that the people may be encouraged to have recourse to it.

11. While the experience of the last five years establishes the utility of the measures enumerated above, it equally teaches that their application must depend upon the circumstances of the locality, the character of the people, the stage which the disease has reached, and the agency available for dealing with it. What is necessary in a district free from plague may be useless or vexatious where plague has become indigenous; what is effectual in one part of the country may be inoperative in another; a degree of control which is acceptable to a particular community may be strongly resented by people who observe a different code of social usage; and in a province with a well developed system of village officials more can be attempted than in a province where no such organization exists. Where the conditions vary so widely from

province to province as is the case in India it is manifestly impossible for the Governor General in Council to lay down a uniform scheme of plague administration. The local Governments alone are competent to determine what measures are practicable or expedient at particular times and places and it is upon them that the Government of India rely to make the best use of the opportunities which present themselves for checking the spread of the disease. Finally the Governor General in Council would observe that in the last report all preventive measures depend for their success upon the hearty co-operation of the people themselves and that every effort should be made to enlist their sympathies and to bring home to them through their natural leaders and in any other way that may be practicable that it rests mainly with them to bring about by their own action the cessation of plague in India, as it has long ago disappeared from Europe. When this conviction has been firmly established in the minds of the people the task of the district officers throughout India will be materially lightened. But that end can only be attained by carrying out thoroughly whatever measures it may be decided to introduce and by impressing upon all officers concerned in plague administration that when a decision has been arrived at there must be no hesitation in giving effect to the policy approved by the local Government.

ORDER.—Ordered that a copy of this resolution be communicated to all local Governments and Administrations, to the Departments of the Government of India noted on the margin and to the Sanitary Commissioner with the Government of India, for information.

Ordered also that the resolution be published in the *Supplement to the Gazette of India*.

H. H. RISLEY,
Secretary to the Government of India.

PART I.

Government of India Notifications, Appointments, Promotions, etc.

MILITARY SECRETARY'S OFFICE.

NOTIFICATION.

Calcutta, the 25th January 1906.

No. 710-M.—His Excellency the Viceroy and Governor-General will leave Calcutta on Monday, the 5th February 1906, starting by special train from Howrah at 10 P.M. (Calcutta time).

His Excellency will visit Bankipore, Ekma, Gaya, Daltonganj, and Gidhaur, and return to Calcutta on Saturday, the 17th February.

His Excellency's departure from and return to Calcutta will be private.

All covers intended to reach the Viceroy and Governor-General and party during His Excellency's journey should be addressed "Viceroy's Camp" without the addition of any post-town.

The party accompanying His Excellency on tour will be as follows :—

Her Excellency the Countess of Minto.

Lady Eileen Elliot.

Lady Ruby Elliot.

Lady Violet Elliot.

Lady Mary Crichton.

Hon'ble Mrs. Derek Keppel.

Lieut.-Colonel J. R. Dunlop Smith, C.I.E., Private Secretary.

Major G. P. T. Feilding, D.S.O., Offg. Military Secretary.

Surgeon-Lieut.-Colonel W. R. Crooke-Lawless, Surgeon.

Captain T. H. R. Bulkeley, Offg. Comptroller.

Captain Lord Francis Scott, A.-D.-C.

Captain the Earl of Rocksavage, A.-D.-C.

Captain the Hon'ble A. Strutt, A.-D.-C.

All communications connected with business of a mere routine nature should be sent, as usual, to the Head Quarters of the several Departments.

The 26th January 1906.

No. 722-M.—His Excellency the Viceroy will lay the Foundation Stone of the New Surgical Ward of the Medical College Hospital, Calcutta, on Saturday, the 3rd February 1906.

2. At 4-45 P.M. His Excellency will arrive at the Medical College Hospital, where he will be received by His Honour the Lieutenant-Governor of Bengal and the College Council, who will conduct His Excellency up to the *Dais*.

3. A Guard of Honour with Band and Colour will be in attendance and will present arms on His Excellency's arrival and departure.

4. The members of the College Council will be introduced to His Excellency by His Honour the Lieutenant-Governor of Bengal.

5. All present will rise as the Viceroy arrives and remain standing till His Excellency takes his seat.

6. The Principal will report and invite His Excellency to perform the ceremony.

7. The Viceroy will request the District Grand Lodge of Bengal to lay the Foundation Stone.

8. The Masonic ceremony will be performed, the stone being laid by the Deputy District Grand Master of Bengal.

9. The Deputy District Grand Master will then address the Viceroy, announcing that the foundation stone has been duly laid in accordance with Masonic custom.

10. His Excellency the Viceroy will address the assembly, announcing the fact that the stone has been well and truly laid.

11. On the conclusion of the ceremony, His Excellency will be conducted to his carriage by His Honour the Lieutenant-Governor of Bengal and the College Council as on arrival.

12. Full Dress will be worn by officers entitled to wear Uniform, Review Order by Military Officers. Gentlemen not entitled to wear Uniform will appear in Morning Dress.

By Command,

F. L. ADAM, Major,

Military Secretary to the Viceroy.

HOME DEPARTMENT.

III.—*Other holidays.*

The third, fourth and fifth days following Christmas	December 28th, 29th and 30th (Sunday.)
--	---------	--

The 26th January 1906.

No. 182.—The following correspondence is hereby published for general information :—

- (1) Home Department letter No. 30, dated 11th January 1906, to the Editor of the *Statesman*.
- (2) Letter dated 12th January 1906, from the Editor of the *Statesman*.
- (3) Home Department letter Nos. 146—155, dated 26th January 1906, to all Local Governments.

No. 30 (Public), dated Calcutta, the 11th January 1906.

From—H. H. RISLEY, Esq., C.S.I., C.I.E., Secretary to the Government of India, Home Department,

To—The Editor of the *Statesman*.

The Government of India observe that in the issue of the *Statesman* dated 7th January 1906 there was published *in extenso* a note by Lord Curzon relating to the court language of the Sambalpur District and certain connected matters. This document was obviously of a confidential character, and it seems to the Government of India impossible that it can have been communicated to you by any authorised person, or that its publication by a responsible newspaper can be in any way excused. Before proceeding further in the matter they have decided to invite you to give them any explanation which you may wish to offer, of what they are at present constrained to regard as a gross breach of journalistic propriety. The Government of India would be glad to receive a very early reply to this letter.

Dated Calcutta, the 12th January 1906.

From—S. K. RATCLIFFE, Esq., Editor, *Statesman*,

To—H. H. RISLEY, Esq., C.S.I., C.I.E., Secretary to the Government of India, Home Department.

Your letter No. 30 of January 11th. I would venture respectfully to demur to some of the expressions used by you in reference to the matter. These appear to imply that the *Statesman* published a document which it knew to be of a strictly private character and which there was reason to believe had been obtained by improper means. Such, however, is not the case. The document had been in our possession for a considerable time, and was referred to as being already well-known in an article on Lord Curzon's administration in the *Statesman* of 19th November 1905. It bore no mark to indicate that it was confidential. There was, indeed, nothing to show that it was not a note upon the file, although we recognised that its publication would not have been desirable so long as

the matter with which it is concerned was under discussion. It was eventually printed in our columns, first, as containing no information the publication of which could embarrass the Government, and, secondly, as including certain comments which, while interesting to the public, could not at this distance of time be any thing but harmless. May I be permitted to add, with all deference to the view taken by the Government of India, that a newspaper which has never to our knowledge been accused of the improper use of official documents, is the last to be knowingly guilty of a "gross breach of journalistic propriety."

Nos. 146—155, dated Calcutta, the 26th January 1906.

From—H. H. RISLEY, Esq., C.S.I., C.I.E., Secretary to the Government of India,

To—The Chief Secretary to the Government of Madras.

On the 7th January last there appeared in the columns of the *Statesman*, an English newspaper published in Calcutta, a confidential note written by Lord Curzon as Governor General on 24th May 1902 on the subject of the court language of the Sambalpur District and certain connected questions. The publication of such a document was regarded by the Government of India as a grave breach of journalistic propriety, but before proceeding further in the matter they decided to give the Editor, Mr. S. K. Ratcliffe, an opportunity of offering an explanation of his action. Copies of the letter addressed to him and of his

reply are enclosed for ^{the information of} the Governor in Council
His Honour the Lieutenant-Governor
 your information

2. The explanation furnished by Mr. Ratcliffe in no degree palliates his original offence. His letter discloses an acquaintance with Secretariat procedure which it is difficult to reconcile with his categorical statement that he did not know the document which he published "to be of a strictly private character" and had no reason to believe that it had been obtained by improper means. Nor can the Governor General in Council accept the excuse that the paper which came into Mr. Ratcliffe's possession "bore no mark to indicate that it was confidential." The good sense and honourable forbearance which are traditional with journalists of standing, whether European or Indian, have hitherto rendered it unnecessary for the Government of India to depend upon mechanical devices for the protection of the legitimate secrecy which attaches to the preliminary discussions incidental to the transaction of public business. No one guided by these traditions could possibly regard Lord Curzon's note, from its style, its tone, the references and comments which it makes, and the instructions which it conveys, as other than confidential. Finally, the Government of India are unable to pass over without comment the pretensions involved in the following passage:— "There was, indeed, nothing to show that it was not a note upon the file, although we recognised that its publication would not have been desirable so long as the matter with which it is concerned was under discussion." Here Mr. Ratcliffe not only asserts by implication the right to publish "notes upon files," which are in their nature confidential documents and can only come into the possession of a newspaper by the betrayal of trust on the part of some employé of the Government, but he also arrogates to himself unfettered discretion to determine when such publication is desirable. The Government of India believe this to be the first occasion on which the Editor of a journal professing to be innocent of "the improper use of official documents" has put forward a claim of this description.

3. The Government of India infer with some confidence that the general sense of the more influential journals in India, which have maintained a seemly reticence in respect of the incident, condemns the breach of professional etiquette which Mr. Ratcliffe has permitted himself to commit. But they feel bound to mark their own disapproval of his conduct in some more conspicuous manner. They have accordingly directed:—

- (1) that the privilege of admission to the press rooms at Calcutta and Simla shall be withheld from representatives or correspondents of the *Statesman*;
- (2) that no Gazettes, communiqués, notifications, public notices, reports, published proceedings, or official information of any kind shall be supplied to that newspaper by any Office or Department of, or subordinate to, the Government of India;
- (3) that no official advertisements shall be sent to it by any of the aforesaid departments or offices.

I am now to ask that [with the permission of the ^{Governor in Council} ~~Lieutenant-Governor~~] similar orders regarding the communication of information and the publication of advertisements may be issued by the ^{Government of Madras} ~~you~~ in respect of all the Departments and local authorities under ^{their} ~~its~~ orders. In some instances it will no doubt be found that the publication of notices and advertisements is within the discretion of the courts of law or of local bodies. In such cases it will suffice if the wishes of the Government of India are brought to the notice of such authorities.

4. These orders will remain in force so long as the persons responsible for the *Statesman* newspaper shall not give an assurance that they fully recognise the impropriety of the indiscretion committed by their present Editor. If, however, they withdraw his unwarranted claim and make public apology for the publication of Lord Curzon's note, the Government of India will be glad to restore to that newspaper the facilities now withheld.

EXAMINATIONS.

The 25th January 1906.

No. 38.—Lieutenant-Colonel D. C. Phillott, 23rd Cavalry, is confirmed in the appointment of Secretary to the Board of Examiners, Calcutta, with effect from the 1st October 1905.

MEDICAL.

The 22nd January 1906.

No. 72.—The services of Captain F. H. G. Hutchinson, M.B., I.M.S., are placed permanently at the disposal of the Government of Bombay, with effect from the 3rd January 1906.

The 24th January 1906.

No. 86.—The services of Captain V. E. H. Lindesay, M.B., I.M.S. (Bengal), are placed permanently at the disposal of the Government of Bengal, with effect from the 21st November 1905.

The 25th January 1906.

No. 90.—The services of Captain R. D. Saigol, F.R.C.S., I.M.S., are placed temporarily at the disposal of the Government of Burma for employment on plague duty.

SANITARY—PLAGUE.

The 23rd January 1906.

No. 129.—The following tele gram is published for general information :—

Telegram, dated Pera, the 16th January 1906.

From—His Britannic Majesty's Ambassador Extraordinary and Plenipotentiary at Constantinople,

To—The Secretary to the Government of India, Home Department.

Measures against Makalla on Hadramaut coast and Alexandria suppressed.

The 25th January 1906

No. 151.—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Kālahasti in the North Arcot district of the Madras Presidency, if persons from the Mysore and Hyderabad States are permitted to assemble at that place on the occasion of the ensuing Mahasivarathri festival :

In exercise of the power conferred by section 2, sub-section (1) of the Epidemic Diseases Act, 1897 (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Chendragiri, Tirupati West, Tirupati East, Rénigunta, Yerpedú, Kālahasti, Yellakarú, Venkatagiri, Vendou, Kondagunta and Gudur on the South Indian Railway and to the stations of Peddapadu, Māmandurú, Rénigunta, Púdi, Taduku, Puttúr, Vepagunta and Nagari on the Madras Railway shall be sold from the 8th to the 28th February 1906 (both days inclusive) within the Mysore and Hyderabad States to any person intending or believed to be intending to proceed to the Mahasivarathri festival at Kālahasti.

JUDICIAL.

The 22nd January 1906.

No. 96.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and in supersession of notification No. 227-I-J, dated the 15th August 1879, the Governor General in Council is pleased to apply the Destruction of Records Act, 1879 (III of 1879), to the territories in Berar for the time being administered by the Chief Commissioner of the Central Provinces.

ECCLESIASTICAL.

The 22nd January 1906.

No. 33.—The Reverend H. W. Blandford, a junior chaplain on the Bengal (Rangoon) ecclesiastical establishment, is promoted to be a senior chaplain, with effect from the 8th October 1905.

The 23rd January 1906.

No. 36.—The following programme of the proposed visitation tour of the Most Reverend the Lord Bishop of Calcutta and Metropolitan in India and Ceylon is published for general information:—

PROGRAMME.

Lord Bishop of Calcutta's Visitation Tour, January and February 1906

Station.	Arrival.	Departure.	REMARKS.
Calcutta	Friday, 26th January .	Visiting Monghyr.
<i>Jamalpur</i>	Saturday, 27th January .	Tuesday, 30th January .	
<i>Mozufferpur</i>	Tuesday, 30th January .	Friday, 2nd February .	
Motihari	Friday, 2nd February .	Saturday, 3rd February .	
<i>Bettiah</i>	Saturday, 3rd February .	Monday, 5th February .	
<i>Bhagalpur</i>	Tuesday, 6th February .	Thursday, 8th February .	
Barharwa	Thursday, 8th February .	Saturday, 10th February .	
<i>Taljhari</i>	Saturday, 10th February .	Monday, 12th February .	
Dumka	Tuesday, 13th February .	Thursday, 15th February .	Driving from Rampur Hat.
Suri	Friday, 16th February .	Saturday, 17th February .	By road.
<i>Asansol</i>	Saturday, 17th February .	Sunday, 18th February .	Via Sainthia, E. I. R.
<i>Burdwan</i>	Sunday, 18th February .	Tuesday, 20th February .	Visiting Mankar.
Calcutta	Tuesday, 20th February .		

Letters may be addressed to the places printed in italics. Matters of routine requiring immediate attention will be attended to by the Reverend Canon Dyer, Officiating Archdeacon, Fort William, Calcutta.

H. T. OTTLEY,
Bishop's Chaplain.

The Palace, Calcutta, 17th January 1906.

EDUCATION.

The 26th January 1906.

No. 35.—The services of Major E. H. deV. Atkinson, R.E., Principal, Thomason Engineering College, Roorkee, are replaced at the disposal of the Government of the United Provinces, with effect from the 15th December 1905.

H. H. RISLEY,
Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATIONS.

CIVIL VETERINARY ADMINISTRATION.

Calcutta, the 26th January 1906.

No. 179—82-32.—The services of Mr. E. W. Oliver, Second Superintendent, Civil Veterinary Department, Punjab, are placed at the disposal of the Government of the

United Provinces for employment as Second Superintendent, Civil Veterinary Department, United Provinces, with effect from the date on which he assumes charge of the appointment.

No. 180—82-32.—Mr. V. deV. H. Woodley, F.R.C.V.S., has been appointed to the Indian Civil Veterinary Department, with effect from the 17th October 1905, and is posted to the Punjab, *vice* Mr. E. W. Oliver transferred to the United Provinces.

FORESTS.

The 23rd January 1906.

No. 67—150-20-F.—Mr. F. Beadon-Bryant, Chief Conservator of Forests, Burma, is granted extraordinary leave without allowances from the 19th to the 30th October 1905, in continuation of the leave granted to him in the notification of this Department No. 912 F.—150-9, dated the 14th July 1905.

J. WILSON,

Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Calcutta, the 22nd January 1906.

No. 9.—*Corrigendum.*—The date from which Mr. E. S. Lindley, Assistant Engineer, 3rd grade, has been permanently transferred to the Punjab is the 21st December 1905 and not as stated in Public Works Department Notification No. 8, dated the 16th January 1906.

Calcutta, the 25th January 1906.

No. 10.—The following are published for general information :—

No. 18 Civil Works of 1905.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE (CIVIL WORKS).

IRRIGATION.

To

THE RIGHT HONOURABLE ST. JOHN BRODRICK,

His Majesty's Secretary of State for India.

Simla, the 18th May 1905.

SIR,

We have the honour to address you at length with regard to the Report of the Indian Irrigation Commission, which we forwarded to you with our despatch No. 35 of the 16th July 1903. The investigations and recommendations of the Commission cover such a large area and deal with such a number of schemes and such a variety of subjects, that it has necessarily taken us a considerable time to review them.

2. The Report is contained in two volumes, and is accompanied by a volume of maps, one of appendices, and seven which reproduce so much of the evidence given before the Commission as they considered it advisable to publish for reference.

The first of the two volumes into which the text of the Report is divided deals with general questions considered in relation to India as a whole; in the second volume the Commission apply the principles thus laid down to the detailed circumstances of each province in succession, and examine, so far as the available material rendered it possible for them to do so, the various projects which seemed to be most hopeful for the extension of irrigation within the province. A memorandum which is appended to this despatch shows briefly the action which has been taken upon the suggestions of this latter volume, and we propose to confine ourselves at present to the more general discussions of the first volume.

3. The Resolution by which the Commission was constituted directed the attention of its members, so far as the future is concerned, to three main questions; *firstly*, the scope which exists for the further extension of State irrigation works, and the probable net cost

to the State of carrying out such extension; *secondly*, the field which exists for the extension of irrigation by private effort, and the best methods of stimulating and assisting such effort, with special reference to irrigation from wells; and *thirdly*, the best method of securing that future expenditure on relief labour in time of famine shall be directed to more profitable uses than in the past, and especially to works which have a real protective value.

The third of these questions, namely the preparation and maintenance of famine programmes, has already been dealt with by us; and we enclose for your information a copy of our Circular in the Revenue and Agricultural Department No. 15—37 I., dated 30th July 1904, on the subject. The second question, namely the encouragement of private enterprise, depends in the main upon our system of advances for the improvement of land. We have been considering this question in connection with the cognate question of agriculturists' loans, and are about to address Local Governments upon the whole subject. It is in connection with the first question, namely the extension of State irrigation, that we are now addressing you; and more especially with reference to the programme for the future which is sketched out by the Commission, and to their suggestions for the provision of funds for its execution. Thus, our remarks will in the main be confined to Chapters IV and VIII of the Report.

4. We wish, however, to draw particular attention to Chapter II, which we regard as one of the most important sections of the Report, since it supplies an answer to those who hold that because, taking one year with another, the rainfall over the whole of India is sufficient for its irrigational needs, therefore it is both possible and our duty so to store and utilise the surplus of good years as to render failure of crops impossible. We would also express our entire accord with the views which are expressed in paragraph 59 of the Report. The principle, or at any rate a particular aspect of it, is again discussed in paragraphs 163 to 165 of Volume II. We agree with the Commission in holding that it is ordinarily indefensible to deny to cultivators in normal years, water which they could use with profit both to themselves and to Government, merely in order to hold it up as a precaution against the possible occurrence of drought.

5. With these remarks we turn to Chapter IV of the Report, which treats of the scope for the further extension of State irrigation works, and which contains the Commission's recommendations for our future programme. Those recommendations are of necessity somewhat indefinite, since they spring from such examination as the limited time available permitted, of proposals which were generally incomplete in themselves, and sometimes little more than rudimentary. It follows that the ultimate form which the suggested programme will assume, must depend very largely upon the results of the detailed scrutiny to which those proposals are being and will be submitted. But we are not disposed on that account, to undervalue the programme which has been thus sketched out. It has this great advantage, that for the first time since the first Famine Commission reported in 1880, the irrigational needs and possibilities of India as a whole have been considered by competent persons, and an endeavour has been made to apportion the sum total which it is proposed to spend, upon the basis of the necessities of the several provinces. The programme will doubtless be subject to considerable modification in detail; but we believe that in general outline it will afford a valuable guide to future operations.

6. In formulating this programme, the Commission had to deal with two main classes of works, productive and protective. In connection with the former class no difficult questions of principle arise. Given the possibility of a productive work the main question which remains, is, whether funds can be provided for its construction. But the case of protective works presents a far more difficult problem, for their construction protects a section of the community at the cost of the general tax-payer. Up to the present time the amount of expenditure upon such works has been comparatively small. But there are large areas in India, including some of the portions which are most liable to be attacked by famine, where no works of the productive class are possible, and which must be protected, if at all at a certain cost to the general revenues. And the conviction has been growing for some years past in the minds both of Government and of the public, impressed by the experience of the two recent famines, that we are not only justified in adopting, but are morally bound to adopt, a more liberal policy in the future than has been pursued in the past, in the construction of protective works.

7. Accordingly, in the extract from the Resolution constituting the Commission which is quoted at page 2 of the preface to their report, they were directed to consider what net financial burden might properly be imposed upon the State, as not too high a price to pay for such degree of protection as could be secured at the cost, in very insecure and precarious areas. In short, they were asked to formulate for our guidance a criterion by the application of which we might decide whether a given protective work would or would not impose an unduly large burden upon the public revenues. This problem the Commission have attacked in two stages. They first endeavour to estimate the protective value of an irrigated area, and they then attempt to deduce from it the capital outlay which is permissible upon protective irrigation. They have conducted the investigation with the utmost care and ability; and if, as we think, they have not succeeded in suggesting a wholly satisfactory criterion, the fact shows that the problem is, in reality, incapable of solution,

8. In paragraphs 94 to 97 they discuss the value of the "indirect return" which the State reaps from irrigation, in the form of that share of the increased wealth of the people which flows into the public treasury in forms other than water rates and land revenue. We doubt whether the discussion, in its arithmetical aspect, is of much value, and we are not sure that it does not unduly minimise the value of this indirect return. In the first place, the relation of the indirect to the direct return, which is assumed by the Commission at 25 per cent., is purely arbitrary. Further, their assumption that this relation is constant, is true only if the direct returns represent a constant proportion of the net amount which irrigation adds to the value of the crops. It may be doubted whether this latter condition is even approximately satisfied. In so far as the direct return is small owing to abstention from the use of water, the assumption is of course true. But in so far as it is due (as it is in many cases) to the lowness of the rates, there are other elements which enter into the question. The readiness of the people to pay a fair value for the water does not wholly measure its true value to them. There are other factors, such as their experience or ignorance of its value, their readiness to undertake the additional labour required, their ability to meet the additional charges involved, their knowledge of the practice of irrigated cultivation, the neglect of Government to raise rates (which are necessarily pitched low when irrigation is first introduced) before the landlord has absorbed the additional profit in the form of rent, and so forth. All these considerations apply with varying force in different localities, and operate to make the direct income from an irrigation work a very uncertain index to the real value of the irrigation. If this be so, the argument of paragraph 96 falls to the ground. The indirect return from an unremunerative work is small, only if the work is unremunerative because the irrigation is of little value. In so far as it is unremunerative because the Government has not succeeded in recovering from the people a proper share of its true value, the indirect return to the State will necessarily be larger than if it had succeeded in doing so, since it depends upon, and is drawn from the share of the profits of irrigation which is left in the hands of the people.

We have examined the Commission's calculations as to the protective value of an irrigated acre, and the conclusion which they deduce from them; but we do not consider it necessary to discuss them in detail, as several of the factors adopted are admittedly of a highly speculative nature, while the argument appears in some respects to be open to criticism. Thus, if the percentage of irrigation which is assumed in paragraph 102 to suffice for protection is accepted, complete protection will be secured only if that percentage is irrigated throughout the district—a condition which is seldom satisfied—so that the calculation exaggerates the protective value of an irrigated acre in a degree which varies with the degree in which the irrigation is concentrated. So, again, the calculations of paragraph 107 seem to involve the assumption that the area annually irrigated upon the average of a term of years, from which the net revenue must be derived, is the same as the area irrigated, and therefore protected, in a year of famine; whereas the former is always materially smaller than the latter, and in tracts such as those under consideration, often or generally bears but a small proportion to it.

9. The fact is that the problem is probably not susceptible of arithmetical solution. But the question whether or not a proposed protective work should be constructed cannot be decided by mere arithmetical considerations. The real justification for laying a burden upon the whole of India in order to protect the inhabitants of an insecure area from famine is, not that expenditure or pecuniary loss will be thereby avoided, but that the construction of the work will prevent an infinity of human suffering and save a number of human lives; and in deciding whether to protect a certain tract at a certain cost, the element of sentiment cannot be excluded. For example, the Bombay Deccan is probably the most expensive part of India to protect, and perhaps the part where the least return for the expenditure incurred on irrigation works can be hoped for in ordinary years; and yet it is so exposed to the ravages of famine, and the distress, when it comes, is so general and so acute, that the Government is under a moral obligation to do something to protect its inhabitants, if it is in any way possible; and if water can be brought to a district like Sholapur by any expenditure that is not absolutely prohibitive, that expenditure should be incurred. In the face of such considerations, arithmetical standards are of small value; and the attempt to frame a maximum for permissible expenditure, which must of necessity be high, is not without its danger, since the calculation may be extended to cases less serious and less urgent than those in which the extremity of the local needs alone justifies its application. We agree, however, that the capital cost of an irrigated acre will probably be the most convenient standard of comparison, and we are prepared to accept, as a general guide, the conclusions of the Commission as to the maximum limit which it may be permissible in extreme cases to approach. We shall, moreover, be prepared to face a specially high rate of unproductive outlay from revenue on experimental works, especially when undertaken in very insecure tracts with a view to determine whether protection can be provided at a reasonable cost or not; and on works intended for execution by famine labour, where the actual financial results are of less importance than the provision of really useful employment for that labour.

10. In the second section of the chapter, the Commission conclude that the field for the construction of new works which are likely to be directly remunerative is limited. We agree in this conclusion, and also in the recommendation made in paragraph 114 that the programme of future expenditure on irrigation works should provide for the construction

of as many productive works as can be proposed, without reference to the urgency of the need for protection in the tract to be commanded by them, and that promising projects should be held in abeyance; only when their execution is prevented by want of establishment or of funds.

We also accept the principle that underlies paragraph 113. We have already agreed that, in considering whether an unfinished famine work should be completed, the criterion should be, not whether the work will yield a return upon its total cost, but whether it will yield a return upon the expenditure required to complete it, and the case of extensions and improvements of other unproductive works is precisely analogous.

11. Paragraph 116 and the following paragraphs treat of the expensiveness of and necessity for storage. The reason why the canals in Northern India have been so easy to make and so profitable to work, is that Nature has provided the storage in the shape of snowfields and glaciers. Elsewhere storage must be artificial; and in considering schemes for reservoirs, we propose to insist very strongly upon the immense value of certainty of supply. Certainty is the first element in really protective irrigation. If it is absent, the only way of ensuring protection is to hold up the water of good years for the purpose, a system which we have already condemned as most wasteful. In the second place, certainty of supply is essential in order to secure that the water is used and paid for in ordinary years, especially in Southern India, where irrigated cultivation (excepting that of paddy) is intensive in the highest degree and therefore exceedingly expensive, and where the people will not risk the capital and labour necessary for such cultivation unless they are quite certain of their supply. We hold therefore that of two schemes, one of which provides a certain and the other an uncertain supply, the former should have the preference, though it may be more costly than the latter, so long as it falls within the limits of permissible expenditure. It will, however, be necessary to relax this principle in order to give protection to tracts likely to suffer from famine, and in which certainty of supply is unattainable.

12. As already explained, the forecast of the requirements of the several provinces which is contained in the third section of the chapter must necessarily undergo modification (it has, indeed, already done so in some respects) as the examination of the individual projects is proceeded with. We are, however, prepared to accept the forecast as summarised in paragraph 139 as a preliminary rough estimate of the cost of the major works which we may hope to see constructed during the next twenty years, and as a foundation upon which to base our financial proposals.

13. We shall consider the provision of funds presently. But the question of money is not the only difficulty. We have already addressed you, in the despatches noted in the

No. 3 P. W., dated 28th January 1904.
No. 3 P. W., dated 10th November 1904.

margin, on the subject of establishment which is discussed in Chapter X of the Report and, in your despatch No. 8 P. W., dated 17th February 1905, you have agreed to the increases in the cadres which we have recommended. We shall shortly address you on the subject of an increase in

the cadre for the Bombay Presidency and later on in regard to that for Madras. There is further a very important question, *vis.*, that of labour. The Commission have pointed out in paragraph 142, some of the reasons which prevent the same rapid progress on irrigation works which is possible on Railways, and our professional advisers are doubtful whether sufficient labour will be continuously forthcoming for the annual expenditure of such large sums, as it is proposed by the Commission to spend. They estimate that to spend the amount suggested, an army of over 280,000 workmen and coolies would be required for 250 days in each year, in addition to those required for the maintenance of existing works and of those which will gradually be constructed. They doubt whether it will be possible to maintain these numbers regularly, considering the small number of works on which they can be employed and the restricted area which they cover, although in some years it may be possible to obtain a much larger number. We confess that we do not share their doubts; and the Commission, which included Engineers with such wide Indian experience as Sir Colin Scott-Moncrieff and Sir Thomas Higham, do not seem to have anticipated any serious difficulty in this direction. But we think it right to state the facts for your information.

14. We proceed to consider Chapter VIII, which deals with the classification and financing of irrigation works and is divided into three sections. Section (i) details the present system of classification and calls for no comment: while section (ii) formulates proposals for a revised classification and for the future financing of the works. These proposals are of great importance and demand careful consideration.

It will be convenient to consider first the proposal formulated in paragraphs 238 to 246, to abolish the distinction between productive and protective works, all capital outlay on major works being charged against loan funds, and the net interest charges only being shown against the Famine grant. The motive of the proposal is evidently to secure a larger and more continuous expenditure upon irrigation works, irrespective of the return which they may yield; and it is based upon the mistaken impression that the Government of India can increase its borrowings to any figure that they may desire. On general grounds, we think it desirable that expenditure on the two classes of works in question should be kept absolutely distinct. We spend as much as we can afford on productive works as a matter of business, the expenditure of loan funds being a profitable investment and justified on its

own merits. But expenditure on non-productive works stands upon a wholly different footing. They are not investments, and must be justified by the importance and necessity of the works and not by their financial results.

15. But there are other, and even more important considerations which tell against the proposal. In the first place, the public, which is always on the alert to suspect and detect any tampering on our part with the Famine grant, and whose suspicions have already been aroused by the old method of bringing the grant to account, will wholly fail to understand why the loss upon a work which is classed as productive should be charged against a fund devoted to protection. It is true that the work may be protective also; but there are many cases in which that will not be so, as in the case of the canals of Sind and the Western Punjab, where there is no population to protect until the canal has been made. All works which are sanctioned as productive include a certain element of speculation, though in some cases with a practical certainty of profit; and we hold that this speculation should be undertaken at the risk of, and that the loss, if any, should fall upon, our general revenues—to which, be it observed, the gain if any will accrue; for the Commission, while debiting all losses against the Famine grant, do not propose to credit to it any profit, except in order to cover previous loss. We think that it would be difficult to justify such proposals to the public, even if it were possible to justify them to ourselves.

16. In the second place, we apprehend that the abolition of the distinction might lead to laxity in the scrutiny to which schemes sent up for sanction are now submitted. At present the author of a scheme is required to show, either that it will in all reasonable probability be productive, or that its protective value is so great that we are justified in accepting the risk (often amounting to practical certainty) that the returns will not cover the interest on the capital cost. In the former case the standard is definite and precise. In the latter case, as we have already remarked, no definite standard is possible; but at any rate we accord sanction with our eyes open, and deliberately accept the risk or certainty of loss in consideration of the good that is to be done.

We believe that if we abolish the distinction between the two cases, there will be a real danger of schemes being accepted which combine a little productiveness with a little protection, but which satisfy neither test completely. We believe that the abolition would deprive us of very valuable guidance in estimating the value of a project and the propriety of sanctioning it; and would introduce a new element of speculation which appears to us to be undesirable. It is true that, as pointed out by the Commission, our estimates are sometimes falsified by events, and that a work which was sanctioned as protective turns out to be productive also, or one which was sanctioned as productive turns out to be unproductive, and sometimes unprotective as well. But that is only to say that we sometimes make mistakes; we can only estimate to the best of our ability, but for that very reason it is important that the greatest care should be exercised in framing and scrutinising our estimates.

17. We do not affirm that there are no circumstances in which it would be justifiable to spend loan funds on non-productive purposes. That course may occasionally be unavoidable as in the case of a great war or of urgent military preparations. But two conditions must be rigidly fulfilled before it would be justifiable for the Government of India to adopt such a course. These are, firstly, that the objects for which the money is wanted are so urgent and so vital that the expenditure can be neither avoided, postponed, nor distributed over a series of years; and, secondly, that the amount is too great to be provided from current revenues; in other words that our current resources must be exhausted before we resort to loans. Neither of these conditions is fulfilled in the present case. Nor does the present system necessitate any undue contraction of expenditure upon protective works, for, as we shall presently show, we are prepared to devote a moiety of the Famine grant, or 75 lakhs (less such portion as may be required for protective Railways) to the construction of such works, and this, we are informed, is likely to be as much as can be spent at present by our Public Works Department. For 1905-06 we have as yet only been able to justify a provision of 57 lakhs under this head.

18. Finally, by making the allotment for protective irrigation works through the Famine grant, we secure the advantage that the money is ear-marked for that special purpose, and is not liable to be diverted except by the occurrence of a year of famine. In that event the execution of the programme would no doubt, to a certain extent, be interrupted. But the force of the objection is reduced by the consideration that in a year of famine it would inevitably be necessary to reduce our borrowings for public works, so that the proposal of the Commission would equally fail to obviate interruption, while the money spent on famine relief would certainly include some protective works on the programme, which would thus make some progress.

19. In paragraph 237, the Commission advocate the abrogation of the rule under which the cost of works sanctioned against the open capital account of a project which has not fulfilled the conditions of a productive work, must be met from general revenues and cannot be charged against loan funds. This rule is embodied in paragraph 2,155 (VIII) of Volume II, Public Works Code, and the principle on which it is based was laid down in paragraph 3 of Lord Kimberley's despatch No. 25 P. W., dated 30th April 1884, regarding the Lakh Canal project in Bombay.

We have already stated, in paragraph 10 of this despatch, that we accept the proposal in respect of expenditure which will in itself be productive. But its further extension seems to depend on the abolition of the distinction between productive and protective work which we have just discussed. As we desire to maintain that distinction, we can see no grounds for urging that future outlay on works that have failed to prove productive should in all cases be met from loan funds.

20. The proposal made in paragraph 242 (v) that the Government of India should be empowered to sanction all estimates for major works in which the total cost of the works does not exceed 10 lakhs of rupees, would also have followed as a necessary corollary to the abolition of the distinction between productive and protective works. As we propose to retain the distinction, we need only say that we already possess the power to sanction works costing 10 lakhs of rupees or less, which are chargeable to general revenues or to the Famine grant, and we think that we might well possess the same power of sanction in the case of works chargeable to loan funds. At the same time the number of productive irrigation works classed as major which cost less than 10 lakhs of rupees must necessarily be small, and we do not wish to press the point if you deem the concession inexpedient.

21. The further proposal made in paragraphs 248 and 249 of the report, to transfer all minor works for which reliable capital accounts have been kept to the category of major works, was also made on the understanding that the distinction between productive and protective works would be removed. As we propose to retain the distinction, it follows that only those "minor works" which have proved productive could be transferred to "major works," so as to be improved and developed from loan funds. Further, we consider that the limit of Rs. 50,000 proposed in paragraph 248 is too low, since a public work which costs little over Rs. 3,000 can hardly be considered a major work.

In addition to the Upper Sutlej Series of Inundation Canals referred to in paragraph 249, Lord George Hamilton, in his despatch No. 31 Public Works, dated 7th August 1903, sanctioned the transfer of the Indus Inundation Canals from the minor to the major works list, and we are of opinion that there are other systems which might with advantage be similarly transferred. If you are prepared to agree to an extension of our powers of sanction against loan funds, we will consider the propriety of further transfers of this nature; but, as at present advised, we should be disinclined to transfer any canal or series of canals, the cost of which was less than Rs. 2,00,000.

22. There remains in this section of Chapter VIII, the proposal made in paragraph 250 to abolish the capital account of all minor works which cannot be transferred to the class of major works. We do not accept this proposal. Even if some of the minor works be so transferred, there will still remain works for which reliable capital accounts can be and are kept; we see no advantage in closing those accounts; on the contrary, it seems advisable to maintain them, since at some future date it may become advisable to transfer the works to the major works class.

23. We do not propose, on the present occasion, to discuss in detail the question of

PROVINCE.	SHARE OF CANAL REVENUE AND EXPENDITURE WHICH HAS BEEN PROVINCIALIZED.	
	Major Works.	Minor Works.
Madras	<i>Nil.</i>	The whole.
Bombay	One-half .	One-half.
Punjab	Three-eighths .	<i>Nil.*</i>
United Provinces	The whole†	The whole.
Bengal	The whole .	The whole.

* Except works which were classed as Provincial in 1904-05 of which the whole.

† Except the Betwa Canal, which is Imperial.

the provincialization of irrigation works which is dealt with in section (iii) of this chapter. It will suffice to say that we have recently effected quasi-permanent settlements with the administrations mentioned in the margin, which include the provincialization of canal revenue to the extent stated against each. These settlements give most of the provinces a direct interest in the efficiency of their canals.

24. We now turn to the question of the provision of funds. The programme summarised in paragraph 139 of the Report, which we have accepted as a general forecast of operations, contemplates an expenditure of 44 crores distributed over a period of 20 years, which involves an average annual expenditure of 220 lakhs of rupees. We regard this amount as reasonable and justifiable, and we propose to endeavour to provide for it. The Commission divide the total into 15 crores for productive, 20 for non-productive, i.e., protective, and 9 for what they class as intermediate works, as regards which last they are doubtful under which of the two preceding categories they will eventually fall. As we have already remarked, the details of the expenditure must necessarily be open to revision as our examination of individual schemes proceeds, and it is uncertain what proportion of the whole amount will eventually be devoted to productive and protective works respectively. But the statements attached to the estimates for productive irrigation projects in the Punjab which were submitted with our despatch No. 30 P. W. of 10th November 1904, shew that in order to complete these works, as is proposed, within a period of nine years, the expenditure upon them alone must in certain years amount to as high a figure as 115 lakhs. It is certain, therefore, that during the first half of the period which is covered by the Commission's forecast, the expenditure upon productive works will be proportionally larger than is

contemplated in their total estimates. Allowing for necessary expenditure upon existing productive works throughout the country, and for the construction of new works in provinces other than the Punjab, we anticipate that we may have to provide, in certain of these years, as much as 185 lakhs for irrigation works of this class. This, however, will be a maximum figure which it will often be impossible to work up to, and we estimate that the average expenditure will not exceed 150 lakhs. We are impressed with the importance of that continuity in our irrigation policy which is repeatedly urged upon us by the Commission; in years in which an expenditure upon irrigation works in excess of the 150 lakhs which is contemplated by us as the annual average, appears to be necessary and practicable, we shall endeavour to arrange for this without unduly restricting our expenditure upon railways; and we hope that the policy which we have advocated in our despatch No. 62, dated 9th February 1905, in the Finance Department on the subject of railway finance, will enable us to carry out our intention.

25. To the construction of Protective Irrigation Works we propose to devote annually the moiety of the Famine Insurance grant which is available for expenditure upon protective works, after deducting the charges on account of protective railways which are debitable to this head. Now that the grant has been relieved of the charges for interest on the Bengal-Nagpur and Indian Midland railways, the deductions on this account will not be large.

26. It remains to make provision for minor works. The Commission repeatedly direct our attention to the very considerable aggregate importance of these works, to the limited nature of the provision which it has been found possible to make for their extension and improvement in past years, and to the great scope which exists for largely increased expenditure under this head with results advantageous both to the finance and to the people. As already explained, we are unable to accept their recommendations that all such of these works as may be found to be productive should be transferred to the head of major works, and financed from borrowed money. But we are in full agreement with the Commission as to their importance, and as to the advisability of increased expenditure upon them. During the period of financial stress which accompanied the fall in the sterling value of the rupee, it was impossible to devote any considerable additional sums from general revenues to expenditure under this head. But during recent years a constantly increasing amount has (as the figures below will show) been annually provided for the maintenance and development of existing minor works, and for the construction of new ones; we hope to maintain that increase in the future; and in the budget for 1905-1906, we have made an additional provision under this head amounting to 10 lakhs of rupees.

Expenditure on Minor Works and Navigation.

	<i>Rs</i>
During 1890-1900 (Actuals)	1,05,30,000
„ 1900-1901 „	1,06,49,000
„ 1901-1902 „	1,07,80,000
„ 1902-1903 „	1,27,72,000
„ 1903-1904 „	1,31,25,000
„ 1904-1905 (Estimate)	1,38,31,000
„ 1905-1906 (Budget)	1,48,64,000

27. Finally, we desire to express our sense of the importance of the inquiry which was entrusted to the Irrigation Commission, and of the admirable manner in which they have performed their task. In this despatch we have necessarily dwelt upon the points on which we find ourselves unable to accept their recommendations; but we are in general accord with them throughout the greater portion of their discussion. Successive Famine Commissions have dealt with the treatment of famine; the Irrigation Commission have dealt with the prevention of famine, a subject of equal perhaps even of greater importance; and we believe that their report will enable us for the first time to formulate and pursue a consistent and well considered policy in the matter of irrigation which shall embrace the whole of India.

If you share these views, we would ask you to communicate them, together with an expression of our cordial appreciation of and thanks for their labours, to Colonel Sir Colin Scott-Moncrieff, R.E., K.C.S.I., K.C.M.G., and Sir Thomas Higham, K.C.I.E. Upon receipt of your reply to this despatch, we propose to address a similar communication to the Honourable Mr. Muir-Mackenzie and Diwan Bahadur Rajaratna Mudaliyar, C.I.E., lately Members of the Commission, and who are still in India.

We have the honour to be,

SIR,

Your most obedient, humble Servants,

CURZON.
KITCHENER.

C. L. TUPPER.

INDIA OFFICE, LONDON,

17th November 1905.

Public Works,
No. 60.

To His Excellency the Right Honourable the Governor General of India in
Council.

MY LORD,

I have received the letter of Your Excellency's Government in the Department of Revenue and Agriculture (Civil Works), No. 18, dated 18th May 1905, on the Report of the Indian Irrigation Commission. The letter deals chiefly with the more general aspects of irrigation, the future rate of extension and its limitations, the financial considerations involved, and, in particular, with certain recommendations of the Commissioners regarding the classification of the various works as affecting the application to them of money raised by loans.

2. In the reference to the Commission particular attention was given to the question of famine prevention, and the Commissioners were directed, in considering proposals for the extension of irrigation in districts in which cultivation was very insecure and precarious, to attach greater importance to the extent and reliability of the protection that would be afforded than to the merits of the schemes regarded as financial investments.

3. In considering this aspect of the question it is important to recognise clearly the limits within which it is possible to apply irrigation usefully as a means of famine protection. It is obvious that as famine will often occur in districts where the physical conditions make it impossible to secure a permanent supply of water except at a prohibitive cost, the question will not infrequently arise whether it is not wiser to meet distress as it arises by granting funds for famine works and charitable relief than to embark on costly schemes of prevention which are liable to fail when most needed.

4. On this and other grounds discussed in Chapter II of the Report, I am in accord with your Government in accepting the views recorded by the Commission that irrigation works can only supply a partial remedy against drought, and even if a large extension of irrigation could be confidently relied upon as an effectual check to famine, it would be impossible, for the reason referred to in paragraph 13 of your letter, namely, the necessity of reinforcing the irrigation establishment, and the difficulty of collecting and organizing the necessary labour, to count upon any immediate or rapid expansion of the irrigation system.

5. While, therefore, I agree with your Government in desiring a more liberal policy in the construction of protective works, I am constrained to recognise that no extension of irrigation sufficient to secure all parts of the country against the attacks of famine is possible.

6. The conditions which would justify the expenditure of public revenues in any particular district on protective works have been discussed by the Commission, and in Chapter IV of their Report they have suggested a formula, based on the calculated protective value of an irrigated acre, as a criterion of the amount of expenditure not directly productive which may be incurred for the sake of avoiding the future cost of famine relief. Your Government has, however, decided, and I consider on good grounds, that the question whether protective works should be instituted in any particular locality must often be decided by considerations which cannot be expressed by a mathematical formula. But, though it is impossible to apply any rigid test, you consider that the calculations of the Commissioners will be found a useful guide in determining the limit to the burden which can be laid upon the public revenues in each case.

7. While I agree with Your Excellency that the question of constructing any particular protective work cannot be decided exclusively with reference to a strict calculation of financial loss or gain, I consider it of extreme importance that this aspect of the question should always receive close attention. The formula given in paragraphs 106 and 107 of the report are most useful as presenting a clear analysis of the various elements involved in the calculations on which our action must depend; but several of the factors in them will be found in practice to be of a highly problematical nature, and one of them, *vis.*, the multiplier "m" in the equation at the end of paragraph 107, will have to be determined in each case on considerations of the vaguest nature, and in an extremely arbitrary manner. The greatest caution will accordingly be needed, and to put the multiplier "m" at a figure as high as 3, as the Commission are disposed to think we should be warranted in doing in the case of tracts of a certain class, seems to be somewhat questionable. Moreover, caution in the construction of this class of works is the more necessary, as they generally depend on the storage of water which is liable to fail in times of prolonged drought. Care should therefore be taken in submitting unremunerative projects for sanction, especially in cases where the supply of water is uncertain, that an estimate be made on the best data available with a view to ascertaining whether the proposed work would in the long run be as efficient and economical in the prevention of distress as relief works. Having regard to all this, it is

fortunate that during the earlier years of your programme you will have a considerable choice of protective projects. No doubt you will, as a rule, give precedence to those which are most promising, and you will thus have gained considerable experience before the less promising and more doubtful projects come under consideration.

8. In the case of the productive works the problem is easier, as there is here no question of benefiting one portion of the community at the expense of the rest. At the same time all productive works must be regarded as essentially protective, and are generally more reliable than the works technically known by that name.

9. For these reasons I agree with the recommendation of the Commission, which is accepted by your Government, that the programme of future expenditure on irrigation works should provide for the construction of as many productive works as can be prepared, without reference to the urgency of the need for protection in the tract to be commanded by them, and that promising projects should be held in abeyance only when their execution is prevented by want of establishment or of funds.

10. I also agree to the principle that, in considering whether a work should be completed or extended, even though it has failed to satisfy the conditions of a productive work, the criterion should be, not whether the work will yield a return upon its total cost, but whether the anticipated increase of revenue will produce a return on the new capital expenditure at the rate prescribed for productive works.

11. In paragraph 139 of their Report, the Commissioners have drawn up a forecast of the works which they recommend for construction during the next 20 years. The expenditure involved in this forecast amounts to 44 crores, or at the rate of 2.2 crores per annum. Of this expenditure 1,510 lakhs would be absorbed by productive works, and 2,890 lakhs by works that were either distinctly unproductive, or of an intermediate character between the productive and unproductive classes.

12. This programme does not pretend to be exhaustive, and you point out that in use it will probably require modification. I agree, however, with your proposal to accept the forecast as a preliminary rough estimate of the cost of the major works which you hope to see constructed during the next 20 years.

13. Under the existing rules, none of the works recommended by the Commission that failed to satisfy the conditions attached to the sanction of a work as productive, could be constructed from funds raised by loan. In order to secure a larger and more continuous expenditure on irrigation works, the Commissioners propose to remove this restriction, and recommend that the distinction between productive and protective works should be abolished, all capital outlay on "major" works being charged against loan funds, and the net interest charges only being shown against the Famine Grant.

14. I agree with your Government in rejecting these proposals. The rule which restricts the use of borrowed funds to works which may reasonably be expected to repay the interest charges on their capital cost, rests on strong grounds of expediency and financial policy, as shown in paragraphs 14—18 of your letter, and the necessity of demonstrating the remunerative character of a work, as a condition to obtaining the requisite funds, acts as a check on lavish outlay of public money on ill-considered schemes.

15. In connection with the proposal just referred to, there are various subsidiary recommendations of the Commission which are discussed in paragraphs 19—22 of your letter. I agree with your Excellency in considering that the rule under which the cost of works sanctioned against the open capital account of a project which has not fulfilled the conditions of a productive work must be met from general revenues, should be maintained, except in the case of such extensions of major works as can be shown to be remunerative in themselves.

16. I also accept the proposal that the Government of India should be empowered to sanction works costing 10 lakhs of rupees or less, in the case of works chargeable to loan funds.

17. On the questions of transferring minor works to the class of major works, and of abolishing the capital accounts of all minor works that cannot be transferred to the major works class, I accept the views stated in paragraphs 21 and 22 of your letter.

18. Turning now to the question of provision of funds, the programme of constructive operations previously referred to contemplates an average rate of expenditure for the next 20 years of 200 lakhs a year, of which only 75 would be allotted to productive works.

19. But looking to the expenditure to which you are committed for productive works now under construction, and the certainty of further demands for new works of this class, you estimate that for the first-half of the period covered by the programme the amount of the expenditure on productive works will on the average be 150 lakhs, and will occasionally exceed that amount. I agree to the inclusion of this amount in your annual forecasts of capital expenditure on productive works, and shall not object to a somewhat larger provision in years in which it appears necessary and practicable.

20. To the construction of protective irrigation works will be allotted the moiety of the Famine Insurance Grant which is available for expenditure upon protective works, after deducting the charges on account of protective railways debitable to this head. As these deductions will not be large in future, the sum available for protective irrigation works will

not fall much short of 75 lakhs a year, and you state that this sum is likely to be as much as can be spent by your Public Works Department at present.

21. With regard to the minor works, the importance of which is insisted on by the Commission, you point to the constantly increasing amount which has been provided in recent years for maintenance and development of existing works and the construction of new works of this class.

22. In conclusion, I desire to state that I fully concur in the appreciation which your Excellency has expressed of the thorough manner in which the Commissioners have performed their important task, and of the valuable Report which they have submitted. I have caused a letter, copy of which is enclosed, to be addressed to Colonel Sir Colin Scott-Moncrieff, R.E., K.C.S.I., K.C.M.G., and Sir Thomas Higham, K.C.I.E., and I request that a similar communication may be made by your Excellency to Mr. Muir-Mackenzie, and Diwan Bahadur Rajaratna Mudaliyar, C.I.E.

I have the honour to be,

My Lord,

Your Lordship's most obedient, humble Servant,

(Signed) ST. JOHN BRODRICK.

L. M. JACOB,

Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Fort William, the 23rd January 1906

No. 245-F.—With reference to the Notification of the Government of India in the Foreign Department, No. 3539-F., dated 10th October 1905, Mr. W. W. Smart, I.C.S., a temporary Settlement Officer in Baluchistan, is appointed temporarily to be an Assistant to the Political Agent, Kohlu, Nasirabad and Railway District.

The 26th January 1906.

No. 198-G.B.—With the sanction of His Majesty's Government, the Governor-General in Council is pleased to recognise the appointment of Monsieur Charles Louis Claude Marie Paul Barret as Consul for France at Bombay.

L. W. DANE,

Secretary to the Government of India

FINANCE DEPARTMENT.

RESOLUTION.

Calcutta, the 22nd January 1906.

No. 296-P.—In Rule 12 of the rules regulating the constitution of the Bengal and Madras Service Family Pension Fund, which were issued with the Resolution in this Department No. 271-P., dated the 14th January 1904, it was laid down that a valuation of the assets and liabilities of the new Fund shall be annually made by a competent actuary. It has since been decided that an annual valuation is unnecessary while the Fund remains under Government management and that a quinquennial valuation will be sufficient as in the case of the Indian Civil and Military Family Pension Funds. His Excellency the Governor General in Council accordingly directs that the following be substituted for Rule 12 :—

" 12. A valuation of the assets and liabilities of the Fund, both in the widows' and children's branches, shall be made quinquennially by a competent actuary. Of the surplus capital in each branch arrived at as the result of the quinquennial valuation, a portion, which shall not be less than 10 per cent of the net liabilities of the branch, shall be retained as a Reserve Fund."

2. It has also been decided that the following further additions and alterations shall be made in the Rules and Forms relating to the Fund :—

Page 1. Rule 3.

Rule 3 to be recasted as follows :—

3. All officers in the service of the Imperial or Provincial Government in India, between the ages of 18 and 70, whose service qualifies for pension from General Revenues, shall be eligible as subscribers, with the following exceptions :—

- (1) Officers of the Indian Civil Service, and of the Army, and officers and Engineers of the Royal Indian Marine.
- (2) Officers serving in Bombay who are not liable under the conditions of their service to transfer beyond the jurisdiction of the Government of Bombay.
- (3) Officers who already subscribe to the Bengal or Bombay Uncovenanted Service Family Pension Fund.

Explanation.—The term "officers" includes officers in receipt of pensions payable from General Revenues.

Note.—The following persons who are not in the direct service of Government, shall be eligible to subscribe to the fund, provided that they pay an additional subscription fixed for the present at one-fourth of the ordinary subscription, namely,—

- (1) Persons transferred to Foreign service under the rules in Part VII of the Civil Service Regulations, if they were subscribers at the time of transfer.
- (2) Persons who have severed their connection with the service of Government otherwise than by retirement on pension, if they were subscribers at the time when their service under Government ceased.
- (3) Persons paid from a Local Fund whose service qualifies for pension from General Revenues.

Page 5. Rule 29

The words "or daughters" to be inserted after "sons" in the 3rd line ; the words "or in the case of daughters, precludes the possibility of marriage" after "livelihood" in the 5th line, and the word "are" after "as" in the 6th line of this Rule

Form B. Page 10.

The words "(not necessary in the case of gazetted officers)" to be inserted after "impression" in the 7th entry in this form.

Form D (Medical Report). Pages 13 and 14.

The following to be added after the word "Age?" in entry 1 :—

Queries.	Replies.	
	Feet.	Inches.
Chest girth at nipples ?	.	.
Abdominal girth ?	.	.

And the following further questions to be inserted after entries 7 and 8 :—

" 7A.—Has the applicant had any form of venereal disease ? "

" 8A.—Has the applicant had small-pox or been vaccinated ?

(The date of the last vaccination should be given.)"

The word "Hernia" in the 7th line of question No. 8 and the word "Palsy" in the 3rd line of question No. 10 to be omitted.

Form D (Personal Affirmation). Pages 15 and 16.

The word "Hernia" in the 6th line of question No. 3 and the word "Palsy" in the 3rd line of question No. 8 to be omitted ; and the following to be added to the declaration at the foot of this form :—

" I also declare that should anything happen to me which might tend to vitiate the present medical certificate before my formal entrance to the Fund, I engage myself to communicate the same to the Civil Surgeon and express my willingness to appear before him for re-examination if required to do so."

Form E. Page 17.

The word "Hernia" in the 8th line of question No. 3 to be omitted.

Ordered, also that this Resolution be published in the *Gazette of India*.

NOTIFICATIONS.

LEAVE AND APPOINTMENTS.

The 26th January 1906.

No. 505-P.—Mr. G. C. Ray is posted temporarily as Assistant Accountant General and Examiner of Local Fund Accounts, Bengal, with effect from the 13th of January 1906.

No. 506-P.—Babu Ram Das Sarkar, a Superintendent in the Office of the Comptroller and Auditor General, is appointed to act as a Supernumerary Chief Superintendent in that office, with effect from the 13th of January 1906 and until further orders.

No. 511-P.—The following promotions of officers of the Account Department are notified :—

With effect from the 2nd of January 1906, in consequence of the grant of privilege leave to Mr. N. Vijayaraghavan—

Mr. J. Prasad to officiate in class V of the Enrolled List.

With effect from the 13th of January 1906—

Mr. U. L. Majumdar to officiate in class III,

Mr. P. G. Jacob to officiate in class IV, and

Mr. T. H. Worgan to officiate in class V, of the Enrolled List.

W. S. MEYER,

Secretary to the Government of India.

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATIONS.

POST OFFICE.

Calcutta, the 23rd January 1906.

No. 607-2.—In exercise of the power conferred by section 46 (2) of the Indian Post Office Act, 1898 (VI of 1898), the Governor General in Council is pleased to direct that the following amendment shall be made, with effect from the 1st April 1906, in the rules published in the notification in the Finance and Commerce Department, No. 1429c-S.R., dated 30th March 1899, as amended by Notification No. 2907-S.R., dated the 20th May 1903 :—

For rule 78 substitute the following :—

78. Money orders may be issued on the following Native States, with which special arrangements have been made for the exchange of money orders, but the amount for which a single money order may be issued on these States shall not *exceed Rs. 600* :—

Chamba, | Jhind,
Gwalior, | Nabha,
Patiala.

Explanation.—The exception in the last preceding rule applies also to money orders issued by, or in favour of, any official Department of any of these States.

RAILWAYS.

The 25th January 1906.

No. 668-Ry.—In exercise of the powers conferred by section 2 of the Indian Tramways Act, 1902 (IV of 1902), the Governor General in Council is pleased to direct that the provisions of the Indian Railway Companies Act, 1895 (X of 1895), in so far as the same are applicable, shall apply to the Shahdara (Delhi)-Saharanpur Light Railway Company, Limited, which has been formed for the construction of a steam tramway from Shahdara to Saharanpur with a branch from Baraut to Meerut under the provisions of the Indian Tramways Act, 1886 (XI of 1886).

LEAVE AND APPOINTMENTS.**POST OFFICE.**

The 26th January 1906.

No. 727—23.—The furlough granted to Mr. C. Goodburn, Deputy Postmaster General of the 1st grade, in the Notification in this Department, No. 6292—134-3, dated the 30th October 1905, is extended for a period of three months, with effect from the 21st January 1906.

STATIONERY AND PRINTING.

The 26th January 1906.

No. 733.—Mr. J. J. Meikle, who is at present officiating as Superintendent of Government Printing, India, is appointed substantively *pro tempore* to that post, with effect from the 31st December 1905, and until further orders.

W. L. HARVEY,

Secretary to the Government of India.

MILITARY DEPARTMENT.

Fort William, the 26th January 1906.

APPOINTMENTS.**ARMY STAFF.**

No. 60.—Colonel F. W. Bromfield, British Service, Assistant Quartermaster General, Western Command, to officiate as Deputy Adjutant General, Western Command, in an existing vacancy. Dated 24th October 1905.

No. 61.—Colonel J. B. Forster, British Service, Assistant Adjutant General, Eastern Command, to officiate as Deputy Adjutant General, Eastern Command, in an existing vacancy. Dated 22nd December 1905.

INDIAN ARMY.

No. 62.—The undermentioned officers are admitted to the Indian Army, with effect from the dates specified, subject to confirmation by the Secretary of State for India:—

Lieutenants:—

Thomas Trevenen Oakes, The Buffs (East Kent Regiment). officiating Double Company Officer, 102nd (King Edward's Own) Grenadiers,—22nd December 1905.

John Scot Graham, Manchester Regiment, attached as a supernumerary to the 1st Battalion, Dorsetshire Regiment; officiating Double Company Officer, 121st Pioneers,—24th December 1905.

John Acheson Staines Daniell, 1st Battalion, Yorkshire Light Infantry, attached as a supernumerary to the 2nd Battalion, Shropshire Light Infantry; officiating Double Company Officer, 14th Sikhs,—22nd December 1905.

George Hambly Stevenson, 3rd Battalion, Northumberland Fusiliers, attached as a supernumerary to the 1st Battalion, Bedfordshire Regiment; officiating Double Company Officer, 125th Napier's Rifles,—30th December 1905.

Harry Hastings Grigg, 1st Battalion, Duke of Cornwall's Light Infantry, attached as a supernumerary to the 1st Battalion, Northamptonshire Regiment; officiating Double Company Officer, 45th Rattray's Sikhs,—31st December 1905.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 17th November 1905.

From the 25th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 18th November all Notifications and other matter intended for publication in the Gazette should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

No. 284 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

- No. 121 of 1893.—Charles Ewing. *Rolling-stock for use on single-rail tramways or railways.* (From 27 February 1906 to 27 February 1907.)
- No. 321 of 1895.—Samuel Cleland Davidson. *Improvements in stoves or apparatus for heating air.* (From 18 January 1906 to 18 January 1907.)
- No. 341 of 1895.—Theodore Guilleaume. *Improved means for insulating electric conductors.* (From 18 January 1906 to 18 January 1907.)
- No. 344 of 1896.—Earnest Harry Archer. *Improvements in or connected with collapsible or other boxes or cases.* (From 9 February 1906 to 9 February 1907.)
- No. 379 of 1896.—Samuel Cleland Davidson. *Improvements in tea leaf rolling machines.* (From 5 February 1906 to 5 February 1907.)
- No. 239 of 1897.—William Warburton. *Improved method of extracting vegetable fibres.* (From 7 February 1906 to 7 February 1907.)
- No. 464 of 1897.—Charles Grey Hill and Rudolph Weiss. *Improvements in or relating to circular weaving apparatus.* (From 25 January 1906 to 25 January 1907.)
- No. 284 of 1898.—Mephan Ferguson. *An improved machine for closing the locking bar or bars used in the construction of certain kinds of rivetless pipes.* (From 17 February 1906 to 17 February 1907.)
- No. 285 of 1898.—Mephan Ferguson. *Improvements in machines for forming dove-tail or approximately dove-tail edges on plates to be used in the manufacture of rivetless pipes.* (From 17 February 1906 to 17 February 1907.)
- No. 215 of 1900.—Lars Christian Nielsen. *Improvements in burners for oil lamps having incandescing mantles.* (From 22 January 1906 to 22 January 1907.)
- No. 240 of 1900.—George Jones Atkins. *Improvements in or connected with the manufacture of gases and other products.* (From 22 January 1906 to 22 January 1907.)
- No. 257 of 1900.—Hab & Son. *Improvements in pad-locks.* (From 17 January 1906 to 17 January 1907.)
- No. 449 of 1900.—Donald Cameron, Frederick James Commin, and Arthur John Martin. *Improvements in the treatment of sewage.* (From 22 January 1906 to 22 January 1907.)
- No. 130 of 1901.—William Leonard. *Opening or closing simultaneously by one action all the doors or openings giving access into or exit from a range of cubicles, cells, or other separate compartments of a building in a line or circular curve and which permits also of any separate and individual door or opening in the range being opened or closed without opening or closing the remainder.* (From 22 February 1906 to 22 February 1907.)
- No. 258 of 1901.—Thomas Adam Clayton. *Improvements in mechanism for fumigating and extinguishing fires in closed compartments with gas.* (From 22 January 1906 to 22 January 1907.)
- No. 387 of 1901.—William Walker. *Improvements in fixings for railway rails.* (From 20 January 1906 to 20 January 1907.)
- No. 16 of 1902.—William Taylor. *Shunting levers or appliances for operating points and signals on railways and tramways, and for other like purposes.* (From 16 September 1906 to 16 September 1907.)
- No. 53 of 1902.—Alfred Ernest Terry. *Improvements in chest expanders, exercisers, and the like.* (From 1 August 1906 to 1 August 1907.)

No. 285 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

- No. 115 of 1901.—Wilhelm Kellner. *Umbrella or screen for wheels and motor carriages with attachment.* (Specification filed 15 October 1901.)

No. 123 of 1901.—Ferdinand Fanta. *Improvements in and relating to the manufacture and repair of incandescent electric lamps.* (Specification filed 15 October 1901.)

No. 132 of 1901.—Jean Alexandre Lacote. *Improvements in or relating to scutching or fibre preparing machines.* (Specification filed 15 October 1901.)

No. 169 of 1901.—James Pearson. *Improvements in tension wheels for carriages and other conveyances.* (Specification filed 16 October 1901.)

No. 300 of 1901.—The Fraser Automatic Rove Stop Company, Limited, and James Fraser. *Improvements in and relating to rove stop mechanism for spinning machines.* (Specification filed 16 October 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2 Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2 Bankshall Street, Calcutta.

H. G. GRAVES,

Secretary under the Inventions
and Designs Act, V of 1888.

Quetta, the 20th January 1906.

No. 284.—Under section 93 of the Baluchistan Agency Civil Justice Law, 1896 (IX of 1896), the Officiating Agent to the Governor-General in Baluchistan is pleased to invest Mr. W. W. Smart, I. C. S., Settlement Officer, Nasirabad, and Assistant Political Agent, Kohlu, Nasirabad and Railway District, with all the powers of a Political Agent under the said Law, and to declare that the said powers shall be exercised only within the limits of the Nasirabad Tahsil, and only in respect of original suits relating to land or water or the rent or revenue of land, and appeals in such cases.

No. 285.—In exercise of the powers conferred by section 5, sub-section (1), of the Baluchistan Agency Civil Justice Law, 1896 (IX of 1896), and with the previous sanction of the Governor-General in Council, the Officiating Agent to the Governor-General is pleased, in modification of his Notification No. 4831, dated 10th October 1903, to vary the number of Courts of the fourth grade by the addition of the Court of a Second Tahsildar of Nasirabad, and, with reference to sub-section (2) of the said section, to fix the Nasirabad Tahsil as the local limits of the jurisdiction of the said Court.

No. 286.—In exercise of the powers conferred by section 4, sub-section (2), of the Baluchistan Agency Civil Justice Law, 1896 (IX of 1896), and with reference to Notification No. 285, dated 20th January 1906, by the Honourable the Officiating Agent to the Governor-General, the Officiating Agent to the Governor-General is pleased to appoint Kazi Abdulla Jan, the Assistant Settlement Officer, Nasirabad, to be the presiding officer of the Court of the Second Tahsildar of Nasirabad, and to direct under section 6 (b) of the said Law that he shall have jurisdiction to try original suits of value not exceeding Rs. 1,000.

By order,

DENYS DES. BRAY,

Second Assistant.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 26th January, 1906, and is hereby promulgated for general information :—

ACT NO. I OF 1906.

An Act further to amend the Indian Tariff Act, 1894.

VIII of 1894. WHEREAS it is expedient further to amend the Indian Tariff Act, 1894; It is hereby enacted as follows:—

1. (1) This Act may be called the Indian Short title and Tariff (Amendment) Act, commencement. 1906; and

(2) It shall come into force on the twenty-sixth day of February, 1906.

III of 1896. 2. In No. 1 of Schedule III of the Indian Tariff Amendment of Act, 1894, as amended by Schedule III, Act the Indian Tariff Act (1894) VIII of 1894. Amendment Act, 1896,—

(a) "Rs. 10" shall be substituted for "Rs. 6" in the fourth column as the rate of duty to be levied and collected per Imperial Gallon or six quart bottles of "Liqueurs," and

(b) for the following, namely :—

No.	Names of Articles.	Per	Rate of Duty.
*	*	*	*
	Spirit when so used in a proportion of twenty per cent. and upwards.	Imperial Gallon or six quart bottles of the strength of London proof.	Rs. A. 6 0 and the duty to be increased or reduced in proportion as the strength of the spirit exceeds or is less than London proof.

No.	Names of Articles.	Per	Rate of Duty.
*	*	*	*
	Spirit, per-fumed, in wood or in bottles.	Imperial Gallon or six quart bottles.	Rs. A. 8 0
	Spirit, other sorts.	Imperial Gallon or six quart bottles of the strength of London proof.	6 0 and the duty to be increased or reduced in proportion as the strength of the spirit exceeds or is less than London proof.

there shall be substituted the following, namely:—

No.	Names of Articles.	Per	Rate of Duty.
*	*	*	*
	Spirit when so used in a proportion of twenty per cent. and upwards.	Imperial Gallon or six quart bottles of the strength of London proof.	Rs. A. 7 0 and the duty to be increased or reduced in proportion as the strength of the spirit exceeds or is less than London proof.
	Spirit, per-fumed, in wood or in bottles.	Imperial Gallon or six quart bottles.	11 0
	Spirit, other sorts.	Imperial Gallon or six quart bottles of the strength of London proof.	7 0 and the duty to be increased or reduced in proportion as the strength of the spirit exceeds or is less than London proof.

STATEMENT OF OBJECTS AND REASONS.

THE existing tariff rate of duty on spirits imported into India by sea is Rs. 6 per gallon of the strength of London proof. It is proposed in the present Bill to raise the rate of duty to Rs. 7 per proof gallon. The last enhancement of the duty was effected in March, 1890, or nearly sixteen years ago. It is the policy of the Government of India to impose as high a duty on country-spirit as it will bear, and during the last sixteen years the rates of duty on the latter have been largely increased from time to time, and are now in a number of districts higher than that levied on imported liquor. It is therefore necessary that the latter should again be raised in its turn.

2. It will be necessary simultaneously to raise the duty on liqueurs (at present Rs. 6 per imperial gallon) and perfumed spirits (at present Rs. 8 per imperial gallon). It appears that the former are generally imported into India at a strength of 40° over proof and the latter at 60° over proof, and it is proposed to tax them at Rs. 10 and Rs. 11 per imperial gallon respectively. These rates correspond in round figures to a duty of Rs. 7 per proof gallon on ordinary spirit.

3. It is proposed that the new rates of duty shall come into force one month after the Bill has been passed into law.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA,
ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS,
UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS,
1861 AND 1892 (24 & 25 VICT., CAP. 67,
AND 55 & 56 VICT., CAP. 14.)

The Council met at Government House, Calcutta, on Friday, the 26th
January, 1906.

PRESENT :

His Excellency the Earl of Minto, P.C., G.C.M.G., G.M.S.I., G.M.I.E., Viceroy
and Governor General of India, *presiding*.
His Honour Sir A. H. L. Fraser, K.C.S.I., Lieutenant-Governor of Bengal.
His Excellency General Viscount Kitchener of Khartoum, G.C.B., O.M.,
G.C.M.G., Commander-in-Chief in India.
The Hon'ble Sir A. T. Arundel, K.C.S.I.
The Hon'ble Sir Denzil Ibbetson, K.C.S.I.
The Hon'ble Mr. H. Erle Richards, K.C.
The Hon'ble Mr. J. P. Hewett, C.S.I., C.I.E.
The Hon'ble Mr. E. N. Baker, C.S.I.
The Hon'ble Major-General C. H. Scott, C.B., R.A.
The Hon'ble Rai Sri Ram Bahadur, C.I.E.
The Hon'ble Mr. L. A. S. Porter.
The Hon'ble Mr. H. A. Sim, C.I.E.
The Hon'ble Mr. Gopal Krishna Gokhale, C.I.E.
The Hon'ble Mr. A. A. Apcar, C.S.I.
The Hon'ble Mr. S. Ismay, C.S.I.
The Hon'ble Mr. W. T. Hall, C.S.I.
The Hon'ble Mr. A. C. Logan.
The Hon'ble Nawab Saiyid Muhammad Sahib Bahadur.

INDIAN TARIFF (AMENDMENT) BILL.

The Hon'ble MR. BAKER moved for leave to introduce a Bill further to amend the Indian Tariff Act, 1894. He said :—" My Lord, the object of this

Bill is to enhance the rate of duty on imported spirits from Rs. 6 per gallon of London proof, which is the present duty, to Rs. 7 per proof gallon. It is also proposed to raise the duties on liqueurs and perfumed spirits to a rate corresponding with the new rate imposed on ordinary spirits.

"The duty on imported spirits was raised to its present figure in March 1890 or nearly sixteen years ago. During this period the imports by sea have risen from 891,000 proof gallons to 1,238,000 proof gallons, or by nearly 39 per cent., and it is believed that the increase would have been greater, but for the larger production of 'European' spirit in this country. There seems therefore reason to believe that the trade is now able to bear a higher rate of duty.

"But the principal reason for the proposal is this. It is the established policy of Government to raise the rate of duty and the total incidence of taxation on country spirit manufactured in India to the highest figure which is compatible with the prevention of illicit manufacture. In view of the fact that imported spirit and country spirit are liable to compete with one another to some extent, it would clearly be inequitable that the incidence of taxation on country spirit should be heavier than that upon the imported article. On the contrary, the taxation of the latter should be higher than that of the former, for the reason that anything like similar taxation presses more heavily on the consumers of country spirit, who are as a class much poorer than those who drink imported spirit. In other words, the taxation on imported spirit is the high-water mark beyond which the taxation of country spirit cannot go, to any material extent or for any considerable time.

"Now during the past sixteen years, we have, in pursuance of our declared policy, raised the rate of duty and of total taxation on country spirit from time to time throughout the country; and the result now is that in a certain number of districts, taking duty and licenses fees together, the aggregate taxation on country spirit exceeds that on imported spirits, while there is a still larger number in which the former approximates to the latter. We calculate that in the case of imported spirits the incidence of vend fees averages about Re. 1 per gallon, which added to the tariff duty brings up the total taxation on this article to Rs. 7 per proof gallon. If we turn to the case of country spirit, we find that in Madras there are four districts where the aggregate taxation exceeds Rs. 7, and in one district it amounts to Rs. 7-14-4 per gallon. In Bengal the highest rate is reached in the Jessore and Khulna districts, where it is Rs. 12-9-5 and Rs. 11-15-0 per gallon respectively, and there are five other districts with a maximum exceeding Rs. 7. In Eastern Bengal and Assam the rate of Rs. 7 is passed in four districts, the highest being Backergunj with a rate of Rs. 9-15-3 per proof gallon. In the Punjab the maximum rate is Rs. 7-14-8 in the Lyallpur district, and in five others the Rs. 7 standard is exceeded. In the North-West Frontier Province Rs. 8-0-8 is reached in Kohat, and Rs. 7 is reached or exceeded in three other districts.

"It appears to us therefore that the rate of duty on imported spirits is in a considerable part of the country unduly low as compared with that on country spirit, and that the time has come when it should be raised. It is manifest that, until this is done, it would not be possible to raise further the taxation on country spirit, if circumstances should in other respects render it desirable to do so.

"We have consulted the Local Governments on this question, and with one minor exception they are unanimous in agreeing with our conclusions. We propose to raise the duty from Rs. 6 to Rs. 7, or by 16·6 per cent. I may mention that the corresponding duty in England is 11s. 4d. per proof gallon which is equivalent to Rs. 8-8-0. Even with a Rs. 7 duty, the average incidence of taxation on imported spirit will still fall below the maximum incidence on country spirit in a few districts, but this can be arranged for by a local re-adjustment of the vend or license fees. This is within the province of the Local Governments.

"As regards liqueurs and perfumed spirits, we propose to fix the duties at Rs. 10 and Rs. 11 per bulk gallon. These liquors are usually imported at strengths of 40 % and 60 % over proof respectively, and the rates proposed correspond in round figures to a Rs. 7 duty per proof gallon. It is not proposed to tax them according to strength.

"There is one more point to be mentioned. Ordinarily, when we modify the tariff, the practice is to apply the new rates of duty, whether higher or lower than the old ones, from the date on which the Bill is passed into law. On the present occasion, however, the alteration in the rates is being made not for purposes of revenue, but as an incident of our Excise administration. We therefore propose that the new rates of duty shall come into force one month after the Bill becomes law. The grant of this interval will occasion less dislocation of trade interests than if the enhanced rates were to come into force immediately."

The motion was put and agreed to.

The Hon'ble MR. BAKER introduced the Bill.

The Hon'ble MR. BAKER :—" I now apply to Your Excellency to suspend the Rules for the Conduct of Business, in order to enable me to move that the Bill be taken into consideration at once, and passed to day, if the Council considers that it should be passed.

"That is the course which was adopted when the duty on spirits was last raised in 1890 and on other similar occasions as well. The reasons for it are well understood, and it would scarcely have been necessary for me to offer any remarks in explanation, but for the fact that, as I stated just now, we propose to allow an interval of one month from the date of passing of this Bill, before the enhanced rate of duty comes into force. It might seem at first glance as if the grant of that interval deprives the Bill of its urgency, and renders it unnecessary to pass it at once. But further consideration will, I think, show that that is not really the case. The interval of one month which we propose to allow is sufficient to admit all shipments now at sea on their way to India and also those which are on the eve of being shipped. If, however, we proceed according to the usual legislative methods, we shall virtually extend the period of one month by at least a fortnight or three weeks, and possibly more. Such an extension would enable importers to order out fresh consignments by cable, which would arrive in time for clearance before the new rates came into operation; and the importer would thus be enabled to make an undue profit at the cost of the public and the public revenues. I think therefore that we should conform to precedent and deal with the Bill as a matter of urgency."

His Excellency THE PRESIDENT declared the Rules suspended.

The Hon'ble MR. BAKER moved that the Bill be taken into consideration.
The motion was put and agreed to.

The Hon'ble MR. BAKER moved that the Bill be passed. He said :—" I am not aware whether any Hon'ble Member desires any further explanation with regard to the Bill, but if so I shall be very happy to give it to him. I may, however, explain briefly that the only changes which the Bill will effect in the law are in the rates of duty on the three articles I have referred to, namely, ordinary spirits, liqueurs and perfumed spirits. These alterations will take effect one month from today."

The motion was put and agreed to.

The Council adjourned to Friday, the 16th February, 1906.

SUPPLEMENT TO
The Gazette of India.

No. 4. } CALCUTTA, SATURDAY, JANUARY 27, 1906.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 25th January 1906, based on the India Daily Weather Reports of the period.

Scattered, but in places heavy, rain was received over a considerable part of the Peninsula during the week under review, but there was no definite storm to give rise to general rain. The principal amounts were:—Wellington 3'35", Belgaum 1'90", Chittaldroog 1'20", and Mercara 1'18" on the 19th; Hyderabad 1'93", Sholapur 0'99" and Akola 0'74" on the 20th; Raichur 1'36", Hyderabad 1'04" and Belgaum 0'38" on the 21st; Hyderabad 0'20" on the 22nd; and Kurnool 0'45" and Bellary 0'25" on the 24th. On Sunday, the 21st, a slight storm developed over the United Provinces, and drifting eastward gave rise to rain over Bengal, Orissa and Assam between the 22nd and 24th. The principal amounts in these areas were:—1'67" at Calcutta, 1'41" at Burdwan, 1'05" at Chaibassa, 1'08" at Hazaribagh and 1'29" at Balasore on the 22nd; 0'60" at Balasore and 0'25" at Bogra on the 23rd; and 0'94" at Narayanganj and 0'82" at Balasore on the 24th. Finally the weather was slightly unsettled over the north-west Himalayas on the last two days of the period under review, but the accompanying snowfall on the hills was generally unimportant, and in the submontane area the only rainfall reported was a few drops at Bareilly.

The rainfall table shows appreciable rain during the week on the Burma coast, over Assam, Bengal, Orissa, the Simla hills, the West Coast, the West Satpuras, the Deccan and South India and little or none elsewhere. The average actual rain varies from 2'27" in Hyderabad and 1'43" in Burdwan to 0'10" in Assam, and over the greater part of Bengal, Orissa and the Peninsula (except the East Coast) the week's rainfall exceeded the normal. The cold weather rainfall to date is normal or in excess over Burma, Assam, the greater part of Bengal, Orissa, the Simla hills, the North-west Dry Area and a large part of the Peninsula, but is very deficient over the United Provinces, the Punjab, eastern Rajputana, Central India, Gujarat, the Central Provinces and the east coast of the Peninsula.

The 25th January 1906.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 20th January 1906.

Burma.—The rainfall of the week was:—one inch 21 cents in Mergui and amounts varying from 3 cents to 44 cents in Thayetmyo, Toungoo, Pegu, Prome, and Tavoy. Reaping of wet weather paddy is completed in four more districts and threshing is now in progress in Kyaukpju, Hanthawaddy, Prome, Bassein, Henzada, Toungoo, Tavoy, and Myitkyina. Ploughing for dry weather paddy is completed in the Monywa township of Lower Chindwin. Sowing of island crops is completed in the Magwe township and reaping of jowar and millet is progressing in the Yenangyaung sub-division of Magwe. The condition of the standing crops is good. The price of paddy has fallen considerably in Tharrawaddy and Bassein and slightly in Thayetmyo, Pakokku, and Yamethin, it has risen slightly at Prome and in the Southern Shan States; elsewhere it is unchanged.

Eastern Bengal and Assam.—The weather is cold and cloudy. There was slight rain in Pabna, Bogra, Faridpur, Bakarganj, and in most of the Assam districts. Pruning of tea is in progress. Harvesting of winter rice is nearly finished and the sowing of spring crops continues. The outturn of winter rice and the prospects of other crops are generally fair. Fodder is insufficient in parts of Sylhet and the Khasi and Jaintia hills. Prices of common rice:—Rangpur 17½; Tezpur and Sibsagar 14; Malda 11½; Rampur Boalia, Noakhali, Chittagong, Silchar, and Dibrugarh 11; Dinajpur and Bogra 10½; Jalpaiguri, Barisal, Comilla, Rangamati, Gauhati, Nowgong, and Tura 10; Faridpur 9 to 10; Sylhet 9½; Pabna 9½; Dacca and Dhubri 9; and Mymensingh 8½ seers per rupee.

Bengal.—Rain was fairly general in the Burdwan and Presidency Divisions, but scattered in Bihar, Orissa and Chota Nagpur. Though the recent rain has done much good to the standing crops, more rain is wanted in parts of Bihar. The harvesting of *aman* paddy is practically over. Sugarcane-pressing is going on. Spring crops are doing well. Hailstorms are reported from the districts of Monghyr and Bhagalpur; slight damage by frost is also reported from parts of Palamau. Prospects are otherwise good. Fodder is sufficient except in parts of the Darbhanga district. The water-supply is sufficient. The price of common rice has an upward tendency; it has risen in thirteen districts and has fallen in three. The price is somewhat high in parts of Burdwan, Midnapur, the 24-Parganas, Nadia, Jessore, Khulna, Muzaffarpur, Monghyr and Purnea.

United Provinces.—No rain fell during the week except a slight sprinkling in Ghazipur; it is required everywhere, and especially in Bijnor, Muttra, Mainpuri, Budaun, Ballia, and the Bundelkhand districts where crops in unirrigated tracts are suffering for want of moisture. In Allahabad the absence of rain is causing alarm. Wells are being dug in Shahjahanpur and irrigation continues where practicable. Sugarcane is being pressed and the weeding of the poppy crop is in progress. Injury to crops by frost is reported in 14 districts and by insects in Moradabad and Bulandshahr. Cattle are suffering from the want of fodder in Agra, Mainpuri, and Jalaun. Supplies are adequate but prices continue high and have risen and are still rising in 22 districts. The numbers on relief works in Jalaun have risen to 29,137, and those in receipt of gratuitous relief to 17,305; in Jhansi and in Muttra which was declared a famine district on the twentieth instant the numbers on relief works were 5,977 and 4,730, respectively. In Cawnpore the numbers on test works were 907; the existence of famine is to be declared in the Bhognipur and Ghatampur tahsils of this district with effect from the twenty-sixth instant.

The weekly report on the famine and scarcity in the United Provinces is as follows:—Famine is confined to the Jalaun and Jhansi districts, but it has also been declared in Muttra from the 20th instant and in two tahsils of Cawnpore from the 26th. In Jalaun the re-opening of the Betwa Canal has benefited crops on the Hamirpur Branch and so far as the water goes an average outturn is secured. Fodder is very scarce; grain is being cut in places for fodder. The health of the workers is good in both districts but cases of small-pox occur on the works in Kalpi and Konch; the disease is not confined to the works. In Jalaun a sixth departmental work has been opened and another is being arranged for. In Jhansi village relief commenced on the 22nd. Prices:—Jalaun maize 12 seers; Jhansi juar 23 seers per rupee. The numbers on relief were as follows:—Jalaun, on works 29,000, on gratuitous relief 27,000, total 56,000; Jhansi on works 5,000, dependants 1,000, total 6,000. Test works will be opened in Hamirpur and Unao. The failure of the winter rains causes increasing anxiety.

Punjab.—There was no rain during the week. Prices show a tendency to rise; wheat is rising in Rohtak, Ferozepore, Lahore, Amritsar, Shahpur, Rawalpindi, and falling in

Gurgaon. Pressing of sugarcane and threshing of *toria* (*brassica campestris*) are in progress, also sowing of melons in Delhi. Sowing operations are finished in Mianwali. The standing crops are average on irrigated lands, on unirrigated lands they are bad in the Delhi division and average to below average elsewhere. Rain is urgently wanted. The outturn of *toria* is average and of sugarcane below average. Frost and cold winds have damaged rape and gram in certain districts to a small extent, also sugarcane slightly in Delhi. Locusts have appeared in Hissar, Mianwali and Multan and have done slight damage in the latter district. Turnips have been damaged slightly by insects in Multan. Cattle are weak from want of proper nourishment in Rohtak, Gurgaon, Delhi, Ambala, Sialkot, and Mianwali. Fodder is very scarce in many districts and leaves of trees, prickly shrubs and sugarcane tops are being used as substitutes. The canal supply is poor in Delhi and in parts of Ambala.

North-West Frontier Province.—There was no rain during the week; it is badly wanted in Dera Ismail Khan. The condition of irrigated crops is generally good but that of unirrigated crops is poor in Dera Ismail Khan and the Mardan tahsil of the Peshawar district. Locusts have appeared in the Bannu and Dera Ismail Khan districts and have damaged standing crops in two villages of Tank tahsil. The water-supply is sufficient but there is no irrigation from hill torrents. Fodder is sufficient except in the Daman tract of Dera Ismail Khan. The condition of cattle is poor in the Daman tract, elsewhere it is good. Prices are rising owing to large exports down country and across the border. Prices: wheat 12 to 15; gram 14 to 21; maize 17 to 20; and bajra 15 to 20 seers per rupee.

Jammu.—There was slight rain at Assahli and Ramban during the week. Prices are fluctuating. Wheat sells from 13 to 22 and maize 16 to 36 seers per rupee. The condition of the standing crops is good. Fodder is sufficient. Rain is badly wanted.

Kashmir.—It has been snowing since the 23rd instant and the weather is bitterly cold. Prices are stationary.

Rajputana.—The spring crops are being watered or weeded; the cultivated area is generally restricted and the failure of the winter rains is causing anxiety. Slight damage from frost is reported from parts of Mewar, and Kishangarh. The condition of cattle is poor in North Mewar, Jaipur, Kishangarh, Alwar, Karauli, Bharatpur, and parts of Marwar; in these tracts and in Tonk, Dholpur, Ajmer-Merwara and parts of Kotah pasturage and fodder are very insufficient. There has been a considerable rise in prices during the week in Marwar, Sirohi, Partabgarh, Kishangarh, Alwar, Karauli, Merwara, and Bharatpur varying from 1 to 2½ seers in the rupee; also less noticeably in Jaipur and Ajmer; elsewhere the prices are steady. Prices are generally much above the normal; the highest price is in Karauli, *viz.*, 10 seers per rupee. The water-supply is failing in parts of Kotah, Jhalawar, and Dholpur. Famine has been declared in Bharatpur. The numbers on famine relief were as follows:—Ajmer-Merwara 38,142; Native States:—21,282. The numbers on test works were as follows:—North Mewar 1,818, Shahpura 515, Tonk 299, Jaipur 3,187, Alwar 1,370; on gratuitous relief:—North Mewar 481; grand total 67,094, or an increase of 3,213.

The weekly report on the famine and scarcity is as follows:—Ajmer-Merwara:—on works Ajmer 13,044, Merwara 12,836, on gratuitous relief Ajmer 5,941, Merwara 6,321, total 38,142 or an increase of 2,639. Prices are much above the normal and have risen. The price of the staple food and grain is:—Ajmer 11½ and Merwara 11½ seers per rupee. The failure of the winter rain is causing anxiety. People are resorting freely to the works. The physical condition of the people on relief is fair to good. There is no wandering or large influx of foreigners. The public health is good. Relief measures are adequate. Clothing is being distributed from charitable funds. Native States:—the famine area now includes Bharatpur; the numbers on relief were as follows:—Marwar: on works 2,457, on gratuitous relief 1,774, total 4,231; Kishangarh: on works 2,045, on gratuitous relief 2,275, total 4,320; Karauli: on works 2,206, on gratuitous relief 807, total 3,013; Bharatpur: on works 6,997; on gratuitous relief 1,011, total 8,008; Dholpur: on works 1,189, on gratuitous relief 521, total 1,710. Prices:—Marwar 12½; Kishangarh 12½; Karauli 10, Bharatpur 12; and Dholpur 13½ seers per rupee. The distress is severe in Central Bharatpur. Relief arrangements are generally sufficient; in Karauli progress is being made towards the provision of works. There is no epidemic prevalent. A charitable committee is working at Jodhpur and one has just been organised at Karauli.

Central India.—There was no rain during the week. The irrigation of spring and harvesting of autumn crops are in progress. The standing crops are fair in parts of Indore, Bhopal, Malwa and Bhopawar, and indifferent in Baghelkhand. Rain is badly wanted in Bundelkhand. Irrigated spring crops in parts of Gwalior are normal. The probable outturn is average in parts of Indore and Bundelkhand; fair in Bhopal; below average in Baghelkhand and Malwa. Winter rains are needed in Bhopawar. The crops have been slightly damaged by cold in parts of Gwalior, Indore, Bhopal, Baghelkhand, Malwa and Bhopawar. Agricultural stock is bad in parts of Gwalior and in north of

Bundelkhand. Pasturage is bad in parts of Gwalior and scarce in north of Bundelkhand. Prices are steady in Gwalior and Indore; rising in Bhopal, Bundelkhand, Malwa and Bhopawar; continue high in Baghelkhand. Opium has suffered slightly from frost in parts of Malwa.

The general position in Gwalior and Bundelkhand is unaltered. In Gwalior the numbers on relief were:—on works 24,000, on gratuitous relief 2,000, total 26,000; Datia and Samthar: on relief works 4,000, on gratuitous relief 900, grand total 30,900.

Central Provinces.—Slight to moderate rain has fallen in ten districts; the heaviest fall $1\frac{1}{2}$ inches was in Yeotmal on the Mandla district. The rain was accompanied with hail in places but no damage is apprehended. These showers have done some good but more rain would be beneficial especially to crops on light soils. The threshing of autumn crops and picking of cotton have almost been completed. Prices show a tendency to rise in the northern districts; the prices of wheat and gram have risen by two seers per rupee in Seoni and that of jwar by two seers in Amraoti; elsewhere prices are steady or fluctuate slightly.

Baroda.—The numbers on relief during the week were as follows:—on works 2,778; on gratuitous relief 187; total 2,965.

Bombay.—There was moderate to heavy rain in Satara, Ahmednagar, Poona, Dharwar, Belgaum, Bijapur, Kanara and Kolhapur; the rain has been of but little benefit to the standing crops and in some places has even done harm but has improved the water-supply in parts in most places. The autumn harvest is over and in Khandesh and parts of the Deccan cotton picking is finished. In the Deccan and Karnatak the outturn of the autumn harvest has nowhere been normal and in most parts the crop has either failed or was generally poor. The cultivated spring area in the Deccan and Karnatak is much below normal; in Sind, Gujarat and the Konkan spring crops are generally in good condition and the outturn will probably be normal or a little less, but frost has done a little damage in the Panch Mahals and Baroda. Cotton is generally in good condition except in Cutch but has been slightly damaged in places by frost and rain. Cattle are in good condition except in parts of Karachi, Ahmednagar, Sholapur, Satara, Kolhapur, and the Karnatak. Fodder continues scarce in places but grass is being imported into the Deccan and Karnatak by Government agency. The water-supply which was running short has not despite the recent rain been much improved in the Deccan and Karnatak and is generally scarce; grants for its improvement have been made. The increase in the prices of staple grains is generally maintained at from 20 to 50 per cent. over the normal in the Deccan and Karnatak; there is a considerable increase in Gujarat, but prices still approximate to the normal in the Konkan. Famine has been declared in Bijapur and Belgaum. The daily average number on relief works in Belgaum was 1,700 and dependants 501. On test works the numbers were:—Ahmednagar 338; Satara 213; Bijapur 946; Belgaum 180; Jath 55; Aundh 48; total 1,295. The daily average numbers on gratuitous relief were:—Ahmednagar 1,451; Poona 176; Sholapur 132; Bijapur 1,686; Belgaum 2,656; Jath 181; Daphlapur 43; total 6,325. The demand for employment on test works is not yet keen despite the great dearth of agricultural employment. Emigration in search of labour from Ahmednagar, Poona, Sholapur, Bijapur, and Jath to Bombay, Moglai, and elsewhere continues, but steps are being taken to extend relief measures to check further emigration to Moglai and Berar which cannot provide employment much longer. Labouring classes find employment in Bombay where the demand is keen. One thousand labourers from Nasik are employed on grass operations in Thana and cotton ginning in Ahmednagar affords employment to large numbers temporarily. There is no aimless wandering; the condition of cultivators and labourers is causing anxiety in parts of Ahmednagar, Bijapur, and Belgaum but there is no marked deterioration.

Hyderabad.—There was good rain in Hyderabad, Raichur, Kalabgur and reports as to its effects are awaited. The early rice harvest is nearly completed. Spring crops are being harvested in ten taluqs; in thirty-four others the crop has withered, is withering, or is in bad condition. The late rice sowings continue and more sowings are expected as a result of the recent rain. The attendance on road works in the affected taluqs amounted to 1,095 persons. A total sum of nearly rupees two and a half lacs has been sanctioned for agricultural and drinking water wells. Fodder scarcity exists in twenty-seven taluqs and water scarcity in fifteen. The price of jowar has risen from one to four seers in fourteen taluqs and fallen from half to two seers in four. Prices:—wheat 9½, coarse rice 7½, jowar 16 seers per rupee.

Mysore.—There was slight rain throughout the Province during the week. Prices are steady. The crops are in fair condition but prospects are indifferent in Tumkur. Cattle are healthy except in parts of Tumkur. The water and fodder supply is scanty in parts of Tumkur, Mysore, Hassan, Shimoga, and Chitaldroog.

Coorg.—Rainfall 2 inches 29 cents. Picking of coffee and reaping of rice continue. Prices of food grains are normal. The water and fodder supply is sufficient.

Madras.—There was no rain in Bellary and the Circars with exception of Guntur; it was heavy in North Arcot, Chingleput, Nellore, the Nilgiris, Madras and South Arcot; good in Trichinopoly, Cuddapah, Tanjore, Madura, Salem, and Malabar; and slight to fair elsewhere. Irrigation supplies are insufficient in parts of the Circars, Bellary, Anantapur, and the central and southern districts. Ploughing, sowing, weeding, and transplanting are in progress. The standing crops are generally fair but some in parts of Bellary, Coimbatore, and Malabar require more rain and some in parts of Tanjore, Madura, and Tinnevely are withering. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient everywhere except in parts of the Circars, Bellary, Anantapur, and Coimbatore. Fodder is scanty in parts of Godavari, South Arcot, Coimbatore, Tanjore and Madura. The condition of cattle is generally good. The price of rice is stationary in nine districts; has fallen in eight; and has very slightly risen in six. The prices of millets have fluctuated as follows:—ragi is stationary in seven districts; has fallen in four; and has slightly risen in ten. Cholan is stationary in four districts; has fallen in five; and has slightly risen in five. Cumbu is stationary in six districts; has fallen in four; and has slightly risen in five.

J. WILSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
FOREIGN DEPARTMENT.

LADAKH TRADE REPORT FOR THE YEAR ENDING 31st MARCH 1905.

Merchandise coming from Chinese Turkestan and Tibet is called Imports. Merchandise coming from the Punjab is called Exports.

Merchandise bound for the Punjab is called Imports to Punjab.

Merchandise bound for Central Asia is called Exports to Central Asia.

The total value of the Imports and Exports for the year 1904-05, amounted to Rs32,16,849 against Rs23,72,778 during the previous year, showing an increase of Rs8,44,071. The figures stand as follows :—

	R
Imports	17,84,856
Exports	14,31,993

The Imports show a large increase in value by Rs7,31,367, and the Exports by Rs1,12,704, over the figures of the previous year.

The large increase in imports is made up as follows. Imports from Chinese Turkestan rose in value by Rs6,06,273, and those from Tibet by Rs1,25,094.

2. The following is a comparative statement showing the value of Imports and Exports during the past five years :—

	I. 1900-01.	II. 1901-02.	III. 1902-03.	IV. 1903-04.	V. 1904-05.
	R	R	R	R	R
Imports from Central Asia into Ladakh	10,95,293	12,80,668	9,87,479	9,47,718	15,23,217
Exports from British India to Ladakh	9,91,147	13,14,149	11,84,163	12,67,978	13,52,229
TOTAL	20,86,440	25,94,817	21,71,642	22,15,696	28,75,446

* This is done as the figures are not included in those of former years.

These figures do not include the local trade with Chang Tung, which amounted this year to Rs3,41,403, *vis.* :—

	R
Imports	2,61,639
Exports	79,764

and which, if included, would bring the total trade up to a value of Rs32,16,849.

These figures show that the year under report was very prosperous, and compared favourably with previous years.

3. The following table shows at a glance the value of the chief articles under which a marked increase or decrease in value of Imports or Exports have occurred during the year :—

NAMES OF ARTICLES.	IMPORTS.			NAMES OF ARTICLES.	EXPORTS.		
	INCREASE, DECREASE.		Nett.		INCREASE, DECREASE.		Nett.
	Between 1904-1905 and 1903-1904.				Between 1904-1905 and 1903-1904.		
	R	R			R	R

				26. All other articles of merchandise manufactured.	10,632
				27. Treasure	35,785	...

Turning first to Imports.

4. *Ponies and mules.*—Show an increase in number by 95, and a rise in value from R69 to R84. This is not in agreement with the statement shown by Mr. Macartney in his report for this year, but I would point out that his figures are registered at Yarkand, while a good many of these animals came from Khotan, that is, from south of the place of registration. The fact that the Khotan trade is not registered accounts for a good many discrepancies between this Trade Report and that of the Special Assistant at Kashgar.

Sheep and goats.—Show an increase in value by R5,898. These are chiefly used as transport animals for the trade from Western Tibet and Chang Tung, and as the value of the Imports from these places considerably exceeded the Exports, a large number of these animals were sold off in Leh and Kashmir.

Foreign Cotton Manufactured piece goods.—There is a rise in quantity and value over the figures of last year by 911 pieces and R1,375. There was a large demand in Leh, and owing to the small quantity imported during the previous year the price rose from 14 annas to R1-4 per piece.

Drugs and Medicines. Charas.—The figures are as follows :—

	Mds.	Value. Rs.
1904-05	4,677	2,23,674
1903-04	4,939	2,32,960

They show that the amount and value remain much the same as last year. In this connection I quote an extract from the Diary of the Special Assistant for Chinese Affairs in Kashgar.

"Munshi Buniad Ali, Newswriter, Yarkand, reports that, owing to storms on the Leh Yarkand route, 205 transport animals are believed to have been lost this season, and that there should now be 200 to 250 bags of Charas lying on the road to Leh, and some 200 loads of Indian piece goods lying between Leh and the Karakoram Pass."

As a matter of fact the number of bags of Charas abandoned between the Karakoram and Sasser passes last year, owing to the exceptionally early snow fall, amounted to 144, or 216 maunds. These will be brought in this year. If these are taken into consideration it will be seen that the Charas trade, as regards quantity imported, shows practically no decline. I anticipated this in my report of last year. As regards the sale price, matters are different. The average rate prevailing at present in the Punjab is about 33 rupees per maund. Now the value of Charas per maund on arrival in Leh is R47. The cost of carriage per maund to Hoshiarpur amounts to R6, therefore the value has increased to R53 per maund on arrival at that place. If the sale price remains stationary it follows that the trader must lose R20 per maund on all Charas transactions. Mr. Macartney has arrived at the same conclusion in his report. I have enquired carefully into the matter and find that the reason for this slump, which I regard as only temporary, is as follows. In order to anticipate the enhanced duties which took effect from the 1st April 1904, the market was over-stocked. I commented on this in my report of last year. The figures of 1902-03 show this, as over six thousand maunds were then imported. In addition to what is now lying in the Punjab, over 100 maunds are in the ware-house in Leh, waiting for a favourable market. This will naturally not offer itself till the super-abundant stock is worked off, and it is obvious that the retail sellers now hold the market in their hands, and will not raise their purchasing prices, and will compel the merchants to sell at a loss or to hold up their stock. The latter they will not be able to do as long as they continue importing as they are doing. It is their own fault for over-stocking the market in anticipation of enhanced duties. If the importation of Charas seriously declines, as it really should do this year, it would be a great blow to the Central Asian Trade, as Charas forms the main medium of exchange. However, fortunately, raw silk will, for a short time, take its place, for reasons noted below when dealing with that article. Merchants this year should undoubtedly import raw silk very largely in the place of Charas.

Medicines.—There is a decrease in value by R1,714. These are eye medicines and come from Eastern Tibet. The import fell off owing to the Tibet war.

Silk Raw.—The figures for this are very interesting:—

	Mds.	Value.
		R
1904-05	771	5,94,418
1903-04	324	1,81,635

or an increased import of 447 maunds, valued at R4,12,783. As a rule much raw silk is imported into the Punjab from Japan and China. Owing to the Russo-Japanese war no silk was imported from the former country during the past year and little from the latter. The price of silk rose in Amritsar Bazar from R8 to R22 per seer, and thus offered a splendid opportunity for import from Chinese Turkestan. It is anticipated that the demand will be fully maintained this year and will, as I have shown above, compensate the traders for the fall in prices in Charas.

Silk Manufactured (Foreign).—There was also a good market for this, and the value of the trade increased for R4,238.

Hides of Cattle.—There is an increase in value by R1,574. The greater part of these hides are snow leopard skins of which large numbers are imported from Khotan. There was a decline in numbers and value of the skins of sheep and goats imported, by 5,787 skins and R 1,704 respectively.

Turquoises and precious stones.—There is a decrease in value by R10,517. These stones are nearly all Turquoises and are practically monopolised by one merchant. There was a great decrease in the import of Musk pods amounting in value to R8,347, though the actual value per pod rose by R2. These come from somewhere in the direction of Lhasa. The falling off in numbers is attributed to the war last year. I would say it was probably due to the extermination of the Musk deer in the parts from where these pods are imported.

Namdahs.—There is a falling off by 5,023 pieces, and R2,778 in value. It is reported that there was a great demand in Russia, probably on account of the war, as namdahs are most useful for camp and bedding purposes in cold climates.

Carpets.—The import shows an increase to the value of R8,010. The rise in price per piece being from R15 to R20. These are mostly brought down singly for sale by Hajjis en route to Mecca.

Lhasa Brick Tea.—The import of this rose largely to the value of R16,909. Three hundred and fifty-six maunds being imported against one hundred and ninety-nine last year. There is no doubt this tea is most popular in Ladakh and preferred to Indian Tea in spite of its greater price.

Wool Raw including Pasham.—There is an increase by 5,775 maunds and Rs. 57,436 in value. This stuff is imported from Yarkand and Changtung.

Wool manufactured.—This is chiefly Lhasa Putto, and there was a decrease in the amount imported amounting to Rs. 3,183 in value.

Treasure.—Was imported to the value of Rs. 4,64,871, or nearly a lakh and-a-half more than last year. There is an increase by Rs. 1,55,547 under the head Russian Gold coins. The reason for the import of these Russian Roubles was fully explained in the "Pioneer" of the 6th April 1903. It may briefly be said that the gold Rouble is a most profitable medium of exchange between the Silver Yambu of Chinese Turkestan and the Rupee of India. I believe also that some of the increase may be attributed to a certain shyness among banks and merchants of upper India to accept Russian Rouble Notes. Mr. Macartney attributes the import of this gold as being partly due to necessary remittances to India owing to the Balance in Trade being in favour of India. From the statistics in

For the last three years, however, the balance has been in favour of India and no doubt remittances have been rendered necessary. It will be interesting to note what will occur this year when the balance is in favour of Yarkand.

this office, however, it would appear the other way about for the year under report, as the Imports from Chinese Turkestan exceed the Exports from India by about one lakh and-a-half. The discrepancy in figures may be accounted for by the fact that a large portion of the trade registered here is not registered in Yarkand, as it comes from south and east of the place, and from Khotan.

Turning to Exports.

5. *Horses, ponies and mules.*—Increased chiefly owing to Hajis returning from Mecca, who purchased these animals in the Punjab and Kashmir and took them with them.

Cotton manufactured piece goods, European.—There is a small decrease in the quantity exported, but an increase in value by Rs. 59,841. Last year I pointed out that there was an increase in quantity by 416 maunds and Rs. 66,517 in value. The previous year it had been pointed out that this trade had been practically killed by Russian competition as Russian merchants were able to imitate piece goods imported from India, manufacture the same and import them at far less cost into Chinese Turkestan. The fact that the trade still holds its own may be attributed to the war and the dislocation of Russian industries. When matters right themselves however, it appears undoubted that trade in this commodity must die. Since writing last year the new railway to Tashkent and Andijan has been opened, and it is obvious that this must affect the trade from India *via* Ladakh seriously. When Russia has regained her equilibrium, and her internal industries are re-established, it is difficult to see how European piece goods carried by sea to Bombay, thence by rail to Rawal Pindi, and thence by pack transport over 500 miles of mountain road over glacier passes, can possibly compete with similar goods practically landed in the country by rail. However, merchants have a spell still in front of them, which they should utilize by pushing on the trade in these goods.

Medicines.—There is a decrease in value by Rs. 22,301. Indigo also decreased in quantity by 12 maunds. There was a large export of fruit, chiefly dried apricots, and also of rice.

Skins and Furs.—There was an increase in value by Rs. 5,358. These consist chiefly of fox and other skins, which are much valued in Yarkand for hats. There was a decrease in the export of Coral by 36 maunds, owing to a slightly over-stocked market, but over a lakh's worth was exported. Unmanufactured Leather also showed a decrease. This decrease is likely to continue as the Yarkandis have taken to tanning themselves.

European Manufactured Silks show an increase by Rs. 61,411, and Indian Silk by Rs. 2,288. The latter comes chiefly from Surat, and the demand in Yarkand is likely to increase.

Indian Tea.—One thousand three hundred and eighteen maunds, valued at Rs. 51,205, were exported during the year showing a decrease of 625 maunds. This tea chiefly comes from Palampur, and as the price there last year rose considerably from annas 11 to annas 15 per seer it had more difficulty than ever in competing with Chinese brick tea in Yarkand. I am afraid that the figures for Tea will be very low this year, not owing to the decrease in demand, but to the destruction caused by the earthquake in, and round, Palampur. The question is, however, does the Indian Tea that comes by this road include the whole tea trade of India with Chinese Turkestan? I would be inclined to think not. It must surely be as cheap, and less risky, to ship tea round by the Black Sea, and thence by Transcaspian Railway to Andijan, than to carry it on pack animals over the highest passes and valleys in the world, where the death of a number of pack animals and consequent loss of loads must be taken into consideration, as must also be the fact that the road is only open for five months in the year, and that the early snow fall, as occurred last winter, means the loss of much merchandise. We know that a large quantity of Chinese Tea comes through Leh, having been shipped from China to Bombay to avoid the long overland route from Peking to Yarkand, although this process still entails the long overland journey from Rawal Pindi to Yarkand. Such Tea showed a further increase this year by Rs. 3,928 in value.

6. The following is a statement showing the amount of duty refunded to Central Asian Traders for goods exported in bond during the year 1904-05 :—

Port.	Number of Invoices.	Names of articles.	Amount of duty refunded.
			R a. p.
Bombay	37	Cotton Manufactured piece goods, European	2,369 13 0
"	1	China Cassia Lengea	33 9 7
"	1	Rotterdam Aniline and Antwerp dry Alizarine	56 7 9
"	1	Shanghai Green Tea	37 3 0
		TOTAL	2,497 1 4
Karachi	1	Matches	8 4 7
	1	Raw Kerosine oil	50 8 10
	3	Liquors, wines and Stores	286 10 2
		TOTAL	345 7 7
TOTAL	45	TOTAL	2,842 8 11

7. Taken on the whole, the past year was a favourable one, and showed that the Trade between India and Chinese Turkestan is being well maintained. The extension of the Russian Railway to Andijan must affect it to its detriment, but the war has given it a period of grace. When the Abbottabad-Srinagar Railway is opened it will, to some extent, counteract the Tashkent extension. But still the worst portion of the road will remain as before. For the next few years the results should be good, though it is difficult to ascertain yet how far the destruction in Kangra and Kulu will affect that portion of the trade which comes through Lahaul.

8. Some five miles of new road leading to a suspension bridge over the Shyok river were opened last year, thus enabling traders to avoid the difficult and dangerous fording at Tsati. The bridge was nearly destroyed just after it had been opened, by a flood caused by a glacier blocking the upper reaches of the river, and then bursting. The bridge was, however, thoroughly repaired. Several minor improvements were carried out also.

9. I notice that Mr. Macartney in his report for this year notes that traders complain that only one rupee's worth of grain is allowed for each pony at Panamik to last it for the eleven marches to Shahidulla. I do not understand how this misconception arose. The supply at Panamik, the last stage on the Yarkand road, has to be watched most carefully in order to make it last through the season. It is here that traders take in supplies to last them over the eleven marches of uninhabited country to Shahidulla. The Joint Commissioners last year issued an order that each trader was to be allowed to purchase two seers per diem for each pony. In this connection I would invite a reference to what Colonel A. E. Ward, who knows the conditions thoroughly, writes in his guide to Ladakh. Writing in 1894 in regard to this very portion, he says "Ponies suffer greatly and often die;" "they spin round and fall down dead;" * * * * ; animals over-fed with grain are the greatest sufferers, and experienced traders, who are continually crossing, give small feeds, *never exceeding, in all, two seers per diem.*

10. A very large number of Hajis have passed through this year returning from Mecca. These men went to Mecca *via* the Transcaspian Railway and Constantinople, and returned *via* Bombay. Over 600 have passed with 540 ponies. Many were absolutely destitute and have had to be provided with funds to enable them to proceed on their journey. I sincerely hope they will never come in these numbers again. I wrote last year in my report that the great difficulty along this road was the provision of grain to the traders and their ponies. Yet these Hajis, who are absolutely useless, have had to be provided with about one thousand maunds of valuable grain, stored for traders, to enable them to get to their destination. They also appear quite ignorant of horse management, and many of their horses have died *en route*. Some of these men also tore up the planks of a bridge, which I built last year over a ravine on the Sasser pass, to use as fuel. I only received the report long after it was possible to catch them or find out who they were. Till this bridge is repaired traders are suffering great inconvenience.

11. Some interesting rock inscriptions have recently been discovered by Reverend Francks, the Moravian Missionary at Khalsi. They show that the Indo-Yarkand Trade existed 1,200 years ago, and in sufficient amount to make a Customs Revenue profitable. The inscriptions are dedicated to a customs official of that period, and are on rocks overhanging the present main road, and facing the undoubted remains of an old bridge over the Indus, an excellent place for tapping all the trade that passed.

S. B. PATERSON, Captain,
Assistant to the Resident in Kashmir for Leh.

S. B. PATERSON, *Captain*,
Assistant to the Resident in Kashmir for Let

REPORT ON THE INDO-CHINESE TURKESTAN TRADE FOR THE YEAR ENDING ON THE 31ST MARCH 1905

GENERAL REMARKS.

For some years past, the Kashgar Office has incorporated statistical tables of exports and imports based on information collected from Indian merchants. For the present year, I have discontinued this practice; it having appeared to me that information so acquired is necessarily incomplete on the one side, and confusing on the other, because it generally is at variance with that contained in the statistical tables prepared by the British Joint Commissioner, which undoubtedly are far more accurate than anything of this nature which might be attempted in the Kashgar Office.

The year under review cannot be said to have been a prosperous one. Imports certainly show a marked decline, in comparison with those of the previous twelve-month; and the demand for them in the local markets is not specially active at present. It is, however, satisfactory to note that the causes of the depression appear to be of a transient nature, and such as can be overcome by the Yarkand trade, which shows no considerable vitality just now.

These causes are traceable to the following circumstances:—

- (a) The prices of English cotton piece-goods and of tea were unusually high in India in 1904; and traders, in consequence, did not invest in these commodities to the extent to which they would otherwise have done.

(a) Dearthness in India of English piece-goods and of Indian tea.
- (b) The increase of duty on Charas in the Punjab from Rs 2 to Rs 6 per seer, which came into force on the 1st April 1904, had the effect of stiffening prices of such portion of the drug as reached India before that date. Conversely, it had the effect of lowering the Indian prices of such Charas as was imported after the 1st April, that is, in the year under review. The cheapening of Charas, consequent on enhanced taxation, lowered its exchange value for imports from India.

(b) Low exchange value in India of Charas for Indian goods.
- (c) In 1903, owing to the then increasing demand for raw cotton in Russian territory, a good deal of land in Kashgaria was diverted from the growth of wheat to the growth of cotton; whilst in 1904, the crops in Kashgaria were especially poor consequent on a scarcity of water. These two circumstances in raising considerably the price of foodstuffs throughout the country, combined to draw money away from the purchase of foreign piece-goods.

(c) Poverty of consumers in Chinese Turkestan.
- (d) Contrary to all expectations, the Russo-Japanese War, far from reducing the supply of Russian goods in Kashgar, has had the opposite effect of creating a slump in the market; it seems as if the products of the Moscow cotton factories debarred from exportation to the Far East have been diverted towards Central Asia as along the line of least resistance. In Ferghana, prices of piece-goods are said to have fallen by about 20 per cent.; and in Kashgar they have never been as low as they are now. The result of all this is enhanced competition between British and Russian traders.

(d) Increased supply of Russian goods.

Imports from India to Chinese Turkestan.

The import of European manufactured piece-goods in 1904-05 will probably show a considerable falling-off, as compared with the previous year. Cotton goods were dear in Bombay and for this reason, traders did not invest in them as largely as they might otherwise have done. Moreover, within the last two or three years, Moscow factories have produced several imitations of English piece-goods, for which formerly the Indian trade alone held the monopoly. For instance, a favourite cotton print, known locally as Gulabi chint, and originally English, has been copied in Moscow within the last year; and the same remark may be made with regard to certain muslins, towels, and long cloths. Generally speaking, Russian cotton goods have much improved in quality in late years, and are more liked than the English commodity. The following are the principal English cotton goods imported:—

Long Cloth.—The sale is good, but owing to its high price in India and consequent dearthness locally, the demand is restricted.

Mustins.—The above remark equally applies to these.

Dhoties—have fallen in favour, muslins having somewhat taken their place.

Handkerchiefs—are in fair demand. They are also imported now from Russia; but for the last two years, owing to a temporary falling-off in the supply of the Russian article, the Indian trade has again got the upper hand. It is estimated that the import of 1904-05 is double of that of the previous year.

Alwan.—This red cotton cloth is much liked here, and is largely used in the making of female garments. It has, however, to maintain a sharp competition with the Russian shalpar—a cloth of a similar texture. The 1904-05 import of Alwan will probably show an improvement over that of 1903-04.

Gauzes—are much less imported than in former years, and sustain a competition with a Russian cotton print known locally as Aghabano.

Damas.—For the last four years, the demand for this cloth (a sort of calico) has been on the increase; and the supply from India has kept pace with the demand, in spite of the fact that a similar article is supplied by Russia, which, owing to the fastness of its colour, is more liked than the English, the dyeing of which is said to be defective.

Flannelettes.—The present year's import of flannelettes will probably show an increase over that of 1903-04. But the demand is not active.

Chintz.—About a decade ago, chintz was a most important item amongst the imports from India, and then the competition from Russia was far from being as severe as it is now. Circumstances have, however, undergone a complete change. The markets of Chinese Turkestan are simply surcharged with Russian cotton prints, which are now superior in quality and low in price, compared with the English production. Of the different sorts of English cotton prints, there is only what is known locally as the gulabi chit which is selling at all well. It is estimated that the import of this chit, in the year under review, is somewhat in excess of that of the previous twelve-month.

The import of towels has been on the increase and the demand for them is well sustained. The same remark applies to white drillings and coloured counterpanes.

Indian cotton piece-goods.—These are of three sorts, namely, lungis, darris and chadars. A cloth resembling the lungi is now made locally in Yarkand. There has, in consequence, been a falling-off in the demand for the Indian material. Lungis are worn as waistbands by the natives. Chadars—a coarse light brown cloth—are here made to serve the same purpose. These have been imported for the last two years, and are much liked. The import of darris (or satranjis) will probably show an increase in 1904-05 as compared with the previous year.

Drugs and Medicines.—Trade under this heading does not appear to be capable of any important expansion, local demand being much restricted.

Dyeing Materials.—The value under this heading has probably decreased in 1904-05, in comparison with 1903-04. For the last two years indigo has somewhat lost ground owing no doubt to a change of fashion in the colour of clothing amongst the Kashgaris and Yarkandis. The import, in the year under review, was small, a surplus stock from the 1903-04 trade having remained unsold. Indigo is, however, largely forwarded northwards to Uruntchi and Turfan, where it is in request amongst the Chinese and the Tungani populations. The dyes at present in favour in Yarkand and Kashgar are chiefly of red foundations, such as magenta crystals and alizarine. What quantity of these two colouring matters (both made in Germany) was imported in the year under review is selling very well.

Hides, skins and leather.—Goods under these headings will likely show a falling-off in comparison with 1903-04. In former years, prepared goat leather (red) was largely imported from Anritsar and Nurpur; but now that the art of tanning has been somewhat developed in Yarkand, skins of native preparation are showing a tendency to oust those from India from the market. The import of otter skins was well maintained, and the market for this sort of fur—which is largely used for hat trimmings—is active.

Coral.—Import has much decreased, price being high in India, and demand slack in Yarkand. Formerly the Chinese were large purchasers of coral; but the demand in that direction has much fallen off; and now coral is almost exclusively confined to the Farghana markets. It is estimated that, during the year under review, the Russian Customs at Kashgar collected about 21,600 Roubles as duty on the re-exportation of coral from Kashgar to Russian Turkestan.

Opium.—In 1903-04, three maunds of opium, valued at Rs. 1,333 were entered in the British Joint Commissioner's statistical tables as having been imported to this country. In the present year, however, the import would seem to have ceased altogether. Despite the enormous demand for opium amongst the Chinese population, there is apparently no prospect of India gaining an opportunity of administering to the supply. The drug here used is chiefly grown in Ili and Kuchar and is cheap as well as popular.

Manufactured Silks—European and Indian.—The import of piece-goods of this class appears to have been fairly well maintained. The demand for velvets has been on the

increase for the last five years. But it is noteworthy that such of this material as was brought here in the year under review was of German, and not of English, make. For the last year, a sort of Chinese silk, procurable in Bombay and known there as "Katbot" has been imported, and finds a ready market amongst the natives who use it for underclothing. The brocades of Surat—real as well as imitation—are in sustained demand, being much sought after by the natives as well as the Chinese. The prospects of this merchandise are good, and the same remark may be made with regard to an Indian silk, known in Bombay as "Kanabai," the import of which commenced two seasons ago.

Spices.—There is no outside competition in the import of spices. On the other hand, the demand is a restricted one. The import for the current year is estimated to be about the same as that for the previous.

Sugar.—Russian sugar, which is bounty-fed and cheap, has practically driven the Indian produce out of the market.

Tea.—The green tea in demand in Chinese Turkestan was unusually expensive at Palampur in 1904, prices having gone up in the year under review to about 10 annas a seer. The import has accordingly somewhat declined. There can be no doubt that the Kangra tea is having a hard struggle here against the Chinese brick tea, which has never been cheaper than at present. In addition to the Indian produce, our traders imported a small quantity of high priced China tea—about Rs. 4,000 worth, *viâ* Bombay, and some 3 maunds *viâ* Lhasa and Ladakh.

Tobacco.—For the last three years, American cigarettes have been imported to this country and are finding a ready sale amongst the Chinese and natives. Indian cigars, too, are beginning to make their appearance here—so far, however, in very modest quantities. But it is not unlikely that in the course of time they will put the vigilance of the Russian Customs Staff on the Kashgar-Farghana border to a severe test.

Wool.—Trade in European woollen piece-goods has either receded or remained stationary. These goods consist of rugs and of broad cloth, both being of German manufacture. The rugs, especially those carrying the tiger imprint, are liked by the Chinese.

Treasure.—Apparently no bar silver was imported from India during the year under review.

Exports from Chinese Turkestan to India.

Animals (living).—The export of horses and mules has probably diminished somewhat in comparison with 1903-04. Yarkand prices were high, and the Government demand for Central Asian mules had much fallen off. If Government give up purchasing, it is probable that the mule trade, which has always had a struggling existence, will decline very considerably in future years.

Cotton, manufactured.—For the last 5 or 6 years, a Russian cloth known here as Shaitan Teri has been exported *viâ* Yarkand to Ladakh where it finds a small, but steady, sale amongst the natives. The chakman (a coarse cloth made all over Eastern Turkestan) is also gaining a footing in Ladakh: the export for the year under review being estimated by traders at not less than Rs. 6,000.

Charas.—The 1904-05 export of charas will probably show a decline as compared with that of 1903-04; and what quantity was sent to India during the year under review does not appear to be selling well there; realisations at Hoshiarpur being no higher than Rs. 24 to Rs. 40 per maund for the three grades. When the 1903-04 charas reached India, the duty per seer was Rs. 6 for the United Provinces, and only Rs. 2 for the Punjab. But as from the 1st April 1904, the duty for the Punjab was also to be increased to Rs. 6 all the drug that arrived in that Province before that date—that is, the 1903-04 stock—was eagerly brought up by the thekadars, in anticipation of the rise in the retail price of charas in the Punjab, which was to result from the enhanced taxation.

The following figures will show the profits realized in 1903-04, and losses sustained in 1904-05, by traders dealing in this drug:—

	1903-04. Duty in Punjab Rs. 2 per seer.	1904-05. Duty in Punjab Rs. 6 per seer.
Average price of charas in Yarkand per maund	32	34
Carriage per maund from Yarkand to Hoshiarpur	18	18
TOTAL COST	50	52
Average sale price per maund in Hoshiarpur	80	32
Average profit per maund	30	...
Average loss per maund	20

Namdahs and Carpets.—Namdahs always find a fair market in Srinagar; and as the export of 1904-05 was a smaller one than that of the previous year, prices were specially good. The export, however, of Khotan carpets is yearly decreasing, owing to the falling-off in the demand in Northern India, consequent on the competition of the carpet factories in Amritsar and Lahore.

Silk Raw.—The 1904-05 trade shows an improvement in the export in this commodity, after two years of depression. This improvement is traceable to the following causes:—

- (a) Better demand, in India, during 1903-04, consequent on the falling-off in the supply of China and Japan silk.
- (b) Increased local supply for the Indian market caused (1) by the cessation, during the last two years, of exportation of silk to Russian Turkestan, and (2) by the gradual revival, noticeable for the last five years, of the silk industry in Kashgaria.

Pasham.—This fine underwool of the goat is principally obtained from Khotan, Aksu, and Kuchar. It is not in demand either for local industries, or for export to Russian Turkestan. The entire supply, therefore, is available for India. Pasham is said to be collected in Tibet by the shepherds by combing the wool of the live goat; but here it is gathered only by the scraping of such skins of dead animals as pass into the hands of tanners. The local supply, therefore, is in strict relation to the kill of goats.

Russian Gold Coins.—About four lakhs of gold roubles are said to have been carried to India, *via* Ladakh, in the year under report. No doubt, in addition to actual coins, some remittances were made to India for merchants by the Russo-Chinese Bank. This bank has recently issued a notice to undertake to make remittances to Lahore or to Bombay at the exchange of Rs 154 for 100 roubles.

The export of Russian coins to India, the value of which always bears a large percentage to the total value of all the exports, has been a significant factor for several years past in the Indo-Yarkand trade, showing, as it does, how much the balance of this trade is against Yarkand, and what difficulties are experienced by merchants to find local produces suitable for export to India.

Suggestions for trade Improvements.

* NOTE.—Copy sent to Government of India with Resident in Kashmir, letter No. 200-F., dated 6th April 1905.

My report No. 68,* dated the 8th February 1905, to the Resident in Kashmir, deals with this subject. Since, however, it was drawn up, it has been pointed out to me that the present arrangements for carriers to obtain grain in the Nubra Valley are defective. On this matter, I annex the following extract from some notes on the 1904-05 trade prepared for me by Gauri Mall, Aksakal:—

“In the Nubra Valley, a carrier is allowed to buy only one rupee worth of grain (=20 seers) for each pony. The nearest points where grain is obtainable on the Yarkand side are Shahidulla and Kugiar, and Shahidulla is 11 days' journey and Kugiar, 14 days' journey, from Nubra. A pony eats 20 seers of grain in 5 days, and for the rest of the journey it has no grain at all. Owing to the insufficiency of food, ponies die, and loads are left on the road,—and the last year was a specially disastrous one from this point of view. Better arrangements for the supply of grain are needed.”

A suggestion may also be tentatively offered in relation to the Pasham trade of Eastern Turkestan. There can be no doubt that the supply of this underwool would be very considerably increased, if it could be combed out of live goats instead of scraping it from the skins of dead ones. If combs exist which would permit of the process of extraction being carried on in a humane way, their introduction amongst the shepherds might be encouraged.

GEO. MACARTNEY,

Special Assistant for Chinese Affairs
to the Resident in Kashmir.

KASHMIR;

Dated the 22nd May 1905.

Government of India Notifications, Appointments, Promotions, etc.

MILITARY SECRETARY'S OFFICE.

NOTIFICATION.

Calcutta, the 1st February 1906.

No. 754-M.—Intelligence having been received of the death of His Majesty the King of Denmark, Court Mourning is ordered till the 15th March 1906, Half Mourning commencing from the 1st March 1906.

When attending at the Viceregal Court, ladies will appear in black until the 28th February and thereafter in half mourning until the 15th March. Officers in uniform, when attending at the Viceregal Court, will wear a crape band on the left arm throughout the period of Court Mourning.

By Command,

F. L. ADAM, Major,
Military Secretary to the Viceroy.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Calcutta, the 2nd February, 1906.

No. 1.—Whereas by Resolution passed by the Secretary of State for India in Council on the 6th day of October, 1870, the provisions of section 1 of the Government of India Act, 1870, were declared applicable to the districts comprised in the North-West Frontier Province as constituted by the Proclamation issued with the Notification of the Government of India in the Home Department No. 5780-P., dated the 25th October, 1901, and the Proclamation issued with the Notification of the Government of India in the Foreign Department No. 2104-F., dated the 6th August, 1902;

And whereas the Chief Commissioner of the said North-West Frontier Province has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same;

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft and the same received the assent of the Governor General on the 26th day of January, 1906.

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India* and *Local Gazette* for the said North-West Frontier Province:—

REGULATION NO. 1 OF 1906.

A Regulation further to amend the North-West Frontier Province Law and Justice Regulation, 1901.

VII of 1901. Whereas it is expedient to amend the North-West Frontier Province Law and Justice Regulation, 1901; It is hereby enacted as follows:—

1. This Regulation may be called the North-West Frontier Province Law and Justice (Amendment) Regulation, 1906.

Short title.

- VII of 1901. 2. After section 87 of the North-West Frontier Province Law and Justice Regulation, 1901, the following section shall be added, namely:—

Addition of new section after section 87, Reg. VII, 1901.

"87A. (1) When an appeal or an application for revision is preferred to the Judicial Commissioner in respect of any decree or order which was passed by him in another capacity, or in which he is personally interested, he shall, unless all the parties request him to dispose of the case himself, transfer it for disposal to the Chief Court of the Punjab at Lahore, or to such officer as the Governor General in Council may appoint to be an Additional Judicial Commissioner for the disposal thereof.

(2) When an Additional Judicial Commissioner is appointed under sub-section (1), he shall, in disposing of any case transferred to him thereunder, have all the powers of the Judicial Commissioner under this Regulation."

J. M. MACPHERSON,

Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Calcutta, the 1st February 1906.

No. 266.—It is hereby notified for general information that the Controller of Printing and Stationery will take rank in Article 55 of the Warrant of Precedence for India published with the notification of the Government of India in the Home Department no. 328, dated the 10th February 1899.

The 2nd February 1906.

No. 308.—The following correspondence is hereby published for general information :—

- (1) Letter dated 2nd February 1906, from the Editor of the *Statesman*.
- (2) Home Department letter Nos. 272—281, dated 2nd February 1906, to all Local Governments.

Dated Calcutta, the 2nd February 1906.

From—S. K. RATCLIFFE, Esq., Editor, *Statesman*,

To—H. H. RISLEY, Esq., C.S.I., C.I.E., Secretary to the Government of India.

In reference to the recent correspondence between the *Statesman* and the Government of India. By their action in publishing the correspondence in the *Gazette of India* the Government have removed the controversy from the sphere of private correspondence to that of public statement in the Press. Nevertheless, in view of the fact that the notification of the Government of India to the Local Administrations is based upon a misconception of the language and intention of our letter of January 12th, we think that an early and satisfactory settlement of the matter is more likely to be reached if we again address the Government of India direct.

The Government of India appear to have misapprehended our position in two important particulars, namely, the manner in which the document in question came into our possession, and the claim which, in their letter to the Local Administrations, they attribute to the Editor of the *Statesman*.

We would venture, in regard to the first of these points, to submit that an assurance of *bona fides* on the part of a newspaper of the standing of the *Statesman* is entitled to full acceptance. That assurance has already been given, but we take this opportunity of adding that, before publishing the document, we satisfied ourselves by inquiry that it had not been obtained by improper means.

With respect to the second question: the Government of India indicate that they attach great importance to the use in our letter of January 12th of the words "note upon the file." They infer from this that the *Statesman* has claimed the right to publish "notes upon files" and further to exercise unfettered discretion in determining when such publication is desirable. In the paragraph under discussion the Government of India furnish a precise definition of the term "notes upon files," from which it is clear that the significance of the term as employed by them is essentially different from that in which it was used in our letter. It seems to us impossible that any responsible journal should claim the right to publish papers "which are by nature confidential documents and can only come into possession of a newspaper by the betrayal of trust on the part of some employé of the Government," and on behalf of the *Statesman* we desire to say that we have never claimed and do not claim any such right.

We would state in conclusion that, while we retain our opinion that the disclosure of Lord Curzon's Note cannot justly be described as a breach of journalistic propriety, its publication might, from the point of view which the Government of India would naturally take, be regarded as an indiscretion.

Nos. 272—281, dated Calcutta, the 2nd February 1906.

From—H. H. RISLEY, Esq., C.S.I., C.I.E., Secretary to the Government of India,

To—The Chief Secretary to the Government of Madras.

- „ Chief Secretary to the Government of Bombay.
- „ Chief Secretary to the Government of Bengal.
- „ Chief Secretary to the Government of the United Provinces.
- „ Chief Secretary to the Government of the Punjab.
- „ Chief Secretary to the Government of Burma.
- „ Chief Secretary to the Government of Eastern Bengal and Assam.
- „ Honourable the Chief Commissioner of the Central Provinces.
- „ Honourable the Chief Commissioner of the North-West Frontier Province.
- „ Chief Commissioner of Coorg.

In continuation of my letter of 26th January I am directed to enclose for [^{the} your information of the Governor in Council] a copy of a letter from the Editor of the *Statesman* dated 2nd February 1906.

2. In this letter the Editor gives a distinct assurance that the note published by him did not come into his possession by improper means. Mr. Ratcliffe goes on to explain that in his letter of the 12th January the expression "a note upon the file" was

employed with a significance entirely different from that attached to it by the Government of India. Accordingly he disclaims any intention to assert, by implication or otherwise, the right to publish documents of that description. Finally, while demurring to the charge of having infringed journalistic propriety, he admits that the publication of Lord Curzon's note "might from the point of view which the Government of India would naturally take, be regarded as an indiscretion."

3. The Government of India have no hesitation in accepting the assurance now given by Mr. Ratcliffe as to the circumstances in which the note in question passed into his hands. They are equally ready to accept his disclaimer of the intention which his use of the term "a note upon the file" had led them to impute to him. The action taken by them had for its object the assertion of the confidential character of the record of those discussions which are inseparable from the efficient transaction of official business and the disclosure of which would be detrimental to the public interests. The assurances now given by the Editor of the *Statesman* relieve them from all apprehensions on that account, and their main object having thus been attained, they have decided to order the withdrawal of the restrictions imposed by my letter of 26th January.

No. 463-E.B.—Civil Assistant Surgeon Daudur Rahman Khan is granted privilege leave for three months with effect from the 23rd November 1905, and is permitted, under Article 251 of the Civil Service Regulations, to overstay this leave by fifteen days.

The 2nd February 1906.

No. 436-I. B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor-General in Council is pleased to direct that the following rules be substituted for rule 19 of the Hyderabad Residency Legal Practitioners Rules 1904, as published in the Notification of the Government of India in the Foreign Department No. 534-I. B., dated the 4th February 1904:—

Limitation
of fees.

"19. Save by special leave of the Court, and except in the case of an Advocate or Pleader appearing on behalf of Government, no fee shall in any case be entered as recoverable in a decree or order except on production of a certificate from the Advocate or Pleader that he has received such fee.

19A. In the taxation of costs as between the parties in any suit or proceeding in the court of the Resident or in any subordinate court, the sums allowed against the unsuccessful party in respect of the fees of his adversary's Advocate or Pleader shall be calculated in accordance with the provisions contained in the following rules:—

19B. (1) In suits or in appeals from original or appellate decrees in suits for money, effects or other personal property or for land or other immoveable property of any description, fees shall be payable on the following scale, namely:—

(a) when such suits or appeals are decided on the merits after contest or are compromised subsequent to the settlement of issues and after a partial or complete trial but before delivery of judgment, or where such appeals are decided *ex parte*,

- (i) if the amount or value of the claim shall not exceed Rs5,000, 5 per cent. provided that in no case shall the fee payable be less than five rupees;
- (ii) if the amount or value shall exceed Rs5,000 and shall not exceed Rs20,000 on Rs5,000 as above, and on the remainder, 2 per cent.;
- (iii) if the amount or value shall exceed Rs20,000 and shall not exceed Rs50,000 on Rs20,000, as above, and on the remainder 1 per cent.;
- (iv) if the amount or value shall exceed Rs50,000 and shall not exceed Rs80,000 on Rs50,000 as above, and the remainder $\frac{1}{2}$ per cent.;
- (v) if the amount or value shall exceed Rs80,000, Rs1,000.

(b) When such suits are decided *ex parte* or when such suits or appeals are decided on confession of judgment or are dismissed for default after all the requisite pleadings, have been filed, or are compromised after the settlement of issues but before trial,

- (i) if the amount or value of the claim shall not exceed Rs5,000 not exceeding $2\frac{1}{2}$ per cent., provided that in no case shall the fee payable be less than five rupees;
- (ii) if the amount or value shall exceed Rs5,000 and shall not exceed Rs20,000 on Rs5,000 as above and on the remainder, not exceeding 1 per cent.;
- (iii) if the amount or value shall exceed Rs20,000 and shall not exceed Rs50,000 on Rs20,000 as above and on the remainder, not exceeding $\frac{1}{2}$ per cent.;
- (iv) if the amount or value shall exceed Rs50,000 and shall not exceed Rs80,000 on Rs20,000 as above and on the remainder, not exceeding $\frac{1}{4}$ per cent.;
- (v) if the amount or value shall exceed Rs80,000, not exceeding Rs500.

19C. In suits on appeals withdrawn or compromised (a) before any defence is put in (b) before the settlement of issues but after defence is put in, or dismissed for default without a determination on the merits of the case before all the requisite pleadings have been filed in court, and in appeals from orders rehearing on review and other miscellaneous cases including proceedings in execution of decrees, fees shall be payable on the following scale, namely:—

- (i) if the amount or value of the claim shall not exceed Rs 5,000, $1\frac{1}{2}$ per cent.; provided that the fee shall not be less than five rupees in any case other than a proceeding in execution;
- (ii) if the amount or value shall exceed Rs 5,000 and shall not exceed Rs 20,000 on Rs 5,000 as above and on the remainder, $\frac{1}{2}$ per cent.;
- (iii) if the amount or value shall exceed Rs 20,000 and shall not exceed Rs 50,000 on Rs 20,000 as above and on the remainder, $\frac{1}{4}$ per cent.;
- (iv) if the amount or value shall exceed Rs 50,000 and shall not exceed Rs 80,000 on Rs 50,000 as above and on the remainder, $\frac{1}{4}$ per cent.;
- (v) if the amount or value shall exceed Rs 80,000, Rs 250;
- (vi) in applications for execution of decrees, the fees shall be calculated on the amount realised by the application.

19D. In all miscellaneous applications after decree which are decided on the merits after contest, except such as have been hereinbefore specially provided for, a reasonable fee not in any case exceeding Rs 20 in the court of the Resident or Rs 10 in a court subordinate thereto shall be allowed.

19E. The words "the amount or value of the claim" in rules 19B and 19C mean the value as set forth in the plaint or memorandum of appeal and where court fees are payable *ad valorem* the value on which such court fees are paid.

19F. Fractions of a rupee in the amount or value of a claim shall be omitted in calculating the fee payable thereon.

19G. In cases in which the subject matter of the claim does not admit of valuation, the court shall fix a reasonable fee not less than five rupees, regard being had to the time occupied in the preparation and hearing of the case and the nature of the questions raised therein.

19H. If several defendants or respondents who have a joint or common interest, succeed upon a joint defence or upon separate defences substantially the same, not more than one fee shall be allowed, unless the court shall otherwise order for a reason which shall be recorded in the judgment. If only one fee be allowed, the court shall direct to which of the defendants or respondents it shall be paid or shall apportion it among the several defendants or respondents in such manner as the court shall think fit.

19I. If several defendants or respondents who have separate interests set up separate and distinct defences and succeed thereon, a fee for one legal practitioner for each of the defendants or respondents who shall appear by a separate legal practitioner may be allowed in respect of his separate interest such fee, if allowed, shall be calculated with reference to the value of the separate interest of such defendant or respondent in the manner hereinbefore prescribed.

19J. For each fee allowed under the two last preceding sections the value of the stamp on one vakalatnama only shall be awarded as costs.

19K. Except where an adjournment is made with the consent of all parties or where from insufficiency of notice, a party has not had reasonable time to prepare himself for trial, or where the adjournment is necessitated by a cause beyond the control of the party an adjournment should not be granted save on the condition that the party applying pays all the costs of the day including a reasonable fee not exceeding Rs 10 to the legal practitioner engaged by his adversary.

19L. The fee allowed on the percentage scale for prosecuting or defending a suit is intended to cover all proceedings up to decree; and where a suit is remitted for rehearing and disposal or for a finding on issues, the proceedings on such order must be regarded as a further proceeding in the trial of the suit and no further fee can be allowed in respect of such proceedings.

Small Cause Courts.

19M. In suits under the Hyderabad Residency Small Cause Courts Law, 1904, where costs are awarded by the Court, the fees payable in respect of an adversary's advocate or pleader shall be as follows:—

- (a) In suits not exceeding Rs 100 in value Rs 5.
- (b) In suits exceeding Rs 100 in value Rs 5 on Rs 100 and Rs 3 on every hundred rupees or part thereof in excess of Rs 100.

19N. Where an advocate or pleader is employed merely to obtain execution of a decree one rupee shall be allowed as costs for that purpose in claims below Rs 100 and one

rupee for every hundred rupees or part thereof in claims above that amount. No fee shall be allowed in case of a second or further application to obtain execution of the same decree."

L. W. DANE,

Secretary to the Government of India.

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATIONS.

CUSTOMS.

Calcutta, the 31st January 1906.

No. 809—81.—In exercise of the power conferred by the proviso to Article 60 of Schedule IV of the Indian Tariff Act, 1894 (VIII of 1894), the Governor General in Council is pleased to declare that the Matheran Light Steam Tramway shall be deemed to be included in that article.

POST OFFICE.

The 2nd February 1906.

No. 911—21.—In exercise of the power conferred by section 21 (2) (a) of the Indian Post Office Act, 1898 (VI of 1898), the Governor General in Council is pleased to direct that with effect from the 15th February 1906 the following shall be substituted for rule 144 of the rules published in the Notification in the Finance and Commerce Department, No. 1429-C. S. R., dated the 30th March 1899:—

144. A certificate of posting may be obtained in respect of any postal article for which a receipt is not given by the Post Office subject to the following conditions, namely:—

- (1) the certificate of posting written in ink shall be presented to an officer on duty at the post office along with the articles to be posted during the hours fixed for the posting of such articles;
- (2) the certificate shall contain an exact copy of the addresses on the articles to which it relates, and shall have a postage stamp, or stamps, affixed thereto in payment of a fee to be charged as follows:—
 - (a) In the case of unregistered letters, postcards, book packets (including registered newspapers) and pattern packets, posted by the same person at one time.

One-fourth anna for every three articles of any of these classes, or for any less number.

 - (b) In the case of unregistered parcels (ordinary or value-payable) and value-payable unregistered book packets, posted by the same person at one time.

One-fourth anna for every six articles of either or both, of these classes, or for any less number.

There shall be a separate certificate for each of these two classes of articles (a) and (b), headed with the words "Certificate of posting for letters" or "Certificate of posting for parcels", as the case may require.

The officer on duty shall compare the addresses of the articles with the certificate, and, if they be correct, shall obliterate the postage stamps and impress the date stamp upon the certificate. The certificate shall then be returned to the person who presented it.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 17th November 1905.

From the 25th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 18th November all Notifications and other matter intended for publication in the Gazette should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

No. 426 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

- No. 135 of 1892.—Lieutenant-Colonel Robert Henry Francis Rennick and Surgeon-Captain John Fenton Evans. *Improvements in cinerators for burning filth or human excrement.* (From 28 January 1906 to 28 January 1907.)
- No. 119 of 1895.—Edward Herbert Stone. *An improved point lever apparatus for working coupled points on railways.* (From 31 January 1906 to 31 January 1907.)
- No. 171 of 1896.—The Morris Tube Ammunition and Safety Range Company, Limited. *An improvement in electric primers for firing guns.* (From 5 February 1906 to 5 February 1907.)
- No. 423 of 1896.—Frederic Fowler Farlow. *An improved automatic low water alarm apparatus.* (From 5 February 1906 to 5 February 1907.)
- No. 363 of 1897.—John Meiggs Ewen. *Electro-glazing for joining glass, tiles and the like.* (From 25 January 1906 to 25 January 1907.)

No. 218 of 1899.—Thomas Ashworth, Joseph Shaw Gaunt and George Andrew Robinson. *Improvements in or relating to apparatus for spinning and doubling cotton and other fibrous substances.* (From 25 January 1906 to 25 January 1907.)

No. 230 of 1899.—Thomas Ashworth, Joseph Shaw Gaunt and George Andrew Robinson: *Improvements in or relating to apparatus for spinning and doubling cotton and other fibrous substances.* (From 25 January 1906 to 25 January 1907.)

No. 53 of 1900.—Gilbert Wright. *Improvements in circuit breakers.* (From 15 March 1906 to 15 March 1907.)

No. 54 of 1900.—Gilbert Wright and Christian Aalborg. *Improvements in automatic circuit breakers.* (From 15 March 1906 to 15 March 1907.)

No. 95 of 1900.—Gavin Sibbald Jones. *A urinal adapted for the use of natives of both sexes.* (From 30 January 1907 to 30 January 1908.)

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2 Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2 Bankshall Street, Calcutta.

H. G. GRAVES,

Secretary under the Inventions
and Designs Act, V of 1888.

PURE SULPHATE OF QUININE AND SULPHATE OF CINCHONIDINE

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April 1905 the price of these articles will be as follows :—

Quinine 1-pound tin, R16, or post-free, R16-8	
½ " R8 " R8-6	
¼ " R4 " R4-6	
Cinchonidine 1 " R12 " R12-8	
½ " R6 " R6-6	
¼ " R3 " R3-6	

Analysis shows these articles to be of the purest manufacture; and they are guaranteed to be free from wilful admixture with the inferior alkaloids. SUPPLEMENT TO
The Gazette of India.

No. 5.} CALCUTTA, SATURDAY, FEBRUARY 3, 1906.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 1st February 1906, based on the India Daily Weather Reports of the period.

During the period under review the weather has been quiet and settled over the Peninsula and Burma, and there has been actually or practically no rain during the week over those areas. On the other hand, conditions have been feebly unsettled over northern India, and most divisions have received more or less rain during the week. On the 26th light snow was reported from the north-west Himalayas and a few drops of rain were received at some submontane stations, while the weather was feebly disturbed over north-east India, and showers of rain were reported from Chota Nagpur, Bihar and the upper Assam Valley. By the next day snow had ceased over Kashmir, but showery weather continued over the east of the Central Provinces, Chota Nagpur and parts of Bengal and Assam. On the 28th and 29th these unsettled conditions extended and the weather was widely disturbed. Snow was reported from the West Himalayas and rain from the submontane districts of the Punjab, the submontane and eastern districts of the United Provinces, the east of the Central Provinces and the west of Bengal. Falls of rain of one inch or more in 24 hours were reported on these two days from Ambala, Pendra and Jubbulpore, and of over one quarter of an inch from Sialkot, Bareilly, Gorakhpur, Bahraich, Benares, Gaya, Chaibassa, Berhampore, Bogra and Sutna. On the 30th and 31st the weather was fine, except in the upper Assam Valley, where it was showery, but on the 1st February unsettled conditions reappeared and light rain was received over the west Punjab and the North-west Frontier Province.

The rainfall table shows that the total rainfall of the week was heavier than usual in the Calcutta, Burdwan, Patna, Ranchi, Bahraich, Simla, Raipur and Jubbulpore sub-divisions by small amounts, while no rain was received over the Peninsula, Gujarat, central India, east Rajputana, east Bengal and parts of Burma, and less rain than usual elsewhere. The winter rains have up to date been more or less heavier than normal over Burma, the Delta of Bengal, Burdwan, the Simla hills, the North-West Dry Area, Orissa, Chota Nagpur, the Bombay coast, the Deccan and Mysore, while on the other hand, the deficiency has been large or very large in the Darbhanga, Bahraich, Cawnpore, Lahore, Waltair, Raipur, Jubbulpore, Jhansi, Jaipur and Indore sub-divisions and the West Satpuras division.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA;
The 1st February 1906,

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 27th January 1906.

Burma.—Bhamo received 13·01 inches and Mergui 30 of an inch of rain during the week. Reaping of wet weather paddy is now completed in Akyab, Kyaukpyu, Pegu, Tharrawaddy, Toungoo, and Shwebo and threshing and winnowing are in progress in several districts. Threshing of early wet weather paddy is completed in Tavoy. Ploughing for dry weather paddy has commenced in parts of Shwebo and Myingyan and sowing for the same crop has commenced in Bhamo, is progressing in Mandalay, and has been completed in Thayetmyo and in parts of Lower Chindwin. Gathering of cotton is completed in the Budalin township of Lower Chindwin. The condition of the standing crops is good. The price of paddy has risen slightly at Akyab and Prome and fallen slightly at Pegu; elsewhere it is unchanged.

Eastern Bengal and Assam.—The weather is cold and cloudy; there was slight rain in most Eastern Bengal districts and in Cachar, Kamrup, Sibsagar, Lakhimpur, the Garo Hills and Manipur. Pruning of tea is in progress. Harvesting of winter rice is nearly finished. Sowing of spring crops continues. The outturn of winter rice and the prospects of other crops are generally fair. Fodder is insufficient in parts of Mymensingh, Sylhet, and the Khasi and Jaintia Hills. Prices:—common rice—Tezpur 14; Sibsagar 13; Dinajpur 11½; Malda, Noakhali, Chittagong, Silchar, and Dibrugarh 11; Rangpur and Bogra 10½; Jalpaiguri, Rampur Boalia, Barisal, Comilla, Rangamati, Gauhati, Nowgong, and Tura 10; Faridpur 9 to 10; Sylhet 9½; Pabna 9½; Dacca and Dhubri 9; and Mymensingh 8 seers per rupee.

Bengal.—Rain was fairly general all over the Province. The fall was moderate in South-West Bengal and generally light in the rest of the Province. Harvesting of *aman* paddy is over. Sugarcane pressing is going on. Hailstorms are reported to have done considerable damage to the standing spring crops in parts of Darbhanga, Monghyr and Bhagalpur. Slight damage from hail is also reported from Patna and Shahabad. Prospects of spring crops are otherwise fair. Fodder is sufficient everywhere except in parts of Darbhanga, where it is reported to be still insufficient. Water-supply is plentiful. The price of common rice is rising fast, probably owing to scarcity in other Provinces. The price is high in parts of Burdwan, Howrah, 24-Parganas, Nadia, Murshidabad, Jessore, Khulna, Monghyr and Purnea.

United Provinces.—Rain fell during the week in twenty-four districts but the fall was wholly inadequate, only two districts receiving an average of over one quarter of an inch each; more rain is anxiously looked for especially in the unirrigated tracts where the standing crops are suffering for want of it. The *arhar* crop has suffered damage from frost in Moradabad, Budaun, Rae Bareilly, Sultanpur, Partabgarh, and Rampur and insects and hail have caused slight injury to the crops in four other districts. Prices are still high and continue rising and fodder is getting scarce in several districts, notably Aligarh, Muttra, Etawah, and Bundelkhand, but supplies generally are sufficient and the markets full. 79,000 persons are on relief in Jalaun, Muttra, and Jhansi.

The weekly report on the famine and scarcity for the week ending 27th January is as follows:—During the week the only rain in the distressed districts was two cents in Muttra; on the 28th good rain fell in parts of Allahabad. Unirrigated crops are reported to be almost a total loss in Jalaun and to be withering in Muttra. Irrigated crops in Jalaun are suffering owing to the failure of the Hamirpur Branch. Wages have been raised to the 12 seers scale in Jalaun, elsewhere the scale is thirteen seers. The want of fodder is serious everywhere. The condition of people on works is fair but there is some emaciation in poor-houses. The numbers on relief are rising. Numbers:—workers Jalaun 39,000; Jhansi 7,000; Muttra 6,000. On gratuitous relief Jalaun 21,000; Jhansi 11,000; Muttra 2,000; total workers 52,000; gratuitous relief 27,000; grand total 79,000. The number on test works in Cawnpore was 1,474. Famine has been declared in two tahsils of the district.

Punjab.—The rainfall of the week was general in Ambala and partial in Hissar, Gurgaon, Jullundur, Ferozepur, Amritsar, Sialkot, and Rawalpindi. The price of wheat is rising in Gurgaon, Delhi, Ferozepur, and Lyallpur and falling in Jullundur, Amritsar, and Sialkot; other prices are fluctuating slightly. Sugarcane pressing continues in Jullundur and Sialkot and harvesting of *toria* (*brassica campestris*) in Shahpur. Sowing of extra spring crops has commenced in one or two districts. The condition of the standing crops is generally good to average, but that of unirrigated crops is still bad in Gurgaon and Delhi. More rain is urgently required in many districts. The crops which have been damaged

are :—wheat in Gurgaon and rapeseed in Delhi by white-ants ; rapeseed in Delhi by hail ; rapeseed in Delhi and rape and *taramira* (*eruca sativa*) in Ferozepur by frost ; turnips in Multan by *rati* (mildew) and *tela* (an insect). Locusts have also appeared in Hissar, Gurgaon, Lahore, and Multan and are damaging crops to some extent in the three last named districts. Cattle are weak in Gurgaon, Delhi, Sialkot and Mianwali for want of proper and sufficient nourishment. Fodder is very scarce in many districts and leaves of trees, prickly shrubs, and sugarcane tops are being substituted. The canal supply is still poor in Delhi. Four test works have been started in Rohtak, where the average number of persons daily employed was 1,893.

North-West Frontier Province.—Good rain has fallen in Hazara and slight showers in Peshawar and Bannu. Rain is badly wanted in Dera Ismail Khan and is desirable elsewhere. The state of irrigated crops is generally good but of unirrigated crops poor ; in Dera Ismail Khan they are fair but will soon want rain. The water-supply is sufficient but there is no hill torrent irrigation in Dera Ismail Khan. Fodder is procurable except in the Daman tract of Dera Ismail Khan. The condition of cattle is poor in the Daman tract, elsewhere it is generally good. Prices are stationary except of bajra which is selling at 14 to 16 seers per rupee.

Jammu.—There was slight rain in some parts of the Province during the week. Prices are rising. Prices :—wheat 13 to 20 and maize 27 to 30 seers per rupee. The condition of the standing crops is good. Fodder is sufficient. The recent rain has been beneficial to the standing crops but more is wanted.

Kashmir.—There was heavy snow during the week and the weather is bitterly cold. Prices are stationary.

Rajputana.—There was slight rain in Alwar and Dholpur during the week. Spring crops are being watered or weeded ; the cultivated area is generally restricted. Slight damage from frost is reported from Kotah and Jhalawar. The condition of cattle is poor in North-Mewar, Jaipur, Kishangarh, Karauli, Bharatpur, and parts of Marwar and Kotah ; in these tracts and in Tonk, Dholpur, and Ajmer-Merwara pasturage and fodder are very insufficient. The water-supply is failing in Kotah, Jhalawar, and Dholpur. Prices have again risen considerably, *viz.*, 1 to 1½ seers per rupee in Bikaner and Tonk and less than one seer in Jaipur, Karauli, Bharatpur, Dholpur, and Ajmer-Merwara. The numbers on famine relief were :—Ajmer-Merwara 42,305 ; Native States 24,529. Test works :—North-Mewar 1,914, Shahpura 647, Tonk 495, Jaipur 3,761, Alwar 1,498 ; on gratuitous relief—North-Mewar 347, grand total 75,396 or an increase of 8,402.

The weekly report on the famine and scarcity is as follows :—Ajmer-Merwara—on works—Ajmer 14,248, Merwara 14,653 ; on gratuitous relief—Ajmer 6,391, Merwara 7,013, total 42,305 or an increase of 4,463. Prices have risen and are :—Ajmer 11½ seers and Merwara 11½ seers per rupee. In other respects the situation remains unchanged. Native States :—Marwar—on works 2,760, on gratuitous relief 1,867, total 4,627 ; Kishangarh—on works 2,275, on gratuitous relief 2,289, total 4,564 ; Karauli—on works 3,308, on gratuitous relief 447, total 3,755 ; Bharatpur—on works 7,737, on gratuitous relief 1,976, total 9,713 ; Dholpur—on works 1,316, on gratuitous relief 554, total 1,870. Prices :—Marwar 12½, Kishangarh 12, Karauli 9½, Bharatpur 11½, and Dholpur 13 seers per rupee. Distress is severe in Central Bharatpur. Relief arrangements are generally sufficient.

Central India.—There was no rain during the week. Irrigation of spring and harvesting of autumn crops are in progress. The standing crops are fair in parts of Indore, Bhopal, Malwa, and Bhopawar ; average in Bundelkhand ; indifferent in Baghelkhand ; irrigated spring crop in parts of Gwalior are normal. The probable outturn is fair in parts of Gwalior and Bhopal ; average in parts of Indore ; below average in Baghelkhand, Bundelkhand and Malwa. Spring crops have suffered slightly from frost and locusts in some parts of Gwalior and have been injured by cold in parts of Indore, Bhopal, and Bhopawar. Agricultural stock is bad in parts of Gwalior and in north of Bundelkhand ; fair in Bhopal and Malwa ; good in Baghelkhand. Pasturage is bad in parts of Gwalior ; and scarce in north of Bundelkhand. Prices are rising in parts of Gwalior, Indore, Malwa, and Bhopawar ; continue high in Baghelkhand ; and are steady in Bundelkhand. Opium has suffered slightly from cold in parts of Indore.

The general position in Gwalior and Bundelkhand is unaltered. Prices of staple food grains vary from eleven to fifteen seers per rupee in Gwalior and 12½ to 13½ seers in Bundelkhand. The number on works and on gratuitous relief in Gwalior are the same as reported last week, *viz.*, total 26,000. In Datia, Samther, Baoni, Alipura, Bijawar and Chhatarpur the numbers on works were 11,000, on gratuitous relief 1,500, total 12,500.

Central Provinces.—Jubbulpore received 1½ inches of rain and Mandla and Bilaspur half an inch during the week. These falls and the previous week's showers have done some good but more rain would be beneficial especially to crops on light soils. Hail fell in

Mandla, Chhindwara, and Nagpur but the extent of damage is not known at present. Slight damage to spring crops has been caused by cloudy weather in Chanda, Bhandara, and Raipur and by frost in Saugor, Seoni, Hoshangabad, and Chhindwara; in the remaining districts the condition of the standing crops is fairly good. Harvesting of winter crops has commenced in parts of Nimar, Betul, and Raipur. Wheat has risen in eleven districts; jwar in ten districts and gram is also becoming dearer; all districts of the Nerbudda Division show a rise in the price of wheat and jwar; elsewhere prices are fairly steady with a tendency to rise except in Damoh and Buldana where they are easier.

Baroda.—For week ending 20th January. The numbers on relief were as follows:—on works 2,723; on gratuitous relief 187; total 2,910.

Bombay.—The rainfall during the week ending 23rd January is reported to have benefited indigenous cotton and late jowar in parts of Dharwar, presumably also in other parts of the Karnatak, and was of slighter benefit to American cotton and standing wheat. The damage reported last week referred to the cut crops in process of harvesting. Picking of indigenous cotton in the Karnatak may be prolonged for a month or so. During the past week there was slight rain in Hyderabad, Thar and Parkar and the Southern Maratha Country. Some damage to spring crops from frost is reported from Hyderabad, Panch Mahals, Mahi Kantha, Baroda, and Poona; elsewhere they continue in good condition except in the affected districts, where as already reported the cultivated area and the outturn of spring crops are much below the normal. The condition of cattle is unaltered; cattle continue to be sent out of East Deccan and the Karnatak district for grazing, and a number have been sold for low prices, but prices of plough cattle are rising in Ahmednagar owing to the demand in Khandesh; many cattle have returned from Moglai for want of water. Fodder continues scarce in many places; *kadbi* (jwar stalks) is being imported from Moglai into Ahmednagar; grass imported into the Deccan and Karnatak by Government agency finds a ready sale. The water-supply in irrigation tanks and wells is running low and grants have been made for its improvement. The increase in the prices of staple grains is generally maintained at from 20 to 80 per cent. over the normal in the Deccan and the Karnatak; prices still approximate to the normal in the Konkan; a sudden rise in some talukas of Sholapur from which grain had been previously exported represents merely adjustment to prevailing prices. Stocks are still large and exports free from these talukas. Relief works have been opened in Belgaum and are being started in Bijapur and Ahmednagar. The daily average numbers on relief works for the week ending the 20th January were:—Belgaum 1,536; Sholapur 241; dependants:—Belgaum 391; Sholapur 60. On test works where numbers are increasing there were on the last day of the week:—Ahmednagar 347; Satara 406; Bijapur 929; Belgaum 230; Jath 96; Aundh 56; total 2,064. The daily average numbers on gratuitous relief were:—Ahmednagar 3,095; Poona 376; Bijapur 1,680; Belgaum 2,893; Jath 598; Daphlapur 55; total 8,697. The large increase except in Belgaum and Bijapur is due to the return of emigrants, but the demand is still not keen; in Nasik and Poona ordinary works are in progress and takavi and water-supply works are sufficient to meet the present demand. Emigration from Ahmednagar, Poona, Sholapur, Bijapur, and Jath still continues but is decreasing and is expected soon to cease. Steps are being taken to extend relief measures nearer home. Gratuitous relief is being given to helpless dependants of emigrants and other destitute persons. There is no aimless wandering and no unusual movements of flocks. The physical condition of cultivators remains unaltered.

Hyderabad.—The rainfall of the week was as follows:—Sixty-seven taluqs had 50 cents and under; nineteen half to one inch; seventeen between one and two inches; and six over two inches. The rain has been too late to do much good and is generally reported to have been injurious to the maturing spring crops. Spring crops are being harvested in nineteen taluqs; they are in bad condition in parts of thirty-four taluqs. Late rice sowings continue and the area will probably be increased owing to the recent rain. The attendance on works in the affected taluqs on the last day of week numbered 1,217 persons. Fodder scarcity exists in twenty-seven taluqs and water scarcity in fifteen taluqs. The price of jowar has fallen from one to two seers per rupee in seven taluqs and risen from one to three seers in eighteen. Prices:—wheat 9½, coarse rice 7½, and jowar 15½ seers per rupee.

Mysore.—There was slight rain throughout the Province during the week. Prices are steady. The crops are fairly good. Prospects are generally fair. Cattle are healthy. Water and fodder are scanty in Chitaldrug and in parts of Mysore, Tumkur, Hassan, and Shimoga.

Coorg.—Rainfall:—31 cents. Picking of coffee continues. Threshing of rice has commenced. Prices of food grains are normal. Water and fodder are sufficient.

Madras.—There was light rain during the week in Kurnool, Bellary, Anantapur, Guntur, and Ganjam, but none elsewhere. Irrigation supplies are insufficient in parts of the Circars, Bellary, Anantapur, the Central Districts, Tanjore, and Madura. Ploughing,

sowing, weeding, and transplanting are in progress. The standing crops are generally fair but some in parts of Bellary, Coimbatore, Tanjore, Tinnevely, and Malabar require more rain and some in parts of Madura are withering. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient everywhere except in parts of the Circars, Bellary, Anantapur, and Coimbatore. Fodder is scanty in parts of Godavari, South Arcot, Coimbatore and Tanjore. The condition of cattle is generally good. The price of rice is stationary in twelve districts, has fallen in four; and has slightly risen in seven. The prices of millets have fluctuated as follows:—Ragi is stationary in eight districts; has fallen in five; and has slightly risen in eight. Cholan is stationary in five districts; has fallen in five; and has slightly risen in four. Cumbu is stationary in five districts; has fallen in three; and has slightly risen in seven.

J. WILSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.

ESTABLISHMENTS.

REGULATIONS AS TO APPOINTMENT OF ASSISTANT ENGINEERS BY THE
SECRETARY OF STATE IN 1906.

1. The Secretary of State for India in Council will, in the summer of 1906, make **not less than ten** appointments of Assistant Engineers to the Public Works Department of the Government of India, in addition to those to be made from the Royal Indian Engineering College at Coopers Hill.

In making these appointments he will act with the advice of a Selection Committee, including at least one eminent representative of the Engineering profession.

2. Applications for the appointments must be made on a printed form to be obtained from the Secretary, Judicial and Public Department, India Office, Whitehall, London, S. W., and to be returned so as to reach him not earlier than 1st March 1906, or later than Tuesday, the 1st May 1906.

No applications received after the latter date will be considered.

3. Candidates must have attained the age of 21 and not attained the age of 24 years on the 1st July 1906.

4. Every candidate must be a British subject of European descent, and at the time of his birth his father must have been a British subject, either natural-born or naturalised in the United Kingdom. The decision of the Secretary of State in Council as to whether a candidate satisfies this condition shall be final. He must also be of good moral character and sound physique.

5. Candidates must have obtained one of the University degrees mentioned in Appendix I, or such diploma or other distinction in Engineering, as may, in the opinion of the Selection Committee, be accepted as approximately equivalent thereto.

6. It is desirable that candidates should have had some experience as assistant in the preparation of the designs for, or in the execution of, some engineering work of importance.

7. Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee.

8. They will further be required, before final appointment by the Secretary of State in Council, to appear before the Medical Board at the India Office for examination as to their physical fitness for service in India.

A copy of the "Regulations as to the Physical Examination" of Candidates for Indian appointments will be forwarded on application to the Under Secretary of State.

9. Candidates will also be required, before final appointment, to satisfy the Secretary of State, in such manner as he may determine, of their ability to ride.

10. They will on appointment be provided with free first class passages to India, and they will be expected to proceed thither in or about the month of October 1906.

Their pay will begin from the date of their landing in India, and, if they so desire, they will be able to obtain in India an advance of two months' pay recoverable by monthly instalments of one-third of salary.

11. They will enter the Service as Assistant Engineers, Third Grade, on a salary of Rs. 4,200 a year (equivalent to 280*l.* a year, when the rupee is at 1*s.* 4*d.*), and they will receive the same salary and privileges as the Assistant Engineers who entered the Royal Indian Engineering College at Coopers Hill in 1903, and pass out of the College in 1906.

They will be graded in the Department immediately below these last.

12. The instruments required by Assistant Engineers are supplied to them in India.

13. Particulars as to their prospects of pay, pension, etc., are contained in Appendix II.

INDIA OFFICE,

19th December 1905.

NOTE FOR THE INFORMATION AND GUIDANCE OF CANDIDATES.

The Selection Committee of 1905 stated that the subjects which were held to be of most importance for the Public Works Service were :—

Pure Mathematics, including a knowledge of the differential and integral calculus.

Applied Mathematics.

Geometrical and Engineering Drawing.

Surveying and Geodesy.

.. *Strength of Materials and Theory of Structures.*

Hydraulics.

Heat Engines.

Materials used in Construction.

Building Construction.—Wood and metal work, limes and cements, and building with stone, brick, and concrete.

Knowledge of the principles of road-making, water-works, sanitary and railway engineering. (Important.)

The Selection Committee were further of opinion that all candidates should have had some workshop training.

APPENDICES.

APPENDIX I.

LIST OF DEGREES REFERRED TO IN PARAGRAPH 5.

University of London.—B. Sc. (Engineering).

University of Cambridge.—B.A. (Mechanical Sciences Tripos).

University of St. Andrews.—B.Sc. (Engineering).

University of Glasgow.—B Sc. (Engineering).

University of Edinburgh.—B.Sc. (Engineering).

Victoria University of Manchester (or Victoria University).—B Sc. (with honours in Engineering).

University of Liverpool.—B. Eng.; provided the degree be obtained by passing the Examinations of the University.

University of Leeds.—B.Sc. (with honours in Engineering), in respect of degrees which may be granted on the results of the Examinations in June 1905.

University of Birmingham.—B.Sc. (Engineering); provided the Engineering Matriculation Examination be passed on entering upon the course of study.

University of Dublin.—B.A.I.

Royal University of Ireland.—B.E. and M.E.

University of Wales.—B.Sc. (Engineering); provided that Mathematics be passed at the Final Examination for the degree.

Any other degree of a University in the United Kingdom which may hereafter be recognised by the Council of the Institution of Civil Engineers as exempting from passing the examination for Associate Membership.

APPENDIX II.

PARTICULARS REGARDING THE INDIAN PUBLIC WORKS DEPARTMENT, (EXECUTIVE BRANCH).

(The arrangements and salaries hereinafter described are subject to revision according to the requirements of the Service.)

1. The Engineer Establishment of the Indian Public Works Department consists of the staff of Engineers, military and civil, engaged on the construction and maintenance of the various public works undertaken by the State in India.

2. The permanent establishment of the Department is recruited from the following sources :—

(1.) Officers of Royal Engineers.

(2.) Persons appointed to the Imperial Service by the Secretary of State by selection from the United Kingdom.

- (3.) Persons educated at the Government Civil Engineering Colleges in India, and appointed to the Provincial Services by the Government of India.
- (4.) Occasional admission of other qualified persons.
3. The various ranks of the Department are as follows :—

	Salary per Annum. (Imperial Service.)
	R
Chief Engineers, First Class	33,000
" " Second Class	30,000
Superintending Engineers, First Class	24,000
" " Second Class	21,000
" " Third Class	18,000
Executive Engineers, First Grade	12,000
" " Second Grade	10,200
" " Third Grade	8,400
Assistant Engineers, First Grade	6,000
" " Second Grade	5,400
" " Third Grade	4,200

4. Officers who are finally selected from the United Kingdom for appointment to the Indian Public Works Department will, in the absence of any special reasons to the contrary, be appointed to the rank of Assistant Engineer, Third Grade.

5. Promotions from one grade or class to another are dependent on the occurrence of vacancies in the sanctioned establishment, and are regulated in the following way.

6. In the Civil Works Branch of the Department, promotions throughout all grades in Madras and Bombay are made by the Governments of those provinces respectively; in Bengal, Eastern Bengal and Assam, the United Provinces of Agra and Oudh, the Punjab, and Burma, promotions are made by the Provincial Governments, except as regards the appointments of Chief and Superintending Engineer, which are made by the Government of India; in the other provinces* promotions are made by the Government of India on one general list for all these provinces.

7. In the Railway Branch of the Department promotions are made by the Government of India.

8. Promotion is made wholly by selection; mere seniority is considered to confer no claim to it.

PENSIONS AND PROVIDENT FUND.

9. The following is a summary of the principal pension rules applicable to Engineers appointed to the Imperial Service by the Secretary of State from the United Kingdom.

An officer is eligible for a pension on voluntary retirement after completing 20 years' qualifying service or attaining the age of 55 years. If at an earlier date he is compelled to retire from the Service through ill-health not occasioned by irregular or intemperate habits, he becomes eligible for an invalid pension or a gratuity according to the length of his service.

The amount of pension or gratuity is regulated as follows :—

After a service of less than 10 years, an invalid gratuity not exceeding one month's emoluments for each completed year of service.

After a service of not less than 10 years an invalid pension not exceeding the following amounts :—

Years of Completed Service.	Scale of Pension. Sixtieths of Average Emoluments.†	Maximum Limit of Pension.
10	20	R1,000 a year or R 83 $\frac{1}{3}$ a month.
11	21	" 1,400 a year or " 116 $\frac{2}{3}$ a month.
12	22	" 1,800 a year or " 150 a month.
13	23	" 2,200 a year or " 183 $\frac{1}{3}$ a month.
14	24	" 2,600 a year or " 216 $\frac{2}{3}$ a month.
15	25	} " 3,000 a year or " 250 a month.
16	26	
17	27	
18	28	
19	29	

After a service of not less than 20 years, a retiring pension not exceeding the following amounts :—

Years of Completed Service.	Scale of Pension. Sixtieths of Average Emoluments.†	Maximum Limit of Pension.
20 to 24 }	30	{ R4,000 a year or R333 $\frac{1}{3}$ a month.
25 and above }		{ " 5,000 a year or " 416 $\frac{2}{3}$ a month.

* Central Provinces (including Berar), Coorg, Rajputana and Central India, and Baluchistan.

† "Average emoluments" means the average calculated on the last three years' service.

Officers who have shown special energy and efficiency during an effective service of three years in certain appointments may, at the discretion of the Government of India, be allowed an additional pension of Rs. 1,000 a year.

Subject to certain prescribed conditions, rupee pensions are now issued at the rate of exchange of 1s. 6d. the rupee to pensioners residing in countries in which the Indian Government rupee is not legal tender.

10. A Provident Fund has been established for all Civil Engineers of the Department on the following basis :—

- (1) The contribution is compulsory up to 5 per cent. on salaries, with voluntary contributions of a further 5 per cent.
- (2) Compound interest on such payments is annually credited by Government to each officer subscribing, the rate being at present 4 per cent. per annum in the case of accounts kept on a rupee basis, and 3 per cent. per annum in the case of those kept on a sterling basis. Members of the Fund are given the option of having their accounts kept either on a rupee or on a sterling basis.
- (3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the Service; or in the event of his death before retirement, to his legal representatives.

LEAVE.

11. The following is a summary of the principal regulations relating to the leave admissible to Engineers appointed to the Imperial Service by the Secretary of State from the United Kingdom.

Long leave.

12. Furlough is admissible to an aggregate amount of six years during the service. The amount "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

13. Furlough without medical certificate can, if due, be generally taken after eight years' active service, and again after three years' continuous service. It is limited to two years at a time.

14. Furlough with medical certificate is limited to one year if an officer has not served three years continuously; otherwise he may have leave up to two years, and it may be extended to a third year.

15. The allowances admissible during furlough are :—

- (1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be "due,"—half average salary, subject to certain maximum and minimum limits.
- (2) After the expiration of the period for which the foregoing allowances are admissible—one quarter of average salary, subject to certain maximum and minimum limits.

Short Leave.

16. Privilege Leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to three months, earned by 33 months' service. During privilege leave, the officer retains a lien on his appointment, and receives the salary which he would have received if on duty. An interval of six months must elapse between two periods of absence on privilege leave.

Privilege leave may be prefixed to furlough, special leave, or extraordinary leave without allowances. The whole period of leave thus taken in combination is known as combined leave. Combined leave (except when consisting of privilege leave and extraordinary leave without allowances) may not be of less duration than six months, nor, except on medical certificate, may it be extended beyond two years.

17. Special Leave may be granted at any time for not more than six months, with intervals of six years' service; allowances, calculated as during furlough, are given during the first six months only, whether taken in one or more instalments. This leave is included in the aggregate of six years' furlough admissible.

18. Extraordinary Leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

19. Subsidiary Leave for a minimum of ten days, usually with half average salary, may be granted to an officer proceeding on or returning from leave out of India, or on retirement, to enable him to reach the port of embarkation or to rejoin his appointment. It is admissible only at the end and not at the beginning of combined leave.

20. Short Leave is also granted to enable officers to appear at examinations, etc.

General Rules.

21. Leave of absence can never be claimed as of right, and is given or refused at the discretion of Government.

22. After five years' continuous absence from duty, an officer is considered to be out of the employment of Government.

23. When leave allowances are paid at the Home Treasury, or in a Colony where the standard of currency is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and Indian Treasuries, unless any other rate has been exceptionally authorised. But for the present the rate of conversion is subject to a minimum of 1s. 6d. to the rupee.

INDIAN PUBLIC WORKS DEPARTMENT.

Form to be filled up by Candidates for Appointment as Assistant Engineer, 1906.

No person will be considered as a Candidate from whom the Secretary, Judicial and Public Department, India Office, Whitehall, London, S.W., shall not have received, on or before Tuesday, the 1st May 1906 at latest, an application on this form.

The Application Form should not, however, be sent to him before the 1st March 1906.

If Candidates who fill up and return the Application Form do not receive an acknowledgment of it within four complete days, they should communicate with the Secretary, Judicial and Public Department.

INDIA OFFICE,
19th December 1905.

1	Name in full.
2	Address. (<i>Any alteration to be notified to the Secretary, Judicial and Public Department, India Office, Whitehall, London, S.W.</i>)
3	Date of Birth. (<i>In the event of the Candidate's selection, he will be required to produce a Birth Certificate or such other evidence as to date of birth as may be considered satisfactory.</i>)
4	Profession or occupation of father ; and whether at the time of the Candidate's birth his father was a British subject, either natural-born or naturalised in the United Kingdom.
5	(a) Parentage of father, showing that he was of European descent. (b) Parentage of mother, showing that she was of European descent.

- 6 The names of any near relatives who have been, or are now, in the service of the Indian Government, and the appointments at present, or immediately before retirement or decease, held by them.

- 7 All Institutions where educated, since the age of 15, with dates, distinguishing whether or not the Candidate was in residence at such Institutions.

From *to*

Secretary to the Government of India.

Statement of Approximate Gross Earnings of Indian
Railways.

Printed and published for the GOVERNMENT OF INDIA *at the Office of the* SUPERINTENDENT OF GOVERNMENT
PRINTING, INDIA, *& Hastings Street, Calcutta.*

No. 6.} CALCUTTA, SATURDAY, FEBRUARY 10, 1906.

CONTENTS

PART I.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Calcutta, the 7th February 1906.

No. 327.—His Excellency the Governor General is pleased to declare that the Director General of Commercial Intelligence shall have the privilege of private entrée to Government House.

H. H. RISLEY,

Secretary to the Government of India.

ESTABLISHMENT.

The 8th February 1905.

No. 115.—The Governor General in Council is pleased, under the 24th and 25th Vict., Cap. 67, section 26, to grant the Honourable Mr. J. P. Hewett, C.S.I., C.I.E., an

Ordinary Member of the Council of the Governor General of India, leave of absence on medical certificate for a period of five months and twenty-seven days, with effect from the 1st April 1906, or the subsequent date on which he may avail himself of it.

W. S. MARRIS,
for Secretary to the Government of India.

SANITARY.

The 7th February 1906.

No. 208.—Captain E. D. W. Greig, M.B., I.M.S., was placed on special duty under the orders of the Secretary of State for one month and seven days. This period is exclusive of the leave granted to him in the Home Department Notification no. 1183, dated the 26th October 1905.

H. H. RISLEY,
Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATIONS.

CIVIL VETERINARY ADMINISTRATION.

Calcutta, the 8th February 1906.

No. 255—82-37.—Mr. David Quinlan has been appointed to the Indian Civil Veterinary Department, with effect from the 28th January 1906, and is posted for training to Bengal.

No. 256—82-37.—Mr. W. A. Broad has been appointed to the Indian Civil Veterinary Department, with effect from the 28th January 1906, and is posted for duty to Bombay.

FORESTS.

The 6th February 1906.

No. 114—311-4-F.—Mr. H. A. Hoghton, Conservator of Forests, 3rd (officiating 2nd) grade, United Provinces, is granted privilege leave for 1 month and 8 days combined with leave on urgent private affairs for 4 months and 22 days, with effect from the 18th January 1906.

From the same date the following promotions are made :—

- (i) Mr. L. Mercer, Conservator, 3rd grade, United Provinces, to officiate as Conservator, 2nd grade.
- (ii) Mr. H. Jackson, Deputy Conservator, 1st grade, Burma, on return from leave, is appointed to officiate as Conservator of Forests, 3rd grade, in charge of the Eastern Circle, United Provinces, of which he relieved Mr. Hoghton on the afternoon of the 17th January 1906.

J. WILSON,
Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Calcutta, the 8th February 1906.

No. 14.—Mr. R. Srinivasa Iyer, Examiner of Public Works Accounts, Rajputana and Central India, is granted, under Articles 233, 260 and 316 of the Civil Service Regulations, combined leave for six months, *vis.*, privilege leave for three months and special leave for the remaining period, with effect from the 15th February, 1906 or subsequent date.

No. 15.—Mr. W. C. Davis, Examiner of Accounts, attached to the office of the Examiner of Public Works Accounts, Bengal, is posted as Examiner of Public Works Accounts, Rajputana and Central India.

No. 16.—Mr. A. R. Kalberer, Examiner of Accounts, is, on return from leave, posted to the office of the Examiner of Public Works Accounts, Bengal.

No. 18.—With reference to Notification No. 17, dated the 8th February 1906, the Governor General in Council is pleased to appoint Mr. J. Benton, C.I.E., late Chief Engineer and Secretary to the Government of the Punjab, Irrigation Branch, to be Inspector General of Irrigation.

The 9th February 1906.

No. 19.—The following draft of a notification which it is proposed to issue under section 33 of the Indian Electricity Act (III of 1903) is published for the information of persons likely to be affected thereby. Any objection or suggestion which may be received before the 10th May 1906 will be duly considered :—

Draft Notification.

In exercise of the powers conferred by section 33 of the Indian Electricity Act (III of 1903), the Governor General in Council is pleased to direct that the following addition be made to the rules published with the Notification of the Government of India in the Public Works Department No. 481-Telegraphs, dated the 23rd December 1903.

102. All rules made by the Governor General in Council in exercise of the powers conferred by section 33 of the Indian Electricity Act (III of 1903) and in supersession of rules made under the local or general acts repealed by section 42 of that Act, shall, subject to the provisions of clause 2 of the section quoted, be binding on all persons, companies or undertakings to whom licenses have been granted or with whom agreements have been made by or with the sanction of Government for the supply or use of electricity before the commencement of that Act.

No. 20.—The Right Honourable the Secretary of State for India has sanctioned the execution, from loan funds, of the Upper Jhelum, Upper Chenab and Lower Bari Doab Canal Projects in the Punjab.

The 8th February 1906.

No. 17.—The following is published for general information :—

No. 157-E.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENTS.

Calcutta, the 8th February 1906.

Appointment of a whole-time Inspector General of Irrigation as a temporary arrangement for a period of three years.

Read—

P. W. D. Circular No. 60, dated 2nd July 1867.

P. W. D. Resolution No. 3386-G., dated 23rd December 1897.

Read also—

Despatch to the Secretary of State, No. 343-Fin., dated 19th October 1905.

Despatch from the Secretary of State, No. 65-P. W., dated 22nd December 1905.

RESOLUTION.—The Government of India have had under consideration, for some time past, the question of suitable and satisfactory arrangements for dealing with the vast

number of important irrigation projects which have been sanctioned, or proposed, in consequence of the Report of the Irrigation Commission, and have examined in some detail the probable plan of operations in all Provinces. Within the last three years forty-three irrigation schemes, as detailed in the accompanying appendix, commanding over seven million acres, and designed to irrigate over three million acres, have been approved, and other projects of great magnitude are under consideration.

2. In paragraph 375 of Volume I of their Report the Irrigation Commission pointed out that the adoption in whole, or in part, of the programme of new irrigation works would throw a great deal of additional work on the Inspector General of Irrigation, and they thought it was of great importance that he should be free to spend a considerable portion of the cold weather on tour, inspecting the various projects and conferring with Local Governments on the subject.

3. At present the Secretary to the Government of India in the Public Works Department holds the dual appointment of Secretary and Inspector General of Irrigation, but the Government of India find it inconvenient for their Secretary to be absent on tour for any length of time while carrying out his duties as Inspector General of Irrigation, and they have therefore decided, with the approval of the Right Hon'ble the Secretary of State for India, to appoint a whole-time Inspector General of Irrigation on a salary of Rs 3,500 a month, for a period of three years, as an experimental measure, as they are convinced there is ample work for such an officer for several years to come.

4. The Inspector General will also, while on tour, take the opportunity of discussing with Local Governments the possible development of those waterways in India which, in the interests of commerce, it is considered desirable to maintain or improve.

The Governments of Madras, Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab, Burma and Eastern Bengal and Assam, Public Works Department.
The Honourable the Chief Commissioner of the Central Provinces.
The Chief Commissioner of Coorg.
The Honourable the Resident at Hyderabad.
The Honourable the Agents to the Governor General for Central India, Rajputana and Baluchistan.
The Honourable the Agent to the Governor General and Chief Commissioner, North-West Frontier Province.
The Accountant General, Public Works Department.

ORDER.—Ordered that copy of this Resolution be forwarded to the Local Governments, Administrations and officers noted in the margin for information and guidance.

Ordered also that a copy be forwarded to the several Departments of the Government of India for information, and be published in Part I of the *Gazette of India*.

Appendix to Public Works Department Resolution No. 157E, dated 8th February 1906.

The following summary indicates the irrigation schemes which have been approved by the Government of India, as the result of the report of the Irrigation Commission.

2. In the North-West Frontier Province two projects have been sanctioned and are now under construction :—

- (i) the Paharpur Canal in the Dera Ismail Khan District.
- (ii) the Hazar Khani Branch of the Kabul river canal in the Peshawar District.

The Paharpur Canal is designed to command 73,106 acres at an estimated cost of Rs 7,07,703. It is estimated to irrigate 41,588 acres annually and to bring in a net return of Rs 30,985 equivalent to 7.20 per cent. on the capital cost and has been sanctioned as a productive public work.

The Hazar Khani branch is estimated to cost Rs 4,95,633 and to irrigate an area of 11,251 acres annually. It will necessitate an increase in the capacity of the Kabul River Canal from its head to Peshawar and will provide a fall of 45 feet in height which it is hoped may be used for the generation of electrical energy. It is estimated to give a net return of Rs 27,712, equal to 5.59 per cent. on the capital invested, and has been sanctioned as a minor work.

Besides the above, a project for a canal called the Upper Swat Canal in the Peshawar Valley at an estimated cost of Rs 1,77,64,752 has been approved by the Government of India and submitted for the sanction of the Secretary of State. It is anticipated that it will irrigate an area of 381,562 acres and yield a return of 8.21 per cent. on the capital cost.

3. For the Punjab five schemes have been sanctioned as productive works and are all now under construction. These are—

- (i) the Upper Jhelum Canal.
- (ii) the Upper Chenab Canal.
- (iii) the Lower Bari Doab Canal.

(iv) the Talai embankment and remodelling of the Kadra, Nur, Dhundhi and Kutab Canals

(v) Remodelling of the Manka, Dhori, and Shoria Canals.

On the first three schemes it is unnecessary to enlarge, as they have been recently reviewed in the public press. It will suffice to say that they will irrigate in the Gujrat, Gujranwalla, Lahore, Montgomery and Multan districts, that they are interdependent and are estimated to command a total of 3,997,434 acres, to irrigate 1,875,856 acres annually, and yield a net revenue of ₹77,97,886 equal to 10.29 per cent. on the total capital expenditure of Rs. 7,58,12,030.

The other two projects are situated in the Dera Ghazi Khan district; they consist of a large embankment to protect the irrigated area from floods, and of extensive improvements of the existing inundation canals which will give better command of the land and greater control over the distribution of the water, so that, it is anticipated, lands at the tails of the channels will be assured a better supply. The two schemes are estimated to command 614,175 acres, to cost Rs. 18,96,392, to yield a net revenue of Rs. 95,250 equal to 5.02 per cent. on the cost, and it is hoped they will increase the average annual irrigated area of the Province by 102,000 acres. They have been sanctioned as Productive works.

The question of another scheme in the Punjab for the utilisation of the water of the Sutlej river, below its junction with the Beas, a project of some magnitude, is also under the consideration of Government.

4. In the United Provinces, two new Protective canals, an additional weir to increase the storage of the Betwa canal, and two extensions of the existing Productive canals have been sanctioned. These are as follows:—

- (i) the Ken Canal ... }
- (ii) the Dassan Canal ... } In Bundelkhand.
- (iii) the Dukwa Reservoir on the Betwa river.
- (iv) the Mat Branch extension of the Upper Ganges Canal.
- (v) the Fatehpur-Sikri extension of the Agra Canal.

It is hoped that the two first canals will do for the Banda and Hamirpur districts, respectively, what the Betwa Canal has unquestionably done for Jalaun.

The Ken and Dassan Canals are estimated to command 374,414 and 326,626 acres, respectively, at a cost of ₹36,74,729 and ₹38,79,619. It is anticipated that they will together irrigate on the average 113,000 acres and although they will not pay the interest on their capital it is hoped they will at least pay their working expenses and give a net revenue of ₹1,42,800.

The considerable increase in the rabi irrigation from the Betwa Canal as shown by the Irrigation Revenue Reports, partly owing to the increase in capacity of the Paricha Reservoir by the addition of steel shutters on the weir in 1900-1901, and partly to the remodelling of the distributary system for which an estimate amounting to ₹1,99,785 has been sanctioned, has justified the Government of India in sanctioning an estimate, amounting to ₹11,77,780, for an additional reservoir to feed this system. This work will not in itself increase the area commanded by the canal, but it will have a capacity of 1,484 million cubic feet and it is estimated that this volume will allow of an increased area of 18,000 acres of irrigation and that the new reservoir will yield a net revenue of ₹44,000. The Mat Branch extension has already been constructed, it has brought 235,196 acres of fresh land under command at an estimated cost of ₹11,60,393, is estimated to irrigate 86,600 acres annually, to give a net revenue of ₹2,82,269, equivalent to 24.33 per cent. on the capital cost.

The Fatehpur-Sikri Branch of the Agra Canal is estimated to cost ₹6,67,038 and to irrigate 27,200 acres annually, giving a net revenue of ₹74,792 and a return of 11.21 per cent.

5. For the Central Provinces fifteen irrigation tank schemes have been sanctioned at an aggregate estimated cost of ₹29,81,618. Their maximum storage capacity will be 7,400 million cubic feet and it is estimated that they will completely protect 150,470 acres of land and irrigate 63,650 acres annually.

In addition to the above an estimate for a reservoir at Ramtek in the Nagpur district, amounting to ₹15,86,409, has been sanctioned by the Secretary of State. This scheme is expected to protect 68,889 acres and irrigate 40,000 acres annually.

A project for a canal from the Mahanadi river which will protect 1,191,957 acres in the Raipur District, at an estimated cost of ₹95,42,902, has been prepared, but sanction to the project has been deferred for the present.

6. In Bengal two protective canals are under construction and revised estimates for them have recently been sanctioned. These are—

- (i) the Tribeni Canal estimated to command 284,800 acres at a cost of ₹50,20,251;
- (ii) the Dhaka Canal, commanding 44,800 acres at a cost of ₹5,93,213.

Both these schemes have been sanctioned as Protective works. They are estimated to irrigate 130,000 acres annually and to give a net revenue of Rs 2,04,750.

7. For Burma two productive canals have been approved—

- (i) the Mon Canal estimated to command 93,972 acres at a cost of Rs 42,63,836, and
- (ii) the Ye-e Canal to command 108,000 acres at a cost of Rs 34,05,297. This latter estimate has just received the sanction of the Secretary of State and the Head Works are now under construction in conjunction with those for the Shwebo Canal.

These two canals are estimated to irrigate 132,575 acres annually, and to yield a net revenue to the State of Rs 5,05,617 or a return of 7.42 per cent. and 5.55 per cent., respectively, on their capital cost.

8. In Madras a scheme has been elaborated for a reservoir and series of canals from the Cauvery river which are estimated to irrigate 300,000 acres annually at a cost of Rs 2,53,90,000. This project has been reviewed by the Government of India, but has not yet been accepted as further information is necessary from the Local Government in respect to its financial and agricultural features. From an engineering point of view the project is a sound one, although some alterations may be required in details. One Protective and two Productive schemes have, however, been sanctioned for the Presidency and are now under construction :—

- (i) the Nagavalli River Project.
- (ii) the Mopad Reservoir.
- (iii) the Divi Pumping Project.
- (iv) the Bhavanasi Tank Project.

The Nagavalli river project is estimated to cost Rs 10,26,506 and to irrigate 31,200 acres annually, yielding a net revenue of Rs 87,314 and a return of 8.50 per cent., it has been sanctioned as a Productive work. The Mopad Reservoir will cost Rs 11,36,000 and irrigate 17,500 acres, giving a net revenue of Rs 59,650. It has been sanctioned as a Protective work.

The Divi Pumping Project will be the largest scheme of the kind in India and is therefore of the nature of an experiment. It is estimated to cost Rs 18,06,000 and to command 100,000 acres of which 50,000 acres will be irrigated annually. The scheme is estimated to give a net revenue of Rs 1,76,658, equal to 9.78 per cent. on the capital. It has been sanctioned as a Productive work.

Besides the above, it is understood that 11 other projects estimated to cost in the aggregate Rs 68,60,020 and to irrigate some 93,609 acres have been prepared, but not yet submitted to the Government of India. The Vengalapuram project and a project in connection with the Kistna are also under consideration.

An estimate amounting to Rs 23,81,030 has been prepared for the Gudumalai Project, which would, it is anticipated, irrigate 33,850 acres annually, but it has not yet been recommended for the sanction of the Secretary of State, as further information has been called for regarding the engineering and financial features of the scheme.

The Tungabhadra project, estimated to cost Rs 11,74,74,563, has been received and is under the consideration of the Government of India. The area which will be irrigated annually by it is estimated at 970,000 acres and the anticipated annual net revenue will be Rs 34,41,000, equivalent to 2.93 per cent. on the capital outlay.

Another protective scheme called the Gazuladinne Project has lately been under scrutiny and it has been decided that the project should be held in abeyance until the Tungabhadra project has been considered by the Government of India. The estimated cost is Rs 12,21,000, and the area to be irrigated is 11,958 acres.

A project for the development of power by Periyar water is now under the consideration of the Government of India. Its cost is estimated at Rs 1,50,00,000 and the annual net revenue at Rs 8,82,000.

9. In Bombay much investigation work has been done, but 8 schemes only have so far reached the Government of India. These are the following :—

- (i) the Budhihal Tank.
- (ii) the Victoria Tank.
- (iii) the Pathri Tank.
- (iv) the Tranza-Nagramma Tank.
- (v) the Chankapur Reservoir.
- (vi) additional storage reservoirs in connection with the Mutha Canal;
- (vii) the Visapur Tank.
- (viii) the Godavery project.

The first five have been sanctioned at an estimated cost of ₹40,51,766 and they are estimated to irrigate about 23,305 acres annually.

The estimate for the additional storage reservoirs for the Mutha Canal amounts to ₹41,30,911 and it is anticipated they will lead to an increase of 7,500 acres in the area irrigated and yield a net revenue of ₹2,73,500. The estimate is under the consideration of the Government of India and will probably shortly be submitted to the Secretary of State for sanction. The Visapur Tank scheme has not been sanctioned, as it was not considered to be of sufficient importance to be taken in hand immediately as a Protective Irrigation Work. The Bombay Government, however, wished to continue to employ the Deccan convict gang on the earthwork of the tank and have been informed that the Government of India will raise no objection, provided that the work is treated as a provincial work to be paid for from provincial revenues.

The Godavery scheme is estimated to cost ₹81,16,828, to irrigate 60,000 acres and to yield a return of 1·94 per cent. on the capital outlay. The project is now under the consideration of the Government of India.

10. The foregoing remarks are summarized in the annexed table. It will be seen that in the past three years estimates, aggregating ₹13,73,62,736 (direct charges), have been sanctioned for 17 canals for the distribution of 19,332 cusecs, for 2 reservoirs to conserve 6,150 million cubic feet of water, 23 tank schemes for the distribution of 17,025 million cubic feet of water and one pumping station for lifting a maximum of 500 cusecs. It is estimated that these schemes will bring 7,158,720 acres of land under command and eventually add over 3,000,000 acres to the irrigated area of the country annually.

Fourteen schemes are classed as Productive, their aggregate cost is estimated at ₹11,26,40,958, the net revenue is estimated at ₹1,08,02,328 yielding a return of 9·60 per cent. on the direct capital outlay; 25 schemes have been sanctioned as Protective works at an estimated cost of ₹2,28,84,426, they are expected to give a net revenue of ₹6,19,591 equal to 2·83 per cent. on the cost, and to irrigate 399,043 acres annually. The cost of this protection is, therefore, estimated at ₹57 per acre.

Four works are classed as Minor Irrigation Works.

The following table shows the distribution of the schemes by provinces:—

PROVINCE.	No. of schemes.	Estimated direct cost.	Area commanded.	Area to be irrigated annually.	Net Revenue.
		₹	Acres.	Acres.	₹
North-West Frontier Province	3	1,89,68,088	542,001	434,401	15,36,754
Punjab	5	7,77,03,422	4,611,609	1,977,856	78,93,136
United Provinces	5	1,05,59,559	986,236	244,800	5,43,861
Central Provinces	16	45,68,027	223,359	103,650	1,36,078
Bengal	2	56,13,464	329,600	130,000	2,04,750
Burma	2	76,69,133	201,972	132,575	5,05,617
Madras	4	40,93,366	168,500	99,541	3,27,221
Bombay	6	81,82,677	95,443	30,805	3,41,799
TOTAL	43	13,73,62,736	7,158,720	3,153,628	1,14,89,216

The following table shows details of the 43 schemes referred to in paragraph 1 of the Resolution :—

Name.	Area commanded.	Direct cost.	Annual Irrigation.	Net Revenue.	Return on Capital.	Maximum supply.	Volume stored.
	Acres.	₹	Acres	₹	%		m. c. ft.

L. M. JACOB,

Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Fort William, the 3rd February 1906.

No. 257-G. B.—With the sanction of His Majesty's Government, the Governor-General in Council is pleased to recognise provisionally the appointment of Herr Hans Schrader as Consul for Germany at Bassein for the Town and Port of Bassein.

The 6th February 1906.

No. 269-G. B.—With reference to Foreign Department Notification No. 3366-E. C., dated the 7th October 1904, Mr. S. Schmuck, Consul for Germany at Aden, resumed charge of his office on the 1st January 1906.

The 8th February 1906.

No. 290-G.—Captain L. B. H. Haworth, a Political Assistant of the 3rd class, is granted privilege leave for two months and two days, with effect from the 28th January 1906, combined with furlough for six months under Articles 233 and 308 (b) of the Civil Service Regulations.

No. 296-G.—Lieutenant C. H. Gabriel, Indian Army, a probationer for the Political Department, is appointed to be a Political Assistant of the 3rd class, with effect from the 23rd January 1906.

Lieutenant Gabriel's services are placed temporarily at the disposal of the Punjab Government for employment as a Supernumerary Assistant Commissioner.

The 9th February 1906.

No. 304-G.—Mr. D. deS. Bray, an officiating Political Assistant of the 2nd class, is posted temporarily as First Assistant to the Agent to the Governor-General in Baluchistan.

No. 305-G.—Lieutenant R. A. Yule, a Political Assistant of the 3rd class, is posted as an Assistant to the Agent to the Governor-General in Baluchistan.

No. 308-G.—Mr. E. H. S. Clarke, C.I.E., a Deputy Secretary to the Government of India in the Foreign Department, is placed on special duty under the Foreign Department, with effect from the 5th February 1906 and until further orders,

No. 311-G.—Mr. J. B. Wood, a Political Assistant of the 1st class, is appointed to officiate as a Deputy Secretary to the Government of India in the Foreign Department, with effect from the 5th February 1906 and until further orders.

No. 492-P.—The services of Lieutenant A. G. Shea, Indian Army, are placed at the disposal of the Hon'ble the Chief Commissioner and Agent to the Governor-General in the North-West Frontier Province, for employment with Frontier Militia.

L. W. DANE,
Secretary to the Government of India.

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATIONS.

POST OFFICE.

Calcutta, the 6th February 1906.

No. 990—32.—In exercise of the powers conferred by the Indian Post Office Act, 1898 (VI of 1898), the Governor General in Council is pleased to direct that the following amendment shall be made in the rules published in the Notification of the Government of India in the Department of Finance and Commerce, No. 1429C-S. R., dated the 30th March 1899, as amended by the Notification of the Government of India in the Department of Commerce and Industry, No. 595-C., dated the 15th March 1905 namely—

In the proviso to rule 140 after the word 'initials' the words 'or other identifying marks' shall be inserted.

PRACTICAL ARTS AND MUSEUMS.

The 8th February 1906.

No. 1025—4.—In exercise of the power conferred by section 3 (b) of the Indian Museum Act, 1887 (IV of 1887), the Governor General in Council is pleased to appoint Mr. Norman McLeod of the firm of Messrs. McLeod and Company, Calcutta, to be a Trustee of the Indian Museum, *vice* Mr. A. Tocher, resigned.

CUSTOMS.

The 8th February 1906.

No. 1022—13.—In exercise of the powers conferred by section 4, sub-section (3), of the Indian Tea Cess Act, 1903 (IX of 1903), the Governor General in Council is pleased, on the recommendation of the Indian Tea Association, to appoint Mr. G. A. Ormiston, of Messrs. Balmer, Lawrie & Co., Calcutta, to fill the vacancy on the Tea Cess Committee caused by the resignation of Mr. H. Bateson.

GEOLOGY AND MINERALS.

The 9th February 1906.

No. 1115—35.—The following draft of a notification which it is proposed to issue in exercise of the power conferred by section 20, sub-section (2), clause (h) of the Indian Mines Act, 1901 (VIII of 1901), is published, as required by section 20, sub-sections (3) and (4) of the Act for the information of persons concerned, and notice is hereby given that the draft will be taken into consideration by the Governor General in Council on or after the 10th day of May 1906.

2. Any objection or suggestion which may be received from any person with respect to the draft, before the date fixed aforesaid, will be considered by the Governor General in Council.

Draft Notification.

In exercise of the power conferred by section 20, sub-section (2), clause (h) of the Indian Mines Act, 1901 (VIII of 1901), the Governor General in Council is pleased to direct that the following form for reporting the occurrence of accidents in mines shall be

substituted for that prescribed by the Notification of the Government of India in the Revenue and Agriculture Department, No. 3352—45-32, dated the 27th December 1901 :—

No.

NOTICE OF ACCIDENT.

Indian Mines Act, 1901.

From

To—The Chief Inspector of Mines, Calcutta, through the District Magistrate of (1) and (2)

Dated 190 .

SIR,

I have the honour to furnish the following particulars of a ^{fatal}_{serious} accident which has occurred at the Mine :—

Situation of the Mine. 1. (Village, Station, District, Province)			
2. Mineral worked			
3. Name and postal address of owner			
4. Name and sex of persons.		Age.	Occupation.
Killed.	Injured.		
5. Date and hour of accident			
6. Place of accident			
7. Cause and description of accident			
8. Classification of accident (see next page) (4)			
9. Nature of injury, and if fatal, cause of death			

I have the honour to be,

Sir,

Your most obedient servant,

Owner,
Agent,
Manager.

Notes and instructions.

(1) Section 17 of the Indian Mines Act provides that when any accidental explosion occurs in a mine or when any accident occurs in or at a mine causing loss of life or serious bodily injury, the Owner, Agent, or Manager of the mine shall give such notice of the explosion or accident to such authorities in such form and within such a time as may be prescribed. By Notification No. 3352-45-32, dated the 27th December 1901, it is prescribed that the notice should be sent to the Chief Inspector of Mines, Calcutta, through the Magistrate of the District within 24 hours of the occurrence of the accident.

(2) The notice of the accident may be sent through the Sub-Divisional Officer instead of through the Magistrate if that course is more convenient. (Letter from the Government of India, No. 2594-102-3, dated Simla, the 7th August 1902.)

(3) An injury is said to be serious which involves or will in all probability involve the loss of or permanent injury to any limb, or to the sight or hearing, or fracture of any limb, or enforced absence from work for 30 days, or which is declared by any medical officer to be serious. (Circular No. 42-7-6, dated 4th September 1902, of the Government of India in the Department of Revenue and Agriculture.)

(4) The following terms are to be used in column 8 :—

- (1) Explosions of fire-damp; (2) falls of roof; (3) falls of side; (4) in shafts (overwinding); (5) in shafts (ropes and chains breaking); (6) in shafts (whilst ascending or descending by machinery); (7) in shafts (falling into the shaft from the surface); (8) in shafts (falling from part of the way down); (9) in shafts (things falling from the surface); (10) in shafts (things falling from part of the way down); (11) in shafts (miscellaneous); (12) suffocation by gases; (13) by explosives; (14) irruptions of water or falling into water; (15) haulage; (16) by underground machinery; (17) sundries underground; (18) by surface machinery; (19) surface boilers or pipes bursting; (20) on surface railways or tramways belonging to the mine; (21) miscellaneous on surface.

EMIGRATION.

RESOLUTION.

The 1st February 1906.

No. 840-851-5.—The Government of India have received from His Majesty's Consul and Agent at Zanzibar a copy of a Decree, entitled the "Immigration Restriction Decree, 1905," which came into force on the 1st January 1906. The Decree is reproduced below.

DECREE.

BY HIS HIGHNESS SEYYID ALI BIN HAMOUD, SULTAN OF ZANZIBAR.

RESTRICTION OF IMMIGRATION.

PART I.

1. This Decree shall be known as the "Immigration Restriction Decree, 1905."
2. This Decree shall not apply to—
 - (a) Any person possessed of a certificate in the form set out in Schedule A of this Decree and signed by the First Minister of the Zanzibar Government or his deputy or other officer having charge of the administration of this Decree.
 - (b) The officers and crew of any vessel of His Britannic Majesty's Fleet or of the Fleet of any other power.
 - (c) Any person duly accredited to Zanzibar by or under the authority of the Imperial or any other Government.
 - (d) Any person, the subject of a Foreign Power having Treaty rights in Zanzibar, who is not a prohibited immigrant under Clause 3 of this Decree and who can produce a guarantee in the form set out in Schedule B of this Decree signed by the local Consular representative of such Power.
 - (e) The wife and any child, appearing to the officer having charge of the administration of this Decree to be under the age of 16 years, of a person not being a prohibited immigrant, provided that they are not themselves prohibited immigrants within the meaning of sub-sections (b), (c), (d), (e) or (f) of section 3 of this Decree.
 - (f) Natives of Persia, Arabia (exclusive of the Levant), of the British, Italian, German and Portuguese Protectorates on the East Coast of Africa and of the Islands adjacent thereto, including Madagascar, who are not prohibited immigrants under sub-sections (b), (c), (d), (e) or (f) of Section 3 of this Decree.

3. The immigration into the Islands of Zanzibar and Pemba of any person being or appearing to be of any of the classes defined by the following sub-sections (hereinafter called "prohibited immigrant") is prohibited, namely :—

- (a) Any person without visible means of support or any person who is likely to become a pauper or a public charge.
- (b) Any idiot or insane person.
- (c) Any person suffering from a loathsome or dangerous contagious disease.
- (d) Any person who, not having received a free pardon, has been convicted in any country of murder or any crime for which a sentence of imprisonment has been passed for any term, and who, by reason of the circumstances connected therewith, is deemed to be an undesirable immigrant; but this provision shall not apply to crimes of a political character not involving moral turpitude.
- (e) Any prostitute, and any person living on or receiving, or who may have lived on or received, any part of the proceeds of the prostitution of others.
- (f) Any person deemed by the First Minister to be an undesirable immigrant in consequence of information or advice received from any Secretary of State or Colonial Minister, or through diplomatic channels or any Minister, of a foreign country, or from any other trusted source.

PART II.

4. Any person who desires to land at Zanzibar shall, before being allowed to do so, appear before an officer appointed for that purpose, who shall, after such examination as he may consider necessary, inform such person as well as the master of the ship which has conveyed him to Zanzibar, whether he is a prohibited immigrant within the meaning of the Decree.

5. If such person prove on examination to be a fit and proper person to be received as an immigrant into Zanzibar, the Officer shall furnish him with a certificate in form set out in Schedule A and, if not, shall specify the conditions, if any, on which he can be allowed to land.

6. Any police officer or other officer appointed under this Decree may, subject to the exceptions hereinafter contained, prevent any prohibited immigrant from entering the Islands of Zanzibar or Pemba.

7. Any prohibited immigrant making his way into or being found within the said Islands in disregard of the provisions of this Decree shall be deemed to have contravened this Decree. Any person convicted under this section may, in addition to liability to removal or otherwise, be imprisoned with or without hard labour for any term not exceeding six months; provided that such imprisonment shall cease if and when arrangements are made for the deportation of the offender from the said Islands.

8. No person who comes within the definition of a prohibited immigrant shall be released from the operation of this Decree, or allowed to be or remain in the said Islands, merely because he has not been notified not to land, or because he may have been allowed to land through oversight or through want of knowledge that he was a prohibited immigrant. Proof may be adduced within twelve months after any person has entered the said Islands that he was at the time of his entry one of any of the classes whose entry is prohibited, and such person shall be liable to be then dealt with as a prohibited immigrant.

9. If there shall be reasonable cause to suspect that any person has contravened this Decree, and if, in order to prevent justice from being defeated, it is necessary to arrest such person immediately, it shall be lawful for the Officer or police officer to arrest such person forthwith without having a warrant for that purpose, and he shall be required to bring such person before the Court by which he is justiciable forthwith, or, should the ship from which such person landed be on the point of departure, then such person may be handed over to the custody of the master of the ship, who shall be obliged to receive and keep him on board.

10. Any person appearing to be a prohibited immigrant within the meaning of section 3 and not coming within the meaning of sub-sections (b), (c), (d), (e), and (f) of the said section 3 may be allowed to enter the said Islands upon the following conditions :—

- (a) He shall before landing himself deposit with the Officer (1) if a native of Asia the sum of fifty rupees, (2) any other person the sum of seven hundred and fifty rupees.
- (b) If such person shall within one week after entering the said Islands obtained from the First Minister a certificate that he does not come within the prohibition of this Decree the deposit shall be returned.
- (c) If such person shall fail to obtain such certificate within one week, the deposit may be forfeited and he may be treated as a prohibited immigrant.

In the case of any person entering the said Islands under this section no liability shall

attach to the vessel or to the owners of the vessel in which he may have arrived at any port of the said Islands.

11. The First Minister may authorize the Officer to make a contract with the master, owners or agent of any vessel for the conveyance of any prohibited immigrant found in the said Islands to a port in or near to such immigrant's country of birth, and such immigrant with his personal effects may be placed by a police officer on board such vessel.

12. Any person who shall be instrumental in bringing into the said Islands any idiot or insane person without a written or printed authority signed by the First Minister shall be deemed to have contravened this Decree and, in addition to any other penalty, shall be liable for the cost of the maintenance of such idiot or insane person whilst in the said Islands.

13. Any officer for the purposes of this Decree shall be empowered to board as often as may be necessary all ships entering inward at any port of the said Islands in the performance of his duties under this Decree.

14. The master of a ship arriving at any port of the said Islands shall, upon being thereto requested by the Officer at the port, furnish to him a list in duplicate, signed by himself, of all passengers and other persons then on Board not forming a portion of the regular crew of the vessel.

15. A master shall also, if required thereto prior to his departure from the port, produce his articles and muster his crew, and if it be found that any person named on the articles who in the opinion of the officer would be a prohibited immigrant is not then present, such person shall be deemed to have entered the said Islands contrary to this Decree, but the master and agent of the ship, provided that they have made proper provision for police protection, shall not be responsible for any contravention of the provisions of this section.

16. Whenever it shall be deemed necessary for the effective carrying out of this Decree to regulate intercourse from the shore with any vessel in the port having on board any prohibited immigrant, the officer may take such steps with the approval of the First Minister as may appear proper in that behalf.

17. The master and owner of any ship from which any prohibited immigrant may be landed or may land shall be liable jointly and severally to a maximum penalty of one hundred pounds sterling in respect of each prohibited immigrant landed or who may land, and the vessel may be refused a clearance outward until any penalty incurred has been paid and until provision has been made by the master to the satisfaction of the Officer for the conveyance out of the said Islands of each prohibited immigrant who may have been so landed, and the vessel may be made executable by a decree of the Court by which the owner is justiciable in satisfaction of any penalty imposed under this section. The word "clearance" as used in this Decree includes all the documents ordinarily issued by the Collector of Customs to a ship about to leave port including the document known as the Bill of Health.

PART III.

18. Any person being a prohibited immigrant within the meaning of this Decree may apply to the Officer for a pass to enter the said Islands for a temporary visit or for the purpose of embarking at the port for some other country. Such passes shall be known as Visiting Passes and Embarking Passes, respectively, and shall be in the forms prescribed by the Regulations made under this Decree. The words "the port" mean any port in the Islands of Zanzibar and Pemba.

19. The applicant shall attend before the Officer and shall answer all such questions as the Officer may put in order to satisfy himself that the pass ought to be granted and shall deposit with him the appointed sum of money, that is to say:—For a Visiting Pass the sum of one hundred and fifty Rupees together with an additional sum of one hundred and fifty Rupees where the pass includes the wife and children of the applicant.

For an Embarkation Pass the sum of one hundred and fifty Rupees for each adult and seventy-five Rupees for each child.

The word "child" as used in this and succeeding Sections means a person appearing to the Officer to be under the age of sixteen years.

20. Except in the case of a person accompanied by his wife and children a separate pass shall be required for each person seeking to enter the said Islands for the purpose of a visit or for embarking.

21. No such person shall be entitled as of right to obtain a Visiting Pass or an Embarkation Pass, and the Officer appointed to issue such passes shall have the discretion to grant or refuse any such pass, subject however to any direction which may be given him by the Officer or by the First Minister.

22. A Visiting Pass shall be a sufficient authority for the person or persons named therein to enter the said Islands and to remain there during the period stated in the pass. Such period shall not exceed twenty-one days, but any Officer appointed under the Decree may, for sufficient reason appearing, extend the period from time to time by an endorsement

on the pass. No extension shall be made for more than fourteen days at a time, and no such pass may be extended beyond six weeks from the date of the pass except with the consent of the First Minister.

23. The money deposited for a Visiting or Embarkation Pass shall be returned to the depositor upon the pass holder quitting the said Islands within the time named in the pass or any extension thereof, or may, in the event of the pass-holder failing to quit the said Islands within the specified time, be applied by the Officer, in so far as the sum deposited shall suffice therefor, in obtaining a passage for the person or persons named to their destination. Any balance of the money deposited shall be returned to the depositor as hereinbefore provided, or may, in the discretion of the Officer, be expended in any other necessary or proper manner by the desire of the depositor.

24. Any person being a prohibited immigrant within the meaning of the Decree who shall enter the said Islands in pursuance of a Visiting Pass, and who shall remain therein beyond the time allowed by such pass or by a lawful endorsement thereon, or who may misuse the pass or allow any fraudulent use to be made of it, shall be deemed to have contravened this Decree and shall, upon conviction, suffer forfeiture of the amount deposited by him and render himself liable to the punishment prescribed by Section 7 of the Decree.

PART IV.

25. Any person appearing to an Officer under this Decree to be over the age of sixteen years shall be regarded as an adult for the purposes of this Decree.

26. The First Minister may appoint Officers for the purpose of carrying out the provisions of this Decree and may define the duties of such Officers, and where in this Decree the expression "the Officer" is used such expression shall be taken to mean any Officer so appointed.

27. The First Minister may from time to time make, amend and repeal Regulations for the better carrying out of this Decree.

28. Any person who shall by false declaration obtain or seek to obtain, either for himself or for another person not being entitled thereto, any certificate or document intended to secure the entry into the said Islands of any person in violation of the provisions of this Decree, and any person who may fraudulently use any such certificate or other document, shall be guilty of a contravention of this Decree.

29. The following shall be contraventions of this Decree :—

(a) Assisting any prohibited immigrant to enter the said Islands or knowingly being party to the introduction of any person of class (e), of Section 3 of this Decree.

(b) Aiding or abetting a prohibited immigrant or any other person in any contravention of this Decree or of the Regulations.

(c) Resisting or obstructing actively or passively any Officer in the execution of his duty.

(d) Wilfully disobeying or disregarding any obligation imposed by, or any lawful order made under, this Decree or the Regulations.

30. Every person guilty of a contravention of this Decree or of any regulation passed thereunder shall, where no penalty is expressly imposed, be liable to a fine not exceeding one thousand Rupees, or, in default of payment thereof, imprisonment with or without hard labour for a period not exceeding six months, or he may be sentenced to such imprisonment as aforesaid without the option of a fine.

31. Any penalty incurred by the master of a ship shall be paid before the ship's clearance is granted. Notice in writing by the Officer to the Collector of the Customs of any claim against the Master, owners or agents of a ship for a penalty shall be a sufficient authority to him to refuse the ship's clearance until such order is withdrawn or is set aside by the order or judgment of a Court. Such a notice to the Port Captain or Harbour Master shall be authority to him to refuse to take a ship or allow it to go outside the port to any outer harbour or anchorage. When such notice is given the Officer shall with all speed inform the First Minister and take all such steps as may be necessary in order that proceedings in respect of the contravention may be instituted without loss of time.

32. The enforcement of any money penalty may be either by criminal prosecution or by civil action at the instance of the Officer. Any Court having jurisdiction to try a contravention of this Decree or of the Regulations may impose a penalty of one thousand Rupees or imprisonment with or without hard labour. Such imprisonment may in any criminal prosecution be awarded either absolutely or in default of the payment of the penalty.

33. This Decree shall come into force on the 1st January 1906.

ALI BIN HAMOUD;
Sultan of Zanzibar,

19th November 1905.

RAILWAY BOARD.

NOTIFICATIONS.

Calcutta, the 3rd February 1906.

No. 29.—It is hereby notified for general information that the Railway Board have sanctioned a reconnaissance survey for a line of railway from Nyaungyan or Thazi on the Burma Railways to Sanghai, a distance of about 112 miles.

2. This survey will be known as the Southern Shan States Railway Survey of 1906 and has been placed under the control of the Director of Railway Construction.

The 8th February 1906.

No. 30.—With reference to Railway Board Notification No. 29, dated the 3rd February 1906, Mr. G. Moyle, Chief Engineer, 2nd class, and Engineer-in-Chief, Eastern Bengal State Railway, is appointed Engineer-in-Chief of the Southern Shan States Railway Survey of 1906.

No. 31.—With reference to Railway Board Notification No. 30, dated the 8th February 1906, Mr. W. R. Haughton, Engineer-in-Chief, Ranaghat-Godagari-Katihar Railway, is appointed Engineer-in-Chief of the Eastern Bengal State Railway.

No. 32.—With reference to Railway Board Notification No. 31, dated the 8th February 1906, Mr. W. Nathan, Executive Engineer, 1st grade, is appointed to officiate as Engineer-in-Chief of the Katihar-Godagari Railway, with the rank of Officiating Superintending Engineer, until further orders.

No. 33.—Mr. R. C. Moss, Assistant Engineer, 2nd grade, is transferred from the Murshidabad Branch (Eastern Bengal State Railway) to the Eastern Bengal State Railway.

No. 34.—Mr. T. Michell, Chief Engineer, 2nd class, State Railways, is permitted to retire from the service of Government under Article 465 of the Civil Service Regulations, with effect from the 3rd February 1906.

The 9th February 1906.

No. 35.—Mr. C. Muirhead, Examiner of Accounts, Oudh and Rohilkhand Railway, is granted, under Articles 233, 260 and 308 (b) of the Civil Service Regulations, combined

leave for seven months, *vis.*, privilege leave for three months and furlough for the remaining period, with effect from the 14th March 1906 or subsequent date.

No. 36.—Mr. T. W. T. Wheeler, Deputy Examiner of Accounts, has been granted by His Majesty's Secretary of State for India furlough for one year in extension of that sanctioned in Public Works Department Notification No. 53, dated 8th February 1905.

NEVILLE PRIESTLEY,
Secretary, Railway Board.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, FEBRUARY 10, 1906.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 17th November 1905.

From the 25th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 18th November all Notifications and other matter intended for publication in the Gazette should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

INVENTIONS and DESIGNS.

Calcutta, the 8th February 1906.

NOTIFICATION.

Erratum—

In Notification No. 424 P., dated the 1st February 1906, published in Part II of the *Gazette of India*, dated the 3rd February 1906, for Bennett in No. 58 of 1906, read Dennett.

No. 500 P.—APPLICATIONS in respect of the under-mentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 3rd February 1906:—

No. 60 of 1906.—John James McLaughlin, dock-master, care of H. V. Williams & Co., patent agents and engineers, No. 14 Hare street, Calcutta. *A revolving holder for bridge scoring block and cards.*

No. 61 of 1906.—Frederick William Gwyther, carriage foreman, and Henry William Herbert, general foreman, both of the E. B. S. Ry., Northern Section Workshop at Saidpur. *A combined self-closing catch and private lock for railway carriage doors.*

No. 62 of 1906.—Edgar George Payne, manufacturer of literary and invalid appliances, of 6a New Cavendish street, Portland Place, London, W. *Improved bier apparatus.*

No. 63 of 1906.—Wilford Arthur Peloquin Cosserat, signal engineer, on the Bengal Nagpore Railway, c/o Messrs. Remfry & Son, solicitors and patent agents, of Calcutta, British India. *Improvements in signals and in cabin levers used therewith.*

No. 64 of 1906.—James Edwin York, engineer, of No. 1811 Albermarle road, Borough of Brooklyn, in the city of New York, United States of America. *Improved method of and apparatus for rolling rails or other elongated metal shapes.*

No. 65 of 1906.—Eugenio Boggiano, barrister, of 50 Via Monte Della Farina, Rome, in the kingdom of Italy. *Improvements in automatic vote recording machines.*

No. 66 of 1906.—James Rostron, overlooker, of 317 Mill street, Manchester, England, and Thomas Worman, soap maker, of 21 Cross street, Bradford, Manchester, England. *Improvements in automatic web replenishing devices for looms.*

No. 67 of 1906.—P. Deys, electro-therapeutist, 7-1 Wellesley Place, Calcutta. *An electro-therapeutic body appliance.*

No. 68 of 1906.—William Tice, engineer, in the employ of Messrs. Bird & Co., 101-1 Clive street, Calcutta. *Improvements in or relating to turnstile gates and the like.*

No. 69 of 1906.—Thomas Sands Cox, Captain, 16th Cavalry, Dera Ismail Khan, North-West Frontier Province. *Cox's combined cavalry link, fore-shackle, and standing martingale.*

No. 70 of 1906.—Frederick Hosking and Albert Curnow, mining engineers, of Mari-kuppam, Mysore. *Improvements in automatic ore feeders as applied to stamp mills.*

No. 501 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public

inspection, from 11 A.M. to 3 P.M., at the Secretary's office, 2 Bankshall street, Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 346 of 1904.—H. Kutubdin, chief engineer, of S. S. Jhelum, at Kotri, Hyderabad, Sind. *An oil extractor.* (Specification filed 2 September 1905.)
- No. 298 of 1905.—Lester Willis Gill, of the city of Kingston, province of Ontario, Canada. *Improvements in spinning and twisting machines.* (Specification filed 31 January 1906.)

- No. 305 of 1905.—John George Henrich, mineral water manufacturer, of Milton House, 5, Clifton road, Camden square, London N. in England. *Improvements in stoppers for syphon bottles or vessels and in taps therefor applicable also to fire extinguishers.* (Specification filed 25 January 1906.)
- No. 306 of 1905.—The Consolidated Engineering Company, Limited, engineers, of Gotha Works, Slough, in the county of Bucks, England. *Improvements in or connected with automatic vacuum brakes.* (Specification filed 25 January 1906.)
- No. 311 of 1905.—John Lewis Weaver, manufacturer, of Boise, in the county of Ada, and state of Idaho, one of the United States of America. *Improvements in and relating to method of and apparatus for placer mining.* (Specification filed 27 January 1906.)
- No. 314 of 1905.—Ardeshir Temulji Mirza, mechanical engineer, of Jamnagar, Kathiawar. *Improvements in automatic sluice gates.* (Specification filed 31 January 1906.)
- No. 334 of 1905.—The Morgan Crucible Company, Limited, manufacturers, of Battersea Works, Battersea, London, England. *An improved manufacture of composition or compound for brushes of dynamo-electric machines, for bearings, and for other articles.* (Specification filed 25 January 1906.)
- No. 335 of 1905.—Richard John Thomas, engineer, of Mossman, in the state of Queensland, commonwealth of Australia, and William Francis Seymour Howe, analytical chemist, of Mossman, as aforesaid. *Improvements in the defecation or clarifying of juices in the manufacture of sugar.* (Specification filed 25 January 1906.)
- No. 341 of 1905.—Villupuram Rajaratna Swaminatha Mudaliar, partner, Messrs. T. A. Ponnu & Co., Madras, residing at No. 5 Gangadara Easwarar Coil street, Pурсawalkum, Madras. *A self bucket lifting and depositing hand sanitary cart.* (Specification filed 24 January 1906.)
- No. 376 of 1905.—Cecil Osmond Manuel, manager, Burmah Oil Company's Works, Budge Budge. *Improvements in tins for holding fluids.* (Specification filed 31 January 1906.)
- No. 481 of 1905.—Clarke, Chapman & Company, Limited, and William Armstrong Woodeson, engineers, both of Victoria Works, Gateshead-on-Tyne, in the county of Durham, England. *Improvements in steam boilers.* (Specification filed 24 January 1906.)
- No. 502 of 1905.—Colin McDonald, Captain on S. S. Gracchus, Australian Currie Line, of 63 Park street, St. Kilda, Melbourne, in the commonwealth of Australia. *Improvements in and relating to the shipping of horse and cattle.* (Specification filed 24 January 1906.)
- No. 525 of 1905.—John Charles Bowring, engineer, of 90 Pitt street, Sydney, in the state of New South Wales, in the commonwealth of Australia. *Improvements in and relating to furnace grates for steam power production and other purposes.* (Specification filed 31 January 1906.)
- No. 551 of 1905.—George William Mellor, solicitor, of 12 Coleman street, in the city and county of London, England. *Improved fireproof wooden-cored plaster slab for building and other purposes.* (Specification filed 25 January 1906.)
- No. 552 of 1905.—George William Mellor, solicitor, of 12 Coleman street, in the city and county of London, England. *Improved process and apparatus for preparing and cutting veneers.* (Specification filed 1 February 1906.)

No. 566 of 1905.—John Simpson, engineer, of Braehead, Whins of Milton, Stirling, in the county of Stirling, Scotland, Matthew James Oliver, medical officer of health, for the county of Roxburgh, of "Hawthorndene," St. Boswells, county of Roxburgh, Scotland, and William Robertson, medical officer of health for Leith, county of Midlothian, of 11 Denham Green Terrace, Edinburgh, county of Midlothian, Scotland. *Improvements in disinfecting apparatus.* (Specification filed 2 February 1906.)

No. 567 of 1905.—Heinrich Otto Brandt, merchant, of Sackville street, Manchester, in the county of Lancaster, England. *Improvements in reducing oily materials to a fine state of sub-division and in applying same to road and other surfaces.* (Specification filed 1 February 1906.)

No. 502 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 53 of 1894.—Amyas Morse. *Securing the safe working of facing points and signals, to be called Morse's point and signal locking bar.* (From 5 June 1906 to 5 June 1907.)

No. 224 of 1896.—Leopold Cassella and Company. *New processes for producing poly azo-dyestuffs from amidonaphtholsulpho acids.* (From 5 February 1906 to 5 February 1907.)

No. 191 of 1899.—Alexander Muirhead. *Improvements in telegraphic transmitting, receiving, and translating arrangements.* (From 3 February 1906 to 3 February 1907.)

No. 237 of 1899.—Guglielmo Marconi and the Wireless Telegraph and Signal Company, Limited. *Improvements in apparatus employed in wireless telegraphy.* (From 6 February 1906 to 6 February 1907.)

No. 478 of 1899.—Benjamin Garver Lamme. *Improvements in systems of electrical distribution.* (From 23 February 1906 to 23 February 1907.)

No. 479 of 1899.—Benjamin Garver Lamme. *Improvements in dynamo-electric machines.* (From 23 February 1906 to 23 February 1907.)

No. 259 of 1900.—Henry Lyon and John Burrell Talbot-Crosbie. *Improvements in refrigerating apparatus.* (From 1 February 1906 to 1 February 1907.)

No. 490 of 1900.—The Westinghouse Brake Company, Limited. *Improvements in electro-magnetic brake devices.* (From 23 February 1906 to 23 February 1907.)

No. 503 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 43 of 1901.—William Francis McDermid, Henry Chapman Trigg and William Bramham. *Improvements in brakes for railway wagons and similar vehicles.* (Specification filed 29 October 1901.)

No. 100 of 1901.—Jean Jacques Heilmann. *Improvements in and relating to the electrodes of accumulators and the manufacture thereof.* (Specification filed 29 October 1901.)

No. 122 of 1901.—James Gilbert Daw. *An improved form of stamping-heads and dies or anvils on which the heads beat for the purpose of crushing metaliferous ores.* (Specification filed 29 October 1901.)

No. 126 of 1901.—Joseph Hunt Elliott. *A new or improved arrangement for hanging and pulling punkhas.* (Specification filed 29 October 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

No. 133 of 1894.—William Henry Casebourne. *A process of manufacturing pipes, junctions, bends and other things from dry or powdered portland, Roman and other artificial and natural cements.*
(Specification filed 31 October 1894.)

Fee in respect of the continuance of an exclusive privilege—

4 (h) After the expiration of the tenth year and before the expiration of the eleventh year from the date of filing of the specification—

The sum of Rs 100 for the above invention.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2 Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2 Bankshall Street, Calcutta.

H. G. GRAVES,
Secretary under the Inventions
and Designs Act, V of 1888.

* Agents for sale of the Legislative Department publications

NOTICE.—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through Local Governments to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agents of the particular Government under whose orders they were originally issued.

The amounts within parentheses are for packing and postage.

SUPPLEMENT TO
The Gazette of India.

No. 6. } CALCUTTA, SATURDAY, FEBRUARY 10, 1906.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 8th February 1906, based on the India Daily Weather Reports of the period.

During the week under review the weather has again been unsettled over north-west India, and showers have been received at some central stations and in west Bengal. On February second a small storm lay over the central Punjab, and on that and the two following days snow and rain was received over the western Himalayas and some rain over the submontane districts. Murree, during this disturbed period, received 0·55", Simla 1·07", Rawalpindi 0·54" and Cherat, Peshawar, Multan, Lahore, Sialkot, Ludhiana, Ambala, Dehra Dun and Roorkee small amounts. On the 5th, 6th and 7th the weather was fine in the north-west, but on the 8th another burst of unsettled weather occurred, when rain was received over almost all parts of the Punjab (except Delhi), the North-west Frontier Province, the west of Rajputana and Gujarat. The amount received was about half an inch at Chakrata, Simla, Murree, Cherat and Peshawar, and about one quarter of an inch at Ludhiana, Sialkot, Rawalpindi, Jodhpur, Mount Abu, Bhuj and Deesa. Rain was also reported during the week from the area including the south and east of the Central Provinces and Chota Nagpur, where Raipur reported 0·54" and Chaibassa and Chanda about 0·20" on the 4th; Sambalpur 1·07", Chaibassa 0·00", Ranchi 0·27" and Balasore 0·18" on the 5th; Chaibassa 0·90" and Ranchi and Hazaribagh 0·25" on the 6th; and Ranchi 0·29" on the 7th. Finally light rain was received over parts of Assam and Upper Burma on the 6th and 7th.

The rainfall table hence shows actually or practically no rain over Burma, the Delta of Bengal, Bihar, the Cawnpore division of the Gangetic Plain, the Jubbulpore division of the Central Provinces, the Central India Plateau and the whole of the Peninsula. Elsewhere more or less rain has been received—the average actual fall for the week ranging from 1·04" in the Ranchi sub-division and 0·85" in the Simla sub-division to 0·12" in Assam and 0·14" in Kathiawar. The week's rainfall exceeded the normal in the Simla, Ranchi, Raipur, Indore (where, however, the total was unimportant) and Rajkot sub-divisions and the North-West Dry division. The seasonal condition shows a change in Kathiawar but otherwise there has been no important alteration since last week.

RAINFALL DIVISION WITH REPRESENTATIVE STATION.	Rainfall sub-division named after representative station.	RAINFALL DATA FOR WEEK ENDING ON 8TH FEBRUARY 1906.			RAINFALL DATA FROM 1ST DECEMBER 1905 TO 8TH FEBRUARY 1906.			SEASONAL PERCENTAGE DEPARTURE FROM NORMAL.	
		Average actual rainfall.	Average normal rainfall.	Excess or defect in inches.	Average actual rainfall of season to date.	Average normal rainfall.	Excess or defect in inches.	This week.	Last week.

W. L. DALLAS,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,

Secretary to the Government of India.

SIMLA:

The 8th February 1906.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 3rd February 1906.

Burma.—Akyab received 35 cents of rain and Bhamo and the Northern Shan States 7 cents and 9 cents, respectively, during the week. Reaping of wet weather paddy is practically completed in Lower Burma. Threshing and winnowing are completed in some districts and are progressing in others in Upper Burma. Reaping of wet weather paddy is now completed in three more districts and in the Southern Shan States and threshing has been completed in Myitkyina. Sowing of dry weather paddy is completed in Tavoy and Katha and transplanting has commenced in the latter district. Reaping of jowar is completed in the Monywa sub-division and has commenced in Yinmabin sub-division of Lower Chindwin. Sowings of island crops, gram and beans have been completed in Myingyan. The condition of the standing crops is good and crop prospects are favourable. The price of paddy has risen slightly in Rangoon, Pegu, and Prome and fallen considerably in Myitkyina and slightly in four other districts.

Eastern Bengal and Assam.—The weather is seasonable. There was slight rain in Malda and in most of the Assam districts during the week. Pruning of tea is in progress. Harvesting of winter rice is nearly finished. Sowing of spring crops continues. The outturn of winter rice and the prospects of other crops are generally fair. Lands are being prepared for early rice and jute. Fodder is insufficient in parts of Mymensingh and the Khasi and Jaintia hills. Prices of common rice :—Sibsagar 13 ; Dinajpur 11½ ; Chittagong, Silchar, and Tejpur 11 ; Malda, Rampur Boalia, and Bogra 10½ ; Jalpaiguri, Rangpur, Barisal, Rangamati, Gauhati, Nowgong, and Tura 20 ; Comilla and Sylhet 9½ ; Pabna 9½ ; Dacca, Faridpur, Noakhali, Dhubri, and Dibrugarh 9 ; and Mymensingh 8 seers per rupee.

Bengal. There was general rain in the Province except in a few districts. The fall was for the most part light. Sugarcane-pressing is going on. The recent rain has done some good to the standing spring crops, but more rain is needed in some of the Bihar districts. Prospects are generally fair. Fodder is reported to be insufficient in parts of the Darbhanga district only. The water-supply is sufficient. The price of common rice is high in most of the districts of the Burdwan and Presidency Divisions and also in Monghyr and Purnea. It is especially high in Jessore and Khulna where common rice is selling at between 7 and 9 seers a rupee.

United Provinces.—Rain fell during the week in all except three districts of the Provinces and with beneficial results to the standing crops in Saharanpur, Muzaffarnagar, Shahjahanpur, Pilibhit, Kheri, Benares, Jaunpur and Basti. Rain is urgently needed in Mainpuri, Hardoi, and Sitapur where none fell during the week and in Moradabad, Bareilly, Bulandshahr, Aligarh, Agra, Farrukhabad, Budaan, Rae Bareilly, Fatehpur, Allahabad, Cawnpore, Bundelkhand and Rampur where the fall has so far been insufficient. Considerable damage to crops by hail is reported from parts of Farrukhabad, Sitapur, and Banda, and hail, frost and insects have slightly injured the crops in eight other districts. The want of fodder is being felt in twenty-one districts and specially in Aligarh where the cattle are being fed on leaves of trees and in Hamirpur where they are being fed on chopped thorn bushes. Prices continue high all over the Provinces and are rising in Meerut, Muttra, Agra, Budaan, Sitapur, Fatehpur, Allahabad, Jaunpur, Jhansi and Rampur. The total number of persons on relief in Muttra, Jhansi, Jalaun, and Cawnpore at the end of the week was 96,147.

The weekly report on the famine and scarcity is as follows :—The average rainfall in distressed districts was Jalaun, Jhansi and Cawnpore each one cent, Muttra seventeen cents. The condition of unirrigated crops in parts of Jalaun is not so bad as reported last week. Scarcity of fodder continues and distress is increasing in Jalaun where cases of emaciation from want of food are becoming noticeable ; generally the condition of the people is fair. Prices are rising slightly in Jhansi and Muttra. The numbers on relief are now :—workers Jalaun 30,000, Jhansi 11,000, Muttra 7,000, Cawnpore 6,000 ; on gratuitous relief :—Jalaun 23,000, Jhansi 5,000, Muttra 5,000, total workers 63,000 ; on gratuitous relief 33,000, grand total 96,000. Test works in Unao opened on the 1st instant are not attracting workers.

Punjab.—There was slight rainfall in all districts except Rohtak and Gurgaon. Prices continue to show a tendency to rise ; wheat is rising in Gurgaon, Jullundur, Ferozepore, Sialkot, Mianwali, Lyallpur and Multan and falling in Rawalpindi. Pressing of sugarcane continues in Jullundur and Sialkot. Sowings of extra spring crops are proceeding. The

standing crops have benefitted by the recent rain, but more is very urgently wanted throughout the Province. The condition of irrigated crops is generally fair but of unirrigated below average to poor and in the Delhi Division bad. Wheat has been damaged by white ants in Gurgaon: turnips by *tela* (an insect), in Multan; and rape by frost in Gurgaon and Lahore. Cattle are in impoverished condition in Gurgaon, Delhi, Sialkot, and Mianwali owing to the want of sufficient and proper food. Fodder is scarce except in Rawalpindi, Lyallpur and Multan; the leaves of trees and prickly shrubs and sugarcane heads are being substituted for fodder. The water supply is poor in Delhi and Lahore.

North-West Frontier Province.—Rain varying from one inch in Hazara and half an inch in Peshawar to slight showers elsewhere has fallen all over the Province and has benefitted the standing crops, but more is urgently needed in Kohat, Bannu and Dera Ismail Khan. The prospects of irrigated crops are good and of unirrigated poor in Dera Ismail Khan and good or fair elsewhere. The water supply is ample. Fodder is sufficient except in the Damjan tract of Dera Ismail Khan. Prices:—wheat 12 to 15; gram 14 to 20; maize 16 to 20; and bajra 14 to 16 seers per rupee. The steady drain of food grains across the border and down country is causing prices to rise.

Jammu.—Slight rain fell during the week. Prices are rising. Prices:—wheat 12½ to 20 and maize 16 to 28 seers per rupee. The condition of the standing crops is good. Fodder is sufficient. The recent rain has been beneficial to the standing crops.

Kashmir.—The weather is snowy and intensely cold. Prices are stationary.

Rajputana.—There was no rain except insignificant showers in parts of Marwar. The spring crops are being watered or weeded but the cultivated area is generally restricted. Slight damage from frost is reported from Kotah, Jhalawar, and Ajmer. The condition of cattle is poor in North Mewar, Jaipur, Kishangarh, Karauli, Alwar, Bharatpur, and parts of Marwar, Tonk and Kotah; in these tracts and in Dholpur and Ajmer-Merwara pasturage and fodder are very insufficient. The water-supply is failing in Kotah, Jhalawar, and Dholpur. Prices have risen by 1½ and 2½ seers per rupee in Mewar and Jhalawar, respectively, and by half a seer per rupee in Marwar, Sirohi, Shahpura, and Merwara district; elsewhere prices are practically steady. The numbers on famine relief are:—Ajmer-Merwara 46,119; Native States 28,540; test works—North Mewar 1,989, Shahpura 545, Tonk 827, Jaipur 3,319, Alwar 2,438; on gratuitous relief—North Mewar 427; grand total 84,204 or an increase of 8,708.

The weekly report on the famine and scarcity is as follows:—Ajmer-Merwara—on works Ajmer 15,388, Merwara 16,309; on gratuitous relief—Ajmer 6,805, Merwara 7,617, total 46,110 or an increase of 3,814. Prices:—Ajmer 10½, and Merwara 10½ seers per rupee. The people are resorting freely to the works. There is no wandering or large influx of foreigners. A few cases of emaciation are reported. Clothing is being distributed from charitable funds. Native States:—Marwar—on works 2,956, on gratuitous relief 2,031, total 4,987; Kishangarh—on works 2,619, on gratuitous relief 2,390, total 5,009; Karauli—on works 3,862, on gratuitous relief 1,484, total 5,346; Bharatpur—on works 9,030, on gratuitous relief 2,031, total 11,061; Dholpur—on works 1,446, on gratuitous relief 691, total 2,137. Prices:—Marwar 11½, Kishangarh 12, Karauli 9½, Bharatpur 11½, Dholpur 13, seers per rupee. Distress is severe in Central Bharatpur and is increasing in Karauli, but relief arrangements in both States are adequate as also elsewhere.

Central India.—There was partial rain in Baghelkhand and Malwa during the week. Irrigation of spring and harvesting of autumn crops are in progress. The standing crops are fair in Bhopal, Malwa, and Bhopawar; average in Bundelkhand; indifferent in Baghelkhand; and in worst condition in one pergana of Indore. Irrigated spring crops are normal in parts of Gwalior. The probable outturn is fair in Bhopal, Bhopawar and Indore; and below average in Baghelkhand, Bundelkhand, and Malwa. Crops have been slightly damaged in parts of Gwalior, Bhopal, Bundelkhand, and Malwa. Spring crops are suffering in some parts of Bhopawar, and Indore for want of moisture. Agricultural stock is bad in parts of Gwalior and in north of Bundelkhand. Pasturage is bad in parts of Gwalior and scarce in north of Bundelkhand. Prices are rising in Gwalior, Bhopal, Bhopawar, Indore, and in parts of Malwa; are steady in Bundelkhand; and continue high in Baghelkhand. Opium has been slightly damaged by frost in one pergana of Gwalior.

The general position in Gwalior and Bundelkhand is unaltered. The prices of staple food grains in Bundelkhand vary from 12 to 13½ seers per rupee. The numbers on works are:—Gwalior 24,000, on gratuitous relief 3,000, total 27,000. In Datia, Samthar, Baoni, Charkhari, Bijawar, Chhatarpur and Jagirs the numbers on works are 15,500, on gratuitous relief 2,500, total 18,000, grand total 45,000.

Central Provinces.—The weather has been generally cloudy. Mandla, Raipur, and Bilaspur received over ½ an inch of rain and these and the previous weeks showers have been beneficial to late sown crops. Hail which fell in Mandla, Narsinghpur, Chindwara

and Nagpur is reported to have caused no appreciable damage to crops. Slight damage is reported to spring crops by cloudy weather from Raipur and by frost from Seoni and Hoshangabad. The harvesting of spring crops is in progress in eleven districts; the wheat and linseed crops promise nearly a normal outturn in the Central Provinces as a whole; in Berar the spring crops are poor. The price of wheat has fallen slightly in the important wheat growing districts; gram has risen by 2 seers per rupee in Mandla and by 4½ seers in Chanda; elsewhere prices are steady or fluctuate slightly. Owing to short crops in the United Provinces and Rajputana all prices are very high and considerably higher than those ruling at this time last year.

Baroda.—For week ending 27th January. The numbers were as follows:—on works 2,866; on gratuitous relief 172; total 3,038.

Bombay.—During the past week there was very slight rain in parts of Karachi, Larkana and Upper Sind Frontier, elsewhere there was none. Damage to spring crops from frost is again reported from Hyderabad and Panch Mahals. Water in irrigation tanks and wells is deficient in the affected districts and irrigated crops are withering in parts of Ahmednagar. Steps are being taken to improve the water-supply as already reported and several borings in Ahmednagar have been successful. Picking of cotton still continues in parts of Sind, Gujarat, and the Karnatak. The condition of cattle continues to deteriorate in the affected parts of the Deccan, Southern Maratha Country, and the Karnatak, elsewhere their condition is generally satisfactory except in Karachi. Cattle are still sent from the East Deccan and the Karnatak districts for grazing into Moglai but are returning for want of fodder and water. Sale of old and useless cattle for low prices continues. Plough cattle are insufficient in Ahmednagar. Scarcity of fodder is felt in some districts; there is a brisk demand for grass imported into the Deccan and the Karnatak by Government agency; *kadbi* (juar stalks) is still being imported from Moglai into Ahmednagar. The increase in prices of staple grains remains from 20 to 80 per cent. over the normal in the Deccan and Karnatak; a moderate increase is also maintained in the Konkan. Relief works have been opened in Belgaum, Ahmednagar, and the Southern Maratha Country and are about to be started in Bijapur. The daily average numbers on relief works for the week ending 27th January were:—Belgaum 2,733; Sholapur 266; Sangli 126; dependants:—Belgaum 596; Sholapur 46. The numbers on test works are still increasing and on the last day of the week were:—Ahmednagar 415; Sholapur 767; Satara 422; Bijapur 1,298; Belgaum 266; Jath 134; Aundh 90; total 3,392. There is a large increase in the daily average numbers on gratuitous relief except in Ahmednagar; the numbers were:—Ahmednagar 2,890; Poona 1,395; Bijapur 2,378; Belgaum 3,209; Jath 758; Daphlapur 50, total 10,610. A poor-house has been opened in Belgaum. The increase in numbers on relief is due to the return of emigrants and to deterioration in the condition of labourers and cultivators, but the demand for work at famine wages is still not keen. In Nasik and Poona ordinary works are in progress and takavi and water-supply works are sufficient to meet the present demand. Emigration from the affected tracts continues but is decreasing. There is no aimless wandering and no emaciation is reported.

Hyderabad.—Rainfall—3 cents. The spring harvest is in progress in twenty-seven talukas. Late rice sowings continue in seventeen talukas. Fodder scarcity exists in twenty-seven talukas and water scarcity in sixteen villages. The attendance on works in the affected talukas amounted to 1,276 persons. The price of jowar has risen from a half to four seers per rupee in twenty talukas and fallen from one to two seers in four. Prices—wheat 5½; coarse rice 7½; and jowari 15½ seers per rupee.

Mysore.—Prices are generally steady. Crops are in fairly good condition and have been harvested in some parts of the Province. Ploughing operations have begun. Prospects are generally fair. Cattle are healthy. Water and fodder are generally available except in parts of Mysore, Hassan, Shimoga and Chitaldrug.

Coorg.—Picking of coffee and threshing of rice continue. Prices of food grains are normal. Water and fodder are sufficient.

Madras.—There was no rain during the week. Irrigation supplies are insufficient in parts of the Circars, Bellary, Anantapur, and the Central and Southern Districts. Ploughing, sowing, weeding, and transplanting are in progress. The standing crops are generally fair but some in parts of Bellary, Salem, Coimbatore, Tanjore, and Malabar require more rain and some in parts of Madura and Tinnevely are withering. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient everywhere except in parts of the Circars and the Deccan. Fodder is scanty in parts of Godavari, South Arcot, Coimbatore, and Tanjore. The condition of cattle is generally good. The price of rice is stationary in eight districts; has fallen in eight; and has slightly risen in seven. The prices of millets have fluctuated as follows:—ragi is stationary in five districts; has fallen in seven; and has slightly risen in nine. Cholam is stationary in four districts; has fallen in six; and has slightly risen in four. Cumbu is stationary in two districts; has fallen in eight; and has slightly risen in five.

J. WILSON,
Secretary to the Government of India.

No. 116.—The following direct appointment is made with effect from the date of joining:—

26th Punjabis.

Harnam Singh to be Jemadar on probation, to fill an existing vacancy.

CANTONMENTS.

No. 117.—In exercise of the powers conferred by section 41 of the Cantonments (House-Accommodation) Act, 1902 (II of 1902), the Governor General in Council is pleased to make the following rules for all cantonments or parts of cantonments in British India in which the said Act is for the time being operative:—

1. Every notice prescribed by section 6 may be in the appropriate form set forth in Schedule A with such variations as the circumstances of each case require.
2. Any notice required by these rules, if not served by post under section 40, may be served by any person authorised by the Cantonment Magistrate in this behalf,
 - (a) by giving or tendering a duly signed copy thereof to the person to whom it is addressed; or
 - (b) where the notice cannot be served as prescribed in clause (a), by causing it to be affixed to some conspicuous part of the house to which it relates, and by publishing it in one vernacular and one English daily newspaper.
3. Every petition of appeal under section 35 shall state the grounds of appeal.
4. When a Committee of Arbitration, hereinafter referred to as "the Committee," has been duly constituted and each of the members thereof informed by the Cantonment Magistrate of the fact, as provided in sub-section (1) of section 30, the Chairman of the Committee shall, within a week from receipt of such notice, fix the time and place of meeting and give notice in writing of the same to the other members of the Committee, and, through the Cantonment Magistrate, to the parties concerned.
5. The notice given to the parties under the preceding rule shall state the purpose for which the Committee will assemble, and shall contain a direction to them to produce their evidence, oral and documentary, on the date fixed, or if they are unable to do so, to forward to the Chairman at least seven days prior to the day of the meeting, a list of the witnesses whom they desire to be summoned in their behalf, either to give evidence or to produce documents relating to the matter in dispute.
6. On receipt of the lists of witnesses and documents, if any, the Chairman shall, if he considers the request made for the attendance of the witnesses named and the production

of the documents called for to be reasonable, transmit the list to the Cantonment Magistrate for issue of the necessary processes under section 30 (2) of the Act. If he considers the attendance of any witness named or the production of any document called for to be unnecessary, he shall inform the party concerned and the point whether such witness should be summoned or such document called for shall be determined by the Committee at their first meeting.

7. It shall be open to the Chairman to call for the attendance of witnesses or the production of documents other than those named by the parties and to transmit a list of these to the Cantonment Magistrate for action.

8. The Chairman shall record in the award the question for decision, the number of the Station Order convening the Committee, the names and status of the members thereof, and the decision arrived at. The award shall be signed by the Chairman, and shall be forwarded by him in duplicate to the Cantonment Magistrate for disposal.

9. The Committee shall have power to correct any clerical mistake or error in their award which may have arisen from any accidental slip or omission.

10. The Committee, or any of their number, or any person especially authorised by them in this behalf, may enter into or on any building or land, which is the subject of arbitration; and may make such inspection, aided, if required, by expert evidence, as they may think fit.

11. Every requisition for reference of any question to a Committee of Arbitration shall set forth the grounds upon which the applicant relies.

12. Where any member of the Committee of Arbitration dies or becomes incapable of acting, the officer or owner, as the case may be, who nominated him shall nominate another person in his place within seven days from the date on which he is called upon to do so, and, if he fails to do so, the District Magistrate shall forthwith appoint a member in his place.

13. The parties shall be entitled to appear at and be heard at the meetings of the Committee of Arbitration, or at the hearing of appeals under Chapter V, either in person or through duly qualified pleaders.

14. The Chairman shall furnish a copy of the award to each of the parties free of charge and shall then forward the original to the Cantonment Magistrate.

15. The powers of entry conferred by section 13 and section 39, sub-section (4), and the powers of entry and inspection conferred by rule 10 shall only be exercised between sunrise and sunset;

Provided that—

(1) no building or land which may be occupied at the time shall be entered, unless with the consent of the occupier thereof, without twenty-four hours' written notice having been given to the said occupier;

(2) when any building used as a human dwelling is entered, due regard shall be paid to the social and religious sentiments of the occupiers; and no apartment in the actual occupancy of a woman shall be entered until she has been informed that she is at liberty to withdraw, and every reasonable facility has been afforded to her for withdrawing.

16. No person in military employ below the rank of non-commissioned officer shall be authorised under the provisions of section 13 or 39, sub-section (4), or of rule 10.

17. Whoever obstructs any person authorised to inspect or enter a house, such person not being a public servant within the meaning of section 21 of the Indian Penal Code, shall be punishable with fine, which may extend to Rs. 50, and, in the case of a continuing offence, with fine which, in addition to such fine as aforesaid, may extend to five rupees for every day after the first during which such offence continues.

SCHEDULE A.

FORM I.

Notice to owner under section 6 of the Cantonments (House-Accommodation) Act, 1902 (II of 1902).

To

Whereas an application has been made to the Cantonment Authority of
by Commanding Officer of the regiment under section 8 of the
Cantonments (House-Accommodation) Act, 1902 (II of 1902), for appropriation of the
house No. situated at within the Cantonment of for occupation
by and whereas it appears to the satisfaction of the said Cantonment
Authority that the said house should be appropriated for the above purpose:—This is to
require you to let the said house to the said from the day of
190 . And take notice that Rs. is the amount of monthly rent
proposed as reasonable for the said house, and that, unless you give effect to the above

requisition within the time aforesaid (or apply for a reference to arbitration under section 18 of the said Act), the Cantonment Authority will proceed to enforce it under the provisions of the said Act.

Dated at this day of 190 .

Cantonment Authority.

FORM II.

Notice to occupier under section 6 of the Cantonments (House-Accommodation) Act, 1902 (II of 1902).

To

Whereas an application has been made to the Cantonment Authority of
by Commanding Officer of the regiment under section
8 of the Cantonments (House-Accommodation) Act, 1902 (II of 1902), for appropriation
of the house No. within the Cantonment of for occupation by

. And whereas it appears to the satisfaction of the said Cantonment Authority
that the said house should be appropriated for the above purpose:—This is to require
you to vacate the said house on or before the day of
190 . And take notice that unless you give effect to the above requisition within the
time aforesaid the Cantonment Authority will proceed to enforce such requisition under the
provisions of the said Act.

Dated at the 190 .

(Signed)

Cantonment Authority.

No. 118.—The following draft of certain rules which it is proposed to make for the Cantonment of Kamptee in exercise of the powers conferred by section 26, clause (17), and section 27, of the Cantonments Act, 1889 (XIII of 1889), is published for the information of persons likely to be affected thereby, and notice is given that the draft will be taken into consideration on or after the nineteenth day of March 1906.

2. Any objection or suggestion received from any person with respect to the draft before the date aforesaid will be considered by the Governor General in Council.

Draft Rules.

I. (1) Carts bringing wood for sale into the Cantonment of Kamptee shall not stand in any public place other than the wood market.

(2) The following shall be the boundaries of the wood market, namely:—

North.—Great Northern Road.

South.—Cross Road joining Sadar Bazar Main Road with Station Road.

East.—Sadar Bazar Main Road.

West.—A line from house 0/231 in Bail Bazar to a well opposite entrance to Railway Station.

II. No cart shall quit the wood market unless and until the market dues leviable in respect of any wood sold therein have been paid to the Muharrir in charge of the market.

III. A receipt shall be granted by the Muharrir in charge of all market dues paid.

IV. If the owner or person in charge of any cart so desires, the Muharrir in charge shall enter in the receipt the details of all sales effected or agreed to.

V. Whoever commits a breach of Rule I or II shall be punishable with fine which may extend to fifty rupees.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 17th November 1905.

From the 25th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 18th November all Notifications and other matter intended for publication in the Gazette should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

No. 201 of 1898.—The Linotype Company, Limited. *Improvements in the trimming mechanism of linotype machines.* (From 8 February 1906 to 8 February 1907.)

No. 202 of 1898.—The Linotype Company, Limited. *Improvements in mechanism for casting curved linotypes.* (From 8 February 1906 to 8 February 1907.)

No. 203 of 1898.—The Linotype Company, Limited. *Improvements in the delivery spouts and mouths of the metal pots of linotype machines.* (From 8 February 1906 to 8 February 1907.)

No. 206 of 1898.—The Linotype Company, Limited. *Improvements in the ejecting mechanism of linotype machines.* (From 8 February 1906 to 8 February 1907.)

No. 210 of 1898.—The Linotype Company, Limited. *Improvements in the matrix aligning mechanism of linotype machines.* (From 8 February 1906 to 8 February 1907.)

No. 267 of 1898.—William Stronach Lockhart. *Improvements in hydraulic upward current separators for heating metals, ores, gems and other minerals or mixed substances.* (From 8 February 1906 to 8 February 1907.)

No. 227 of 1899.—William Samuel Laycock. *Improvements in and relating to the central couplings of railway vehicles.* (From 8 February 1906 to 8 February 1907.)

No. 239 of 1899.—Henry Tindal. *A new and improved apparatus for sterilizing liquids by means of ozone.* (From 7 February 1906 to 7 February 1907.)

No. 240 of 1899.—Henry Tindal. *An improved apparatus for generating ozone.* (From 8 February 1906 to 8 February 1907.)

No. 249 of 1899.—John James Marsland. *An improved water closet for the use of natives of India, to be called "The Aryan Water Closet."* (From 12 February 1906 to 12 February 1907.)

- No. 314 of 1900.—William Charles Stephens. *Improvements in or connected with rock drills.* (From 26 February 1906 to 26 February 1907.)
- No. 472 of 1900.—Charles Payson Treat. *Improvements in telautograph apparatus.* (From 19 February 1906 to 19 February 1907.)
- No. 7 of 1901.—Charles Scott Snell. *Improvements in apparatus for compressing gas, air, or the like.* (From 19 February 1906 to 19 February 1907.)
- No. 178 of 1901.—John Herbert Hieron Rolfe. *Improvements in the manufacture of compressed tea.* (From 4 February 1906 to 4 February 1907.)
- No. 224 of 1901.—The Linotype Company, Limited. *Improvements in linotype machines.* (From 6 February 1906 to 6 February 1907.)
- No. 242 of 1901.—Alexander Muirhead. *Improvements relating to electric telegraphy.* (From 7 February 1906 to 7 February 1907.)
- No. 413 of 1901.—Arthur Kitson. *Improvements in vapour-burning apparatus.* (From 11 February 1906 to 11 February 1907.)
- No. 467 of 1901.—Balfour Fraser McTear. *Improvements in or connected with the manufacture of steel or hard metal tubes or tubular bodies.* (From 17 February 1906 to 17 February 1907.)
- No. 484 of 1901.—Henry James Sydney Gilbert-Stringer. *An improvement in the justifying of lines of type and apparatus for that purpose.* (From 17 February 1906 to 17 February 1907.)

No. 645 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased:—

- No. 450 of 1900.—Hugo Stein. *Improved process of producing cement from blast furnace slag.* (Specification filed 5 November 1901.)
- No. 61 of 1901.—The Westinghouse Brake Company, Limited. *Improvements in draw gear and buffing apparatus.* (Specification filed 4 November 1901.)
- No. 133 of 1901.—The Eric Exploration Company. *Improvements in insulating strips or cores for rheostats, electric heaters and similar devices.* (Specification filed 5 November 1901.)
- No. 134 of 1901.—James Dunlop. *Improvements in pneumatic and like percussive hammers.* (Specification filed 5 November 1901.)
- No. 135 of 1901.—The Honneus Sulphide Company, Limited. *Process and means for converting refractory ore into free milling ore.* (Specification filed 5 November 1901.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2 Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2 Bankshall Street, Calcutta.

H. G. GRAVES,

Secretary under the Inventions
and Designs Act, V of 1888

Peshawar the 9th February 1906.

OFFICE OF THE CONTROLLER OF PRINTING STATIONERY AND STAPMS.

NOTICE.

Calcutta, the 14th February 1906.

Indenting Officers are informed that the Stationery Stores will be closed from the 15th March to 1st April 1906 for the Annual Stock-taking.

Officers requiring stationery before 1st April should arrange to send their Indents so as to reach the Stationery Office not later than the 28th February. Indents received after that date will, in all probability, not be complied with till after 1st April 1906. Telegraphic orders for stationery cannot be complied with except in cases of extreme urgency, but every endeavour will be made to meet regular Indents received before the end of the current month.

M. J. COGSWELL,
Controller.

Advertisements and Notices by Private Individuals and Corporations.

Estate A. G. H. Robertson, deceased.

PURSUANT TO SECTION 42, ACT 28 OF 1866.

Notice is hereby given that all persons having claims having the late Alexander Gordon Hamilton Robertson, late of 4, Lyon's Range, Calcutta, who died at Bombay on 20th August 1905, Letters of Administration to whose Estate have been granted to George Roberts Johnston, Esq., of Messrs. Grindlay & Co., Calcutta, are required to send in the same on or before 8th March next to the said Messrs. Grindlay & Co., Calcutta, after which date the said Administrator will proceed to administer the assets having regard only to the claims of which he shall then have received notice, and no claims sent in subsequently will be recognized, and all persons indebted to or holding any securities or property belonging to the said Estate are also hereby requested to pay without delay the amount owing by them, or deliver the said securities or property to the said Administrator whose receipt alone is valid for the same.

G. R. JOHNSTON,

Administrator to Estate A. G. H. Robertson, deceased.

CALCUTTA ;
The 25th January 1906.

IN THE COURT OF THE MUNSIF AT FATEHABAD, DISTRICT AGRA.

SUIT NO. 647 OF 1905.

Methoolal, son of Dalchand Kayesth, of M. Manikpur, Pargana
Bah Plaintiff,

versus

Gangaram and Dina Nath, sons of Sheonandan Thakur, of
Bharinagla Defendants.

To defendant No. 1, now residing at Thana Motea Burj, Rajertolla, now Chat Kal, through Nandram Jamadar, Calcutta, and defendant No. 2, dwelling at Mauza Bhanora, District Etawah.

Whereas the plaintiff has instituted a suit in this Court against you for Rs36-6-0 you are hereby summoned to appear in this Court in person or by a duly authorized pleader of

the Court duly instructed and able to answer all material questions relating to the suit, or who shall be accompanied by some other person able to answer all such questions, on the 26th day of February 1906 at 11 o'clock, in the forenoon, to answer the abovenamed plaintiff ; and as the day fixed for your appearance is appointed for the final disposal of the suit, you must be prepared to produce all your witnesses on that day ; and you are hereby required to take notice that, in default of your appearance on the day before mentioned, the suit will be heard and determined in your absence ; and you will bring with you or send by your pleader which the plaintiff desires to inspect any documents on which you intend to rely in support of your defence.

Given under my hand and the seal of the Court, this 23rd day of January 1906.

JOTINDRA MOHAN BOSE,
Munsiff.

SUPPLEMENT TO
The Gazette of India.

No. 7.} CALCUTTA, SATURDAY, FEBRUARY 17, 1906

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE

The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

FAMINE.

No. 313, dated Calcutta, the 12th February 1906.

The following report is published for general information : -

**SECOND REPORT OF THE BOARD OF MANAGEMENT OF THE INDIAN PEOPLE'S
FAMINE TRUST COVERING THE CALENDAR YEAR 1905.**

1. Only two meetings of the Board were held during the year, at the first of which, held on 23rd January, the Accounts of 1904 were passed, while at the second, held on 13th February, it was decided after some discussion that all Securities belonging to the

Board's Proceedings.

Board and not vested in the Treasurer of Charitable Endowments should stand in the joint names of the Comptroller General and of the Accountant General, Bengal, and should not be dealt with save under the order in writing of not less than two of the members of the Board.

In March an application was received from the Honorary Secretary of the Central India Famine Committee that a sum of Rs669-6-7 out of the unexpended balance remaining with that Committee might be paid to the Gwalior Residency Local Fund to cover certain irrecoverable advances made from it to distressed cultivators. It was impossible at that time to collect a sufficient number of members of the Board to hold a meeting, and the papers were accordingly circulated for opinion with the result that the application was agreed to. A sum of Rs1,114-5-5 still remains with the Committee and will shortly be recovered. All other unexpended moneys have been received by the Board.

2. During the year the Hon'ble Sir Denzil Ibbetson, K.C.S.I., was appointed to act as Chairman of the Board while the Chairman, the Hon'ble Sir Francis Maclean, KT., K.C.I.E., K.C., was absent from India during the long vacation. The Hon'ble Sir Lewis Tupper, C.S.I., K.C.I.E., Financial Commissioner of the Punjab, and the Hon'ble Mr. A. C. Logan, I.C.S., were appointed members of the Board, *vice* Mr. J. F. Finlay, C.S.I., and Sir F. S. P. Lely, K.C.I.E., Commissioner, Central Division, Poona, who had resigned.

Changes in the Board.

3. A statement of the assets of the Trust, and an Abstract of the Accounts will be found in schedules I and II annexed.

Income and Expenditure.

4. The securities purchased during the year out of the current income were of the face value of Rs1,00,000 of the 3½ per cent. loan of 1900-1. These, as well as those for Rs5,85,000 previously bought, now stand in the joint names of the Comptroller General and of the Accountant General, Bengal. They do not form part of the Endowment and are available for expenditure.

Investment.

In schedule II the item Refunds refers to moneys advanced by local Committees to distressed persons on the understanding that they should be repaid. Under Miscellaneous are included small subscriptions amounting to Rs261-15-0 accepted with the approval of the Governor General in Council, and sums amounting to Rs8,931-15-11 found in various treasuries at the credit of the Fund, having been deposited there by relief officers who should apparently have paid them to their local Committee. The existence of these items was ascertained by calling upon all Account Officers to report whether any stray sums of the kind remained in their provinces.

Grants for relief of distress.

5. There was no grant for relief of distress during the year.

Endowment Fund.

6. The Endowment Fund stands at the same figure as that for the last year, *viz.*, Rs24,10,000.

A. F. COX,
Honorary Secretary to the Board of Management
of the
Indian People's Famine Trust.

J. WILSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs., on Thursday,
the 15th February 1906, based on the India Daily Weather
Reports of the period.**

With the exceptions of showers at Gopalpur on the 11th, at Waltair and Masulipatam on the 12th, at Waltair, Cocanada and Cuddalore on the 13th and at Gopalpur and Cuddalore on the 14th, the weather has been rainless over the Peninsula throughout the week under review.

On the other hand, conditions have been unsettled and showery over northern and central India. On the 9th rain and snow was falling over the Himalayas, and rain at the submontane stations from Patna and Darbhanga westward to Peshawar—the largest rainfall amounts on the plains having been 0·72" at Patna, 0·54" at Bahraich and 0·37" at Dehra Dun. On the 10th rain practically ceased over northern India,* but showers were reported from several central stations and from Assam—the principal falls having been 0·57" at Pendra and 0·55" at Dibrugarh. These disturbed conditions intensified during the 10th, and on the 11th fairly general, and in places moderately heavy, rain was reported from the Central Provinces, Orissa, Chota Nagpur, Bengal and Assam—Cherra Poonjee reporting two inches, Jessore and Sambalpur about one inch, and Barisal, Calcutta, Burdwan, Chaibassa and Ranchi about three quarters of an inch. On the 12th showers were again reported from Assam and East Bengal, but elsewhere the weather was generally dry, though unsettled conditions were appearing off the north-west frontier. On the 13th rain had reached the Indus Valley, and on the 14th rain was reported from nearly the whole of upper India—showers extending even as far east as Bihar. The amounts received were, however, generally small, and on the plains only exceeded one quarter of an inch at Multan, Jacobabad, Hyderabad and Kurrachee. On the 15th the disturbed conditions had intensified, and rain was even more extensive and somewhat heavier than on the preceding day, falls being reported from nearly the whole of Sind, Gujarat, the North-west Frontier Province, the Punjab, Rajputana, Central India, the United Provinces, West Bengal, Deltaic Bengal, the east of the Central Provinces and Orissa. The amounts were in most instances small, but Dwarka reported over two inches, Balasore and Calcutta one inch, and Saugor Island, Patna, Gaya, Chaibassa, Hazaribagh, Cuttack, Pendra, Jubbulpore, Rajkot and Bhuj half an inch or more. The disturbed conditions did not extend into Burma, which province was practically rainless throughout the week.

The rainfall table hence shows practically no rain over Burma, over the Peninsula (with the exception of the Waltair sub-division) or over the West Satpuras, but general rain elsewhere—the average actual fall ranging from only 0·06" in the Dinajpur sub-division to 1·02" in Assam, 1·28" in the Ranchi sub-division and 1·38" in the Simla hills. Over the greater part of northern and central India the week's fall was in excess of the normal, but in the Ludhiana, Cawnpore and Lahore sub-divisions it was more or less short of the average. This rainfall has considerably changed the seasonal condition in several divisions, more particularly in Bihar, the north-east of the Peninsula, the central parts of the country and Gujarat, where the previously existing deficiency has been largely diminished.

W. L. DALLAS,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,

Secretary to the Government of India.

SIMLA;

The 15th February 1906.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 10th February 1906.

Burma.—Bhamo received 15 cents and Myitkyina 20 cents of rain during the week. Reaping of wet weather paddy is completed in Sagaing, Lower Chindwin, and Meiktila. Threshing and winnowing are completed in Sandoway and Tharrawaddy and is progressing in other districts. Gathering of peas and reaping of millet have commenced in the Pauk township of Pakokku. Reaping of sessamum is completed in Lower Chindwin. Sowing of miscellaneous dry crops in Meiktila and transplanting of dry weather paddy in the Monywa township of Lower Chindwin have been completed. The standing crops are in good condition. The price of paddy has risen at Rangoon, Bassein, Pegu, Pyapon, and Thaton and fallen at Mergui, Prome, Myaungmya, and Amherst.

Eastern Bengal and Assam.—The weather is seasonable. There was slight rain during the week in all districts except Jalpaiguri, Rangpur, Dinajpur and the Chittagong Hill Tracts. Pruning of tea is in progress. Harvesting of winter rice is finished and the outturn is fair. The prospects of the crops is generally fair. Lands are being prepared for early rice and jute. Fodder is insufficient in parts of Bogra, Mymensingh, and the Khasi and Jaintia Hills. Prices of common rice:—Sibsagar 12; Chittagong, Silchar, and Tezpur 11; Rampur Boalia 10½; Dinajpur 10¾; Rangpur, Malda, Barisal, Bogra, Rangamati, Gauhati, Nongong, and Tura 10; Sylhet 9½; Pabna 9½; Jalpaiguri, Dacca, Faridpur, Dhubri, and Dibrugarh 9; Mymensingh and Comilla 8½; and Noakhali 8½ seers per rupee.

Bengal.—Rain is reported from every district except Champaran, Purnea, Darjeeling and Cuttack. The fall was light in the Bhagalpur and Orissa Divisions and generally moderate in the rest. More rain is needed in some of the Bihar districts, *viz.*, Champaran, Darbhanga and Bhagalpur. Hailstorms are reported from the districts of Patna, Sambalpur and Palamau, and the standing spring crops in Palamau have suffered to a certain extent. An area of about 18 square miles in the Samastipur sub-division of the Darbhanga district has been seriously affected by the hailstorm of the 22nd January last. Prospects of spring crops are otherwise good. Fodder is reported to be insufficient in parts of Darbhanga and Jessore. Water-supply is generally sufficient. The price of common rice has risen in six districts and has fallen in eleven; it is high in most of the districts of the Burdwan and Presidency Divisions and also in Monghyr and Purnea.

United Provinces.—Good rain fell during the week in Dehra Dun, Garhwal, Almora, Ballia and Tehri and some smart showers were received in Shahjahanpur, Sitapur, Bahraich, Rai Bareilly and Sultanpur. The standing crops are reported to be below the average in Bijnor and Sitapur and are not doing well in parts of Bulandshahr, Muttra, Agra, Mainpuri, Budaun, Allahabad and Bundelkhand where the want of rain is still felt; elsewhere the prospects of the spring crops are good or fair according to the amount of rain received. Extra crops are being sown in Etah, Mainpuri, Rai Bareilly, and Sultanpur and the harvesting of peas has begun in Fyzabad, Azamgarh, Basti, and Gorakhpur. Serious damage by hail is reported from the Khaga tahsil of the Fatehpur district and the crops have been slightly injured by hail, frosts, or insects in parts of Almora, Barilly, Bulandshahr, Barabanki, Partabgarh, Cawnpore, and Jaunpur. The scarcity of fodder continues in fifteen districts. Prices generally remain high and are rising in Budaun, Sultanpur, Benares, Basti, Gorakhpur, Banda and Rampur. The total number of persons on relief in the distressed districts of Jhansi, Jalaun, Muttra and Cawnpore at the end of the week was 115,081.

The weekly report on the famine and scarcity is as follows:—seven cents of rain fell during the week in Cawnpore but there was none elsewhere in the distressed districts. Irrigated and unirrigated crops are withering in Jalaun and are being pulled up for fodder which continues scarce everywhere. The cheapest food grain is jwar which is selling at 11 seers per rupee in Jalaun and at 12½ seers in Jhansi. The condition of the people generally is fair, though charitable relief for clothing is much needed. There is no marked immigration or emigration at present but the distress is becoming more acute and the numbers on relief are increasing and are now as follows:—workers Jalaun 44,000, Jhansi 13,000, Muttra 8,000, Cawnpore 9,000; on gratuitous relief Jalaun 27,000, Jhansi 8,000, Muttra 5,000, Cawnpore 1,000, total workers 74,000; on gratuitous relief 41,000; grand total 115,000. Famine was declared in Hamirpur from the 11th instant, the numbers on test works on the 10th idem having exceeded six thousand.

Punjab.—Slight and unevenly distributed rain fell throughout the Province during the week. The prices of all food grains are rising. Ploughings and sowings of extra spring

crops are in progress. Ploughing for cotton has commenced in Shahpur and for cotton and sugarcane in Lyallpur. The condition of the irrigated crops is good to fair and of unirrigated average to poor. Most of the standing crops will benefit from the recent rain but more rain is urgently required to see the others through the critical stage to which the drought has brought them. Crops are withering in Ferozepore and Shahpur. Wheat has been damaged by white ants in Gurgaon; rape by frost in Gurgaon and Ferozepore; and turnips by insects (*tela*) in Multan. Locusts appeared in parts of Lahore and Multan and damaged the crops slightly. Cattle are in impoverished condition in Hissar, Gurgaon, Delhi, Sialkot, and parts of Shahpur for want of proper and sufficient food and are being overworked in Jullundur owing to the absence of rain. Fodder is scarce in all districts except Rawalpindi, Lyallpur and Multan; leaves of trees, prickly shrubs, sugarcane heads, etc., are being substituted for fodder. The canal supply is poor in Delhi.

The weekly report on the scarcity is as follows:—Prices have reached scarcity rates in the Rohtak district, and is the result of the pronounced failure of the last summer and winter rains; four test works attracted 2,648 workers in the previous week; while in the week under report the number was 13,437; grain is being imported in large quantities from Ferozepore and Bhatinda; a small proportion of the cultivators have stocks; there are no signs of starving or emaciation and the actual condition of the people is not bad at present; fodder is extremely scarce and dear.

North-West Frontier Province.—Rain varying from one inch in Hazara and half an inch in Peshawar and Kohat to slight showers elsewhere fell all over the Province during the week and has done good to the standing spring crops. The weather is cloudy and more rain is expected. The condition of the irrigated crops is generally good and that of unirrigated poor in Dera Ismail Khan and good or fair elsewhere. The water-supply is sufficient but there is no irrigation from hill torrents. Fodder is sufficient except in the Daman tract of Dera Ismail Khan. Prices are nearly stationary.

Janmu.—There was slight rain during the week. Prices are falling. Prices:—wheat 13 to 22, and maize 16 to 34 seers per rupee. The condition of the standing crops is good. Fodder is sufficient.

Kashmir.—The weather is snowy and cold. Prices are stationary.

Rajputana.—Rainfall in cents:—in thirteen districts of Marwar varying from 5 to 74 cents; Sirohi 34; Merwara district 8; and slight showers in Jaisalmer, Partabgarh, and Ajmer district. Rain is badly needed in all the affected areas and in Kotah where the standing crops are withering in the North and Central districts. Slight damage from frost is reported from parts of Mewar and Kotah. Pasturage and fodder are insufficient in North Mewar, Jaipur, Kishangarh, Alwar, Karauli, Bharatpur, Dholpur, and parts of Marwar, Tonk, and Kotah; in these tracts the condition of cattle is generally poor. Prices have risen considerably in the hill tracts of Mewar and slightly in Partabgarh and show tendency to rise elsewhere, except in Jhalawar and Jaisalmer where they have fallen slightly. The numbers on famine relief are:—Ajmer-Merwara 50,443. Native States:—30,442. On test works:—North Mewar 1,867, Shahpura 545, Tonk 827, Jaipur 3,616, Alwar 2,234; on gratuitous relief:—North Mewar 410; grand total 90,384 or an increase of 6,180.

The weekly report on the famine and scarcity is as follows:—Ajmer-Merwara:—on works Ajmer 16,756, Merwara 18,293; on gratuitous relief Ajmer 7,138, Merwara 8,256, total 50,443 or an increase of 4,324. Prices:—Ajmer $10\frac{1}{2}$ and Merwara $10\frac{1}{2}$ seers per rupee. Native States:—Marwar on works 2,497, on gratuitous relief 1,912, total 4,409; Kishangarh on works 2,510, on gratuitous relief 2,595, total 5,105; Karauli on works 5,290, on gratuitous relief 1,925, total 7,215; Bharatpur on works 10,189, on gratuitous relief 1,311, total 11,500; Dholpur on works 1,530, on gratuitous relief 683, total 2,213; total increase during the week 6,180 and during the last fortnight 14,888 being due to sudden rise in prices. Prices:—Marwar $11\frac{1}{2}$, Kishangarh 12, Karauli $9\frac{1}{2}$, Bharatpur $11\frac{1}{2}$, Dholpur affected area 11 seers per rupee.

Central India.—There was partial rain in Baghelkhand and Malwa during the week. The irrigation of spring crops and harvesting of autumn crops are in progress. The standing crops are good in two parganas of Gwalior; fair in Indore, Bhopal, Malwa, and Bhopawar; indifferent in Baghelkhand; and average in Bundelkhand. The probable outturn is good in two parganas of Gwalior; fair in Indore, Bhopal, and Bhopawar; below average in Baghelkhand, Bundelkhand, and Malwa. The crops have been slightly damaged in parts of Gwalior, Bhopal, Malwa, and Bhopawar. Agricultural stock is in bad condition in parts of Gwalior; good in Baghelkhand and Malwa; fair in Bhopal; and average in Bundelkhand. Pasturage is bad in parts of Gwalior and scarce in north of Bundelkhand. Prices are rising in Gwalior, Bhopal, Bhopawar, and Malwa; continue high in Baghelkhand; are steady in Bundelkhand; and are very high in Indore.

The general position in Gwalior and Bundelkhand is unaltered. Prices of staple food grains vary from 10 to 15 seers per rupee in Gwalior and from $11\frac{1}{2}$ to $12\frac{1}{2}$ seers in Bundelkhand. The numbers on works were:—in Gwalior 24,000; on gratuitous relief

4,000, total 28,000 ; in Datia, Sambhar, Baoni, Charkhari, Bijawan, Chhatarpur, Panna, Sarila, and Jagirs :—on works :—19,250 ; on gratuitous relief 2,500 ; total 21,750 ; grand total 49,750.

Central Provinces.—Light to moderately heavy showers fell in most districts during the week : the heaviest fall ($1\frac{1}{4}$ inches) was received in Narsinghpur ; these showers were accompanied by hail in Narsinghpur, Hoshangabad, Chhindwara, Nagpur, Bhandara, and Bilaspur. Slight damage is reported to have been caused to the standing crops but the prospects especially of late sown crops have been somewhat improved by the rain. Some damage has been caused by frost in the Seoni tahsil and by cloudy weather in Bhandara and Raipur. Linseed is reported to be effected with rust in Bhandara. The price of gram has risen by 3 seers per rupee in Chhindwara and that of jwar by $2\frac{1}{2}$ seers in Nagpur and by 2 seers in Bhandara ; elsewhere prices are steady or fluctuate slightly.

Baroda.—For week ending 3rd February :—the numbers on relief were :—on works 3,002 ; on gratuitous relief 172 ; total 3,174.

Bombay.—During the past week there was very slight rain in Sind, Ahmedabad, Palanpur, and Cutch. Autumn harvesting was completed last month, the outturn in the Deccan and Karnatak being nowhere normal and in most places either a complete failure or very poor. Spring harvesting continues in Sind and Panch Mahals where small amount of damage has been done by frost and locusts ; in Gujarat and the Konkan spring crops are generally in fair condition and the outturn is expected to be nearly normal ; the cultivated spring area in the Deccan and Karnatak is much below normal on account of the failure of the rains, while the crop has failed wholly and partially in affected districts ; in Nasik the spring crop is not above four annas ; irrigated crops in Ahmednagar are deteriorating ; in other places the crops are generally fair. Cotton has generally done well except in Cutch, Bijapur, and Belgaum ; in Belgaum the area sown is below normal and has been injured in places to a small extent by frost ; picking continues in Sind, Gujarat and the Karnatak. The supply of drinking water in affected districts and in parts of Kanara causes grave anxiety but measures for improvement as far as practicable have been taken ; liberal takavi grants have been made for this purpose and other land improvements and for purchase of fodder. The deterioration of cattle in affected districts and the sale of old and useless animals continue to be reported ; in Ahmednagar the plough cattle are insufficient. Fodder is scarce in affected districts and prices are twice to three times above the normal. Government grass is being imported into the Deccan and the Karnatak and is being taken up readily except in Bijapur. The importation of *kadbi* (jwar stalks) from Moglai into Ahmednagar at three times the normal price continues. The prices of staple grains are 35 to 99 per cent. over the normal in the Deccan and the Karnatak and from 50 to 70 per cent. in some Gujarat States ; the increase in the Konkan is so far moderate. Relief works have been opened in Belgaum, Ahmednagar, Bijapur and the Southern Mahratta Country and are about to be started in Sholapur ; in Ahmednagar village relief works have been opened and are doing exceedingly useful work on embankments for protection of culturable land. The daily average numbers on relief works for the week ending 3rd instant were :—Ahmednagar 1,563, Belgaum 3,312, Kolhapur 300, total 5,175 ; dependants :—Ahmednagar 134, Belgaum 797, Kolhapur 30, total 961. The numbers on test works are still increasing except in Satara and Belgaum where they have decreased, the numbers on the last day of the week were :—Ahmednagar 415, Sholapur 914, Satara 189, Bijapur 1,448, Belgaum 251, Jath 147, Aundh 92, total 3,456. There is a large increase in the daily average numbers on gratuitous relief except in Poona, the numbers were :—Ahmednagar 4,487, Poona 1,149, Sholapur 47, Bijapur 3,298, Belgaum 3,279, Jath 884, Daphlāpur 50, total 13,194. Distress is increasing in Ahmednagar, Poona and Bijapur and small cultivators are beginning to feel the pinch but as yet there is not much demand for work at famine wages. Test works are being opened in Poona. Emigration from the affected tracts is still decreasing. There is no aimless wandering and no emaciation is reported. Charitable funds committees are being organised in Bijapur and Belgaum.

Hyderabad.—There was no rain during the week. The spring harvest continues. Late rice is being sown in six talukas and the crop is generally good. Fodder and water scarcity exists in twenty-nine and sixteen talukas respectively. A test relief work on the Bir-Southara Road on the Ahmednagar Frontier with a grant of Rs29,200 and another on the Raichur-Gangwati Road on the Bellary Frontier with a grant of Rs23,000 have been sanctioned. An additional sum of Rs14,000 for providing work for Bhils in the Aurangabad District has also been sanctioned. The attendance on works in the affected talukas numbered 1,496 persons and at the poor-house at Asteli 25 persons. The price of jwar has risen from $\frac{1}{2}$ to 4 seers per rupee in twenty-nine talukas and fallen by 1 seer in five talukas. Prices :—wheat $9\frac{1}{4}$; coarse rice $7\frac{1}{4}$; and jwar 15 seers per rupee.

Mysore.—Prices are steady. Paddy and ragi are being harvested in parts and ploughing operations have begun in other parts of the Province. Prospects are fair.

Cattle are healthy except in parts of Tumkur, Hassan, Kadur, and Chitaldroog. Water and fodder are scanty in parts of Tumkur, Mysore, Shimoga and Chitaldroog.

Coorg.—Picking of coffee and threshing of rice continue. Prices of food grains are normal. Water and fodder are sufficient.

Madras.—There was no rain during the week. Irrigation supplies are insufficient except in the Carnatic, the West Coast districts and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress. The standing crops are generally fair but some in parts of Bellary, Coimbatore, Tinnevely, and Malabar require more rain and some in parts of Salem, Tanjore and Madura are withering. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient everywhere except in parts of the Circars, the Deccan, Salem, Coimbatore, Madura and South Canara. Fodder is scanty in parts of Godavari, South Arcot, Salem, Coimbatore, Tanjore, and Madura. The condition of cattle is generally good. The price of rice is stationary in eleven districts; has fallen in seven; and has very slightly risen in five. The prices of millets have fluctuated as follows:—Ragi is stationary in seven districts; has fallen in nine; and has slightly risen in five. Cholum is stationary in four districts; has fallen in six; and has slightly risen in four. Cumbu is stationary in four districts; has fallen in six; and has slightly risen in five.

CUSTOMS.

The 21st February 1906.

No. 1351—7.—In exercise of the powers conferred by Section 8-A, sub-section (2) and Section 8-B, sub-section (3), of the Indian Tariff Act, 1894 (VIII of 1894), as amended by Acts XIV of 1899, VIII of 1902 and XI of 1904, the Governor General in Council is pleased to direct that the following clause shall be added to rule 7 of the rules for the identification of sugar published in the Notification of the Government of India in the Finance and Commerce Department No. 4439 S. R., dated the 14th August 1902, as subsequently amended, namely :—

“(4) Where, in any case referred to in sub-rule (2), the sugar is alleged to be the produce of a country which is a party to the Brussels Sugar Convention of 1902, a certificate granted by a duly authorized Customs Officer of that country as to the origin of the sugar shall be accepted as sufficient proof of its origin.”

RESOLUTIONS.

STORES.

The 19th February 1906.

Nos. 1243—1252.—The system under which Indian and English made stores are at present purchased for the use of the various Government Departments in India has from time to time been reviewed by the Government of India, and various changes have been made, during recent years, with the object of facilitating supply, and of promoting the encouragement of industries located in this country. The question has again come under consideration in connection with a memorial presented to the Government of India in April last by the Engineering and Iron Trades Association. In that memorial, the Association express dissatisfaction with the existing regulations and procedure; they urge that the restrictions on the local purchase of manufactured stores imported from the United Kingdom, or from foreign countries, should be removed or relaxed; that the list of locally manufactured articles which may be purchased in India should be expanded; that a definite proportion of the requirements of the Government in respect of bridges, railway material, rolling stock, and similar stores, should be reserved for Indian manufacturers; and that a trained staff of inspectors for the examination of locally manufactured materials should be employed.

2. This representation has been sympathetically considered by the Government of India. They fully agree with the view that the question of the purchase of supplies for the great consuming Departments of the Government is intimately connected with the wider question of the encouragement of local industries; and they desire to afford all reasonable facilities, and to offer all possible encouragement, to manufacturers who have started, or who desire to start, factories in India. They recognise that local industries must frequently lean to some extent, in the first instance, upon the support of the Government; and they are inclined to think that the system at present prescribed for the purchase of stores does not in practice result in the maximum amount of encouragement, which the Government could legitimately give, being in fact offered. They desire to point out, however, that certain of the requests made by the Association have already been complied with. The list of locally manufactured stores which might be purchased in India has been cancelled; and the only restrictions now placed upon such purchases are that the articles must be of suitable quality, and must be obtainable at a price not appreciably higher than that at which they could be imported. So also, under orders issued by the Railway Board in September last, tenders for twenty-five per cent. of all goods stock required for State Railways are now called for in India.

3. The Government of India are of opinion, however, that the various relaxations which have from time to time been made in the stringent rules formerly issued governing this matter should not be regarded as final; and, in view of the importance of the subject, and of the great complexity of the details, they have decided that the matter should now be referred for examination to a Committee. The Committee will ascertain definitely the procedure which is in practice adopted at present for the purchase of stores; they will report on the defects in that procedure, more especially with reference to the question of facilitating purchases and of affording greater encouragement to local industries; and they will formulate a set of rules, for general adoption, designed with the object of removing the defects in the existing system. The Committee will proceed to such places as it may be considered desirable to visit; and every facility will be afforded to the representatives of Indian firms to place their views in detail before the Committee. The Committee will also enquire into the following questions:—

- (a) The extent to which orders, which might have been placed locally, have been sent to the Stores Department of the India Office, during a representative period to be selected by the Committee.
- (b) The ability of the firms represented by the Engineer and Iron Trades Association, and of other firms, to undertake a much larger volume of business than is at present entrusted to them. The Committee will also report, confidentially, as to the manner in which the work entrusted to particular firms has in fact been carried out.
- (c) The system which should be adopted in order to obtain an accurate comparison between the prices of locally manufactured and of foreign articles.
- (d) The results of the present system in respect of the local purchase of imported articles, as evidenced by a comparison of the prices of manufactured articles obtained by Government Departments, and by local bodies, from the Stores Department, with the prices of similar articles purchased from local agents in India.
- (e) Whether imported articles, locally purchased, have in general been satisfactory as regards quality.

- (f) The possibility of arranging for tests and inspection in the larger cities by local officers employed for this work in addition to their ordinary duties; or, in the alternative, the necessity for, and the cost of, a special staff for this purpose.
- (g) The advisability of prescribing strict rules requiring Government officers to purchase locally manufactured articles in all cases where such articles are available, and of calling upon them for explanations in cases where these rules are transgressed.
- (h) The possibility of devising a system under which all Departments of the Government will be informed of the adoption of a local, in place of an imported, product in any part of India.

4. The Committee will consist of the following gentlemen :—

Mr. W. Macdonald, Superintending Engineer, Punjab . . . *President.*

Major J. H. S. Murray, R.E., Garrison Engineer, Secunderabad *Member.*

Mr. S. A. J. Keatinge, Storekeeper, Oudh and Rohilkhand Railway *Member.*

Mr. M. M. S. Gubbay, I.C.S. *Secretary.*

5. The Government of India trust that the Committee may be able to submit their report by the end of May.

ORDERED that the Resolution be communicated to the Public Works Department, the Military Department, the Department of Revenue and Agriculture, and the Finance Department.

ORDERED that a copy of the Resolution be forwarded to the Secretary to the Railway Board, and to each of the officers named in paragraph 4, for information.

ORDERED also that the Resolution be published in the *Gazette of India* for general information.

EMIGRATION.

The 20th February 1906.

No. 1384—1392-15.—The question of the supply of labour for the tea gardens of Assam has for some time past engaged the attention of the Government of India, and of the Local Government. Special enquiries instituted regarding this matter demonstrated that the situation in Assam compared unfavourably with that in the other tea producing tracts of India, both in respect of the relations between employer and employed, and as regards the system of obtaining labour. In a Circular, dated the 28th March 1905, addressed to the Indian Tea Association and to its local branches, Sir Bampfylde Fuller attributed his result chiefly to the power of arrest which managers of gardens possess under section 195 of Act VI of 1901, and expressed the opinion that the indiscriminate use by some managers of this power had produced in the minds of the ignorant labour force a feeling of helplessness and unprotected bondage. He considered that the existence of this feeling was mainly responsible for the marked unpopularity of service in Assam; and pointed out that the result of this aversion is that the tea industry has been, and is, burdened with the payment of very heavy charges, while the labour force recruited is both intractable and inefficient. The remedial measures suggested were the withdrawal of Act VI of 1901, with the exception of sections 122 and 123, from the Surma Valley, and from the districts of Goalpara and Kamrup; and the abolition, in the Assam Valley, of the sections conferring a power of summary arrest on tea garden managers. In the Surma Valley the Act is already practically inoperative, inasmuch as ninety-eight per cent. of the labour force is recruited otherwise than under its provisions, while the number of labourers employed in the Goalpara and Kamrup districts is insignificant. Sir Bampfylde Fuller was of opinion that the time had not yet arrived for withdrawing the Act as a whole from the Upper Assam Valley, but he recognised that the ideal to be aimed at was a system of free supply of labour.

2. The replies of the representatives of the tea industry, and of the district officials, to this circular have now been received by the Government of India, together with Sir Bampfylde Fuller's views thereon, and a statement of his final conclusions on the subject.

3. There is a consensus of opinion among the Surma Valley planters that the Act should be withdrawn from that valley. The Indian Tea Association, and the Assam Branch of that Association, have, however, raised several objections to this proposal; and they ask that the question may be treated as a whole, on the ground that the interests of the two valleys are intimately connected. They apprehend that, if the case of the Surma Valley be dealt with separately, the difficulties experienced by them in obtaining labour will be still further accentuated; and they request that the whole question of the labour supply throughout the province may be referred to a representative committee for enquiry and report. Sir Bampfylde Fuller adheres to his former views, which further examination has, in his opinion, only served to confirm.

4. The Government of India desire to express their appreciation of the care and ability with which this difficult and delicate subject has been treated. They fully agree that the present system, which has led to serious abuses, cannot in any case be allowed to continue, if these abuses are in fact a necessary result of the adoption of that system; and they are disposed to think that the remedies suggested may provide a satisfactory solution of the difficulties which have in the past hampered, and which still seriously impede, the development of the tea industry. The question is, however, one of peculiar difficulty; the interests at stake are of great magnitude; and the fullest discussion of the matter is desirable, in the interests alike of the Government, the tea industry, and the labourers. For these reasons, the Government of India are averse from pronouncing a final opinion on the points in issue until the problem has been exhaustively examined by a representative Committee.

5. The advisability of withdrawing Act VI of 1901 from the Surma Valley has been strongly pressed by the majority of the planters in that Valley; the proposal is approved by the Tea Association, London, and is recognised as inevitable by the Indian Tea Association, Calcutta, who admit that the issue is one which should be decided primarily on a consideration of the wishes of the majority of the planters in the Surma Valley. After a full consideration of the question, the Government of India have determined to accept the recommendation of the Lieutenant-Governor of Eastern Bengal and Assam that the Act should be withdrawn from the Surma Valley, and from the districts of Kamrup and Goalpara; but they consider it undesirable that the withdrawal of the Act should take effect until an enquiry has been made as to the measures necessary to maintain a full supply of labour for the Upper Assam Valley, after the Act has ceased to apply outside it. The withdrawal of the Act from the Surma Valley is indeed only tantamount to the legal formulation of the practice now obtaining there; but, as it is unlikely that such a measure could be carried out without affecting, to some extent, recruitment for the Assam Valley also, it seems to the Government of India to be essential to treat this matter as an integral part of the general question. In arriving at this decision, and in deciding to appoint a Committee, the Governor General in Council has been largely influenced by the opinion of the Indian Tea Association, and of the Assam Valley branch of that Association. His Excellency in Council holds strongly that the support and co-operation of the tea planters and agents is necessary in order to place the labour question upon a satisfactory footing, and to effect a permanent and material improvement in the labour supply and conditions in Assam; and he trusts that the Committee will be able to devise recommendations which will be accepted and loyally carried out by planters and agents alike.

6. For the reasons stated in the preceding paragraphs, the Government of India have decided to defer passing final orders on the proposals of His Honour the Lieutenant-Governor of Eastern Bengal and Assam until the questions connected with emigration to the districts of the Upper Assam Valley have been examined and reported on by a Committee. The Committee will consist of the following gentlemen:—

Mr. B. Robertson, C.I.E., I.C.S., (Nominated by the Government of India)	President.
Mr. C. H. Bompas, I.C.S., (Nominated by the Government of Bengal)	} Members.
Mr. W. Milne (Representative of the tea industry in the Surma Valley)	
Mr. Hugh Gordon (Representative of the tea industry in the Assam Valley)	
Captain W. M. Kennedy, I.A., (Nominated by the Government of Eastern Bengal and Assam).	} Member and Secretary.

7. The points which the Committee will be required to investigate are:—

- I. The general working of Act VI of 1901 in connection with emigration to the labour districts in the Upper Assam Valley, special attention being paid to the following questions:—
 - (a) The causes which have rendered it difficult to secure a sufficient supply of labour.
 - (b) Whether the time has now arrived for withdrawing the Act from these districts.
 - (c) Whether, if the Act be withdrawn, a new enactment governing emigration into the Upper Assam Valley will be required. In this connection, it should be considered whether Act XIII of 1859, either in its present form or with modifications, would be suitable.

- (d) What measures should be adopted in order to render service in these districts more popular, to remove the abuses which now exist, and to prevent their recurrence. Sir Bampfylde Fuller's proposals, and more particularly his suggestion to withdraw sections 195 and 196 of the Act, should be considered, as also the possibility of organised recruiting by the Indian Tea Association, or by some other body similarly constituted.
- (e) The expediency, if Act VI be retained, of extending the scope of section 90 of that Act; and
- (f) The effect of Madras Act V of 1866 (Labour Contracts with Natives Act) in restricting emigration to Assam from that Presidency.
- II. Whether the withdrawal of Act VI of 1901, from the Surma Valley districts will prejudicially affect recruitment for the Upper Assam Valley districts; and, if so, to suggest measures calculated to ensure a sufficient supply of labour for these districts, after the withdrawal of the Act from the Surma Valley and Lower Assam Valley districts.

The Committee will proceed to such of the recruiting districts as they may consider it advisable to visit, and they will also tour in the labour districts of Assam. They are not precluded from considering any matter which they may deem pertinent to their enquiry, but the Government of India desire to emphasise the fact that the question of the desirability of withdrawing the Act from the Surma Valley, and from the districts of Goalpara and Kamrup, does not fall within the scope of their investigation.

8. The Government of India trust that the Committee may be in a position to submit their report within five months from this date.

Ordered, that a copy of the foregoing Resolution be forwarded to the Governments of Madras, Bengal, the United Provinces, Eastern Bengal and Assam, to the Honourable the Chief Commissioner of the Central Provinces, to the Home and Finance Departments, and to the Secretary to the Committee.

Ordered, also, that it be published in the *Gazette of India*, for general information.

W. L. HARVEY,
Secretary to the Government of India.

FINANCE DEPARTMENT.

NOTIFICATIONS.

LEAVE AND APPOINTMENTS.

Calcutta, the 20th February 1906.

No. 1010-P.—Mr. T. K. Rajagopalan is appointed a probationer in the Enrolled List of the Finance Department, with effect from the 10th of February 1906, and is attached to the office of the Accountant General, Madras.

The 21st February 1906.

ACCOUNTS AND FINANCE.

PUBLIC DEBT.

Fort William, the 22nd February 1906.

No. 1092-A.—In pursuance of Rule 22 of the Rules made by the Government of India under section 14 of the Indian Securities Act XIII of 1886, and published in the *Gazette of India* of the 7th January 1888, page 6, the following list is hereby advertised of Securities lost or destroyed, in respect of which an order has been made for payment of interest pending the issue of a duplicate Security, or for the issue of such duplicate Security. All persons, other than the respective claimants named below, who have any claim upon these Securities should communicate immediately with the Comptroller General, the Treasury, Calcutta.

The list is divided into two parts,—Part A being the list of Securities now advertised for the first time, and Part B the list of Securities previously advertised.

N.B.—Under section 13 of the said Act, Government will be discharged from all liability in respect of these original Securities after the lapse of six years from (a) the several dates stated against them in the last column of the list, or (b) the last payment of interest on them, whichever date is the later.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, FEBRUARY 24, 1906.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 17th November 1905.

From the 25th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 18th November all Notifications and other matter intended for publication in the Gazette should be addressed to the Publisher, 8 Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

No. 231 of 1897.—Middleton Crawford. *Improvements in the manufacture of disinfecting deodorising and bleaching agents and in apparatus therefor.* (Specification filed 15 November 1897.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (e) After the expiration of the seventh year and before the expiration of the eighth year from the date of the filing of the specification—

The sum of Rs 50 for each of the above inventions.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2, Bankshall Street, Calcutta.

H. G. GRAVES,
Secretary under the Inventions
and Designs Act, V of 1888.

Advertisements and Notices by Private Individuals and Corporations.

Estate W. T. Blanford, deceased.

PURSUANT TO SECTION 42, ACT 28 OF 1866.

Notice is hereby given that all persons having claims against the late William Thomas Blanford, who died at 72, Bedford Gardens, Campden Hill, Middlesex, on the 23rd June 1905. Letters of Administration to whose Estate have been granted to George Roberts Johnston, Esq., of Messrs. Grindlay and Co., Calcutta, are required to send in the same in or before 30th March next to the said Messrs. Grindlay and Co., after which date the said Administrator will proceed to administer the assets having regard only to the claims of which he shall then have received notice, and no claims sent in subsequently will be recognized, and all persons indebted to or holding any securities or property belonging to the said Estate are also hereby requested to pay without delay the amount owing by them, or deliver the said security or property to the said Administrator whose receipt alone is valid for the same.

GEORGE ROBERT JOHNSTON,
Administrator to Estate W. T. Blanford, deceased.

CALCUTTA,
15th February 1906

SUPPLEMENT TO
The Gazette of India.

No. 8.} CALCUTTA, SATURDAY, FEBRUARY 24, 1906.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 22nd February 1906, based on the India Daily Weather Reports of the period.

The unsettled rainy weather which set in over northern India last week, has continued and intensified during the week under review, when almost the whole of the northern half of the Indian region received more or less heavy rain.

The Bay Islands, the Burma Coast, the Jubbulpore sub-division, the West Satpuras division and the Peninsular divisions are the only rainless areas this week, and where rain has been received it has been generally in considerable excess of the average.

On the 16th general rain was reported from all parts of northern India, except the West Satpuras and Sind, the fall having been especially heavy over west Bengal and the Delhi, Meerut and Roorkhee districts, where the fall for the 24 hours varied between one and four inches. On the 17th the rainfall was still general over Bengal, but in upper India the area has contracted and was mainly confined to the submontane districts. The falls were also less heavy than on the preceding day. The reports of the 18th showed that a further contraction had occurred, rain having been mainly light and confined to Deltaic Bengal and Orissa and the submontane stations of the north Punjab. On this day a wholly exceptional fall of over three inches of rain was reported from Calcutta. On the 19th rain again extended. The fall, though on the whole light or moderate, was fairly general over Bengal and Assam, while scattered showers, generally measuring about one quarter of an inch, were reported from several stations in the United Provinces, the Punjab and the North-west Frontier Province. On the 20th only scattered showers were reported from the north-east, but rain was general along the foot of the hills in the north-west from Roorkhee to Peshawar. On the 21st a deep storm was entering north-west India across the Indus Valley and rain was falling over Sind and Rajputana. This storm drew moist winds from the Indian seas into its circulation, and the reports of the 22nd showed general rain over northern India, from Patna and Burdwan westward to the Indus. The falls were

heaviest in the north-west where at several stations amounts of between one inch and two and a half inches were reported. Throughout nearly the week snow has fallen almost daily at the stations on the West Himalayas, a total of about seven feet having been received at Murree and of two feet nine inches at Simla during the week.

The rainfall table shows that the week's fall has been excessive in practically all the divisions which received rain. The week's fall exceeded two inches in the Calcutta and Lahore sub-divisions and the North-West Dry division, three inches in the Bahraich, Burdwan and Ranchi sub-divisions, and four inches in the Simla and Ludhiana sub-divisions. This heavy, general rain has completed the change in the seasonal conditions which had commenced last week, and the rainfall of the present cold weather now exceeds the normal in all places, except the Jubbulpore, Jhansi, Calicut and Madura sub-divisions and the West Satpuras and East Coast (south) divisions.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA,
The 22nd February 1906.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 17th February 1906.

Burma.—Slight rain fell in Bhamo and Katha during the week. Reaping of wet weather paddy is completed in Maubin and Mergui and threshing and winnowing have been completed in four more districts and are progressing in others. Sowing of dry weather paddy continues. Reaping of sessamum is completed in Pakokku. Gathering of ground-nuts is completed in the Natmauk township of Magwe and that of peas has commenced in the Yinmabin sub-division of Lower Chindwin. Prospects generally continue good. The price of paddy has fallen considerably in Mergui and slightly in Bassein and has risen slightly in six districts.

Eastern Bengal and Assam.—The weather is cloudy. Slight to moderate rain fell in all districts during the week. Pruning of tea is in progress. The prospects of the crops are generally fair. Lands are being prepared for early rice and jute. Fodder is insufficient in parts of Bogra, Sylhet, and the Khasi and Jaintia Hills. The prices of common rice are :—Tezpur 11; Rampur Boalia and Silchar 10½; Sibsagar, Barisal, Chittagong, Rangamati and Gauhati 10; Bogra and Sylhet 9½; Dinajpur 11; Rangpur 9½; Pabna and Mymensingh 9½; Jalpaiguri, Malda, Dacca, Dhubri, Nowgong, Dibrugarh, and Tura 9; Faridpur 8½ to 9; Comilla and Noakhali 8½ seers per rupee.

Bengal.—Rain was general and for the most part heavy all over the Province except in Saran, Champaran, Muzaffarpur and Darbhanga, where the fall was light to moderate. The heavy rain of the week has adversely affected the spring crops to some extent, especially the pulses that are in pod. An area of about 30 square miles in the district of Monghyr was affected by the hailstorm of the 22nd January last, and the loss of the spring crops in this area is estimated at about 46 per cent. Hail is also reported this week from Sambalpur and Palamau. Prospects of spring crops are otherwise fair. Fodder is still insufficient in parts of the Darbhanga district. Water-supply is plentiful. The price of common rice has risen in ten districts and has fallen in two. It continues high in most of the districts of the Burdwan and Presidency Divisions and also in Monghyr and Purnea.

United Provinces.—Light to heavy rain has fallen during the week throughout the Provinces and the weather continues cloudy in many districts. Damage by hail or rain is reported from parts of Farrukhabad, Rae Bareilly, Fyzabad, Ballia, Gorakhpur, and Banda, but the crops generally have been benefited by the rainfall and the prospects of the spring crops are greatly improved. Fodder is still scarce in Bundelkhand and in parts of Bulandshahr, Muttra, Agra, Etawah, Unao and Cawnpore. Prices continue high but have fallen or are falling in ten districts and show no tendency to rise in any of the others except Farrukhabad, Fyzabad, Benares, Basti, Gorakhpur and Jhansi. The total number of persons on relief at the end of the week was 143,000.

The weekly report on the famine and scarcity is as follows :—The rainfall in distressed districts was as follows :—Jalaun 23, Jhansi 29, Hamirpur 56, Cawnpore 65, and Muttra 84 cents. It will benefit crops which have survived and provide some fodder and water for the cattle, but has come too late to do much good now. Cattle are still being sold in large numbers in Jalaun. Prices remain high and show no tendency to fall at present. Effects of privation among children is occasionally observable, but the condition of the people generally is fair and the death rate normal. The numbers on relief continue to rise and are now as follows :—Workers Jalaun 47,000, Jhansi 15,000, Muttra 9,000, Cawnpore 10,000, Hamirpur 12,000; on gratuitous relief Jalaun 29,000, Jhansi 11,000, Muttra 5,000, Cawnpore 1,000, Hamirpur 4,000, total, on works 93,000, on gratuitous relief 50,000, grand total 143,000.

Punjab.—There was good rain all over the Province during the week. The prices of food grains show a general downward tendency in consequence of the improved prospects of the spring harvest. Sowings of extra spring crops continue. Ploughings for sugarcane have begun in various districts. Both irrigated and unirrigated crops have benefited greatly by the recent rain; unirrigated crops are now in a satisfactory condition except in the south-eastern districts of the Delhi Division. This rain will also facilitate ploughings for the autumn crop. Locusts appeared in Hissar, Lahore, and Multan damaging the crops slightly in Multan. Fodder is still scarce in all districts except Rawalpindi, Lyallpur, and Multan; leaves of trees, prickly shrubs, heads of sugarcane, etc., are being used as fodder. Green fodder is available in Jullundur, Amritsar, Lahore, and Shahpur. Grass should be plentiful everywhere in two or three weeks. The canal supply is still poor in Delhi.

The weekly report on the scarcity is as follows :—The daily average number of workers employed on four famine works in the Rohtak District has fallen to 3,279 against 3,437 last week. A test work opened in Gurgaon has attracted no labourers.

North-West Frontier Province.—Good rain averaging in Hazara two inches and 60 cents, Peshawar one inch 66 cents, Kohat one inch 28 cents, Bannu 93 cents, and Dera Ismail Khan one inch 79 cents, has fallen all over the Province during the week and has done much good to the standing spring crops. The weather is still cloudy. The state of both irrigated and unirrigated crops is generally good throughout. In Bannu locusts appeared in some villages of the Marwat tahsil but passed on without doing any damage. Water-supply is ample and there has been some irrigation from hill torrents in Dera Ismail Khan. Fodder is sufficient except in the Daman tract of Dera Ismail Khan. Prices are stationary except gram which is from 14 to 19 seers per rupee.

Jammu.—There was heavy rain during the week. Prices are stationary. Prices :—wheat 13 to 22 and maize 16 to 34 seers per rupee. The condition of the standing crops is good. Fodder is sufficient. The recent rain has been beneficial to the standing crops.

Kashmir.—The weather is cloudy and cold. Prices are stationary.

Rajputana.—There was general rain throughout the Province varying from five cents in Sirohi and Merwara to 79 cents in Bharatpur. The standing crops have benefited in Marwar, Alwar, Bharatpur, and parts of Jaisalmer. Pasturage and fodder are insufficient in North Mewar, Jaipur, Kishangarh, Alwar, Karauli, Bharatpur, Dholpur, and parts of Marwar, Tonk, and Kotah ; in these tracts the condition of cattle is generally poor. Prices have risen by one seer per rupee in Partabgarh and Dholpur, and slightly in Jaisalmer, Sirohi, and Kishangarh. The numbers on famine relief were :—Ajmer-Merwara 53,211 ; in Native States :—33,011 ; on test works :—North Mewar 1,981, Shahpura 619, Tonk 1,001, Jaipur 4,277, Alwar 3,419 ; on gratuitous relief :—North Mewar 429, Tonk 93 ; grand total 98,141 or an increase of 7,757.

The weekly report on the famine and scarcity is as follows :—Ajmer-Merwara—on works Ajmer 17,540, Merwara 19,629 ; on gratuitous relief Ajmer 7,414, Merwara 8,628, total 53,211 or an increase of 2,768. Prices :—Ajmer 10½, Merwara 10½ seers per rupee. Native States :—Marwar on works 4,234, on gratuitous relief 1,742, total 5,976 ; Kishangarh on works 2,493, on gratuitous relief 2,823, total 5,316 ; Karauli on works 6,477, on gratuitous relief 2,229, total 8,706 ; Bharatpur on works 9,119, on gratuitous relief 1,574, total 10,693 ; Dholpur on works 1,584, on gratuitous relief 736, total 2,320. Prices :—Marwar 11½, Kishangarh 11½, Karauli 9½, Bharatpur 11½, Dholpur affected area 10½ seers rupee. Prospects have improved in Bharatpur owing to the recent rain.

Central India.—General rain fell throughout the Agency during the week. The irrigation of spring and harvesting of autumn crops are in progress. The standing crops have been a failure total in parts of Gwalior ; are fair in Bhopal, Malwa, and Bhopawar ; average in Bundelkhand ; and indifferent in Baghelkhand. The probable outturn is fair in parts of Gwalior, Bhopal, and Bhopawar ; and below average in Baghelkhand, Bundelkhand, and Malwa. The spring crops have been slightly damaged in parts of Gwalior. Agricultural stock is bad in parts of Gwalior and Bundelkhand ; and fair in Bhopal. Pasturage is bad in parts of Gwalior and scarce in Bundelkhand. Prices are rising in parts of Gwalior, Bhopal and Malwa ; and continue high in Baghelkhand. Opium has been slightly damaged in one pergana of Gwalior, is fair in Bhopal and Bhopawar, and good in Malwa.

The weekly report on the famine and scarcity is as follows :—The position in Gwalior and Bundelkhand is unaltered. Prices of staple food grains vary from 10 to 14 seers per rupee in Gwalior and from 11½ to 13 seers in Bundelkhand. The numbers on works were :—Gwalior 25,000, on gratuitous relief 5,000, total 30,000 ; in Orchha, Datia, Samthar, Baoni, Jagirs, Charkhari, Bijawar, Chatarpur, Panna, and Sarila, on works 22,000, on gratuitous relief 3,250, total 25,250, grand total 55,250.

Central Provinces.—The weather has been generally cloudy ; light to moderately heavy showers were received in fourteen districts, the heaviest falls being in Chhattisgarh ; Bilaspur recorded two inches. Hailstorms have caused some damage to the standing crops in the north of the Sihora tahsil of Jubbulpore, in parts of the Multai tahsil of Betul and in Chhindwara, Bhandara and Bilaspur ; the damage to wheat and gram in some villages of the Multai tahsil is estimated at 30 to 60 per cent. of a normal crop. Slight damage has also been caused by cloudy weather in Balaghat and Raipur and by insects to late sown gram in the Brahmapuri tahsil of Chanda. Wheat is reported to be affected with rust in the Boihar tahsil of Balaghat ; with these exceptions the winter crops are generally in good condition and harvesting is in progress. In Jubbulpore a full harvest is confidently expected everywhere except in a few villages of the Sihora tahsil. The preparation of

land for autumn sowings has commenced in places. All prices have fallen in Nimar, but a tendency to rise is still noticeable in the northern districts. Wheat has risen in price by 2 seers per rupee in Mandla and now sells there at 8 seers per rupee; gram is dearer by 2½ seers in Seoni and by 2 seers in Amraoti, but is cheaper by 4 seers in Chanda; the price of juar has risen by 3 seers in Buldana; elsewhere prices are steady or fluctuate slightly.

Baroda.—(Report not received).

Bombay.—During the past week rain was general in Sind; slight in Palanpur, Cutch, and Mahi Kantha; and very slight in parts of Gujarat, the Konkan, Khandesh, Nasik, Kathiawar, Baroda and Rewa Kantha. The rain has been beneficial to the standing crops in Sind but elsewhere it was useless. Slight damage by frost is reported from Hyderabad, Panch Mahals, and Baroda to the cotton and spring crops which however continue generally in fair condition except in affected districts. Irrigated crops are also fair except in parts of Ahmednagar. Cotton picking is still in progress in Sind, Gujarat, Karnatak, Kolhapur, and Gujarat States. The deficiency of drinking water as already reported in certain districts is being coped with as far as possible with the aid of special grants. The condition of cattle and measures for the supply of fodder and grazing are as reported last week. The price of fodder is two to three times above the normal. Government grass is being taken up readily except in Bijapur and Belgaum. Stocks of food grains are sufficient except in Satara. Prices are 35 to 20 per cent. over the normal in the Deccan and Karnatak and from 10 to 25 per cent. elsewhere. Relief works are in progress in Belgaum, Ahmednagar, Bijapur, and the Southern Maratta Country and are being started in Sholapur and Satara. The daily average numbers on relief works for the week ending the 10th instant were:—Ahmednagar 1,868, Bijapur 941, Belgaum 2,657, Kolhapur 240, Sangli 146, total 5,852; dependants Ahmednagar 154, Bijapur 163, Belgaum 589, Kolhapur 28, total 934. The numbers on test works are increasing in Sholapur, Jath, and Aundh; the numbers on the last day of week were:—Sholapur 951, Satara 181, Bijapur 593, Belgaum 139, Jath 181, Aundh 112, total 2,157. Test works are now opened in Poona; one opened in Phaltan did not attract labourers. There is a steady increase in the number of people on gratuitous relief; the numbers are:—Ahmednagar 4,596, Poona 1,166, Sholapur 303, Satara 25, Bijapur 4,125, Belgaum 3,316, Jath 1,007, Daphlapur 51, Aundh 82, Kolhapur 21, total 14,692. One poor-house is being opened in Bijapur. The position is becoming serious in Ahmednagar, Poona, Sholapur, Bijapur, and the Southern Maratta Country States and small cultivators are coming to the end of their resources but as yet are unwilling to work at famine wages. Emigration from affected tracts is still decreasing. There is no aimless wandering and no emaciation noticed except in one taluka each of Sholapur, Satara and Belgaum. Charitable Fund Committees are being organised in Bijapur and Belgaum.

Hyderabad.—There was no rain during the week. The spring harvest continues. Late rice is being sown in two taluqs. Crops are generally good. Fodder and water scarcity exists in twenty-nine and sixteen taluqs, respectively. The attendance on road works in the affected taluqs numbered 2,025 persons and in poor-houses at Ashti 34 persons. The price of jowar has risen from half to 4 seers in twenty-five taluqs and fallen from half to 2 in eight taluqs. Prices:—wheat 9½, coarse rice 7½ and jowar 14½ seers per rupee. The highest price is that of jowar at Ashti, viz., 10½ seers per rupee.

Mysore.—Prices are generally steady. The crops are in fair condition. Prospects in Kolar and Shimoga depend on early rainfall; they are not encouraging in Tumkur but are fair in other districts. Cattle are healthy except in parts of Mysore, Hassan, Kadur, and Chitaldroog. Water and fodder are scanty in parts of Mysore, Shimoga, Hassan, and Chitaldroog.

Coorg.—Picking of coffee and threshing of rice continue. Prices of food grains are normal. Water and fodder are sufficient.

Madras.—The rainfall of the week was fair in Vizagapatam Littoral, and Ganjam; light in the Vizagapatam Agency, Godavari, Kistna, the Nilgiris and Chingleput; but there was no rain elsewhere. Irrigation supplies are insufficient except in parts of the Deccan, the Carnatic, North Arcot, the West Coast districts and the Nilgiris. Ploughing, sowing, weeding, and transplanting are in progress. The standing crops are generally fair, but some in parts of Coimbatore, Tinnevely, and Malabar require more rain and some in parts of Bellary, Anantapur, Tanjore, and Madura are withering. Harvests continue with outturn poor to normal and bumper. Pasture is sufficient everywhere except in parts of the Circars, the Deccan, Salem, Coimbatore, Madura, Tinnevely, and South Canara. Fodder is scanty in parts of South Arcot, Salem, Coimbatore, Tanjore, and Madura. The condition of cattle is generally good. The price of rice is stationary in eleven districts; has fallen in ten; and has slightly risen in two. The prices of millets have fluctuated as follows:—ragi is stationary in nine districts; has fallen in six; and has slightly risen in six. Cholam is stationary in three districts; has fallen in six; and has slightly risen in five. Cumbu is stationary in seven districts; has fallen in four; and has slightly risen in four.

Nepal.—Report for the quarter ending the 15th January 1906:—The rainfall for the period was 0·26 inch as compared with 1·40 for the corresponding period last year. The rainfall for the season is not sufficient for the spring crop and more rain is much needed.

November 1905.—Spring sowings were commenced in the Nepal Valleys as well as in the Terai and rice was harvested in the Terai, the outturn was good. Oranges began to ripen in Nepal.

December 1905.—Oranges were plucked in the valleys and hills. The first crop of potatoes was dug and the outturn was very good. Winter vegetables and peas commenced to be sown.

January 1906.—Fields were prepared for sowing the second crop of potatoes. Sugar-cane was cut in the hills, the harvest being a normal one.

The health of live stock generally appears to have been good during the period throughout the country. The winter has not yet been so cold as in previous years, there being very little frost this year. Prices of food grains were steady, and the markets were well stocked.

J. WILSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

ESTABLISHMENTS.

RULES RELATING TO THE CONFIRMATION OF MILITARY OFFICERS IN THE
BURMA COMMISSION.

Nos. 150-155, dated Calcutta, the 16th February 1906.

RESOLUTION.

Under the rules relating to the confirmation of military officers in Provincial Commissions which were published with the Home Department Resolutions noted on the margin, an officer of the Indian Army who is selected for the Burma Commission is appointed in the first instance on probation for a period of one year, independently of the regulations on the subject of his passing the departmental examinations, and he is not confirmed until this period of probation is over, even though he may pass those examinations entirely at an earlier date. Such an officer may be reverted to military duty if he fails to pass the departmental examination by the lower standard within eighteen months of his appointment to the Commission, and he must be so reverted at the end of three years if he has not passed that examination by the higher standard within that time. Upon passing by the higher standard the probationary officer is confirmed in civil employ.

2. It has been represented to the Government of India that it is not always possible to judge of an officer's fitness for civil duty within a period of twelve months from the date of his first appointment, and the suggestion has been made that the local Government should be at liberty to recommend, on the ground of unfitness for civil employ, the reversion of an officer to military duty at any time before he passes the departmental examinations and qualifies for confirmation.

3. The Governor General in Council approves of this suggestion but doubts whether it goes far enough in the direction of reserving to the local Government discretion to revert to military duty officers who are found unsuitable for civil employment. As the regulations stand there is nothing to prevent an officer who has served for the probationary period of one year from being confirmed in the Commission immediately after he passes the departmental examination by the higher standard. It is possible, however, that an officer with a faculty for acquiring languages who passes by the higher standard in a year or so may, for other reasons which do not then disclose themselves, be quite unfitted for responsible civil work. His Excellency in Council is therefore pleased to order that irrespective of the conditions relating to the passing of departmental examinations the term of probation may be extended, at the discretion of the local Government, to a period not exceeding three years.

4. The Government of India take this opportunity of bringing together the rules on the subject of the confirmation of officers of the Indian Army in a Provincial Commission. Military officers have now ceased to be recruited for the Punjab Commission: nor is it intended to recruit them in the future for service in Assam and Berar. The following rules, which are issued in supersession of the previous rules on the subject, will therefore apply to the Burma Commission only—

- (1) An officer of the Indian Army who may hereafter be appointed to the Burma Commission will be appointed in the first instance on probation for a period of one year, independently of the rules which follow on the subject of his passing the departmental examinations; nor will such officer be confirmed until this period of probation is over, even though he may pass the departmental examinations completely at an earlier date.
- (2) Irrespective of the conditions regarding the passing of departmental examinations the local Government will be at liberty, should it consider it necessary or desirable to do so, to extend the term of an officer's probation to a period not exceeding three years.
- (3) The officer will be required within eighteen months of his appointment to the Commission to pass the departmental examination by the lower standard.
- (4) Should he fail to pass the lower standard examination in eighteen months, he will be liable to be reverted at once to his regiment, but the local Government will, in exceptional cases and on public grounds, have power to retain him

in civil employ notwithstanding his failure to pass by the lower standard within the prescribed time.

- (5) An officer who passes the lower standard examination within eighteen months, or who, having failed to pass by this standard within this period, has been retained by the local Government in civil employ, will be required to pass by the higher standard within three years of the date of his joining the Commission. Upon his passing by this standard he may be confirmed, provided that the local Government in exercise of its powers under rule (2) does not consider it necessary further to test his capacity for civil employ. Upon confirmation his name will be struck off the strength of his regiment in accordance with paragraphs 292 (*iv*) and 324, Army Regulations, India, Volume II, with effect from the date of confirmation which should be reported to the Military Secretary to His Excellency the Commander-in-Chief in India.
- (6) The services of any officer who fails to pass by the higher standard within three years of the date of his joining the Commission, or who having passed the examination fails to establish to the satisfaction of the local Government his fitness for civil employ within three years of that date, will be immediately replaced by the local Government at the disposal of the Commander-in-Chief in India.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Governments of Burma, the Punjab and Eastern Bengal and Assam, and to the Chief Commissioner, Central Provinces, for information ; that a copy be forwarded to the Military Department for information and further necessary action ; and that the Resolution be published in the Supplement to the *Gazette of India*.

GOVERNMENT OF INDIA.

MILITARY DEPARTMENT.

MILITARY ADMINISTRATION IN INDIA.

Calcutta, the 26th February 1906.

NOTIFICATION.

The following papers are published for general information.

E. DEBRATH,
Secretary to the Government of India.

P A P E R S .

- I. Telegram, dated the 21st November 1905, from His Majesty's Secretary of State for India to His Excellency the Viceroy.
- II. Telegram, dated the 23rd January 1906, from His Excellency the Viceroy to His Majesty's Secretary of State for India
- III. Despatch No. 18-Military (Secret), dated the 9th February 1906, from His Majesty's Secretary of State for India to the Governor General of India in Council.
- IV. Rules of Business.

I

Telegram, dated the 21st November 1905.

From—His Majesty's Secretary of State for India,

To—His Excellency the Viceroy.

Army Administration. Please refer to my despatch No. 66 of 31st May last. I shall be glad if you will take at once into consideration the Rules of Business which I requested your predecessor to submit and let me know as soon as possible by telegraph what you propose.

II

Telegram, dated the 23rd January 1906.

From—His Excellency the Viceroy,

To—His Majesty's Secretary of State for India.

Army Administration. With reference to your telegram dated 21st November 1905, I submit the following proposals for the amendment of the present rules of business :—

Addition to Rule 1, Head (E).—(vi) Army Finance, and the (vii) Military Accounts Department.

Amended Head (F).—Army Department.—All business connected with (i) the Army, apart from the business allotted to Military Supply Department, (ii) Cantonments, (iii) Volunteers.

New Head (G).—Military Supply Department.—All business relating to (i) control of Army contracts, (ii) purchase of Remounts, Stores, and Ordnance, (iii) control and custody of Ordnance, Stores, and Remounts, except in so far as the Government of India may expressly assign these to the Army Department, (iv) the Management of Military Works, (v) the Clothing and Manufacturing Departments, (vi) the Indian Medical Service, (vii) Royal Indian Marine, (viii) (a section which corresponds to the Hydrographic Section of the Admiralty) Marine Surveys and dangers to navigation.

Amended Rule 2.—The business of the Departments shall, subject to provision of Rule 1, be allotted (with a view to first perusal of papers, and first steps in the matter of orders thereon) to the Governor General and the Members of Council, according to the directions of the Governor General.

Amendments and addition to Part II, relating to the disposal of business. Rule 3. The Secretary in the Department to which a subject appertains shall, as a rule, submit the case to the Member in charge, with a view to first perusal of papers and first steps in the matter of orders thereon. This rule is subject, however, to the provisions of Rules 3a, 5 (2), 6, and 6a.

Rule 3a.—Papers and cases in Army Department may be submitted to Member in charge by the head of a Division of Department to whom the Member has assigned a subject.

Rule 6a.—With a view to the discharge of duties imposed by Rules 5 (2), 6, 9, and 39, by the Secretary to the Government of India, Army Department, (i) he shall have a seat on the Advisory Council, (ii) all business to be brought before the Mobilization Committee and all decisions arrived at, shall be reported to him; and he shall be entitled to be present at all meetings of the Committee, (iii) all matters entered in a schedule approved by the Governor General shall be referred to him before orders are issued, (iv) he shall be furnished daily with a list of papers and cases submitted under Rule 3a to Member in charge, (v) at any stage of discussion on any subject that is being dealt with by the Army Department, he shall have the right of calling for the papers and of recording a note for the consideration of the Member in charge.

Rule 11, paragraph (2) (b).—Without previous reference to Financial Department, either the Department of Military Supply or the Army Department may issue orders giving sanction to expenditure, provided that it does not require the Secretary of State's sanction, that no outlay is involved in excess of

the total Budget provision sanctioned under any major head of account, and that any reappropriation involved between grants and minor heads of account shall not exceed a total of 3 lakhs in any one financial year.

The functions of the present Military Department are divided by the above proposals between the two new Departments. The new Army Department is also amalgamated with Army Headquarters under control of Commander-in-Chief as Member of the Viceroy's Council. The manner in which effect has been given to these principles, and in which the necessary constitutional control of the Army has been provided for, will be seen from the following detailed explanation.

In consequence of the changes under Rule 1, Head (E), the Financial Department will control the Military Accounts Department and Army Finance.

The existing arrangements are preserved in principle by Rule 1, Head (F) (i) by which any matters not explicitly assigned to the Supply Department will be dealt with by the Army Department. The Governor General in Council does not now administer any cantonments in Native States.

As regards Draft Rule 1, Head (G) (ii) and (iii), the question of mobilisation stores and remounts will be submitted for your consideration. In the meantime Sub-Rule (iii) has been given its present form to avoid the necessity of alterations on receipt of your orders.

The omission of the word "ordinary" in Rule 2 is necessary to allow of the Army Department's coming under the control of the Commander-in-Chief.

There is no alteration of existing regulations in Rule 3, but a reference to the new Rules 3a and 6a is inserted.

The first of these two lays down that proposals from those in charge of divisions of the Army Department shall be submitted immediately to the Member without the intervention of the Secretary. The amalgamation of Army Headquarters with the Army Department makes this necessary.

Draft Rule 6a.—All matters dealt with in the Army Department will in accordance with this rule be within the knowledge of the Secretary at all stages of their treatment; the continuation of the responsibility of the Commander-in-Chief to the Governor General in Council being thus maintained in accordance with constitutional usage. The Governor General will have at his disposal the most complete information on every question of military administration in which the ultimate control rests with the Government of India. As regards the more important questions, which would be considered by one or both of the Mobilisation and Advisory Committees, the Secretary will have full cognizance of them, as he is a member of the latter, and will attend the meetings of the first. Questions of less moment, but of sufficient importance to require the orders of the Government of India, will come before the Secretary for signature, and he will then be enabled to check any divergence from the practical and customary rules regulating the relations of Army administration and Government. In addition a list of all questions submitted to the Commander-in-Chief by heads of divisions will be compiled daily for the information of the Secretary. A further safeguard is furnished by the schedule of the cases which it might be necessary to submit for the consideration of the Governor General, which is referred to in your telegram of the 14th July last, Head 5. I am of opinion that it would be sufficient if these were submitted to the Secretary, who would refer to the Governor General cases, as he thought, of sufficient importance. Finally, the requirements of Rule 5 (2) will be met by the daily list of matters submitted to the Commander-in-Chief.

It appears to me that it is impossible to avoid the differentiation of the position of the Secretary in the Army Department from that of Secretaries in other Departments, but the safeguards provided ensure the maintenance for him a status inferior to theirs in no respect.

The last provision of Rule 6a, 5 has been made with the object of enabling Secretary to submit his views to Commander-in-Chief, and thus obviating necessity of a reference to Governor General should such views be acceptable.

The Financial Department have accepted Rule 11, paragraph (2) (b), as sufficient

The Member in charge of the Military Supply Department will be in precisely the same position as other Members of the Governor General's Council, and above procedure will apply only to Army Department. As at present advised, I consider Secretary should submit all cases to him.

On account of their objection to the intended amalgamation of the Government of India's Secretariat with the Army Headquarters Staff, Arundel, Ibbetson, Richards, and Hewett dissent from these proposals. They consider it essential that if Government's control of Army and its Head is to be a reality, the functions of Commander-in-Chief as Executive Head of Army should be kept quite distinct from his functions as a Member of Council having charge of Army Department and as such having power to pass orders in the name and authority of the Government of India, and moreover, that the agencies through which these two distinct functions are exercised, should be kept apart. The position proposed for the Secretary in the Army Department is also objected to by them on the ground that instead of all the business of Department in ordinary course passing through his hands from commencement, part of it will reach him only after orders have been prepared for signature, unless he especially calls for papers by exercise of an invidious discretion and that it thus differs from position of other Secretaries to Government. In absence of constitutional checks, which the existence of Local Governments provide in civil matters, they attach great importance to position of Army Secretary inasmuch as the chief security for effective control is his independence.

Lord Kitchener, Major-General Scott, and Baker, on the other hand, are of opinion that the suggestions of the other Members are not in accord with the Secretary of State's Despatch, and are not practical, and would cause a duplication of work which it was intended to abolish, and, moreover, would prove both costly and inefficient as a system of administration. They consider that the Rules as amended completely safeguard the independence of the Army Secretary and constitutional control over Army of Viceroy and Council, and hope they will meet with your approval.

The objections of the Members of Council above mentioned who dissent from my proposal as to amalgamation of Government of India Secretariat and Army Headquarters Staff are not acceptable to me as I consider such amalgamation inherent in the organization proposed by Secretary of State and necessary for its working. I cannot agree that it would have any injurious effect on the control of the Government of India over the Army and its Head, nor do I consider the comparison between the Army Department and Local Governments to be sound. The constitutional control of the Army by the Viceroy and Council is fully guaranteed by the independent position of the Army Secretary and his free access to Viceroy.

The views expressed by Lord Kitchener, Major-General Scott, and Baker are altogether concurred in by me, but I am anxious that the opinions of all my colleagues should be placed before you.

III

No. 18 Military (Secret), dated the 9th February 1906.

From—The Right Hon'ble JOHN MORLEY, O.M., Secretary of State for India,

To—His Excellency the Right Hon'ble the Governor General of India in Council.

I have considered in Council Your Excellency's communication of 23rd January, and the new Draft Rules of Business proposed by the Government of India, in conformity with the request made by my predecessor in his Despatch of 31st May 1905, and repeated in his telegram of 21st November.

2. The policy set out in that Despatch was designed to put an end to an alleged conflict between the Military Department of the Government of India

and the Commander-in-Chief as head of the Army; to do away with a troublesome and superfluous duplication of work and to concede to the Commander-in-Chief "greater freedom of working." With these objects in view, the Military Department was to be transformed into a branch of administration confined to contracts, ordnance, military stores, works, and the like. The Commander-in-Chief, on the other hand, was to be placed in charge of a newly designated Army Department, which would be invested with all the duties and powers of which the old Military Department had been stripped, save those comprehended under the name of Military Supply.

3. Changes such as these, it is manifest, could easily be made to raise the largest questions of military organization in India, such, for example, as were handled in the Commission of 1879, and on some other occasions. The scheme itself was inevitably open to many criticisms both of principle and detail, and to these it was abundantly subjected from various quarters. Is not the combination, it was asked, of the active duties of executive command with the duties of general military administration, a burden too heavy for any one man, however capable and energetic, to support? Can the accidents of personality be overlooked, and the difference between a Commander-in-Chief with special aptitude and predilection for training, discipline, manœuvres, mobilization, and all the conduct of actual war; and a Commander-in-Chief of another type who excels, and might perhaps have been expressly appointed because excelling, in the sphere of office administration and preparation? How is one system to fit each of these two types? What, again, is to happen in this important sphere of office administration and organization, if the Member in Charge of the Army Department, in his other capacity of Commander-in-Chief, is called away to duties in the field? Ought not the Member in Charge of Military Supply to be a civilian rather than a soldier? On the other hand, is it indispensable that purely military proposals by the Commander-in-Chief should always be formally submitted to criticism from other military experts, provided always that the Governor General in Council exercises actual and decisive control where any political or financial question, great or small, directly or indirectly arises? And might not that control be more impaired by a possible concert between two different military authorities under the old system—and I understand that such cases have not been unknown—than by a single military authority with unshared military responsibility, such as is contemplated under the new?

4. These are some of the points that have been brought into view by the Despatch of 31st May 1905, and in the proceedings that followed it. Your Excellency is familiar with them all, and it would be waste of time, under our present circumstances, for me to ask you to travel over ground so well trodden. Into the great fundamental questions of military systems His Majesty's Government do not consider that the occasion of this Despatch calls upon them to enter. They have to deal with an actual emergency, and to terminate a deadlock that, apart from a mischievous rise of temperature in discussion to a point considerably above normal, cannot become other than detrimental to effective administration of the Army itself.

When Your Excellency assumed the responsibilities of your great office last November, and I became Secretary of State a few weeks later, it was no *tabula rasa* that we found. A proposed scheme had been agreed upon in principle, with whatever reluctance and qualification, between the Secretary of State in Council and the Governor General in Council, with the concurrence of the Commander-in-Chief, last July. This compromise among conflicting opinions as to the best way of meeting an admitted desirableness of some improvement and readjustment in the position of the Military Department, His Majesty's Government do not think it wise to reopen, nor by a stroke of the pen to dismiss, at the risk of an indefinite prolongation of fruitless and injurious controversy. On a survey of the practical circumstances of the case, they are convinced that it would be altogether inexpedient to break off Your Excellency's labours in working out the plan of last summer, in accordance with the request addressed by my

predecessor to the Governor General of that day. Accordingly, the task that Your Excellency had undertaken proceeded. It is impossible not to recognize the care, fidelity, and diligence, with which those labours on a vexed and thorny question have been performed, and His Majesty's Government owe Your Excellency their thanks for the full and candid narrative in which you have taken pains to record what has passed.

5. The draft of the rules, in Your Excellency's language, "distributes the functions of the present Military Department between the proposed new Army Department and the Department of Military Supply"; and it "amalgamates the new Army Department with the Army Headquarters under the control of the Commander-in-Chief as Member of Council." You further explain in detail how effect is to be given to these objects, and what provision is to be made for the constitutional control of the Army. The cardinal object of maintaining the constitutional responsibility of the Commander-in-Chief to the Governor General in Council is to be secured by arranging "that the Secretary in the Army Department shall have full knowledge of the business of the Department at every stage, from initiation to completion," so as to "be in a position to keep the Governor General fully informed upon every detail of military administration over which the Government of India exercises ultimate control." Your Excellency adds, however, the extremely important limitation "that although under my proposals the position of Secretary in the Army Department will differ somewhat from that of Secretaries in other departments, I regard this as unavoidable, and, in view of many safeguards provided for him, I consider his position as unassailable, and in no way inferior to theirs."

The Financial Department accept as sufficient for their requirements the Draft Rules affecting them, and the other arrangements for securing complete financial control of military expenditure. The Member in charge of the Department of Military Supply is to be in exactly the same position as any other Member of the Governor General's Council.

6. On the consideration of these changes, Your Excellency's Council found itself divided. Four Members of the Council dissented from the proposed alterations, and Your Excellency summarizes with marked clearness and good faith the line of their objections. The four dissentient Members, as you state their view, "object to the intended amalgamation of the Army Headquarters Staff with the Government of India's Secretariat. They hold strongly that, if the control of Government over the Army and its head is to be a reality, it is essential to keep the functions of the Commander-in-Chief as Executive Head of the Army entirely distinct from his functions as Member of Council in charge of the Army Department, and entitled in that capacity to pass orders in the name and with the authority of the Government of India." They insist "that the agencies through which these two distinct classes of function are respectively exercised should be kept separate. They object also to the position assigned to the Secretary in the Army Department, which differs from that of all the other Secretaries to Government, inasmuch as, instead of the whole business of the Department passing through his hands from its inception and in ordinary course, much of it will reach him only after orders have been approved for signature, unless by the exercise of an invidious discretion he specially calls for papers. They attach special importance to a strong position for the Army Secretary, since, in the absence of the constitutional check provided in civil matters by the existence of local governments with free access to Viceroy, his independence is the main security for effective control."

*Sir A. Arundel.
Sir D. Ibbetson.
Mr. Richards.
Mr. Hewett.

Such is Your Excellency's report of the attitude of those Members of Council who were unable to assent to the proposed plan.

On the other hand, the Commander-in-Chief, General Scott, and Mr. Baker regard these suggestions of their colleagues as unpractical, as re-introducing that duplication of work of which complaint was made, and as likely to set up a system of administration at once inefficient and expensive. With those views Your Excellency agrees.

7. The proposed changes I have now examined with close attention in Council. The position of the Secretary of the Army Department is, as Your Excellency has always perceived, the pivot on which the discussion turns. Whether any rule that the wit of man could devise on paper would effectively secure the absolute independence of this representative of the Government of India in the Army Department, and guarantee with certainty that the Governor General could make sure of competent information and counsel enabling him to test proposals coming to him from the Army Department, may be doubtful. But I am advised here unanimously, and I consider, that if the supremacy of the civil government is to be real and effectual, and if the Governor-General in Council is to be in a position to fulfil the duty cast upon him by the Statute of 1833, of "superintending, directing, and controlling" military affairs in India, then it is necessary that the Secretary to the Government of India in the Army Department should have status, powers, duties, and responsibilities precisely similar to those of the Secretaries to the Government of India in the other Departments.

The rules as drafted and forwarded to me by Your Excellency would appear to effect a practical amalgamation between the new Army Department and the Headquarters Staff. The Commander-in-Chief becomes necessarily the head of both, and Rule 3 (a) provides that "papers and cases" may be submitted to him direct by various members of the Headquarters Staff. It might thus happen, I conceive, that a very important matter might be submitted to the Commander-in-Chief (as Member in Charge of the Army Department) by the Chief of the Staff, and might be placed before the Governor General in Council, although the Secretary of the Army Department would practically have had no opportunity of saying anything on the merits of the case. It would, as I understand, be quite impossible in any other Department—in the Financial Department, for instance,—that a matter should be thus dealt with by the Member in charge, without passing through the hands of the Secretary.

8. It appears to me that the members of the Army Headquarters Staff, while continuing to perform as heretofore their duties as members of that staff in all matters in the control of the Commander-in-Chief as such, should, on the other hand, be Departmental Officers of the Army Department, though without any of the powers of a Secretary. In their two separate and distinct capacities the members of the Headquarters Staff—that is to say, the Chief of the General Staff, should such an officer be created, the Quartermaster-General, the Adjutant-General, the Director of Ordnance, the Principal Medical Officer, and the Military Secretary,—will thus perform two separate and distinct functions: one, the function appertaining to their respective duties as Members of the Headquarters Staff pure and simple; the other, the function appertaining to their duties as officers of the Army Department. From this point of view it would be incorrect in fact, as it seems undesirable in principle, to speak of the amalgamation of the Army Headquarters Staff with the Government of India Secretariat. For some purposes, and for those only, the members of the Headquarters Staff will be brought within the Army Department.

It follows from this that no member of the Headquarters Staff, when engaged on the work of the Army Department, should have any power to submit direct to the Member in Charge of the Army Department (that is to say, to the Commander-in-Chief) any case in that department, or to issue in regard to such work in it any order on behalf of the Government of India.

9. Now, in so far as the proposed Rules do not keep the Army Department distinct from the Headquarters Staff, and in so far as they put the Secretary of that department on a lower pedestal than other secretaries, they would depart from the intention of the scheme set forth in my predecessor's Despatch of 31st May 1905, and accepted, though reluctantly, and subject to modifications, as I have already said, by Your Excellency's predecessor on 6th July 1905. To that extent I regret that I am unable to approve them.

Your Excellency's suggested Draft Rule 3 (a) should therefore, in my opinion, be omitted, and the reference to it in Draft Rule 3 should be struck

out. These suggested alterations will necessitate the striking out of paragraph (IV) of Draft Rule 6 (a) as unnecessary. I also suggest that after the words "Advisory Council" in Draft Rule 6 (a) the words "and of the Mobilisation Committee" should be added, and paragraph (II) of that rule should be omitted. In Draft Rule 11 (2) (b) after the words "Secretary of State" the words "in Council" should be added.

It further appears to me that the Secretary to the Government of India in the Military Supply Department should be a member of the Mobilisation Committee; that the Member in charge of the Military Supply Department should be a Member of the Defence Committee; and that the Governor-General should have power to appoint for the time being to the Mobilisation Committee, the Defence Committee, and the Advisory Council, or to any or either of them, such person as he may consider advisable. I assume that any Member of the Mobilisation Committee may note upon any case before that Committee, and such note, when made, will form part of the case for submission to the Governor-General in Council.

10. The object of these amendments is to make sure there that all matters, before they reach the Commander-in-Chief, as Member in charge of the Army Department, shall have passed through the hands of the Secretary.

I venture to hope that after considering the case as I have now put it, Your Excellency will regard this as a vital element in any scheme which is to be at once workable and constitutional.

In your other amendments I have only to express my concurrence.

11. With entire freedom from personal prepossession, anxious to avoid exaggerations, and strongly desiring to find myself in substantial accord with the Government of India, I have done my best to decide in Council the questions arising under the Draft Rules wholly upon their merits. I trust that the opinions expressed in this Despatch will tend to compose a controversy too long outstanding; and will safeguard the fundamental principle that the Government of India, in all its branches, aspects, and divisions, subject to the statutory powers of the Secretary of State, has been solemnly and deliberately confided by Parliament to the Governor-General in Council.

12. Lord Lansdowne, in his speech in the House of Lords on 1st August 1905, said of the plan devised by my predecessor for reorganizing military administration in India: "There is no finality in these things, and a moment may come when it will be necessary to reconsider some of the details." This remains true. Meanwhile, as everybody will agree, far less depends upon the letter of the written rule, important as the written rules undoubtedly must be, than upon a spirit of harmonious co-operation in working them. That spirit I confidently anticipate Your Excellency will have the high good fortune to secure.

IV

Rules of Business.

Rules as previously in force.	Rules as altered and added to by the telegram of January 23rd, 1906, to His Majesty's Secretary of State for India.	Rules as modified and approved under the despatch no. 18 (Secret), dated February 9th, 1906, from His Majesty's Secretary of State for India.
<p>PART I.—APPORTIONMENT OF BUSINESS.</p> <p>1. The business of the Government of India shall be classified and distributed among the different Departments under the following heads, and each of the subjects hereinafter indicated shall, for the purposes of these rules, be deemed to belong to the Department to which it is allotted in the annexed list :—</p> <p style="text-align: center;">* * *</p> <p>(E)—FINANCE DEPARTMENT.</p> <p>All business throughout British India and in all places in Native States administered by the Governor-General in Council connected with the administration of—</p> <p style="text-align: center;">* * *</p> <p>(F)—MILITARY DEPARTMENT.</p> <p>All business throughout British India and, save as otherwise provided in the case of cantonments, in all places in Native States administered by the Governor-General in Council, connected with the administration of—</p> <p>(i) the Army ;</p> <p>(ii) Cantonments, other than those in Native States administered by the Governor-General in Council ;</p> <p>(iii) Military Works ;</p> <p>(iv) the Volunteers ;</p> <p>(v) the Royal Indian Marine ; and</p> <p>(vi) Marine Surveys and dangers to navigation (corresponding with the hydrographic section of the Admiralty).</p>	<p>PART I.—APPORTIONMENT OF BUSINESS.</p> <p>1. The business of the Government of India shall be classified and distributed among the different Departments under the following heads, and each of the subjects hereinafter indicated shall, for the purposes of these rules, be deemed to belong to the Department to which it is allotted in the annexed list :—</p> <p style="text-align: center;">* * *</p> <p>(E)—FINANCE DEPARTMENT.</p> <p>All business throughout British India and in all places in Native States administered by the Governor-General in Council connected with the administration of—</p> <p style="text-align: center;">* * *</p> <p>(vi) Army Finance, and</p> <p>(vii) the Military Accounts Department.</p> <p>(F)—ARMY DEPARTMENT.</p> <p>All business connected with—</p> <p>(i) the Army, except such business as is allotted to the Department of Military Supply ;</p> <p>(ii) Cantonments ;</p> <p>(iii) the Volunteers.</p> <p>(G)—DEPARTMENT OF MILITARY SUPPLY.</p> <p>All business connected with—</p> <p>(i) the control of Army contracts ;</p> <p>(ii) the purchase of stores, ordnance and remounts ;</p> <p>(iii) the custody and control of all stores, ordnance and remounts not expressly assigned by the Government of India to the Army Department ;</p> <p>(iv) the management of military works ;</p> <p>(v) the clothing and manufacturing departments ;</p> <p>(vi) the Indian Medical Service ;</p> <p>(vii) the Royal Indian Marine ;</p> <p>(viii) Marine Surveys and dangers to navigation (corresponding with the hydrographic section of the Admiralty).</p>	<p>PART I.—APPORTIONMENT OF BUSINESS.</p> <p>1. The business of the Government of India shall be classified and distributed among the different Departments under the following heads, and each of the subjects hereinafter indicated shall, for the purposes of these rules, be deemed to belong to the Department to which it is allotted in the annexed list :—</p> <p style="text-align: center;">* * *</p> <p>(E)—FINANCE DEPARTMENT.</p> <p>All business throughout British India and in all places in Native States administered by the Governor-General in Council connected with the administration of—</p> <p style="text-align: center;">* * *</p> <p>(vi) Army Finance, and</p> <p>(vii) the Military Accounts Department.</p> <p>(F)—ARMY DEPARTMENT.</p> <p>All business connected with—</p> <p>(i) the army, except such business as is allotted to the Department of Military Supply ;</p> <p>(ii) Cantonments ;</p> <p>(iii) the Volunteers.</p> <p>(G)—DEPARTMENT OF MILITARY SUPPLY.</p> <p>All business connected with—</p> <p>(i) the control of Army contracts ;</p> <p>(ii) the purchase of stores, ordnance and remounts ;</p> <p>(iii) the custody and control of all stores, ordnance and remounts not expressly assigned by the Government of India to the Army Department ;</p> <p>(iv) the management of military works ;</p> <p>(v) the clothing and manufacturing departments ;</p> <p>(vi) the Indian Medical Service ;</p> <p>(vii) the Royal Indian Marine ;</p> <p>(viii) Marine Surveys and dangers to navigation (corresponding with the hydrographic section of the Admiralty).</p>

Rules of Business—contd.

Rules as previously in force.	Rules as altered and added to by the telegram of January 23rd, 1906, to His Majesty's Secretary of State for India.	Rules as modified and approved under the despatch No. 18 (Secret), dated February 9th, 1906, from His Majesty's Secretary of State for India.
<p>PART I.—APPORTIONMENT OF BUSINESS—<i>concl'd.</i></p> <p>2. Subject to the provisions of rule 1, the business of the different Departments shall, for the purposes of the first perusal of papers and of the initiation of orders thereon, be allotted to the Governor General and the Ordinary Members of Council in such manner as the Governor General may, from time to time, direct.</p> <p>PART II.—DISPOSAL OF BUSINESS.</p> <p>3. Save as otherwise provided by rule 5, sub-section (2), and rule 6, cases shall ordinarily be submitted by the Secretary in the Department to which the subject belongs, for the purposes of the first perusal of papers and of the initiation of orders thereon, to the Member in charge of that Department.</p> <p>5. (2) Any case which is of special importance and urgency may be submitted by the Secretary in the Department to which the subject belongs, direct to the Governor General who may either pass orders on it himself or send it for disposal to the Member in charge of that Department:</p> <p>Provided that, when a case is so submitted to the Governor General, the Member in charge shall be informed of the fact by the Secretary.</p> <p>6. Any case may, at any stage, if the Secretary in the Department to which the subject belongs thinks fit, be submitted by him to the Governor General.</p>	<p>PART I.—APPORTIONMENT OF BUSINESS—<i>concl'd.</i></p> <p>2. Subject to the provisions of rule 1, the business of the different Departments shall, for the purposes of the first perusal of papers and of the initiation of orders thereon, be allotted to the Governor General and the Members of Council in such manner as the Governor General may, from time to time, direct.</p> <p>PART II.—DISPOSAL OF BUSINESS.</p> <p>3. Save as otherwise provided by rules 3 A, 5 (2), 6, and 6 A, cases shall ordinarily be submitted by the Secretary in the Department to which the subject belongs, for the purposes of the first perusal of papers and of the initiation of the orders thereon, to the Member in charge of that Department.</p> <p>3A. In the Army Department papers and cases may be submitted to the Member in charge of the Department by the Head of the division of the Department to which the subject has been assigned by the Member.</p> <p>5. (2) Any case which is of special importance and urgency may be submitted by the Secretary in the Department to which the subject belongs, direct to the Governor General who may either pass orders on it himself or send it for disposal to the Member in charge of that Department:</p> <p>Provided that, when a case is so submitted to the Governor General, the Member in charge shall be informed of the fact by the Secretary.</p> <p>6. Any case may, at any stage, if the Secretary in the Department to which the subject belongs thinks fit, be submitted by him to the Governor General.</p>	<p>PART I.—APPORTIONMENT OF BUSINESS—<i>concl'd.</i></p> <p>2. Subject to the provisions of rule 1, the business of the different Departments shall, for the purposes of the first perusal of papers and of the initiation of orders thereon, be allotted to the Governor General and the Members of Council in such manner as the Governor General may, from time to time, direct.</p> <p>PART II.—DISPOSAL OF BUSINESS.</p> <p>3. MILITARY DEPARTMENT.

Fort William, the 26th February 1906.

MILITARY ADMINISTRATION IN INDIA.

No. 170.—The following papers are published for general information.

PAPERS.

- I. Telegram, dated the 21st November 1905, from His Majesty's Secretary of State for India, to His Excellency the Viceroy.
- II. Telegram, dated the 23rd January 1906, from His Excellency the Viceroy, to His Majesty's Secretary of State for India.

III: Despatch No. 18-Military (Secret), dated the 9th February 1906, from His Majesty's Secretary of State for India, to the Governor General of India in Council.

IV. Rules of Business.

I

Telegram, dated the 21st November 1905.

From—His Majesty's Secretary of State for India,

To—His Excellency the Viceroy.

Army Administration. Please refer to my despatch No. 66 of 31st May last. I shall be glad if you will take at once into consideration the Rules of Business which I requested your predecessor to submit and let me know as soon as possible by telegraph what you propose.

II

Telegram, dated the 23rd January 1906.

From—His Excellency the Viceroy,

To—His Majesty's Secretary of State for India.

Army Administration. With reference to your telegram, dated 21st November 1905, I submit the following proposals for the amendment of the present Rules of Business:—

Addition to Rule 1, Head (E).—(vi) Army finance, and the (vii) Military Accounts Department.

Amended Head (F).—Army Department.—All business connected with (i) the Army, apart from the business allotted to Military Supply Department, (ii) Cantonments, (iii) Volunteers

New Head (G).—Military Supply Department.—All business relating to (i) control of Army contracts, (ii) purchase of Remounts, Stores, and Ordnance, (iii) control and custody of Ordnance, Stores, and Remounts, except in so far as the Government of India may expressly assign these to the Army Department, (iv) the Management of Military Works, (v) the Clothing and Manufacturing Departments, (vi) the Indian Medical Service, (vii) Royal Indian Marine, (viii) (a section which corresponds to the Hydrographic Section of the Admiralty), Marine Surveys and dangers to navigation.

Amended Rule 2.—The business of the departments shall, subject to provision of Rule 1, be allotted (with a view to first perusal of papers, and first steps in the matter of orders thereon) to the Governor General and the Members of Council, according to the directions of the Governor General.

Amendments and addition to Part II, relating to the disposal of business. Rule 3, The Secretary in the department to which a subject appertains shall, as a rule, submit the case to the Member in charge, with a view to first perusal of papers and first steps in the matter of orders thereon. This rule is subject, however, to the provisions of Rules 3a, 5 (2) 6, and 6a.

Rule 3a.—Papers and cases in Army Department may be submitted to Member in charge by the head of a division of department to whom the Member has assigned a subject.

Rule 6a.—With a view to the discharge of duties imposed by Rules 5 (2), 6, 9, and 39, by the Secretary to the Government of India, Army Department, (i) he shall have a seat on the Advisory Council, (ii) all business to be brought before the Mobilization Committee and all decisions arrived at, shall be reported to him; and he shall be entitled to be present at all meetings of the Committee, (iii) all matters entered in a schedule approved by the Governor General shall be referred to him before orders are issued, (iv) he shall be furnished daily with a list of papers and cases submitted under Rule 3a to Member in charge, (v) at any stage of discussion on any subject that is being dealt with by the Army Department, he shall have the right of calling for the papers and of recording a note for the consideration of the Member in charge.

Rule 11, paragraph (2) (b).—Without previous reference to Financial Department, either the Department of Military Supply or the Army Department may issue orders giving sanction to expenditure, provided that it does not require the Secretary of State's sanction, that no outlay is involved in excess of the total budget provision sanctioned under any major head of account, and that any reappropriation involved between grants and minor heads of account shall not exceed a total of 3 lakhs in any one financial year.

The functions of the present Military Department are divided by the above proposals between the two new departments. The new Army Department is also amalgamated with Army Head-quarters under control of Commander-in-Chief as Member of the Viceroy's

Council. The manner in which effect has been given to these principles, and in which the necessary constitutional control of the Army has been provided for, will be seen from the following detailed explanation.

In consequence of the changes under Rule 1, Head (E), the Financial Department will control the Military Accounts Department and Army Finance.

The existing arrangements are preserved in principle by Rule 1, Head (F) (i), by which any matters not explicitly assigned to the Supply Department will be dealt with by the Army Department. The Governor General in Council does not now administer any cantonments in Native States.

As regards Draft Rule 1, Head (G) (ii) and (iii), the question of mobilisation stores and remounts will be submitted for your consideration. In the meantime Sub-Rule (iii) has been given its present form to avoid the necessity of alterations on receipt of your orders.

The omission of the word "ordinary" in Rule 2 is necessary to allow of the Army Department's coming under the control of the Commander-in-Chief.

There is no alteration of existing regulations in Rule 3, but a reference to the new Rules 3a and 6a is inserted.

The first of these two lays down that proposals from those in charge of divisions of the Army Department shall be submitted immediately to the Member without the intervention of the Secretary. The amalgamation of Army Head-quarters with the Army Department makes this necessary.

Draft Rule 6a.—All matters dealt with in the Army Department will in accordance with this rule be within the knowledge of the Secretary at all stages of their treatment; the continuation of the responsibility of the Commander-in-Chief to the Governor General in Council being thus maintained in accordance with constitutional usage. The Governor General will have at his disposal the most complete information on every question of military administration in which the ultimate control rests with the Government of India. As regards the more important questions, which would be considered by one or both of the Mobilisation and Advisory Committees, the Secretary will have full cognizance of them, as he is a member of the latter, and will attend the meetings of the first. Questions of less moment, but of sufficient importance to require the orders of the Government of India, will come before the Secretary for signature, and he will then be enabled to check any divergence from the practical and customary rules regulating the relations of Army administration and Government. In addition a list of all questions submitted to the Commander-in-Chief by heads of divisions will be compiled daily for the information of the Secretary. A further safeguard is furnished by the schedule of the cases which it might be necessary to submit for the consideration of the Governor General, which is referred to in your telegram of the 14th July last, Head 5. I am of opinion that it would be sufficient if these were submitted to the Secretary, who would refer to the Governor General cases, as he thought, of sufficient importance. Finally, the requirements of Rule 5 (2) will be met by the daily list of matters submitted to the Commander-in-Chief.

It appears to me that it is impossible to avoid the differentiation of the position of the Secretary in the Army Department from that of Secretaries in other Departments, but the safeguards provided ensure the maintenance for him a status inferior to theirs in no respect.

The last provision of Rule 6a, 5 has been made with the object of enabling Secretary to submit his views to Commander-in-Chief, and thus obviating necessity of a reference to Governor General should such views be acceptable.

The Financial Department have accepted Rule 11, paragraph (2) (b), as sufficient.

The Member in charge of the Military Supply Department will be in precisely the same position as other Members of the Governor General's Council, and above procedure will apply only to Army Department. As at present advised, I consider Secretary should submit all cases to him.

On account of their objection to the intended amalgamation of the Government of India's Secretariat with the Army Head-quarters Staff, Arundel, Ibbetson, Richards, and Hewett dissent from these proposals. They consider it essential that if Government's control of Army and its Head is to be a reality, the functions of Commander-in-Chief as Executive Head of Army should be kept quite distinct from his functions as a Member of Council having charge of Army Department and as such having power to pass orders in the name and authority of the Government of India, and moreover, that the agencies through which these two distinct functions are exercised, should be kept apart. The position proposed for the Secretary in the Army Department is also objected to by them on the ground that instead of all the business of department in ordinary course passing through his hands from commencement, part of it will reach him only after orders have been prepared for signature, unless he especially calls for papers by exercise of an invidious discretion and that it thus differs from position of other Secretaries to Government. In absence of constitutional checks, which the existence of Local Governments provide in civil matters, they attach great importance to position of Army Secretary inasmuch as the chief security for effective control is his independence.

Lord Kitchener, Major-General Scott, and Baker, on the other hand, are of opinion that the suggestions of the other Members are not in accord with the Secretary of State's despatch,

and are not practical, and would cause a duplication of work which it was intended to abolish, and moreover, would prove both costly and inefficient as a system of administration. They consider that the Rules as amended completely safeguard the independence of the Army Secretary and constitutional control over Army of Viceroy and Council, and hope they will meet with your approval.

The objections of the Members of Council above mentioned who dissent from my proposal as to amalgamation of Government of India Secretariat and Army Head-quarters Staff are not acceptable to me as I consider such amalgamation inherent in the organization proposed by Secretary of State and necessary for its working. I cannot agree that it would have any injurious effect on the control of the Government of India over the Army and its Head, nor do I consider the comparison between the Army Department and Local Governments to be sound. The constitutional control of the Army by the Viceroy and Council is fully guaranteed by the independent position of the Army Secretary and his free access to Viceroy.

The views expressed by Lord Kitchener, Major-General Scott, and Baker are altogether concurred in by me, but I am anxious that the opinions of all my colleagues should be placed before you.

III.

No. 18, Military (Secret), dated the 9th February 1906.

From—The Right Hon'ble JOHN MORLEY, O.M., Secretary of State for India,

To—His Excellency the Right Hon'ble the Governor General of India in Council.

I have considered in Council Your Excellency's communication of 23rd January, and the new draft rules of business proposed by the Government of India, in conformity with the request made by my predecessor in his despatch of 31st May 1905, and reported in his telegram of 21st November.

2. The policy set out in that despatch was designed to put an end to an alleged conflict between the Military Department of the Government of India and the Commander-in-Chief as head of the Army; to do away with a troublesome and superfluous duplication of work and to concede to the Commander-in-Chief "greater freedom of working." With these objects in view, the Military Department was to be transformed into a branch of administration confined to contracts, ordnance, military stores, works, and the like. The Commander-in-Chief, on the other hand, was to be placed in charge of a newly designated Army Department, which would be invested with all the duties and powers of which the old Military Department had been stripped, save those comprehended under the name of Military Supply.

3. Changes such as these, it is manifest, could easily be made to raise the largest questions of military organization in India, such, for example, as were handled in the Commission of 1879, and on some other occasions. The scheme itself was inevitably open to many criticisms both of principle and detail, and to these it was abundantly subjected from various quarters. Is not the combination, it was asked, of the active duties of executive command with the duties of general military administration, a burden too heavy for any one man, however capable and energetic, to support? Can the accidents of personality be overlooked, and the difference between a Commander-in-Chief with special aptitude and predilection for training, discipline, manœuvres, mobilization, and all the conduct of actual war; and a Commander-in-Chief of another type who excels, and might perhaps have been expressly appointed because excelling, in the sphere of office administration and preparation? How is one system to fit each of these two types? What, again, is to happen in this important sphere of office administration and organization, if the Member in charge of the Army Department, in his other capacity of Commander-in-Chief, is called away to duties in the field? Ought not the Member in charge of Military Supply to be a civilian rather than a soldier? On the other hand, is it indispensable that purely military proposals by the Commander-in-Chief should always be formally submitted to criticism from other military experts, provided always that the Governor General in Council exercises actual and decisive control where any political or financial question, great or small, directly or indirectly arises? And might not that control be more impaired by a possible concert between two different military authorities under the old system—and I understand that such cases have not been unknown—than by a single military authority with unshared military responsibility, such as is contemplated under the new?

4. These are some of the points that have been brought into view by the despatch of 31st May 1905, and in the proceedings that followed it. Your Excellency is familiar with them all, and it would be waste of time, under our present circumstances, for me to ask you to travel over ground so well trodden. Into the great fundamental questions of military systems His Majesty's Government do not consider that the occasion of this despatch calls upon them to enter. They have to deal with an actual emergency, and to terminate a deadlock that, apart from a mischievous rise of temperature in discussion to a point considerably above normal, cannot become other than detrimental to effective administration of the Army itself.

When Your Excellency assumed the responsibilities of your great office last November, and I became Secretary of State a few weeks later, it was no *tabula rasa* that we found. A proposed scheme had been agreed upon in principle, with whatever reluctance and qualification, between the Secretary of State in Council and the Governor General in Council, with the concurrence of the Commander-in-Chief, last July. This compromise among conflicting

opinions as to the best way of meeting an admitted desirableness of some improvement and readjustment in the position of the Military Department, His Majesty's Government do not think it wise to reopen, nor by a stroke of the pen to dismiss, at the risk of an indefinite prolongation of fruitless and injurious controversy. On a survey of the practical circumstances of the case, they are convinced that it would be altogether inexpedient to break off Your Excellency's labours in working out the plan of last summer, in accordance with the request addressed by my predecessor to the Governor General of that day. Accordingly, the task that Your Excellency had undertaken proceeded. It is impossible not to recognize the care, fidelity, and diligence, with which those labours on a vexed and thorny question have been performed, and His Majesty's Government owe Your Excellency their thanks for the full and candid narrative in which you have taken pains to record what has passed.

5. The draft of the rules, in Your Excellency's language, "distributes the functions of the present Military Department between the proposed new Army Department and the Department of Military Supply"; and it "amalgamates the new Army Department with the Army Head-quarters under the control of the Commander-in-Chief as Member of Council." You further explain in detail how effect is to be given to these objects, and what provision is to be made for the constitutional control of the Army. The cardinal object of maintaining the constitutional responsibility of the Commander-in-Chief to the Governor General in Council is to be secured by arranging "that the Secretary in the Army Department shall have full knowledge of the business of the department at every stage, from initiation to completion," so as to "be in a position to keep the Governor General fully informed upon every detail of military administration over which the Government of India exercises ultimate control." Your Excellency adds, however, the extremely important limitation "that although under my proposals the position of Secretary in the Army Department will differ somewhat from that of Secretaries in other departments, I regard this as unavoidable, and, in view of many safeguards provided for him, I consider his position as unassailable, and in no way inferior to theirs."

The Financial Department accept as sufficient for their requirements the draft rules affecting them, and the other arrangements for securing complete financial control of military expenditure. The Member in charge of the department of Military Supply is to be in exactly the same position as any other Member of the Governor General's Council.

6. On the consideration of these changes, Your Excellency's Council found itself divided. Four Members of the Council dissented from the proposed alterations, and Your Excellency summarizes with marked clearness and good faith the line of their objections. The four dissentient Members, as you state their view, "object to the intended amalgamation of the Army Head-quarters Staff with the Government of India's Secretariat. They hold strongly that, if the control of Government over the Army and its head is to be a reality, it is essential to keep the functions of the Commander-in-Chief as Executive Head of the Army entirely distinct from his functions as Member of Council in charge of the Army Department, and entitled in that capacity to pass orders in the name and with the authority of the Government of India." They insist "that the agencies through which these two distinct classes of function are respectively exercised should be kept separate. They object also to the position assigned to the Secretary in the Army Department, which differs from that of all the other Secretaries to Government, inasmuch as, instead of the whole business of the department passing through his hands from its inception and in ordinary course, much of it will reach him only after orders have been approved for signature, unless by the exercise of an invidious discretion he specially calls for papers. They attach special importance to a strong position for the Army Secretary, since, in the absence of the constitutional check provided in civil matters by the existence of local governments with free access to Viceroy, his independence is the main security for effective control."

*Sir A. Arundel.
Sir D. Ibbetson.
Mr. Richards.
Mr. Hewett.

Such is Your Excellency's report of the attitude of those Members of Council* who were unable to assent to the proposed plan.

On the other hand, the Commander-in-Chief, General Scott, and Mr. Baker regard these suggestions of their colleagues as unpractical, as re-introducing that duplication of work of which complaint was made, and as likely to set up a system of administration at once inefficient and expensive. With those views Your Excellency agrees.

7. The proposed changes I have now examined with close attention in Council. The position of the Secretary of the Army Department is, as Your Excellency has always perceived, the pivot on which the discussion turns. Whether any rule that the wit of man could devise on paper would effectively secure the absolute independence of this representative of the Government of India in the Army Department, and guarantee with certainty that the Governor General could make sure of competent information and counsel enabling him to test proposals coming to him from the Army Department, may be doubtful. But I am advised here unanimously, and I consider, that if the supremacy of the civil government is to be real and effectual, and if the Governor General in Council is to be in a position to fulfil the duty cast upon him by the Statute of 1833, of "superintending, directing, and controlling" military affairs in India, then it is necessary that the Secretary to the Government of India in the Army Department should have status, powers, duties, and responsibilities precisely similar to those of the Secretaries to the Government of India in the other departments.

The rules as drafted and forwarded to me by Your Excellency would appear to effect a practical amalgamation between the new Army Department and the Head-quarters Staff. The

Commander-in-Chief becomes necessarily the head of both, and Rule 3 (a) provides that "papers and cases" may be submitted to him direct by various members of the Head-quarters Staff. It might thus happen, I conceive, that a very important matter might be submitted to the Commander-in-Chief (as Member in charge of the Army Department) by the Chief of the Staff, and might be placed before the Governor General in Council, although the Secretary of the Army Department would practically have had no opportunity of saying anything on the merits of the case. It would, as I understand, be quite impossible in any other Department—in the Financial Department, for instance,—that a matter should be thus dealt with by the Member in charge, without passing through the hands of the Secretary.

8. It appears to me that the members of the Army Head-quarters Staff, while continuing to perform as heretofore their duties as members of that staff in all matters in the control of the Commander-in-Chief as such, should, on the other hand, be departmental officers of the Army Department, though without any of the powers of a Secretary. In their two separate and distinct capacities the members of the Head-quarters Staff—that is to say, the Chief of the General Staff, should such an officer be created, the Quartermaster-General, the Adjutant-General, the Director of Ordnance, the Principal Medical Officer, and the Military Secretary,—will thus perform two separate and distinct functions: one, the function appertaining to their respective duties as Members of the Head-quarters Staff pure and simple; the other, the function appertaining to their duties as officers of the Army Department. From this point of view it would be incorrect in fact, as it seems undesirable in principle, to speak of the amalgamation of the Army Head-quarters Staff with the Government of India Secretariat. For some purposes, and for those only, the members of the Head-quarters Staff will be brought within the Army Department.

It follows from this that no member of the Head-quarters Staff, when engaged on the work of the Army Department, should have any power to submit direct to the Member in charge of the Army Department (that is to say, to the Commander-in-Chief) any case in that department, or to issue in regard to such work in it any order on behalf of the Government of India.

9. Now, in so far as the proposed rules do not keep the Army Department distinct from the Head-quarters Staff, and in so far as they put the Secretary of that department on a lower pedestal than other Secretaries, they would depart from the intention of the scheme set forth in my predecessor's despatch of 31st May 1905, and accepted, though reluctantly, and subject to modifications, as I have already said, by Your Excellency's predecessor on 6th July 1905. To that extent I regret that I am unable to approve them.

Your Excellency's suggested draft rule 3 (a) should therefore, in my opinion, be omitted, and the reference to it in draft rule 3 should be struck out. These suggested alterations will necessitate the striking out of paragraph (IV) of draft rule 6 (a) as unnecessary. I also suggest that after the words "Advisory Council" in draft rule 6 (a) the words "and of the Mobilisation Committee" should be added, and paragraph (II) of that rule should be omitted. In draft rule 11 (2) (b) after the words "Secretary of State" the words "in Council" should be added.

It further appears to me that the Secretary to the Government of India in the Military Supply Department should be a member of the Mobilisation Committee; that the Member in charge of the Military Supply Department should be a Member of the Defence Committee; and that the Governor General should have power to appoint for the time being to the Mobilisation Committee, the Defence Committee, and the Advisory Council, or to any or either of them, such person as he may consider advisable. I assume that any Member of the Mobilisation Committee may note upon any case before that Committee, and such note, when made, will form part of the case for submission to the Governor General in Council.

10. The object of these amendments is to make sure there that all matters, before they reach the Commander-in-Chief, as Member in charge of the Army Department, shall have passed through the hands of the Secretary.

I venture to hope that after considering the case as I have now put it, Your Excellency will regard this as a vital element in any scheme which is to be at once workable and constitutional.

In your other amendments I have only to express my concurrence.

11. With entire freedom from personal prepossession, anxious to avoid exaggerations, and strongly desiring to find myself in substantial accord with the Government of India, I have done my best to decide in Council the questions arising under the draft rules wholly upon their merits. I trust that the opinions expressed in this despatch will tend to compose a controversy too long outstanding; and will safeguard the fundamental principle that the Government of India, in all its branches, aspects, and divisions, subject to the statutory powers of the Secretary of State, has been solemnly and deliberately confided by Parliament to the Governor General in Council.

12. Lord Lansdowne, in his speech in the House of Lords on 1st August 1905, said of the plan devised by my predecessor for reorganizing military administration in India: "There is no finality in these things, and a moment may come when it will be necessary to reconsider some of the details." This remains true. Meanwhile, as everybody will agree, far less depends upon the letter of the written rule, important as the written rule undoubtedly must be, than upon a spirit of harmonious co-operation in working them. That spirit I confidently anticipate Your Excellency will have the high good fortune to secure.

IV

Rules of Business.

Rules as previously in force.	Rules as altered and added to by the telegram of January 23rd, 1906, to His Majesty's Secretary of State for India.	Rules as modified and approved under the despatch no. 18 (Secret), dated February 9th, 1906, from His Majesty's Secretary of State for India.
<p>PART I.—APPORTIONMENT OF BUSINESS.</p> <p>1. The business of the Government of India shall be classified and distributed among the different departments under the following heads, and each of the subjects hereinafter indicated shall, for the purposes of these rules, be deemed to belong to the department to which it is allotted in the annexed list :—</p> <p style="text-align: center;">* * *</p> <p>(E)—FINANCE DEPARTMENT.</p> <p>All business throughout British India and in all places in Native States administered by the Governor-General in Council connected with the administration of—</p> <p style="text-align: center;">* * *</p> <p>(F)—MILITARY DEPARTMENT.</p> <p>All business throughout British India and, save as otherwise provided in the case of cantonments, in all places in Native States administered by the Governor-General in Council, connected with the administration of—</p> <p>(i) the Army ;</p> <p>(ii) Cantonments, other than those in Native States administered by the Governor-General in Council ;</p> <p>(iii) Military Works ;</p> <p>(iv) the Volunteers ;</p> <p>(v) the Royal Indian Marine ; and</p> <p>(vi) Marine Surveys and dangers to navigation (corresponding with the hydrographic section of the Admiralty).</p>	<p>PART I.—APPORTIONMENT OF BUSINESS.</p> <p>1. The business of the Government of India shall be classified and distributed among the different departments under the following heads, and each of the subjects hereinafter indicated shall, for the purposes of these rules, be deemed to belong to the department to which it is allotted in the annexed list :—</p> <p style="text-align: center;">* * *</p> <p>(E)—FINANCE DEPARTMENT.</p> <p>All business throughout British India and in all places in Native States administered by the Governor-General in Council connected with the administration of—</p> <p style="text-align: center;">* * *</p> <p>(vi) Army Finance, and</p> <p>(vii) the Military Accounts Department.</p> <p>(F)—ARMY DEPARTMENT.</p> <p>All business connected with—</p> <p>(i) the Army, except such business as is allotted to the Department of Military Supply ;</p> <p>(ii) Cantonments ;</p> <p>(iii) the Volunteers.</p> <p>(G)—DEPARTMENT OF MILITARY SUPPLY.</p> <p>All business connected with—</p> <p>(i) the control of Army contracts ;</p> <p>(ii) the purchase of stores, ordnance and remounts ;</p> <p>(iii) the custody and control of all stores, ordnance and remounts not expressly assigned by the Government of India to the Army Department ;</p> <p>(iv) the management of military works ;</p> <p>(v) the clothing and manufacturing departments ;</p> <p>(vi) the Indian Medical Service ;</p> <p>(vii) the Royal Indian Marine ;</p> <p>(viii) Marine Surveys and dangers to navigation (corresponding with the hydrographic section of the Admiralty).</p>	<p>PART I.—APPORTIONMENT OF BUSINESS.</p> <p>1. The business of the Government of India shall be classified and distributed among the different departments under the following heads, and each of the subjects hereinafter indicated shall, for the purposes of these rules, be deemed to belong to the department to which it is allotted in the annexed list :—</p> <p style="text-align: center;">* * *</p> <p>(E)—FINANCE DEPARTMENT.</p> <p>All business throughout British India and in all places in Native States administered by the Governor-General in Council connected with the administration of—</p> <p style="text-align: center;">* * *</p> <p>(vi) Army Finance, and</p> <p>(vii) the Military Accounts Department.</p> <p>(F)—ARMY DEPARTMENT.</p> <p>All business connected with—</p> <p>(i) the army, except such business as is allotted to the Department of Military Supply ;</p> <p>(ii) Cantonments ;</p> <p>(iii) the Volunteers.</p> <p>(G)—DEPARTMENT OF MILITARY SUPPLY.</p> <p>All business connected with—</p> <p>(i) the control of Army contracts ;</p> <p>(ii) the purchase of stores, ordnance and remounts ;</p> <p>(iii) the custody and control of all stores, ordnance and remounts not expressly assigned by the Government of India to the Army Department ;</p> <p>(iv) the management of military works ;</p> <p>(v) the clothing and manufacturing departments ;</p> <p>(vi) the Indian Medical Service ;</p> <p>(vii) the Royal Indian Marine ;</p> <p>(viii) Marine Surveys and dangers to navigation (corresponding with the hydrographic section of the Admiralty).</p>

Rules of Business—contd.

Rules as previously in force.	Rules as altered and added to by the telegram of January 23rd, 1906, to His Majesty's Secretary of State for India.	Rules as modified and approved under the despatch No 18 (Secret), dated February 9th, 1906, from His Majesty's Secretary of State for India.
<p>PART I.—APPORTIONMENT OF BUSINESS—<i>concl'd.</i></p> <p>2. Subject to the provisions of rule 1, the business of the different departments shall, for the purposes of the first perusal of papers and of the initiation of orders thereon, be allotted to the Governor General and the Ordinary Members of Council in such manner as the Governor General may, from time to time, direct.</p> <p>PART II.—DISPOSAL OF BUSINESS.</p> <p>3. Save as otherwise provided by rule 5, sub-section (2), and rule 6, cases shall ordinarily be submitted by the Secretary in the department to which the subject belongs, for the purposes of the first perusal of papers and of the initiation of orders thereon, to the Member in charge of that department.</p> <p>3A. In the Army Department papers and cases may be submitted to the Member in charge of the department by the head of the division of the department to which the subject has been assigned by the Member.</p> <p>5. (2) Any case which is of special importance and urgency may be submitted by the Secretary in the department to which the subject belongs, direct to the Governor General who may either pass orders on it himself or send it for disposal to the Member in charge of that department:</p> <p>Provided that, when a case is so submitted to the Governor General, the Member in charge shall be informed of the fact by the Secretary.</p> <p>6. Any case may, at any stage, if the Secretary in the department to which the subject belongs thinks fit, be submitted by him to the Governor General.</p>	<p>PART I.—APPORTIONMENT OF BUSINESS—<i>concl'd.</i></p> <p>2. Subject to the provisions of rule 1, the business of the different departments shall, for the purposes of the first perusal of papers and of the initiation of orders thereon, be allotted to the Governor General and the Members of Council in such manner as the Governor General may, from time to time, direct.</p> <p>PART II.—DISPOSAL OF BUSINESS.</p> <p>3. Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 17th November 1905.

From the 25th November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 18th November all Notifications and other matter intended for publication in the Gazette should be addressed to the Publisher, 8 Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India

No. 213 of 1898.—The Linotype Company, Limited. *Improvements in or relating to linotype machines.* (From 22 February 1906 to 22 February 1907.)

No. 281 of 1898.—Joseph Temperley and John Ridley Temperley. *Improvements in apparatus for raising, lowering and conveying or transporting loads, which improvements are partly applicable to friction-hoists and similar machines.* (From 22 February 1906 to 22 February 1907.)

No. 282 of 1898.—Joseph Temperley and John Ridley Temperley. *Improvements in apparatus for raising, lowering and conveying or transporting loads.* (From 22 February 1906 to 22 February 1907.)

No. 286 of 1898.—The Monotype Machine (Colonial Patents) Syndicate, Limited. *Improvements in type casting and composing machines.* (From 21 February 1906 to 21 February 1907.)

No. 287 of 1898.—The Monotype Machine (Colonial Patents) Syndicate, Limited. *Machine for preparing the perforated record strips of type forming machines.* (From 21 February 1906 to 21 February 1907.)

No. 344 of 1898.—Frank Swales. *An improved hook more especially intended for use as a curb hook.* (From 10 March 1906 to 10 March 1907.)

No. 474 of 1898.—David Carl Bendix. *Improvements in the manufacture of dry alizarine colours.* (From 2 March 1906 to 2 March 1907.)

No. 395 of 1899.—Rudolf Diesel. *Improvements in or relating to internal combustion engines.* (From 4 April 1906 to 4 April 1907.)

No. 269 of 1900.—James Price Cleghorn. *A new or improved process of preserving meat, fowl, fish and other substances containing albumen, and apparatus therefor.* (From 26 February 1906 to 26 February 1907.)

No. 235 of 1901.—A. P. Roy. *Tiled walling to be called "Roys tiled walling".* (From 15 April 1906 to 15 April 1907.)

No. 485 of 1901.—James Albert Chambers. *Improvements in the manufacture of glass articles and apparatus therefor.* (From 13 May 1906 to 13 May 1907.)

No. 104 of 1902.—Frans Johan Emil Johansson. *Improvements in steam-engines or the like.* (From 9 May 1906 to 9 May 1907.)

No. 876 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 48 of 1901.—George Napier Abernethie. *A fastener and tip combined for a billiard cue.* (Specification filed 19 November 1901.)

No. 90 of 1901.—The Clyde Chemical Company, Limited. *Improvements in the means employed for the extraction of oxide of chromium from its ores and its subsequent treatment to obtain soluble salts.* (Specification filed 22 November 1901.)

No. 140 of 1901.—Dr. Luigi Cerebotani. *An improved "auto-tele-meteorograph."* (Specification filed 23 November 1901.)

No. 153 of 1901.—Paul Eugene Domergue. *Improved dynamo especially applicable for driving fans.* (Specification filed 23 November 1901.)

No. 162 of 1901.—Andrew Gilmour McMeekin. *Improvements in tea firing machines.* (Specification filed 22 November 1901.)

No. 163 of 1901.—Thomas Aubrey Hunt. *A marker for keeping the score at the game of "bridge" to be called the "simplex bridge marker."* (Specification filed 22 November 1901.)

No. 240 of 1901.—Mahboob Alum. *Improvements in water lifts.* (Specification filed 22 November 1901.)

No. 320 of 1901.—John Thomas Mitchener and William Stanning Ross. *Improvements in chests for tea and other substances.* (Specification filed 22 November 1901.)

Fee in respect of the continuance of an exclusive privilege —

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

No. 9 of 1900.—Albert Cushing Crehore and George Owen Squier. *Improvements in submarine cable telegraphs.* (Specification filed 22 November 1900.)

No. 129 of 1900.—William Alfred Freret and Harry South Lewis. *Improvements in or relating to cryptographic systems and means for adapting same to practice in connection with type-writing machines.* (Specification filed 22nd November 1900.)

Fee in respect of the continuance of an exclusive privilege —

4 (b) After the expiration of the fourth year and before the expiration of the fifth year from the date of filing of the specification —

The sum of Rs 50 for each of the above inventions

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1883 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2, Bankshall Street, Calcutta.

H. G. GRAVES,
Secretary under the Inventions
and Designs Act, V of 1888.

CEMETERY NOTICE

Is hereby given under Rule XX of the rules for the care and use of cemeteries that the cross on the tomb of Dr. E. A. THOMPSON in the Government Cemetery at Narsinghpur is in need of repairs. Any heirs of the deceased who see this notice and who wish to repair the cross should communicate with the undersigned.

_____, Extra Asstt. Comsr.,

THE SCHEDULE—ACTS REPEALED.

An Act to consolidate and amend the law relating to Coinage and the Mint.

WHEREAS it is expedient to consolidate and amend the law relating to Coinage and the Mint; It is hereby enacted as follows :

Preliminary.

1. (1) This Act may be called the Indian Coinage Act, 1906; and
Short title and extent.

(2) It extends to the whole of British India, inclusive of British Baluchistan, the Sonthal Parganas and the Pargana of Spiti.

2. In this Act, unless there is anything repugnant in the subject or context,—
Definitions.

(a) "deface", with its grammatical variations and cognate expressions, includes clipping, filing, stamping, or such other alteration of the surface or shape of a coin as is really distinguishable from the effects of reasonable wear;

(b) "the Mint" includes the Mints now existing and any which may hereafter be established;

(c) "prescribed" includes prescribed by a rule made under this Act;

(d) "remedy" means variation from the standard weight and fineness; and

(e) "standard weight" means the weight prescribed for any coin.

3. The Governor General in Council may, by
Power to establish and abolish Mints. notification in the Gazette of India,—

(a) establish a Mint at any place at which a Mint does not for the time being exist; and

(b) abolish any Mint, whether now existing or hereafter established.

Silver Coinage.

4. The following silver coins only shall be
Silver coins. coined at the Mint for issue under the authority of the Governor General in Council, namely:—

(a) a rupee to be called the Government rupee;

(b) a half rupee, or eight-anna piece;

(c) a quarter-rupee, or four-anna piece; and

(d) an eighth of a rupee, or two-anna piece.

5. (1) The standard weight of the Government rupee shall be one hundred and eighty grains Troy, and its standard fineness shall be as follows, namely, eleven-twelfths, or one hundred and sixty-five grains of fine silver, and one-twelfth, or fifteen grains of alloy.

(2) The other silver coins shall be of proportionate weight and of the same fineness:

Provided that, in the making of silver coins, a remedy shall be allowed of an amount not exceeding the following, namely:—

	Remedy in weight.	Remedy in fineness.
Rupee . . . }	Five-thousandths.	Two-thousandths.
Half-rupee . . }		
Quarter-rupee . .	Seven-thousandths.	} Three-thousandths.
Eighth of a rupee .	Ten-thousandths.	

Nickel Coinage.

6. The following nickel coin only shall be
Nickel coin. coined at the Mint for issue under the authority of the Governor General in Council, namely: a one-anna piece.

7. The standard weight of the one-anna piece
Standard weight. shall be sixty grains Troy:

Provided that, in the making of nickel coin, a remedy shall be allowed of an amount not exceeding one-fortieth in weight.

Bronze Coinage.

8. The following bronze coins only shall be
Bronze coins. coined at the Mint for issue under the authority of the Governor General in Council, namely:—

(a) a pice, or quarter-anna;

(b) a half-pice, or one-eighth of an anna; and

(c) a pic, being one-third of a pice, or one-twelfth of an anna.

9. (1) The standard weight of the pice shall be
Standard weight and composition. seventy-five grains Troy, and the other bronze coins shall be of proportionate weight.

(2) Bronze coins shall be coined from a mixed metal consisting of copper, tin and zinc:

Provided that, in the making of bronze coins, a remedy shall be allowed of an amount not exceeding one-fortieth in weight.

Dimensions and Designs of Coins.

10. (1) The Governor General in Council may,
Power to direct coining, and to prescribe dimensions and designs. by notification in the Gazette of India,—

(a) direct the coining and issuing of all coins referred to in sections 4, 6 and 8, and

(b) determine the dimensions of, and designs for, such coins.

(2) Until the Governor General in Council otherwise determines by notification under subsection (1), the dimensions and designs of the silver coins coined under this Act shall be

XXIII
1870.

of those prescribed for the like silver coins under the Indian Coinage Act, 1870, at the time of the commencement of this Act.

Legal Tender.

11. Gold coins, whether coined at His Majesty's Gold coins a legal Royal Mint in England or tender. at any Mint established in pursuance of a Proclamation of His Majesty as a branch of His Majesty's Royal Mint, shall be a legal tender in payment or on account at the rate of fifteen rupees for one sovereign :

Provided that such coins have not been called in by any Proclamation made in pursuance of the Coinage Act, 1870 or have not lost weight so as to be of less weight than that for the time being prescribed for like coins by or under the said Statute as the least current weight.

12. (1) The rupee and half-rupee shall be a Silver coin when a legal tender in payment or on account :

Provided that the coin—

(a) has not lost in weight so as to be more than two per cent. below standard weight, and

(b) has not been defaced.

(2) The quarter-rupee and eighth of a rupee shall be a legal tender in payment or on account for any sum not exceeding one rupee :

Provided that the coin—

(a) has not lost in weight so as to be more than such percentage below standard weight as may be prescribed as the limit of reasonable wear, and

(b) has not been defaced.

13. The nickel coin specified in section 6 shall be a legal tender in payment or on account for any sum not exceeding one rupee at the rate of sixteen for a rupee.

14. The bronze coins specified in section 8 shall be a legal tender in payment or on account for any sum not exceeding one rupee at the following rates, respectively, namely :—

(a) the pice at the rate of sixty-four for a rupee, or four for an anna ;

(b) the half-pice at the rate of one hundred and twenty-eight for a rupee, or eight for an anna ; and

(c) the pie at the rate of one hundred and ninety-two for a rupee, or twelve for an anna.

15. (1) (a) All silver coin of the weight and standard specified in Acts No. XVII of 1835, No. XXI of 1838, No. XIII of 1862 and the Indian Coinage Act, 1870, and

(b) all copper coin of the weight specified in Acts No. XXI of 1835, No. XXII of 1844, No. XIII of 1862 and the Indian Coinage Act, 1870,

which may have been issued since the passing of those Acts respectively, and declared by those Acts respectively to be a legal tender, shall, notwithstanding anything contained in this Act or in any Act hereby repealed, but subject in the case of silver coin to the provisos contained in section 12 of this Act in so far as such provisos apply to like coins under this Act, continue to be a legal tender for the amounts for which the like silver and bronze coins are a legal tender under this Act respectively.

(2) All double pice copper coins which may have been issued under the Acts specified in sub-section (1), clause (b), shall continue to be a legal tender in payment or on account for any sum not exceeding one rupee at the rate of thirty-two for a rupee or two for an anna.

Diminished, Defaced and Counterfeit Silver Coin.

16. Where any silver coin which has been Power to certain coined and issued under persons to cut diminished or defaced silver coins. the authority of the Governor General in Council is tendered to any person authorised by the Governor General in Council or by the Local Government to act under this section, and such person has reason to believe that the coin—

(a) has been diminished in weight so as to be more than such percentage below standard weight as may be prescribed as the limit of reasonable wear, or

(b) has been defaced,

he shall, by himself or another, cut or break the coin.

17. A person cutting or breaking coin under Procedure in regard the provisions of clause (a) to coin cut under section 16 (1). of section 16 shall observe the following procedure, namely :—

(a) if the coin has been diminished in weight so as to be more than such percentage below standard weight as may be prescribed as the limit of reasonable wear, but not more than such further percentage as may be prescribed in this behalf, he shall either return the pieces to the person tendering the coin, or, if such person so requests shall receive and pay for the coin at such rates as may be prescribed in this behalf ; and

(b) if the coin has been diminished in weight so as to be more than such further percentage below standard weight so prescribed as aforesaid, he shall return the pieces to the person tendering the coin, who shall bear the loss caused by such cutting or breaking.

18. A person cutting or breaking coin under Procedure in regard the provisions of clause (b) of section 16 shall observe the following procedure, namely :—

33 & 34
Vict., c. 10.XIII of
1870.

(a) if such person has reason to believe that the coin has been fraudulently defaced, he shall return the pieces to the person tendering the coin, who shall bear the loss caused by such cutting or breaking;

(b) if such person has not reason to believe that the coin has been fraudulently defaced, he shall receive and pay for the coin at its nominal value.

Explanation.—For the purposes of this section a coin in which there is reason to believe has been defaced by sweating shall be deemed to have been fraudulently defaced.

19. If a coin is liable to be cut or broken

Procedure in regard to coin which is liable to be cut under both clause (a) and clause (b) of section 16.

under the provisions of both clause (a) and clause (b) of section 16, the person cutting or breaking the coin shall deal with it,—

(a) if he has reason to believe that the coin has been fraudulently defaced, under clause (a) of section 18, and

(b) in other cases, under section 17.

20. Where any silver coin purporting to be

Power to certain persons to cut counterfeit silver coin and procedure in regard to coin so cut.

coined or issued under the authority of the Governor General in Council is tendered to any person authorised by the Governor General in Council or by

the Local Government to act under this section, and such person has reason to believe that the coin is counterfeit, he shall by himself or another cut or break the coin, and may at his discretion either return the pieces to the tenderer, who shall bear the loss caused by such cutting or breaking, or receive and pay for the coin according to the value of the silver bullion contained in it.

Supplemental Provisions.

21. (1) The Governor General in Council may

Power to make rules.

make rules to carry out the purposes and objects of

this Act.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may—

(a) reduce the amount of remedy allowed by sections 5, 7 and 9 in the case of any coin;

(b) provide for the guidance of persons authorised to cut or break coin under sections 16 and 20;

(c) determine the percentage of diminution in weight below standard weight not being less in any case than two per cent. which shall be the limit of reasonable wear;

(d) prescribe the further percentage referred to in clause (a) of section 17, and the

rates at which payments shall be made in the case of coins falling under the same clause; and

(e) provide for the acceptance at prescribed rates by officers authorised in this behalf of the gold coins described in section 11 where such coins have lost weight so as to be of less weight than that for the time being prescribed for like coins by or under the Coinage Act, 1870, as the least current weight.

(3) Every such rule shall be published in the ^{33 & 34} Gazette of India, and on such publication shall ^{Vict. c. 11} have effect as if enacted in this Act.

22. No suit or other proceeding shall lie

Bar of suits.

against any person in respect of anything in good

faith done, or intended to be done, under or in pursuance of the provisions of this Act.

23. Nothing in this Act shall be deemed to

Saving of making of other coins at Mints.

prohibit or restrict the making at the Mint of coins intended for issue as money

by the Government of any territories beyond the limits of British India.

24. The Acts mentioned in the Schedule are

Repeals.

hereby repealed to the extent specified in the last

column thereof:

Provided that copper coins of such descriptions as at the time of the commencement of this Act may be coined at the Mint for issue under the authority of the Governor General in Council may, notwithstanding the repeal of the said Acts, continue to be so coined until such time as the Governor General in Council may by notification in the Gazette of India otherwise direct, and all copper coins so coined shall be a legal tender in payment or on account for the amounts for which bronze coins of corresponding nominal value are a legal tender under this Act.

THE SCHEDULE.

(See section 24.)

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Presidency Small Cause Courts Act, 1882, [was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 2nd March, 1906:—

WE, the undersigned, Members of the Select Committee to which the Bill further to amend the Presidency Small Cause Courts Act, 1882, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this

From Government, Bombay, No. 411, dated 26th January, 1906, and enclosures [Papers No. 1].
From High Court, Calcutta, No. 227, dated 24th January, 1906 [Paper No. 2].
From Government, Madras, No. 244-J., dated 9th February, 1906, and enclosures [Papers No. 3].
From Government, Bengal, No. 1300-J., dated 22nd February, 1906, and enclosures [Papers No. 4].

our Report, with the Bill as amended by us annexed thereto.

2. *Clause 1.*—We have suggested the omission of sub-clause (2), as we see no reason why the amendments of the Presidency Small Cause Courts Act, 1882, proposed by the Bill should not come into force at once.

3. *Clause 2.*—We have thought it best to make the amendment to section 28 of the Act follow the exact language used by Maclean, C. J., in his judgment in *Deno Nath Batabyal v. Adhor Chunder Sett* (4 C. W. N. 470), which case suggested the alteration of the law proposed in this clause.

4. *Clause 3.*—We have proposed three alterations in this clause. The first, which is designed to give effect to a recommendation of the Calcutta High Court, reserves a power to the Judge to exempt the applicant, in special cases where cause for such exemption is made out, from the operation of the general rule requiring security for claim and costs to be given. The second corrects a clerical error, to which attention has been drawn in the papers, by transferring the words "within a reasonable time to be prescribed in the order," so as to make them govern the date of giving security and not, as in the Bill as introduced, the date of payment of the claim and costs. The third amendment, the omission of sub-clause (b), is consequential on the first amendment above described.

5. *Clause 4.*—We have suggested the substitution of the word "opinion" for the word "decision" in the last paragraph of sub-section (1) of the new section 69 proposed

in this clause of the Bill as introduced. Otherwise we do not recommend that any alteration be made in that section.

6. The publication ordered by the Council has been made as follows :—

<i>In English.</i>					
<i>Gazette.</i>					<i>Date.</i>
Gazette of India	16th December, 1905.
Fort Saint George Gazette	2nd January, 1906.
Bombay Government Gazette	21st December, 1905.
Calcutta Gazette	20th December, 1905.

<i>In the Vernaculars.</i>					
<i>Province.</i>		<i>Language.</i>			<i>Date.</i>
Madras		Tamil	9th January, 1906.
		Telugu	
		Hindustani	
Bombay		Maráthi	18th January, 1906.
		Gujarati	
		Kanarese	
Bengal		Bengali	2nd January, 1906.
		Hindi	2nd January, 1906.
		Uriya	4th January, 1906.

7. We think that the Bill has not been so altered as to require re-publication, and we recommend that it be passed as now amended.

NO. II.

A Bill further to amend the Presidency Small Cause Courts Act, 1882.

WHEREAS it is expedient further to amend the XV of 1882. Presidency Small Cause Courts Act, 1882; It is hereby enacted as follows :—

1. This Act may be called the Presidency Small Cause Courts Act, 1906.
Short title.

2. In section 28 of the Presidency Small Cause Courts Act, 1882, after the words "such decree" the words "and for the purpose of deciding all questions arising in the execution of such decree" shall be inserted.
XV of 1882. Amendment of section 28, Act XV, 1882.

3. In section 39 of the said Act, for sub-section (2) the following shall be substituted, namely :—
Amendment of section 39 of same Act.

"(2) Unless the Judge is of opinion that the application has been made solely for the purpose of delay, the applicant shall be entitled to such order as of right :

Provided that the removal directed by such order shall, *unless the Judge otherwise directs*, be conditional upon the applicant giving security, to the approval of the Judge, within a reasonable time to be prescribed in the order, for the payment of the amount claimed and of the costs which may become payable by him to the plaintiff in respect of the said suit."

4. For section 69 of the said Act the following shall be substituted, namely :—
Substitution of new section for section 69 of same Act.

"69. (1) If two or more Judges of the Small Cause Court sit together in any suit, or in any proceeding under Chapter VII of this Act, and differ in their opinion as to any question of law or usage having the force of law or the construction of a document, which construction may affect the merits, or

if in any suit or any such proceeding, in which the amount or value of the subject-matter exceeds five hundred rupees, any such question arises upon which the Court entertains reasonable doubt, and either party so requires,

the Small Cause Court shall draw up a statement of the facts of the case and the point on which there is a difference of opinion or on which doubt is entertained, and refer such statement with its own opinion on the point for the *opinion* of the High Court; and the provisions of sections 519 to 621 of the Code of Civil Procedure shall, so far as they are applicable, be deemed to apply as if such reference had been made under section 617 of the said Code.
XIV of 1880.

(2) When the Small Cause Court refers any question for the opinion of the High Court as provided in sub-section (1), it shall either reserve judgment or give judgment contingent upon such opinion."

5. In No. 11 of the second schedule to the Indian Limitation Act, 1877, after the words "the Code of Civil Procedure," the following shall be inserted, namely :—"or section 28 of the Presidency Small Cause Courts Act, 1882."
Amendment of second schedule, Act XV, 1877. XV of 1877

J. M. MACPHERSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Indian Stamp Act, 1899, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 2nd March, 1906 :—

WE, the undersigned, Members of the Select Committee to which the Bill further

From Chief Commissioner, Ajmer-Merwara, No. 284-C., dated 3rd February, 1906 [Paper No. 1].

From High Court, Calcutta, No. 332, dated 7th February, 1906 [Paper No. 2].

From Government, Madras, No. 105, dated 5th February, 1906 [Paper No. 3].

From Chief Commissioner, Central Provinces, No. 1518, dated 6th February, 1906 [Paper No. 4].

From Government, Burma, No. 110—2-S.—10, dated 5th February, 1906 [Paper No. 5].

From Chief Commissioner, Coorg, No. 212, dated 6th February, 1906 [Paper No. 6].

From Government, Bengal, No. 262-S. R., dated 9th February, 1906, and enclosures [Papers No. 7].

From Chief Commissioner, North-West Frontier Province, No. 289-G., dated 6th February, 1906 [Paper No. 8].

From Agent, Governor General, Baluchistan, No. 452, dated 6th February, 1906 [Paper No. 9].

From Government, Eastern Bengal and Assam, No. 1613-J., dated 8th February, 1906 [Paper No. 10].

From Government, United Provinces, No. 81, dated 10th February, 1906, and enclosures [Papers No. 11].

From Government, Bengal, No. 284-S. R., dated 13th February, 1906, and enclosures [Papers No. 12].

From Government, Punjab, No. 10-C., dated 10th February, 1906 [Paper No. 13].

From Government, Bombay, No. 1463, dated 13th February, 1906 [Paper No. 14].

to amend the Indian Stamp Act, 1899, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. In accordance with a representation made by the Calcutta Fire Insurance Agents' Association, we have suggested certain amendments in clauses 5 and 7 (3) of the Bill, with the object of imposing the whole duty on an original policy of fire-insurance and not half on the policy and half on first premium receipt, as in the Bill as

introduced. We understand that it often happens that the original policy is simply handed over to the insured in exchange for cash and that no premium receipt is given for the first premium, in which case Government would lose half the duty on the original policy under the provisions of the Bill as introduced. We have therefore amended the new division B of Article No. 47 of Schedule I of the Act so as to increase the duties on original policies to eight annas and one rupee respectively and to reduce the duty on receipts for payment of premia on renewals to one-half of those amounts, while we have altered the new paragraph, which it is proposed to add to section 30 of the Act, so as to exempt persons from the obligation to give a stamped receipt for the first payment of premium.

3. It has been pointed out that the exemption from Article 24 in Schedule I of the Act proposed by clause 7 (1) of the Bill does not include register of burials. We have rectified this omission and have at the same time made the exemption cover entries in the old registers of "namings" and "dedications" which are referred to in section 35 of the Births, Deaths and Marriages Registration Act, 1886.

4. As we find that elsewhere in Schedule I of the Act, where the rate of duty is graduated with reference to the sum of money involved in a transaction, the rate is made to depend on whether that sum does or does not *exceed* a certain specified amount, we have for the sake of uniformity and to prevent misunderstanding suggested the substitution of the words "does not exceed," for the words "is less than" in the new division B (1) of Article 47 of that Schedule proposed by clause 7 of the Bill.
